FORWARD

The fall 1971 session of the 77th General Assembly is a landmark in the legislative history of the state. It was in October of 1971 that the legislature began recording and transcribing its deliberations under terms of the 1970 Constitution. This meant that floor proceedings of the General Assembly would be accessible in a permanent written form.

Unfortunately, although the debates have been recorded since the fall of 1971, these proceedings have not been published. They have, of course, been available to the public as the 1970 Constitution requires, but this has been through the legislative offices and the Index Department of the Office of Secretary of State on an individual request basis rather than through a formal and complete publication.

In an effort to make the proceedings of the legislature known to the citizens of the State of Illinois, the floor debates from the 84th General Assembly for the Senate were microfiched and sent to Illinois documents depository libraries and library systems through out the state.

The publication of this index to the Senate debates marks the final stage in the completion of this project. Similar indexes to House and Senate floor debates of other sessions are also available or are in preparation.

HOW TO USE THIS INDEX

In order to get maximum usage from this index, the researcher should keep the following guidelines in mind:

1. Coverage is limited to the 84th General Assembly Senate floor debates (January 9, 1985-January 13, 1987)

2. Reference is by bill number only. Citations to Public Acts, which are given in the Illinois Revised Statutes and in other sources, can be converted to bill numbers by consulting the appropriate Public Act as it appears in the session laws. Those who need access to debate by subject or sponsor should check the indexes in the Legislative Synopsis and Digest for reference to pertinent bill numbers.

3. The purpose of this index is to lead the user to discussion of legislative intent or reasons for particular activity, and not to serve as a record of all action. This means that there are no references to stages in the bills' progress which did not involve debate. Many bills, for example, are not amended on second reading. The Clerk indicates that there are no committee amendments, the presiding officer asks if there are floor amendments, is informed that there are none, and the bill is moved to third reading. There will be no citation to second reading debate on such bills since the floor proceedings contain no more information than the House journal or the Legislative Synopsis and Digest. Some bills were put on a consent calendar and passed in a single roll call without separate discussion; these will not have citations to debate on third reading (final passage stage). Nonconcurrences are often adopted without debate and will therefore not be indexed.

4. Within the limitations of the preceding guidelines, debate was index for all House and Senate bills where it existed. Coverage for resolutions was more selective, since most of them are ceremonial and perfunctory in nature. Debate was indexed for all House and Senate constitutional amendment resolutions and for resolutions which involved controversy (usually investigations of problems or expression of sentiments which were not universally accepted).

TO LOCATE DEBATE FOR A BILL

1. Consult the bill number index. If there are entries under the bill, they will refer to date and pages.

2. Turn to the "Conversion Table: Legislative Day to Date" in order to convert the date to legislative day number

Please note the microfiche are numbered sequentially in the upper right hand corner of the heading. The heading shows the number of the legislative day and date of the first legislative day on that particular fiche. There is no correlation between sequential fich numbers and the legislative day contained on the fiche.

On the days for which there are both regular and special sessions, debates for the special sessions appear after the regular session for that day.

GOVERNOR THOMPSON:

Mr. Secretary, call the roll.

ACTING SECRETARY: (MR. FERNANDES)

Barkhausen...Barkhausen, Berman, Bloom, Carroll, Chew, Coffey, Collins, D'Arco, Darrow, Davidson, Dawson, DeAngelis, Degnan, Demuzio, Donahue, Dudycz, Dunn, Etheredge, Fawell, Friedland, Geo-Karis, Hall, Holmberg, Hudson, Jones, Jeremiah Joyce, Jerome Joyce, Karpiel, Keats, Kelly, Kustra, Lechowicz, Lemke, Luft, Macdonald...Macdonald, Mahar, Maitland, Marovitz, Nedza, Netsch, Newhouse, O'Daniel, Philip, Poshard, Rigney, Rock, Rupp, Sangmeister, Savickas, Schaffer, Schuneman, Smith, Sommer, Topinka...Topinka, Vadalabene, Watson, Weaver, Welch, Zito.

GOVERNOR THOMPSON:

A quorum is present. The following Senators are appointed to the committee to meet Appellate Court Justice Thomas A.

McGloon and escort him to the Rostrum for the purpose of swearing in the Senators-elect. Senators Berman, Newhouse, Sangmeister, Geo-Karis, Bloom and Dudycz. Will the Escort Committee please go to the rear of the Chambers and escort Justice McGloon to the President's Rostrum. The Chair is privileged to welcome to the Rostrum for the purpose of swearing in the Senators-elect the Honorable Thomas A. McGloon, Justice of the Appellate Court of Illinois. Art McGloon and I have been colleagues, law enforcement, criminal justice and State Government for over a quarter of a century, and he gets younger every two years that we invite him to this Body for the purpose that he is about to complete today. He is and always has been throughout the course of his long and distinguished service to the people of the State of Illinois an extraordinary public servant. Mr. Justice, it's my pleasure to tell you if you haven't heard that our belief in your worth has recently been affirmed by this Body, and you may...congratulate your colleagues as well. Mr. Justice McGloon.

JUSTICE McGLOON:

Thank you, for the warm hand and thank you for the kind remarks, Governor. I'm reminded of the story of the cow that turned to the farmer on a cold day when the farmer was milking her and she said, thanks for the warm hand. To you new members, my congratulations, and to you old members, I'm delighted to see you all here. This is a great Body. I served in it for twelve years. I used to sit over where Phil Rock now sits. It was a hot seat then, I don't know whether it's cooled off now. Well, we'll come to the swearing in and if you would all rise and raise your right hand. Repeat after me your name, I, do solemnly swear that I will support the Constitution of the United States and the Constitution of the State of Illinois, and that I will faithfully discharge the duties of the Office of Illinois State Senator to the

best of my ability. My congratulations to you new members. I'm sure that your boxing gloves have been awarded to everybody, so put them on and come out swinging.

GOVERNOR THOMPSON:

...next order of business is the election of the President of the Senate of the 84th General Assembly. In the opinion of the Chair, thirty affirmative votes will be required to elect a President. Nominations are now open. Chair recognizes Senator Chew.

SENATOR CHEW:

His Excellency, it is nice that we have reduced you in rank and brought you in as the Presiding Officer of the Senate. I'm happy to see you again, and I'm equally as happy to see Justice McGloon and to be privileged to be sworn in by His Honor. As you recall, when I first took this seat here more than eighteen years ago, it was Art McGloon who was the leader on this side. He has comported himself with assiduity for the remaining of those years, and Art, those of us that have weathered the storm, we're proud that you are carrying on a tradition in which you taught us. Mr. President, the name I want to place in nomination as President of this august Body is a gentleman that I've had the distinct pleasure of working with through good times and bad. I recall one day he said to me, Senator, time is not an accident, it's a purpose, and if you stay with your programs long enough you'll win providing they're right. I have adhered to that advice and I have weathered the storm. I believe with Senator Newhouse that we are the oldest members in point of servers in the Illinois Senate. For...to me, that is a distinction which I'm truly proud that I've been able to serve the people of the State of Illinois for this period of time. And if God guides my health, my wish, I will be here to serve the remaining of these four years in which I've had the honor to be sworn in. My mother and father would be proud of this.

My family is proud of it. But I am proud that I have the privilege of placing in nomination a man that I truly believe has the ability and has shown the ability as a leader, who has warm compassion, who has time, who listens and who helps. I'm going to place in nomination one that I have disagreed with many times but I've agreed with more, and if we deal with the fifty percent rule, you have won, Phil. So to me, Mr. President, or Governor or Your Excellency, it is an absolute pleasure, an absolute pleasure and a privilege at this time to nominate for the Presidency of the Illinois State Senate the name of Philip Rock, the incumbent President.

GOVERNOR THOMPSON:

Thank you, Senator Chew. The Chair recognizes Senator Lechowicz.

SENATOR LECHOWICZ:

Thank you, Governor Thompson, Justice McGloon, Father Smith, Ladies and Gentlemen of the Senate. Ladies and Gentlemen, we are here today probably on a very important and a happy occassion. We're happy that the new members who have joined this Body are here and who are sworn in to a very responsible office, and I know that the campaign promises that were giving...given throughout the respective districts will be adhered to. But this Body does also have the privilege and pleasure of electing its leadership as long as it's been in existence, and I've been here a few years as well, maybe on the other side of the aisle, but as you know there's always been an interaction between one side and the other. And I was here when Russ Arrington was the President of this Body and it was the Democrats were led by at that time Senator McGloon. Whether you're in a majority or a minority the important part is the type of leadership that both parties represent, and anyone who has viewed the Senate and looked at the leadership starting with or before Arrington to the present day and looks at the Statute Books of Illinois and

looks at the type of legislation that has been passed by this Body, originated in this Chamber and with the support or non-support of the Executive Branch, no one can pinpoint a finger on Phil Rock of not doing a day's work every day whether it's in Session or out of Session. Phil Rock is a leader not only for the Democratic party, he is the President of this fine Body and a leader for all of us. Looking at his child abuse legislation that he introduced before...before it was a national problem, he recognized it as a problem in Illinois and was a leader in that aspect. When he looked about the importance of the economy of school districts in this State and he looked at a program in Massachusetts that worked somewhat to the benefit of Massachusetts, he had the vision and the fortitude of putting that program together and, yes, the absolute fortitude of promoting the passage of that bill. And many of us remember that the projections were...ten million, twenty million, fifty million, possibly. The final result a hundred and fifty million dollars which saved every school district in this State. That's leadership. That's leadership we can all be proud of. The important thing is fairness as well, and I don't believe there's a member in this Body or that's not even a member of the Body, a member of the public, a very important segment to all of us, that does not have the ear and the compassion than Phil Rock. I think it stems back to his attitude and his training whether it was at the seminary or Loyola University and his strong relationship he has with Sheila and his family and to each and every one of us. It's a credit not only for the Democratic party, it's a credit for this Senate that we have people that are capable and willing to serve in the capacity of Phil Rock. I strongly endorse his nomination and gladly second Senator Chew's nomination. Thank you.

GOVERNOR THOMPSON:

Thank you, Senator Lechowicz. The Chair recognizes Sena-

tor Jerome Joyce.

SENATOR JEROME JOYCE:

Governor Thompson, Father Smith, Judge McGloon, Ladies and Gentlemen. In Phil Rock's three terms as Senate President we have produced great results for the people of the State of Illinois. Senator Lechowicz mentioned the education, I might tell you about the environment. Phil Rock's foresight and leadership have helped Illinois lead the fight for safe disposal of nuclear and hazardous waste. In agriculture, though Phil Rock is an unabashed city kid, he is never...the less committed to improve Illinois'...agricultural climate. In the economy, it was Phil Rock who carved an initiative...an initial program for the economic redevelopment of Illinois when we were in the throes of a resession, that was Prairie State Two Thousand. It was a comprehensive program to help industry and provide jobs for the people of Illinois. I have had the pleasure of serving under the leadership of three Senate Presidents, all of whom were excellent leaders, but Phil Rock has shown clearly that he even though he represents and comes from a...suburban...that city interest has a legitimate concern for all of Illinois. I think the most important thing that Phil Rock brings as President of this Senate is his spirit of cooperation. He rises above partisan politics. Sometimes he's criticized for cooperating too much with you, Governor, but let me tell you, these are difficult times for Illinois and he has made this General Assembly work, and he has helped guide this State through difficult times; and for that reason, I am very proud to second the nomination of Philip J. Rock as President of this Senate. Thank you.

GOVERNOR THOMPSON:

Thank you, Senator. The Chair will recognize Senator Weaver for the purpose of placing a nomination and name.

SENATOR WEAVER:

Thank you, Your Excellency. Two years ago when I rose to nominate Pate Philip for the President of the Senate, I commented that his leadership during the previous two years had been second to none in all the years that I've served in this Chamber. Well the last two years were better than the first two. Pate Philip has been a true leader in every sense of the word. One of the tests of leadership is courage and I can recall back sixteen years ago when Governor Ogilvie called his party's leadership to the Executive Mansion to outline his plan for dealing with a bankrupt State Government. One of the...one of the propositions was the income tax, and the Republican leader of the Senate, the late Russ Arrington, turned to Governor Ogilvie and said, I'll have to tone down his comments a little, "Who is the dumb son-of-a-gun who's going to sponsor this?" And Governor Ogilvie looked him straight in the eye and he said, "You are." Well, the exchange between Senator Philip two years ago wasn't quite that blunt but the end result was the same. It was Senator Philip who had the courage to do that what had to be done then and he's been going through the same process in many other areas, but we have the opportunity to present for President of the Senate to represent all the people of Illinois effective leadership in the Senate in the next two years with the election of James "Pate" Philip as President of the Senate and I would so move.

GOVERNOR THOMPSON:

Thank you, Senator Weaver. The Chair will observe that the exchange between Senator Philip and myself two years ago was just about as blunt as the exchange between Governor Ogilvie and Senator Arrington. The Chair will recognize Senator DeAngelis.

SENATOR DeANGELIS:

Thank you, Governor, Father Smith, Judge McGloon, colleagues, friends of colleagues and my wife. I am

pleased...she's also a friend. I am pleased to second the nomination of James "Pate" Philip for President of the Senate, and realizing that my comments might in fact reflect a partisan attitude, I would like to add some additional comments beyond what Senator Weaver has said about Pate Philip. As a business person myself, I greatly admire the ability of Senator Philip to plunge into the legislative world while firmly implanting the other foot in the real world giving a balanced outlook in viewpoint on the legislative process. Many politicans talk about an open-door policy. If anybody has had to deal with Pate Philip they know that his door is truly open and it stays open, but not only is his door open, his mind is open because no one could ever accuse Pate Philip of not knowing where he is at. He tells it as it is and hangs with it. I represent a district which is quite different than Senator Philip's, and in spite of the fact that our districts are dissimilar, Pate Philip is not only willing to listen but eager to help. And I know that he is referred to quite frequently as the Duke of Dupage, but I also think he is a prince of a guy. I am pleased to second the nomination of James "Pate" Philip as President of the Senate.

GOVERNOR THOMPSON:

Thank you, Senator DeAngelis. The Chair will recognize Senator Macdonald.

SENATOR MACDONALD:

Governor Thompson, Justice McGloon, Father Smith. It is with great pleasure that I rise to second the nomination of Senator Philip for the Office of Senate President. Having served with Pate for a number of years and having been a longtime personal friend and the fact that we represent neighboring districts, I know from experience that he possesses all of the leadership qualities that will be demanded of the Presiding Officer in this Body during the next two years. Pate Philip has led our party here in the Senate for

the last four years, and if you'll stop to think about it for a minute, his leadership has been outstanding. He has stressed unity. He has brought people together. He is firm in his convictions and fair in his approach. In essence, he has the ability to lead. We might have our disagreements on this side of the aisle from time to time, but in the end, there is a cohesiveness that is testimony to Senator Philip's leadership. It is both with pleasure and enduring pride that I second the nomination of Senator James "Pate" Philip for President of this Senate.

GOVERNOR THOMPSON:

Thank you, Senator Macdonald. Any other nominations? The Chair will recognize Senator Nedza for the purpose of moving that nominations be closed.

SENATOR NEDZA:

Thank you, Your Excellency. Caught me unaware as I was star-gazing at our wonderful people up in the audience. I, at this time, would move that the nominations be closed.

GOVERNOR THOMPSON:

Heard the motion. Is there a second? Motion is seconded and all in favor say Aye. Opposed Nay. The motion carries. Nominations are closed. The Secretary will call the roll of the Senators. Each Senator should answer the roll by stating one of the names nominated or by voting Present. Mr. Secretary, call the roll.

The results of the roll call are as follows: Senator Rock, 30 votes; Senator Philip, 28 votes, 1 voting...Senate...1 voting Present. Senator Rock having received the necessary votes is hereby declared elected as President of the Senate of the 84th General Assembly. Members of the Senate, I'd like to take just a moment to express my congratulations and thanks to the members of the 83rd General Assembly and particularly to the members of the Senate whom I'm privileged to serve for a brief moment every two

Sen. Rock's Acceptance Speech

years. In my view, the 83rd General Assembly of the State of Illinois will go down in the history books of this State as one of the most...distinguished and productive General Assemblies that the State has ever had in any time in this State. By your actions you substantially moved this State forward in every area important to the people of Illinois; transportation, in revenue, education, agriculture, for seniors, for children, for the mentally ill, for the disabled. In every area in which you have been called upon to serve, you served and served well, and one of the reasons for that is the quality of your distinguished leadership. To President Rock and to Senator Philip, I offer my personal thanks for the quality in character of their leadership during the 83rd General Assembly, and it is my view that the only thing that could surpass the actions of the 83rd General Assembly are the quality and character of the leadership and members of the 84th, which is now in Session. Thank You.

(Justice McGloon administers Oath of Office to President Rock)

PRESIDENT:

Thank you. To Father John Smith and to Governor Jim Thompson, to my friend and mentor Art McGloon, to my wife and my mother who have joined me at the Podium, I say, thank you to all. I am truly grateful for the support again received from the members of this most worthy Body, and even more importantly, I wish to particularly thank those who were kind enough to...again place my name in nomination. But I'm at the same time truly humbled by the enormity of the task which lies before each of us. At this midpoint in the 1980's, frankly, new and difficult challenges face each of us as elected represenatives of the eleven and half million people of Illinois. Our performance, our effectiveness in addressing these challenges will chart the course that our State will take in the new decade and, indeed, in a new century.

We are challenged to make Illinois more competitive in a fast changing world economy and we are challenged to improve our State's business climate to attract new and expanding industries so that, and much more importantly, jobs will be created for the hundreds and thousands of our fellow citizens who today are ravaged by unemployment. And if Illinois is to get that very important and necessary competitive edge, our children and the youth of our State must have every educational advantage we can offer and every advantages that our resources will allow. I, too, Governor, am proud of the work of the 83rd General Assembly, proud that in the face of the most difficult of all fiscal conditions, we in the Illinois Senate acted responsibly and with compassion in the best interest of the people that we serve; and while the State's fiscal health is much improved, thanks, I might add, in large measure to the efforts of the people in this Chamber, we will continue to face the challenges of a changing economy in this great State. Our individual and collective effectiveness in the coming Session will help to determine the course for our State and for its people. And so it's a heavy responsibility, one wrought with many obstacles; and yet, we can and we must overcome the obstacles. In overcoming those obstacles with the knowledge that the people of our districts have provided each of us with a mission, a mission to succeed, to help them realize their hopes and their dreams for their families and their children. While this Chamber, I am proud to say, has shown fiscal restraint in approving balanced budgets for the past six years, we have at the same time continued to renew our commitment to those among us in Illinois who are the most vulnerable; the sick, the poor, the abused, the...neglected and the forgotten. And in the coming months we must review the conditions of those who look again to us for the necessities of life and for protection from oppression. We must never be content to rest on past accomplish-

ments, particularly when it affects the abused, the exploited and the neglected. As new menaces surface, as the human condition is affected by forces of society, we and we alone have the responsibility to respond, respond with compassion and understanding; and I suggest to you as we have done in the past, respond we will. I look forward to again facing those challenges...with each of you, Democrats and Republicans, and you won't find two better partisans than Senator Philip and myself. But we can work together to find honest and effective solutions, and with your continued support, your continued assistance and, yes, your continued prayers, we will, I suggest, live up to the faith and the responsibility entrusted to us. May God give us each the strength to respond in the best interest of those who we are today charged to represent, and I pledge to all of you my best effort. Thank you. I would ask a committee of six to escort the Governor from the Senate Chamber. He has again done his work well and we congratulate him for that. Senators Vadalabene, Netsch and D'Arco and Senators Davidson, Donahue and Friedland, if they would meet the Governor in front of the Podium and escort him from the Chamber. Governor Thompson, we thank you. The next order of business is the election of the Minority Leader. Senator Weaver.

SENATOR WEAVER:

Thank you, Mr. President. I would ask for unanimous consent to declare Senator James "Pate" Philip Senate Minority Leader of the 84th General Assembly.

PRESIDENT:

You've heard the request. Senator Weaver has requested unanimous consent on behalf of the Republican members of the Senate to declare Senator Pate Philip Minority Leader of the Senate for the 84th General Assembly. Is leave granted? Leave is granted. Congratulations, again, my friend, Senator Philip. Ladies and Gentlemen, please welcome one of our con-

stitutional officers, the Honorable Comptroller of the State of Illinois, Roland Burris. My pleasure now to give you the Minority Leader for the 84th General Assembly, the Honorable James " Pate" Philip. Pate.

SENATOR PHILIP:

Thank you, Senator Rock. My good friend Art McGloon who it's always happy to see every two years at least is a dear, dear good old friend, Reverend Smith, President Rock. You know, it's no great surprise to me that Senator Rock was elected President of the Senate, although around last November I was hoping that maybe we would have a twenty-nine, thirty or thirty-one, and quite frankly, we ended up with twenty-eight, but we have an increase of two. Senator Rock, I want to compliment you on your leadership. We have worked well in the past. I think we've cooperated well with the second floor. We've worked on a lot of problems for the State of Illinois, and I once again pledge my cooperation. I also want to welcome my new members. As you know, we have...brand new...we have two memebers who are completely brand new, have never been elected before. It's a great thrill for them. You know, if you've never run for the Senate or the House, you really don't know what it is going through a Primary and a November election. So I compliment my new members. I'm very glad to have them here and I want to thank my twenty-seven members for electing me once again as their leader. I take that as a great privilege to be your leader to represent you. I appreciate that and I assure you, I won't let you down. Thank you, very much.

PRESIDENT:

We have a...just for everybody, I...I know everybody has a number of places they would wish to be now that the business has been concluded. There are a number of receptions and we will try to handle this as expeditiously as possible. We have five or six organizing resolutions that are necessary

to organize the 84th General Assembly, all of which are without controversy. Then we will have an adjournment resolution calling for us to return on February...Tuesday, February the 5th, for the purpose of the Governor's State of the State Address and other business that we...we wish to transact. Senator Philip has informed me that again our procedure will be that immediately upon adjournment, which will be very shortly, we would request our respective members to join us in our respective offices. That means all the Republicans go to Pate's and all the Democrats come to mine for the purpose of allocating or choosing a desk and allocating offices. As you know, and I'm sure the press is aware, it will take ten or twelve working days to rewire the scoreboard and to hook up the proper telephone lines and move people as they wish to be moved. So we will do that I...apparently immediately thereafter. Senator Philip.

SENATOR PHILIP:

Thank you, Mr. President and Ladies and Gentlemen of the Senate. I...just remind my members that we have a cocktail party at the mansion, so I hope that you would all come over directly; and secondly, that if you're worrying about office space and seats on the Senate, please contact Roger Sweet. Don't come to my office.

Thank you, Mr. President and members of the Senate. We had a bit of a tragedy happen back in my district and that is the reason for this resolution. Therefore, Mr. President, at this time, I would move that we suspend the rules for the immediate consideration of Senate Resolution No. 7.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Fawell, for what purpose do you arise?

SENATOR FAWELL:

...at...at the appropriate time, I would like to move that Senator Etheredge and Senator Macdonald be placed as cosponsors on Senate Bill 8...hyphenated cosponsors.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Well, you've heard the request, is leave granted? Leave is granted. It's so ordered. Senator Rock. Senator Rock.

SENATOR ROCK

Thank you, Mr. President and Ladies and Gentlemen of the Senate. A week or so ago I had the opportunity to meet with Senator Philip and we discussed...in conjunction with the House Leadership, the tentative Senate deadline and the Senate schedule. I think every member has received a copy of the schedule. I would direct their attention to it if they have not already looked at it. We have attempted to schedule, at least on a tentative basis, through the end of June so that the members can have a chance to make some long-range plans. In addition, we have imposed on the days that we are in Session a committee schedule, and it is our hope that prior to the May 3rd deadline, which is the deadline for...if...assuming this rule is adopted, which would be the deadline for substantive bills to be reported from the Senate Committee, that each of the standing committees will because of the schedule in place be afforded the opportunity to meet at least four times. Now, obviously, additional meetings for those committees that require them can be scheduled, but at least every committee will have the opportunity to meet four times and deal with Senate bills. I have filed with the Secretary a motion in writing where I move to amend temporary Senate Rule 5 by deleting Rule 5C and substituting in lieu thereof the following, and if you'll take a look at the schedule, it is the front page of the schedule. It establishes the following schedule and timetable which shall be applicable to all bills, and it's April 12th for the last day to introduce Senate bills; May 3rd for the standing committees to report Senate bills out of committee; May 10th is the deadline for Senate appropriation bills; May 24th is the final day for 3rd reading and passage of Senate bills; June 14th...pull this from the record a minute, will you? It

doesn't look...

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right, take it out of the record. All right, Senator Rock.

SENATOR ROCK:

Yeah, I'm sorry, I...there's...there's a typographical error. We put this together, frankly, in kind of a hurry today to accommodate everyone. If you start right after May 24th, the next four Mays should be June. So it's June 14, June 21, June 25 and June 26. So the motion is correct, the June 14th will be the final day for Senate committees to report House bills; 21st of June is for the House appropriation bills and the 25th and 26th are the final days for 3rd reading and, hopefully, in the remaining four days, we can clear up the difficulty, if any, between the two Houses in Conference Committees and be prepared to adjourn on June the 30th. The motion further recites that in even numbered years all bills introduced shall be read a first time and referred to the Rules Committee. Mr. President and Ladies and Gentlemen, I am asking, by motion in writing, to amend temporary Senate Rule 5 to conform to this timetable and I would request a roll call.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right, Senator...Senator Rock has moved to suspend the rules for the immediate consideration of this motion of...those in favor signify by saying Aye. Opposed Nay. The Ayes have it. The rules are suspended. Senator Rock now moves to amend the adoption of the temporary rule...Senate Rule 5 by deleting Rule 5C and substituting the schedule that he's...that he has so mentioned. Those in favor will...will vote Aye. Those opposed will vote Nay. The voting is open. Well, we have to do it...we have to do an oral roll call. An oral roll call. Mr. Secretary, call the roll.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right,...Senator Jerome Joyce is recognized.

SENATOR JEROME JOYCE:

Thank you, Mr...Mr. President. I would like leave to hear this resolution at the present time.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right, Senator Joyce seeks leave to hear the...resolution...Senate Resolution No. 30. Is leave granted? Leave is granted. On the Order of Resolutions,

Senator Joyce.

SENATOR JEROME JOYCE:

Thank you, Senator. This resolution deals with the problem that is addressing the farm community at the present time and that is the farm credit crisis. We are asking in this resolution that...it being authorized that the Commodity Credit Corporation should advance part of a nonrecourse loan that farmers receive for ceiling grain to pay for the spring planting expense. This advance could be handled by local ASCS offices which are already in place and requiring no extra funding would be paid back at the rate of nine and an eighth interest which the Commodity Credit Corporation receives its money from the U. S. Treasury. The problem we are facing is one that needs immediate attention. Fifteen to twenty percent of the farmers in this State, as well as the midwest, may not be able to put in a spring crop this year because they are not able to get financing. We are seeing many, many forced sales around the country...farmland and machinery values are declining at a rate, some people say, is five percent a week. This would put a stop to that and save farmers probably about four percent interest, as currently they are borrowing money at thirteen to fourteen percent. This would be...be no cost to the...to anyone, the Federal Government or the State of Illinois, and it would provide some immediate relief for farmers. I would ask for immediate consideration of the proposed amendment...proposed resolution.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right, Senator Joyce has move the immediate consideration and adoption of Senate Resolution 30. Is there any discussion? Those in favor signify by saying Aye. Opposed Nay. The Ayes have it. The resolution is adopted. Senator Rock.

SENATOR ROCK:

All right, some...some of the members have inquired...it turns out it really won't be necessary for there to be a perfunctory Session of any kind tomorrow. The adjournment resolution is on its way from the House. We have only remaining before us today the introduction of bills and the adoption of the adjournment resolution and adjournment until February the 20th. So those who wish to get back to their district are certainly able to do so. I would only ask that the Democratic members please go to Room 400 for the purpose of office and seat selection finalization. I have announced and...that Senators Savickas, Chew and Demuzio will be the assistant leaders...Assistant Majority Leaders; Senators Luft and D'Arco will be the Majority Whips and Senator Sam Vadalabene will be the Caucus Chairman for the 84th General Assembly. Senator DeAngelis, for what purpose do you arise, sir?

SENATOR DeANGELIS:

Mr. President, Senator Philip would like for me to announce that Senators Weaver, Davidson and DeAngelis as Assistant Minority Leaders and Senator Schaffer as Caucus Chairman.

PRESIDENT:

Senator Geo-Karis, for what purpose do you arise?

SENATOR GEO-KARIS:

Mr. President, did I understand you correctly earlier to say that we will not be here tomorrow?

PRESIDENT:

That is correct.

SENATOR GEO-KARIS:

Thank you.

PRESIDENT:

Senator DeAngelis.

SENATOR DeANGELIS:

I would also like to announce Senator Geo-Karis as Caucus

Secretary. And I would also like the record to...to reflect that Senate Macdonald is not here because of the illness of her spouse and that Senator Dunn is not here because of illness, and for those of you who would like to know he was operated on this morning and he's doing real fine.

There will be a report from the Committee on Assignment of Bills so that the committees can in fact get to their work earlier enough, there is the adjournment resolution and there is the Resolutions Consent Calendar. We are awaiting, obviously, the Committee on Assignment of Bills, so the Senate will stand at ease. Yes, Senator Geo-Karis.

SENATOR GEO-KARIS:

PRESIDENT:

The gentleman asks leave to be shown as a hyphenated cosponsor of Senate Bill 101. Is leave granted? Leave is granted. It's so ordered. Senator Netsch, for what purpose do you arise?

SENATOR NETSCH:

Thank you. Mr. President, I have been requested to ask leave of the Senate for permission for the Joint Committee on Public Utilities Regulation to hold its long-scheduled hearings both today and tomorrow in Chicago. These hearings involve lots of witnesses and it would be extremely disruptive if they were undone. Technically they ought not to be holding hearings and meeting while the Senate is in Session, but I think if the Senate will agree, we should permit them to go ahead even though obviously those of us who are Senate members of the joint committee will not be present. So, in any event, my request is for leave of the Senate to permit the Joint Committee on Public Utilities Regulation to hold its already scheduled hearings today and tomorrow in Chicago.

PRESIDENT:

All right. The lady has asked leave to allow the Joint Committee on Public Utility Regulation to hold their long-scheduled meeting, and I can tell you that the schedule

conflicts only because the House and Senate was as yet undetermined as to when they were going to meet. I think the request is reasonable and she asks leave that they go ahead. Leave is granted without objection. Resolutions.

SENATOR WATSON:

Thank you, Mr. President. I'd like to be added as a hyphenated cosponsor...have leave to be...added as a hyphenated cosponsor to Senate Bill 87. I have checked with the sponsor Jerome Joyce on this.

PRESIDENT:

All right. Senator Watson seeks leave of the Body to be added as a hyphenated cosponsor of Senate Bill 87. Without objection, leave is granted. Senator Kelly, for what purpose do you arise?

SENATOR KELLY:

PRESIDENT:

Thank you, Mr. President. I'd like the record to indicate that Senator Bloom is not here because of illness in his family.

PRESIDENT:

The record will so indicate. Senator Savickas, for what purpose do you arise?

SENATOR SAVICKAS:

Mr. President, I rise for the purpose of referring...rereferring Senate Bill 96 from Finance, Credit Regulations to Insurance. It was a typographical error and it was put in the wrong committee.

PRESIDENT:

All right. The Senator has moved to rerefer Senate Bill 96 from the Committee on Finance to the Committee on Insurance. Is leave granted? Leave is granted. So ordered. Introduction of bills.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. With leave of the Body, we'll...we'll go to resolutions. Leave granted? Leave is granted. Resolutions, Mr. Secretary.

SECRETARY:

Senate Resolution 48 offered by Senators Berman, Maitland, Rock, Philip and all Senators.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Berman.

SENATOR BERMAN:

Thank you, Mr. President, Ladies and Gentlemen of the Senate. Senate Resolution 48, let me read it to you, it's a couple of short paragraphs.

(Senator Berman reads SR 48)

Mr. President, Ladies and Gentlemen of the Senate, the purpose of this resolution is to allow us to set an agenda so that we will have presented not just in the Education Committee but to the Senate as a whole some of the testimony and comments regarding the reports and positions of interested

persons throughout the State on this subject of education reform and education funding. And it is the intent of Senator Maitland, Senator Philip, Senator Rock and myself through this resolution that we set aside the...March 5th at noon for approximately an hour, an hour and a half, and at the beginning of the Sessions thereafter, depending upon the requests for testimony, an opportunity for us all to hear comments regarding these reports and recommendations and allow us all to have the time to ask questions and get answers so that when substantive bills do emerge from the substantive committees that we will all have some familiarity with this subject and that we all can respond to our constituents with greater knowledge and expertise in this critical area. So at the appropriate time, Mr. President, I would ask that the appropriate rules be suspended for immediate consideration and adoption of Senate Resolution 48.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Senator Berman moves that the rules be suspended for the immediate and adoption and consideration of Senate Resolution 48. Is there any discussion? Senator Maitland. Leave granted? Leave is granted. Further...now, any discussion? Senator...well, Senator Marovitz.

SENATOR MAROVITZ:

We all look alike, Vince.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Well, the board hasn't been changed. Senator Marovitz.

SENATOR MAROVITZ:

Senator Berman,...is the...the purpose of the hearing for the...the general discussion of school reform or...specific bills that have...that have been introduced? The entire school reform concept? Okay. So any...anybody who wants to have some input...on suggestions on school reform would be coming in?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Further discussion? Senator Maitland.

SENATOR MAITLAND:

Well, thank you, very much, Mr. President, Ladies and Gentlemen of the Senate. I rise in support of Senate Resolution 48. There are several very good initiatives around this spring. A lot of effort has been put forth by several groups to attempt to improve the quality of education in Illinois, and indeed this...this Session has been billed as the educational reform year. There's no way that everyone can know everything that's in all of the reports and we understand that, but this provides an excellent forum for everyone to get at least a superficial overview of all the reports and then the more detailed debate obviously will take place in the committee hearing; but I think it's an excellent idea, and I would urge all those on this side of the aisle to support Senate Resolution 48.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Further discussion? Senator Rock.

SENATOR ROCK:

Thank you, Mr. President, Ladies and Gentlemen of the Senate. I think the calling for a Committee of the Whole is an excellent idea; as you well know, next Tuesday at the Governor's request we will convene in joint Session for the purpose of hearing the Governor's recommendations. But given the amount of work that has been done by members in this Chamber, particularly on the Berman Commission, I think it's well in order that the Senate, again, as we have in the past years literally set the agenda for what's going to ultimatley happen. Senator Philip and I have discussed this at length, and we feel, frankly, that we ought to be in a position in the Senate to arrive at a consensus and to put a price tag on those consensus reforms and then send them to the House with the hope at least that they will reach the Governor's Desk. So I, too, rise in support of Senate Resolution 48 and look

forward to the hearing on March...March 5th.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Senator Berman has moved for the suspension of the rules and immediate adoption of Senate Joint Resolution 48. Those in favor signify by saying Aye. Opposed Nay. The Ayes have it. The rules are suspended. Senator Berman now moves for the adoption of Senate Joint...Senate Resolution 48. Those in favor signify by saying Aye. Opposed Nay. The Ayes have it. The resolution is adopted. All right. Mr. Secretary, have there been any objections filed to the Resolutions Consent Calendar?

SECRETARY:

No objections have been filed, Mr. President.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Rock moves to...the adoption of the Senate Resolutions Consent Calendar. Those in favor signify by saying Aye. Opposed...all right. I am told on the Senate Resolutions Consent Calendar there has been some additions, Senate Resolution 42, 43, 44, 46, 45 and Senate Joint Resolution 12. Strike 45. It's 42, 43, 44, 46, Senate Joint Resolution 12. Are there any objections to those additions to the Resolutions Consent Calendar? Senator Rock has moved the...the adoption of the Resolutions Consent Calendar. Those in favor signify by saying Aye. Opposed Nay. The Ayes have it. Resolutions Consent Calendar is adopted. Senator Rock.

SENATOR ROCK:

Thank you, Mr. President. If there's no further business, I would move pursuant to the adjournment resolution passed last week that the Senate stand adjourned until Wednesday, February 27th, at the hour of noon. Remember if you will please, that we will be convening in joint Session at twelve-thirty at the request of the Governor. So we will convene here on the 27th day of February at the the hour of noon.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Philip, for what purpose do you arise?

SENATOR PHILIP:

Thank you, Mr. President and Ladies and Gentlemen of the Senate, I'd like the record to indicate that Senator Ralph Dunn is convalescing from an operation and have the record indicate that, and also Senator Bloom is not here because of illness in his family.

PRESIDING OFFICER: (SENATOR DEMUZIO)

The record will so indicate. Senator Rock has moved that the Senate stand adjourned till Wednesday, February 27th, at the hour of...of noon. Those in favor signify by...Senator Dawson. Senator Dawson, what purpose do you arise?

SENATOR DAWSON:

That Senate Bill 62 has Senator Emil Jones and Prescott Bloom as hyphenated cosponsors.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Is leave granted? Leave is granted. Senator Rock has moved that the Senate stand adjourned till Wednesday, February 27th, the hour of noon.

PRESIDENT:

Resolutions.

SECRETARY:

Senate Resolution 57 offered by Senator Davidson and all Senators, and it's congratulatory.

Committee of the Whole S.R. 48

PRESIDENT:

Consent Calendar. If I can have your attention, WCIA - TV and WICS - TV have requested permission to film the proceedings. Is leave granted? Leave is granted. (Machine cut-off)...Lemke, for what purpose do you arise, sir?

SENATOR LEMKE:

Just to let the record show that last Thursday I was absent because of personal reasons involving my grandchild who is going in a special education program, and I ask to be excused.

PRESIDENT:

The record will so reflect. If I can have the attention of the membership, as I'm sure you're aware, we will shortly convene as a Committee of the Whole for the purpose of discussing education reform and funding, and immediately after that Committee of the Whole we will then reconvene in regular Session. Senator Berman has indicated that there will be ample time for everyone to ask whatever questions and discuss whatever they wish. So that...Senator Berman, if you are prepared...Senator Berman.

SENATOR BERMAN:

Thank you, Mr...thank you, Mr. President. I move the Senate do now resolve itself into a Committee of the Whole to consider the issues of education reform and education funding.

PRESIDENT:

All right. You've heard the motion as placed by Senator Berman that we resolve ourselves into a Committee of the Whole. If there's no discussion, that's pursuant to Senate Resolution 48, all in favor of Senator Berman's motion indicate by saying Aye. All opposed. The Ayes have it. The Senate is now convened as a Committee of the Whole and the Chair will yield to Senator Arthur Berman, the chairman of the Elementary and Secondary Education Committee.

MR. CHAIRMAN: (SENATOR BERMAN)

Thank you, Mr...thank you, Mr. President. The Committee of the Whole will come to order, please. Now, Ladies and Gentlemen of the Senate, today is the first of a series of meetings of the Senate as a Committee of the Whole pursuant to Senate Resolution 48 that was sponsored by Senate President Rock, Senate Minority Leader Philip, Education Committee Spokesman Maitland and myself. Today we are honored to have with us the new Superintendent of the Illinois State Board of Education, who I will introduce in a moment. Following Mr. Sanders' presentation, we will have time for questions and answers from the members of the Senate. Following today's Committee of the Whole, we will have another Committee of the Whole scheduled for March 19th, at which time we will hear from Miss Gail Lieberman, who was the coordinator of the Commission on the Improvement of Elementary and Secondary Education and from Dr. Michael Bakalis, Executive Director of the Illinois Project for School Reform. We anticipate having other Committees of the Whole on March 26th and April 10th. The witnesses on those respective dates to be announced as soon as they are confirmed. The purpose of today and the following Committee of the Whole Sessions is to allow all of the members of the Senate to hear from representatives of groups that have made studies and issued reports dealing with education reform and education funding. Because of the importance of these subjects, we have decided pursuant to the resolution that was adopted that it's important for all of the members of the Illinois Senate to have an opportunity for hearing and questioning on these critical issues, in addition to the normal procedures which we will follow as to the deliberations of the Committee on Elementary and Secondary Education, the Appropriations Committees and the Revenue Committees. This morning...morning to...we have with us, in addition to the new superintendent, I would like to acknowl-

edge the present...presence of Walter W. Naumer, Jr., who is the chairman of the Illinois State Board of Education. Walt, thank you for joining us. Ted Sanders was appointed Illinois State Superintendent of Education in January of this year. Previously, Mr. Sanders had served as superintendent of public instruction in Nevada since January of 1979. For eight years prior to that he had held several administrative positions, including the second ranking position in the New Mexico Department of Education. He has been a leader of the Council of Chief State School Officers, having recently completed a three-year term on their Board of Directors. Mr. Sanders chaired the council's committee on teacher education, preparation and accreditation, which committee recently issued the report staffing the nation's schools...a national emergency. Mr. Sanders began his career as a mathematics-physical education teacher and acting principal in Mountain Home, Idaho. Before joining the New Mexico Department he was also a teacher and a chair over the mathematics and science department for a Navaho Secondary School in Crownpoint, New Mexico, graduate teaching assistant in the West Texas State University mathematics department and teacher in mathematics department chair at Cleveland Jr. High School in Albuquerque, New Mexico. Mr. Sanders earned a Bachelor of Science degree in mathematics and education at Wayland University in Texas and a Master of Arts in teaching from Washington State University. He is nearing the completion of requirements for a doctoral degree in educational administration at the University of Nevada in Reno. We, in Illinois...ladies and gentlemen, we, in Illinois, are very fortunate to have a man of Ted Sanders' caliber here in our State; and on behalf of the Illinois Senate, Mr. Sanders, I welcome you to Illinois. Ladies and gentlemen, Ted Sanders.

SUPERINTENDENT SANDERS:

(Machine cutoff)...Rock, Chairman Berman, distinguished

members of the Senate, I am indeed pleased to be before you today on this important occasion. Although you regularly deal with the weighty matters which have great effect upon the daily lives of Illinois citizens, I submit that the topic with which we are concerned today is of supreme importance to the youth of today and to the future generations of Illinois adults. Your action today to meet as a Committee of the Whole signals to our State your intent to address the important concerns dealing with the improvement of our schools this year. This is indeed an exciting time for Illinois education. A strong and a...prosperous state is dependent upon having strong and effective schools. Having education first on the public agenda helps to generate the excitement and the motivation necessary to achieve significant educational reform. And the essence of that reform is the revitalization of the thousands of classrooms which make up the Illinois school system. I have with me today materials which will supplement our presentation to you. First of all, a summary of the State Board of Education studies and recommendations to address these important issues of reform; and secondly, a matrix which will compare for you the recommendations that have emanated not only from the board's studies but from those other studies that you will be hearing about as you address this important issue. I ask that you give them your careful attention. I won't spend a lot of time today with you on the board's detailed proposals; instead, I'd like to use the brief time that we have together to give you an impression of where we're coming from and why. There are five major educational improvement problems that we must address, at least as we see them. First of all, declining student achievement. Second, the quality of teaching and administration...third, the neglected one-fourth of our students who are at risk of failure in school and account for the major part of our decline in achievement. Fourth, the

gap between the needs of employers and the training we provide for students going directly into the work force from high school; and fifth, the inadequacy and lack of equity in the financial support of our schools. In addressing these problems we should first and foremost show a degree of humility in determining exactly what the State can do about them. We must resist the temptation to believe and therefore act upon the assumption that the State can be so detailed in its requirements and that in effect runs...that it in effect runs the day-by-day operation of our schools. The facts tell us that we should restrict our efforts to setting general conditions which require certain improvements at the school level without hampering local problem-solving ingenuity. We must remember that real improvements in education have in the past bubbled up from creative teachers, principals, superintendents and school boards who were spurred on by nothing more than the desire to do a good job. That doesn't mean, however, that such people do not look to the State for guidance and for the very necessary messages on what is important in education. You and others who serve here speak with the voice of the people. It is you who gives the impetus and the direction to education by telling us what, in your collective wisdom, represents that will of the people. Legislatures before you and down through history have done a good job of meeting their responsibility to lead our schools. Evidence abounds that Illinois schools have always been more than good, they've been top-notch. Now we face another challenge today, a challenge to be even better, and it calls for us to take a new look at what we as a State tell our local districts is important in the educational enterprise. Given that backdrop, let me first address the problem of student achievement and what, in our opinion, appears to be appropriate for State action in addressing that problem. Your predecessors and mine long ago decided that a convenient and

effective way to see that the right things were learned was to specify the right things to be taught. As time went on, these statements in the Statutes became more and more detailed. As a consequence, Illinois Statutes are filled with requirements that schools offer certain courses and that students be required to take them. Many such laws were written when fewer than half of our children went through high school and when many jobs required less than a high school diploma. They appear to have worked well under the conditions and seemed to satisfy a public need for understandable standards for our schools. As time went on, however, the convenience of the school system setting attracted a number of programs which were designed to solve pressing problems in the general society which, although they were real and intense, were remote from what most of us then and now regard as the essence of education. Since they were adopted as school responsibilities in an era when prescribing courses was the avenue used by the State, each got such a requirement in law, adding incrementally to the task of the schools, and through doing so further narrowed available choices for both schools and students. As a consequence, we now find the State in an awkward position of being an unwitting contributor to the conditions which allow for declining student achievement. Our leadership has helped to lead local boards and teachers to believe that the State's interest stops at the level of schools providing courses and students taking them. We have little or no interest expressed in our laws about what students have learned or what they're able to do as a consequence of their schooling. The time is upon us to change all that. As your commission under the leadership of Senator Berman has concluded, the State must begin to express clearly what it thinks is important for students...for schools to give their attention to, and it must also find out whether students are learning at least what the State expects

them to know. Such a step sounds simple, perhaps too simple, to yield important results; but both I and the State Board of Education, supported by major national studies, believe strongly that a move to define the State's interest in terms of knowledge rather than courses, skills, rather than hours behind the wheel, holds the greatest promise for unleashing the local creative energy necessary to solve the problem of student achievement in the foreseeable future. I might mention here that we also believe, and other major studies also agree, that such a move must be coupled with rigorous testing and public reporting of results to insure that the healthy stimulus of informed public opinion is always prodding our local schools to do their utmost for our children. The second problem mentioned earlier has to do with the quality of our teachers and administrators. Any efforts at reform that do not address the quality of our work force will simply miss the mark. How does the State set conditions to improve what is generally acknowledged to be an area of great concern? It goes without saying that if our teachers are not the best and their leaders are not outstanding educators, all other efforts at reform may well be in vain. The State Board of Education believes, as does every other group, nationally and in this State, that it is nothing short of absurd that our average teacher, with years of experience, earns no more than a twenty-one year old engineer. We are literally entrusting our children and our future to a group of people paid at a level comparable to unskilled labor. As a consequence, we draw too many of our teachers and future administrators from the lower ranks of high school and college graduates, and those who are truly exceptional often choose to leave the profession for more lucrative employment. We must change the status of teachers in our society. We must begin by making their salaries more competitive, their training more rigorous and their licensing more demanding. We must

continue in the future by assuring that they are supported by strong local evaluation systems and inservice training in keeping their skills up-to-date. It's indeed sobering to realize that just this year two hundred seventy-five teaching jobs in Illinois were not filled, first, because one-third of them had no applicants whatsoever and the remainder had no qualified applicants. This year, for the first time in recent history, two dozen of these jobs were in the important field of mathematics. Who is to lead teachers in providing superior service to our students? We've allowed the important instructional leadership role of the school principal to be eroded by paper work and housekeeping duties. We must today reassert our conviction that principals are primarily instructional leaders, and we must provide them with the training and support necessary to assure that they perform in this role. The State Board of Education has suggested and you have supported the creation of a principal's academy to help in accomplishing this task. We must continue and expand our efforts in this important area. Next, I would like to bring to your attention to what I call the "neglected" one-fourth of our students. Nearly one-half...near half a million Illinois students come from poor families. Nearly twenty-one percent of our students who enter ninth grade do not continue through four years of high school and graduate. That rate is even higher today for minority students. Nearly half of our black and Hispanic students do not complete high school. An unacceptably large group of our poor and minority students are chronic school failures, and in the last ten years the proportion of such students in our schools has increased by nearly one-third. This waste of human potential is reflected in every set of school achievement statistics reported in the general...to the general public. What isn't reported is the human tragedy and the squandering of financial resources that are embodied in their condition. These

and other children from all levels of society who fail in school can be helped to succeed. Research tells us that these "at risk" youngsters can be identified early in their lives, at...as early as three or four years of age, and special help for them can pay off in two ways; first of all, in success in school and...and...then in success in life. These studies show that early identification and intervention yields seven dollars saved for every one dollar invested in such programs. The State Board is sufficiently interested in these programs to be studying their viability for Illinois right now and right now is when we should act to provide the support so necessary for these children. To briefly recapitulate, before moving on to another matter, I believe the following steps should be taken immediately, and these are drawn from those studies in which the State Board of Education has been engaged over the last three years. First of all, the State should concentrate its requirements on what we want our children to learn rather than specifying course and time allocations. Each local school district should be required to establish learning objectives for its students which are consistent with learning statements prescribed in State law and develop appropriate testing and other assessment systems for determining the degree to which such objectives are being achieved. The State should require public reporting of test results in a manner which will satisfy the public that students are achieving what the State expects; and if they're not, that appropriate local school action has been taken to see that they do. Next, once the system we have just mentioned is in place, the State should repeal all references to its laws relative to course and time requirements. Next, the State should act immediately to repeal the requirement that schools provide, and that students take, behind-the-wheel driver education. This program should not be competing with school time in the areas of mathematics,

sciences and foreign language. Next, the State should, an interim measure, change the requirement in physical education so that the program is elective in grades eleven and twelve. Next, the State should alter the requirement in bilingual education so that such services are provided for all of our students in need, not those who just happen to appear in groups of twenty or more. Special education services should be provided for certain handicapped children from youth...from birth. The State should require students to remain in school, even part-time, until age eighteen or the completion of a high school program. The State should...redefine truancy, and chronic truancy relating both the definition and school attendance to academic performance. The emphasis should be on supportive services. The State should improve salaries of teachers in order to attract and to retain capable individuals in the profession. The State should provide scholarships emphasizing the need for retraining of our teachers. Institutions of higher education should improve the rigor of teacher preparation programs. The State should require personnel evaluation plans for each school districts, and the State should provide programs to assist principals and other supervisory personnel in developing effective evaluation skills. Education for employment of our youngsters who graduate from high school and go on to work is a continuing concern for the State Board of Education and all of us who recognize that one-third of our students make this choice to enter the...work force directly from high school. The State's vocational education delivery system is in need of an overhaul today. Many of our teachers have not worked on state-of-the-art industrial equipment for twenty years; students are learning on manual typewriters today in a word-processing age and some programs are being provided whether they address a labor market need or not. The board has called for drastic change in the manner in which programs

are planned and which will require more careful attention to labor market needs on...a regional basis; a systematic effort to enlist industry and business in the traning of teachers in modern industrial environments and a move toward insuring the modernization of equipment and facilities to bring them in line with the real world. Surely, such an effort will be worth it if it contributes not only to the healthy development of our young people but also to the economic well-being of our State. I urge you to give us your support as we implement these new measures. Last, we come to the question of funding. In all discussions of school reform, questions about funding are paramount. How much is needed, why is it needed, and who should pay for it? Education is a responsibility of the State. The State creates local boards and districts. The State provides for local taxing authority and mechanisms, and the State monitors and regulates the conduct of education. The Illinois Constitution stipulates that the State has primary responsibility for financing. But that's not the direction that Illinois has been headed for at least the last decade. The decline in the State's share from forty-eight percent in 1976 to the current thirty-nine percent means that more than two billion dollars has shifted from State revenue sources to those of local school districts. During the past several years we've been developing a procedure that is beginning to provide a basis for determining how much money should be made available for the education of our elementary and secondary education students. Indications are at this point that we are substantially below a spending level that would provide an adequate set of programs and services for all our students. Hundreds of school districts, by their own testimony, have had to respond to a shortage of funds by public...by program cutbacks, laying off teachers, and making decisions not to offer courses even though they know they are needed and would be beneficial to

their students. Many of our students do not have sufficient funds behind their education. Education per pupil in Illinois schools range from a low of sixteen hundred dollars this year to over nine thousand dollars at the high end. While some of this disparity is due to differences in district size, there is nonetheless a strong indicator here that for too many of our students there are simply not enough resources available. Should we do more? Other states do. Although Illinois is part of the national picture of shared state and local responsibility for education, it's far below the national average of about a fifty-one percent state share; in fact, given our size, Illinois' current share of less than forty percent undoubtedly pulls down the national average. Of all the funding formulas now being used for state aid, which include special education, transportation, vocational education and others, only the general State Aid Formula addresses in any real sense the question of equity. That is, are the districts with the greatest fiscal need getting the greatest fiscal help from the State? And even that formula has eroded in its equity capacity over the past several years because of shifts and reversals in formula conditions such as attendance, assessments, tax exemptions and tax revenue access. The range of equalized assessed valuations per pupil today is even greater than the range of operating expenditures. They start at a low of eighteen thousand dollars per pupil and range upwards to over 1.6 million dollars per pupil. While the State general aid formula takes much of this into account, the same is not true for categorical reimbursements in special education, vocational, gifted, bilingual and other areas. These circumstances suggest that the funding for education in Illinois is not generally adequate or equitable. I have made my Fiscal Year '86 recommendations to the State Board of Education and they will consider them for adoption as a part of their budget on March

14th. The question of "how much" is treated by first recommending that the State provide for a four percent inflationary increase over this year's combined estimated State and local expenditures, recognizing that the no-growth situation in local assessments creates a real barrier to increases in local operating revenues. This four percents...four percent yields approximately two hundred twenty-five million dollars to be applied as follows: two hundred million in the area of general aid and twenty-six million to mandated formula reimbursement programs to fully fund them as they're currently structured under law. Added to this, a request for fifty-three million dollars increase for other categoricals and special programs to provide full State support for full student participation in gifted, bilingual, vocational, adult, textbook and other programs. And finally, then, reform costs. Based on the board's comprehensive set of mandate and policy studies, our request calls for ninety-two million dollars in Fiscal Year '86 as the beginning of an investment in the State's commitment to reform in instructional programs, teacher salaries and staff development, pilot efforts in special education early childhood programs, and alternative programs for dropout-prone high school students. This total increase, which amounts to over three hundred seventy-two million dollars, meets the basic Statewide fiscal needs, provides support for growth in programs of long standing and begins the State's commitment to responsible, effective educational reform. The two hundred million dollars to be distributed through general State aid will be used in part to begin to restore a greater...degree of equity in State support among the differing types of districts, elementary, secondary and unit. We will be bringing to you recommendations for changes in the formula dealing with tax rates, weightings or other formula factors that will be directed at the equity problem. While the resource cost

model and formula developed through the board's finance study are not yet ready for implementation and will continue to be subjects of our study, they have served to document the depth of financial reform both in equity and adequacy, that this State must continue to address in the years to come. The State Board of Education is heartened by the other major education reports, including that from your own commission, which accomplished an enormous task in a short period of time. Taking...taken as a group, they are more noteworthy for their broad areas of agreement than for their differences. They give us and, I am sure, the people of Illinois confidence that agreement can be reached on what is needed in Illinois education and that change of a positive nature will indeed occur. Reasonable people, proceeding independently of one another, have arrived at markedly similar conclusions and now the political process will act, as it always has, in the best interest of all of our people. I know that you'll do the right thing. The State Board of Education and I stand ready to help you in the debate and the decisions that will follow. Thank you.

MR. CHAIRMAN: (SENATOR BERMAN)

Thank you, Mr. Sanders. Now, we will open up for questions to Mr. Sanders from the members of the Senate. Let me lead off so that we try to put some of this into prospective...you had said about a recommended increase of three hundred and seventy-two million dollars. Would you address how that figure compares to the three hundred and thirty million dollars that the Governor recommended last week?

SUPERINTENDENT SANDERS:

Yes, Mr. Chairman, our three hundred seventy-two million dollar request excludes the...the treatment of the sixty percent payout in teacher retirement; if you fund that at the level that the Governor is proposing, our total request would come to four hundred four million dollars to contrast

directly against the three hundred thirty million dollars. If you'd like, I can go into some specific differences in the general aid and the specific reform proposals also if you'd like.

MR. CHAIRMAN: (SENATOR BERMAN)

If...if you would for a moment.

SUPERINTENDENT SANDERS:

Yes. In...in general aid, the Governor is recommending a hundred twenty-five million new dollars; we're proposing two hundred million dollars, as I mentioned there. Secondly, we're proposing that the categorical programs that are mandated by the State be fully funded. As they currently exist in Statute, that would require an additional 14.8 million dollars in special education funds, 10.2 million dollars in transportation funds and eight hundred forty-seven thousand dollars in lunch and breakfast programs. The other categoricals which include programs and vocational education, textbooks, gifted, the truants alternative program and others, we're requesting an additional forty-seven and one-half million dollars; fourteen million of that would be added to our vocational programs, twelve million in textbooks, bringing the total to twenty-three million dollars. Those are the major items. Other special programs we're recommending be increased by 4.9 million dollars, and the reform costs that we discussed funded at roughly ninety-two million dollars; eighty million dollars of which would be to improve salaries. Here, we are consistent, Mr. Chairman, with your own commission report in recommending eighty million dollars this year as the beginning of a three-year commitment to raise salaries in the State to twenty thousand dollars. The Governor's proposal calls for ten million dollars to be used to raise salaries to fifteen thousand dollars this coming year, and with additional funds made available to develop and then implement performance pay plans and career ladders.

We're requesting two million dollars in staff development funds as the beginning of an effort to fully fund staff development programs aimed at up-grading the skills and knowledges of our teaching force. Three hundred fifty-nine thousand dollars in our request for scholarship funds; seventy percent of that would be used in our proposal to support teachers who are willing to cross-train in areas where we're experiencing shortages, and thirty percent to go to prospective teachers who are currently in teacher training programs. 5.4 million dollars of our request would go to funding the planning and implementation of our learning outcomes proposal that would be the beginning of a three-year investment that way, with an additional four hundred thousand dollars intended and targeted for the development of a State-wide assessment or testing program to develop those anchor items that would be embedded into the expected testing programs to be implemented locally so that we might have a fix not only on pupil performance in district reporting systems but at a State level...consistent with the State's expectations for learning; two million dollars to address a compulsory attendance initiative, the beginnings of a several year effort to address the problems of loss in our schools between grades nine and twelve that we referenced earlier, and a million dollars that would be spent in pilot special education programs for zero to three, and just over one million dollars, Mr. Chairman, that would be allocated to those districts that have already exercised the statutory incentives for reorganization and have now consolidated and are therefore now entitled to those funds.

MR. CHAIRMAN: (SENATOR BERMAN)

Thank you. Senator Holmberg.

SENATOR HOLMBERG:

Thank you, Mr. Chairman. Superintendent Sanders, I noticed that one of the ways in which your report differs

from the Governor is the level at which you are establishing the minimum salaries for teachers.

SUPERINTENDENT SANDERS:

Yes.

SENATOR HOLMBERG:

How do you view the Governor's proposal of fifteen thousand dollars and would this be acceptable?

SUPERINTENDENT SANDERS:

Well, I think the Governor's proposal is a step in the right direction. I believe that we should make the commitment to move though across the three-year period as your own commission and we are recommending to fully funding twenty thousand dollar minimum starting salary. When you look at statistics about our teaching force today and you find that a forty-one year old person in our classrooms making just over twenty-four thousand dollars is the average teacher, that salary is roughly what a beginning engineer makes. We're not competitive. Fifteen thousand dollars will move us in that direction; twenty thousand dollars will do much more.

MR. CHAIRMAN: (SENATOR BERMAN)

Senator Newhouse.

SENATOR NEWHOUSE:

Thank you, Mr. Chairman, and let me first say, welcome, Director.

SUPERINTENDENT SANDERS:

Thank you.

SENATOR NEWHOUSE:

One comment and one question. The comment is that among the five major subject matters that you chose, although you mentioned dropout in context of your speech, there wasn't very much emphasis placed upon that and I'm...I'm concerned about that. The second...the question I'd like to ask is this and it relates to priorities. You just discussed the...the fact, with which I agree, that teachers' salaries

do need to be raised. I wonder if you have some concerns about the priorities with which the dollars that are presently available are expended; for example, in some schools, it is my understanding, that the janitor makes more than the teacher, which seems to say to the children that...it sends a message out which I think is absolutely devastating to the youngsters in those schools. I understand also that most of the tradesmen make more than the teachers. Now, in the lawyers' union we say, you spent x-number of dollars for your college education and you have to recoup it, and you lost wages for that period and you have to recoup it, and you spent x-number of dollars for tuition in...in law school, you have to recoup that. You spent...you lost x-number of wages at that...for that seven-year period, you have to recoup that. That seems to me to be logical. So, if you're saying...if we say that we want teachers with masters degrees, for example, in competition with people who may have the equivalent of a high school education, and I'm not knocking that, they're honorable...it's honorable employment, it seems to me that a question ought to be raised as to how we set our priorities with regard to what happens in our educational system. If the emphasis seems to be placed on the maintenance of structures rather than instruction of children, it seems to me that's...that's absolutely...a...a...a diversion of priorities that we ought to address all at once. Do you agree with that position and are you willing to take some steps in that direction?

SUPERINTENDENT SANDERS:

I...I basically agree with the position as I understand it, Senator. I believe that we...our task must not be to just maintain for maintenance sake, that we must...but we must maintain quality programs that currently exist, but we must foster from the State level the kinds of conditions that allow each school to become an inquiring institution, con-

tinuously improving itself and the services, educational and otherwise, that it delivers to its students. That means that there are some things that we can do, as we've talked about, instructionally that deal with some of the...that fosters the answer to some of the problems that face our schools. It means, likewise, that specifically it's time for us to make the commitment at a State level to improve the compensation levels of our teachers. While we may not be able to tamper greatly with the priorities that may be established or have been established in the past relative to the compensation levels within classes of employees in school districts; certainly, by this proposal, our proposal, our committed effort to address the salary question at a State level, we not only signal that we value teaching as a society, that we're willing to better compensate teachers, we also begin to deal with the long-term problems that we're going to face in the nineties and beyond with the quality of work force that will be in our schools then.

SENATOR NEWHOUSE:

Thank you, very much. I wonder if you would have some of your staff people prepare for my office some kind of table that will give me some idea concretely of what those salary differentials are...

SUPERINTENDENT SANDERS:

Yes.

SENATOR NEWHOUSE:

...between those who maintain and those who teach and that kind of thing.

SUPERINTENDENT SANDERS:

Yes. I'd be happy to, Senator.

SENATOR NEWHOUSE:

Thank you, very much. Thank you, Mr. Chairman.

MR. CHAIRMAN: (SENATOR BERMAN)

Senator Netsch.

SENATOR NETSCH:

Thank you, Mr. Chairman. I just wanted to be sure that I am clear about the State Board and your proposals with respect to the way in which the State's funding is going to be distributed, at least, as they stand at the current time. Now, as I understand it, you will be making some recommendations with respect to some shifting within the basic formula; that is, the...the weighting or perhaps the tax rates or whatever, and that will be forthcoming at some point soon, I gather. Is that correct, first?

SUPERINTENDENT SANDERS:

That is correct, Senator. Yes.

SENATOR NETSCH:

But then, and, a proposal...a specific proposal with respect to the resource cost model will not be forthcoming this year, as I understand it; at least, not from...from you as a source. Is that correct?

SUPERINTENDENT SANDERS:

That is correct, Mr. Chairman, Senator.

SENATOR NETSCH:

Then, as far as the State Board and you, as superintendent, are concerned, the...the funds that will be the State's share this year will be distributed in approximately the same manner that they have been in the past; that is, the largest hunk through the general State aid formula and, then, some through categorical and perhaps some additional funds through the...the special reform projects that are incorporated within your...your board's recommendations. But there will be no major restructuring of the way in which school funds are to be distributed. Is...is that a fair statement of your position?

SUPERINTENDENT SANDERS:

That...that is correct. There will be some restructuring, but it will be in the context of the current

school finance plan and formula. Yes.

SENATOR NETSCH:

Does that mean that an idea such as the resource cost model has been for all effective purposes or for all practical purposes abandoned?

SUPERINTENDENT SANDERS:

No, it does not, Mr. Chairman, Senator. In my...in making my recommendations to the State Board of Education last week, it was my recommendation that we continue over the next year or two the study of school finance issues, that we address the...the technical questions that have still not been answered relative to the resource cost model, and that we begin addressing some of the other kinds of issues that ought to be looked at in conjunction with it, such as a definition of what constitutes an adequate program as well as adequate funding.

SENATOR NETSCH:

I...I guess, and perhaps this is more of a comment or rhetorical question, but one thing that...that does strike me is that if this is to be the year of educational reform, it is also the year in which any major restructuring of the distribution system should also take place, and the...the momentum may be gone after this year. Does that concern you? I'll make that my question. Does that concern you?

SUPERINTENDENT SANDERS:

Certainly that concerns me, and I hope, as I stand before you today, that this isn't the last year of intense focus on our schools. Yes, it concerns me. This...the climate of today though is more closely focused on reforms than...that have a relationship to instruction, to teachers and to those kinds of issues much more than the focus that we had in the seventies on financial reform. Yes, we've got to sensibly address those concerns about our current finance plan; but to...to do so in a fashion that's not carefully thought out

may yield greater folly than not taking the opportunities that the time may present.

MR. CHAIRMAN: (SENATOR BERMAN)

Senator Etheredge.

SENATOR ETHEREDGE:

Thank you, Mr. Chairman. Mr. Sanders, I am one of those who is very much concerned about the...the equity or the lack of equity that exists in the present formula for distributing State aid. Now, I'd like to pursue the...the...some of the same thoughts that were just raised by...by Senator...Senator Netsch. You indicated in your response to her question and also in your initial remarks that you're going to take a longer time to look at the resource cost model. My own feeling is that there is much, while there are some problems with that particular proposal and the way in which it...it would work, that nevertheless that basically it is a...represents a far more equitable method for distributing State aid than the formula we now have. You did say that what you proposed to do, at least as I understood your earlier remarks, you said that you would initiate some revisions in the existing State Aid Formula for implementation in this next year. I...I have two questions. First of all, could you elaborate further on what...what kinds of changes that you are now examining for possible implementation? And then, number two, if you could share with us what your time schedule is going to be. When might we know what these changes are going to look like?

SUPERINTENDENT SANDERS:

Yes. First, in response to the...the first question, there are several issue areas that are very, very evident out of the...the study that brought forward the RCM. First of all, we know very clearly that we've got to improve the relationship between the funding of elementary and high school districts. We know that we must do something further to respond to the needs of...of children in poverty. We know

that we've got to do something in terms of more equitable access to the tax rates between the...the various kinds of districts, specifically the unit districts in relationship to the dual districts. And we've got to do all of this at...at the same time that we do not cause some of our districts to sacrifice the levels of quality that currently exist in their schools, so that we may assist those who have the...the greatest amount of need. No small challenge. Timewise, it is our full intent to have recommendations to you in a fashion timely to...your decision-making processes. I wish I could guarantee you this morning, as I stand here before you, that we would have a firm set of recommendations back in two weeks or a month; but I learned early in the...in coming to Illinois and trying to grapple with the questions surrounding the RCM and what general recommendations we might bring forward that the time schedule doesn't necessarily move as quickly as one would...would like, but we have a firm commitment to have those recommendations to you so that you can use them in a sensible fashion in your decision making.

MR. CHAIRMAN: (SENATOR BERMAN)

Senator Schaffer.

SENATOR SCHAFFER:

Mr. Superintendent, I can't help but tell you that as I sit here as a representative of the suburban collar county areas that I can't help but think, based on your comments, that there are very dark days ahead for the school children in my area. It...it appears to me that based on what's I'm hearing from you and other sources that we may very well implement "reforms" that will drive education costs, but we will then distribute whatever new money by a formula that is totally unfair to my area, and that I have the very distinct possibility in July and August of seeing headlines that education reforms actually cost my districts more than they get at a time when referendum after referendum has gone down; and

while you and the Governor and the rest of us are out putting out press releases and beating our chest about how noble we've been in education and all the new money, our school districts will be putting out in my area press releases announcing that band and gym and extra curriculum activities and the computer program and everything that we fought for twenty years to build is going down the chute because of a formula that you and that bunch of wonders we call the State Board of Education choose not to take a look at this year, because of a formula that's based on a very unfair assessment of wealth, that being assessed valuation, not ability to pay. I've got districts, I've got a district that has a lower percapita income than the City of Chicago that is getting one dollar in four compared to the City of Chicago. That isn't fair. We've got to do something with that formula, and to talk about reform and not talk about formula reform, and not talk about a formula that each of us can go back in our district and say, we got x-number of dollars because the...wealth in our area is this and such, is to avoid the issue completely. We've got to address that formula or everything else we do is just window dressing and posture taking. I am bitterly disappointed that the board has chosen to cop out. I can't blame you. You haven't been here long enough to take the blame. I'll give you about another week and half. But please, please think about what you're doing. Just raising the minimum salaries, our districts, frankly, pay above that, but when you compress that salary schedule and you come up with a program to make up the differences to the schools that weren't at that minimum level, don't forget, you've pushed up the other top of that salary level for all of us without a program to compensate the districts. You'll drive up our costs, but you won't compensate districts that I represent without some looking at that formula. Please don't cop out. I can't blame you, you're a new kid on the street,

and you're going to be able to get away with murder for a couple of months because of that, but I can blame the State Board of Elections...Board of Education and I will. We need reform of that formula and we need a formula that each of us can go back into our districts and defend. I can't defend that formula, and I haven't heard anybody around here try in a long, long time.

MR. CHAIRMAN: (SENATOR BERMAN)

Senator Maitland.

SENATOR MAITLAND:

Thank you, very much, Mr. Chairman. Mr. Superintendent, nice to see you again this afternoon. First part of my question was going to deal with the issue that Senator Schaffer just addressed, and I would have addressed it perhaps somewhat the same way. I have the same kind of district structure in my legislative district and it's very difficult as I've been doing in recent weeks to go out and preach reform with those people fully understanding that they're not going to get much of the money that's going to go with paying for that...that reform, but nonetheless, the reform is very necessary and will come forward. But let me address another issue, the issue of school district reorganization, and I'm a little bit concerned with the point that you make about addressing the equity factor with the different types of districts, and I understand...that's an issue, it's an ongoing issue every year here. Do we not need, perhaps, to move forward with...with a statement, a strong statement in position suggesting only one type of...of school structure in Illinois? With over a thousand districts here and having...the three different structures, that in itself is a problem for all of us to deal with. So, I would submit to you, and this is in the form of a statement, that perhaps we need to move toward a one type school district in Illinois. Secondly, then, this is my question specifically, those school dis-

tricts, a thousand in number, it is a disadvantage to the...many times to...to consolidate because of the formula and all...all of these things, because zero plus zero still equals zero, there's no advantage except to the advantage of the kids and sometimes we don't think about that. Do we need to move forward with more legislation that encourages consolidation? It's a very emotional issue in some of these rural districts to attempt to consolidate, and it sometimes takes the carrot to encourage that consolidation, and we've done some of that in Illinois. But does the State Board and do you in particular, are you recommending any other encouraging factors to encourage consolidation?

SUPERINTENDENT SANDERS:

Mr. Chairman, Senator, yes, we've just started a...a study that, again, we hope to have complete in short order that...that at least will begin to shape our thinking and our proposals to you in the area of school district organization or reorganization. Certainly, we need to be gravely concerned about the quality of education that we're able to offer simply based upon the whole issue of scale. A lot of economies scale from a financial standpoint, but economies have scaled from an...an educational standpoint. Today we have sixty-one high school districts in the State that enroll fewer than one hundred pupils. And so it...it certainly speaks to the fact that this is an area which we must give policy attention and at least remove the impediments from the...further from those districts who choose and believe that reorganization is appropriate and to look at the very real possibility that we ought to provide other incentives for them to make that kind of movement.

MR. CHAIRMAN: (SENATOR BERMAN)

Senator D'Arco.

SENATOR D'ARCO:

Thank you. I want to ask you a question concerning the

upgrading of our teachers, and it seems that the State Board...their recommendations fall short of a Statewide test for certification of teachers. It would seem to me, I'm not...I'm not sure and that's why I'm asking you, but it would seem to me that a Statewide test would be the most objective standard to use to determine if teachers are qualified to be teachers or to renew certificates as teachers. And I was reading in the manual, your recommendations seem to fall short of that. Can you comment on that?

SUPERINTENDENT SANDERS:

Yes. I'd be happy to, Mr. Chairman, Senator. First of all, the State Board of Education is proposing tests that would be used to determine whether initial certification would indeed be granted. First of all, the board believes that every prospective teacher should be tested to assure that they're literate, first of all and, secondly, have competence in their subject matter or subject matters that they will be teaching. They also call for additional attention to the improvement of teacher training programs. That...those are the kinds of initiatives that they're talking about for improving the quality along with the salaries for those people who would be entering in the future in the profession. The board as a part of its quality of personnel study wrestled very much with the question of what we do with the current teaching force, and determined that the most appropriate course of action would be to require that each and every school district have a policy and a procedure to evaluate in-classroom performance of our teaching force. Paper and pencil tests generally tell us what a person knows about their subject matter or something about their literacy; we've all known teachers who are extremely competent in their subject matter but who are dismal failures in the classroom. And so, the approach of the examining and prescribing evalution policies that are carried out by trained principals

and other supervisors is, we believe, the desired, appropriate course of action. We're also proposing, as I mentioned in my remarks, funds to support inservice training staff development so that we might continuously engage in the improvement of the skills and knowledge of our teaching force.

SENATOR D'ARCO:

...one issue is...it...it seems to me that maybe...you already have the personnel within the school system to do many of these tasks at the present time. I mean, we can...personnel can evaluate and reevaluate and...and do the necessary things in order to determine a teacher's competency at the present time. Why do you need added money, additional money to do that, if you already have the people in the system today that can do that?

END OF REEL

REEL #2

SUPERINTENDENT SANDERS:

...we're not talking about adding people into the system to do that. We're talking about redefining the responsibilities of persons who are already in the system to do that and further requiring that every local board have a policy that meets Statewide criteria for conducting evaluations of teachers in the classroom. The truth of the matter is, if you look at the results of...set of studies over a forty year period by Robert Bush at Stanford University on the role of the principal and the teacher, you find some rather dramatic evidence that we neither train, screen or hire or reward principals for the kinds of things that we're talking about. We generally,...we first of all, train them, hire them and reward them for harmonizing their school with their community; that is,...I guess can be translated as keeping the superintendent and the board out of trouble rather than providing the kind of leadership to instruction that we expect of them. And so the staff development through the Principals' Academy becomes an essential to...to the implementation of the policy reforms on teacher evaluation that we're proposing.

MR. CHAIRMAN: (SENATOR BERMAN)

Senator DeAngelis.

SENATOR DeANGELIS:

Thank you, Mr. President. I appreciate the opportunity as someone who does not serve on the educational community to ventilate a few of my frustrations. I think everybody in this General Assembly who spends any time in their district at all knows that the most talked about subject, even prior to this year, has been education; and we are constantly badgered by questions like, why isn't the State paying fifty

percent? why isn't the State doing its job? how come property taxes are going up? and all the other questions that we don't seem capable of answering, and I have some local newspapers and...every time a board has a meeting, budget time, they constantly put in there that the reason that their budget isn't balanced or they don't have enough money is that the State's not...is not doing its job. And I have to tell you, based on what I have seen so far regarding the so-called reform, none of that criticism is going to stop because we really haven't addressed the issue, the fundamental issues of what I think is truly educational reform. Senator Etheredge and Senator Schaffer have talked about the formula. It's been a constant frustration of mine, too. Let me point out to you, being new to Illinois, that that formula, and you indicated it does produce some degree of equity, and I can point out to you, sir, that in the last six years it has, in fact, increased the inequity because the formula was based on the premise of increasing enrollment and stable real estate values and, in fact, we have had in the last six years exactly the opposite. It's not only nonfunctional, it's dichotomous to the very basis upon which it was created. The other part that has not been talked about though, and the part that we hear...there's two times a year when my phone rings off the wall; one is about the first or second week in January when all the parents in my district who think their kids are real smart get the rejection slips from the U of I; the other one is in August, when the second installment of the real estate taxes comes out in Cook County. We have put education into the position in which the major source of funding is the property tax. And if I might take a minute, I might point out to the members of the Body...and I think, Doctor Sanders, you know this better than I do, the property tax was created even before our Constitution but was...created even before public education, and the property

tax was never designed at its inception to carry the burden of education and it is, in fact, the major source of funding today. So, what we have is a system of over-dependence on the property tax; but more significantly, the ability to provide a quality education in Illinois is based on geographical accident. For instance, I attended a meeting down with Senator Rupp and Senator Maitland in Cerro Gordo, Illinois, and very quietly, in one of the corners, and I think there were about sixty school districts, was a school district which happens to have a nuclear facility in its district which was spending about four times more money than the adjoining district with a homogenous population. Okay? Now, we're asking everybody across the State to produce a quality product; and I would submit to you, sir, if you were in the real world and somebody asked you to design a car and they were going to give you the same kind of car and they would give you one-fourth as much as the next person to come up with the same car, and you would agree to that, then you would have to, in fact, question yourself, when, more importantly, the only way possible that you could come up with a car that resembled the other car is to make it look the same on the outside...'cause I can assure you, underneath that car would not be the same, and that's what we have in Illinois as well. You said that you would want to defer the RCM. Well, let me tell you what's happening when you get to the reform of the formula and you start putting in the kind of dollars we're putting into today. You only create the problem of making it impossible to reform that formula, because what is happening...and this is...really bothersome to me, the opposition to the reform is coming from somewhat of a...I won't call it, Senator Berman chastised me for using the word unholy alliance once before, but...what you have here is those districts that are the poorer districts, that are more dependent on State aid are one end of the opposition, but, unfortunately, the

other end of the opposition is those school districts who've become very property tax dependent; and if you defer that reform, what you're going to do is make that even worse next year, because you're going to solidify the opposition from those two groups, and we're getting to the point right now, as somebody put, that we can't afford the price of reform today because if I were to calculate our fifty percent without any redistribution, it'd cost us about eight hundred million dollars. By next year the price tag is going to probably be a billion, and the longer we put it off, the worse off we're going to be. So, I don't want to put down what's being done because I think some of the suggestions are...are great, but if we do not go about reforming the fundamental tools for quality education, and that is a different system of distribution and a different system of collections, I think it's...we're going to do exactly what Senator Schaffer...just run up the cost and continue the problems. Thank you.

MR. CHAIRMAN: (SENATOR BERMAN)

The last questioner that I have recorded here, Senator Poshard.

SENATOR POSHARD:

Mr. Chairman, Mr. Superintendent, just a couple of questions. For a number of years now, we've debated this issue of teacher evaluation, and reading the commission reports and the committee reports on educational reform the past year or so, I've noted that in the public mind, at least in my district now, we're somehow equating reform and teacher evaluation with merit pay, and I'd be interested to know if the State Board of Education has a position on merit pay or if this is one more issue that we're going to leave up to local control? A second question that I'd like to ask you along that same line is the idea of minimum competency skill testing for students. We've discussed that issue for years also,

and we seem to always say, well, the local school district knows their children best, so we're going to leave that up to the local school district and we end up with some kind of mishmash of testing opportunities for kids that really, in the end, tell us nothing about the real skills of those students. Is that one more issue that we're going to leave up to local control or are we going to standardize those tests across the State so that we can really see whether or not the students are learning what they're supposed to be learning? The Governor has mentioned a couple of things in his statements on education and I'd be interested in your views on those. He has requested, as I understand it, the collapsing of several of the categorical service delivery agencies into one umbrella-type agency throughout the State in different regions; the gifted education centers, the voc. tech. centers, the teacher education centers, the computer consortium centers. I'd like to know the State Board's position on that. I think the Governor is right. I think there's a lot of cost ineffectiveness in this sense and those probably do need to be collapsed, and I'd be interested in your opinion on how best to do that to save the State some money. And I...I'd also like your opinion on the math-science academy that the Governor has proposed and how the State Board views that academy and...the funding that the Governor has proposed for it. Thank you.

SUPERINTENDENT SANDERS:

Okay. A lot of questions and help me if I miss some of them, Senator, Mr. Chairman. First of all, relative to the board's position on evaluation linked to performance pay. The board's recommendation on teacher...evaluation is not, in their recommendation, directly related to performance pay. They're suggesting that whether performance pay does or does not come to be that a...that a required policy and practice for teacher evaluation should be in place and we must move to

initiate it. Minimum compentency testing per students. The board is proposing as a part of its initiatives that in this redefinition process of what the State expects in terms of what students ought to know and be able to do as a result of their schooling that we implement...require assessment programs in each and every district to measure against local district expectations, that included in those assessments, the State develop anchor test items; that is, a test imbeded in a test that would assess student performance against those expectations that we as a State believe ought to be in place. The last question that you had related to the...more sensible construction of those regional efforts that take place in the State. The board does not have a proposal on...in that particular area; however, personally, in looking at what's happened around the State, I support some more sensible definition of what those regions are so that we bring together in some kind of coherent form the provision of those services. Some very unusual kinds of things, some inefficient kinds of things are happening out there right now because boundaries are not contiguous with each of the efforts and...and I personally support that.

MR. CHAIRMAN: (SENATOR BERMAN)

All right...

SUPERINTENDENT SANDERS:

Oh, the math-science academy. I believe, personally, that we must do something more than what we've done in the past to meet the needs of our more talented students in the area of mathematics and science as well as in other...fields. I have not come to a personal opinion as to whether or not in the resources we have to...available, the math-science academy is the appropriate way to go. I am encouraged by the Governor's remarks that that would be the flagship of a larger State effort that would reach out to all kids who would benefit from services, and I'm...very much encouraged

by that latter commitment.

MR. CHAIRMAN: (SENATOR BERMAN)

In order to stay within our time frame, I will call on two of the last questioners if they can make their questions concise, Senator Marovitz and then Senator Schaffer. Senator Marovitz.

SENATOR MAROVITZ:

Thank you, very much. Mr. Superintendent, just one brief question, so...in the interest of time, we've...we've heard a lot recently about the increased proliferation of substance abuse and alcohol abuse among students in the...in the system. Does the State Board have, presently, any programs...support any programs, create incentives and encourage any programs locally in the districts which would deal with substance abuse or alcohol abusers among school age children?

SUPERINTENDENT SANDERS:

Yes, Mr. Chairman, Senator, we do have and I'd be happy to give you greater information...about those efforts at a later point.

SENATOR MAROVITZ:

Fine.

MR. CHAIRMAN: (SENATOR BERMAN)

Senator Schaffer.

SENATOR SCHAFFER:

They're...I'm not notably a huge fan of...what I call the golden palace over there. I think you guys spend money with the best of them, but there is one thing you do over there that is valuable and you do fairly well and it's make computer runs, and...you'll learn that those us who've been here a while get a little cynical about formulas. I think Senator Berman understands them and I think Representative Hoffman understands them and then I think the rest of us...now Senator Maitland is approaching understanding them. The rest...to the rest of us, it's all mirrors and blue smoke and

after while, we stop saying, don't tell us about the formula, give us the computer run, and I guess that's my request on your proposal and on the other proposals. We will very much look to your agency for some implications, district by district, so each of us knows what we are doing for or to the people we represent, and I hope that those computer runs will be forthcoming in a timely fashion to allow us to make intelligent decisions based on the impact of not only our own constituents but the equity of the programs on a Statewide basis, and I hope we can count on you for that.

SUPERINTENDENT SANDERS:

Fair enough.

MR. CHAIRMAN: (SENATOR BERMAN)

Thank you. Thank you, Mr. Sanders, for your presentation and on behalf of the Senate, we appreciate the time and educational process that you've given us today. Senator Maitland, for the purpose of a motion.

SENATOR MAITLAND:

Well, thank you, very much, Mr. President. First of all, Mr. Superintendent, from the Minority side, too, we appreciate very much your candor this afternoon. It gives us an opportunity to vent our frustrations and we do so much appreciate your attendance here this afternoon and, Mr. Chairman, at this point, I would move that the Senate arise from the Committee of the Whole.

MR. CHAIRMAN: (SENATOR BERMAN)

SENATOR LECHOWICZ:

That's fine with me.

PRESIDENT:

All right. All right, the gentleman has...has sought to...leave to consider all the salaried appointments on one roll call which we will do with the sole exception of Mr. Levin, an appointment to the Illinois Commerce Commission. Any further discussion? If not, the question is, does the Senate advise and consent to the nominations just made. Those in favor will vote Aye. Those opposed will vote Nay. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Take the record. On that question, there are 53 Ayes, no Nays, none voting Present. A majority of the Senators elected concurring by record vote, the Senate does advise and consent to the nominations just made. Senator Lechowicz.

SENATOR LECHOWICZ:

Well, now, Mr. President, I'd like to put Mr...Mr.

Levin's name before the Body. As you know, I...he was recommended for the Illinois Commerce Commission. I believe that there was some discussion in his nominations and it was...approved almost unanimously by the...by the committee and I now would move for his advise and consent.

PRESIDENT:

All right, the question is, will the Senate advise and consent to the nomination of Mr. Stanford Levin to the Illinois Commerce Commission. Discussion? Senator Welch.

SENATOR WELCH:

Thank you, Mr. President. I...I wasn't on the committee. I was wondering if I could ask a question about Mr. Levin's background?

PRESIDENT:

Senator indicates he'll yield, Senator Welch.

SENATOR WELCH:

Senator Lechowicz, how long has Mr. Levin lived in the State of Illinois? Do you know?

PRESIDENT:

Senator Lechowicz.

SENATOR LECHOWICZ:

That question was raised in committee. In fact, according to the testimony we received in committee, he moved to Illinois approximately November of last year. The question was raised quite vividly by a member of the committee as far as his tenure in Illinois, and it was pointed out and there was quite a bit of discussion between the committee members in reference to what is tenure in Illinois and what is the capabilities of that individual serving on this committee, and it was after a...a heated discussion on tenure in...in Illinois, it was proven that this gentleman would serve quite capably as far as...with his background on this...on this Illinois Commerce Commission, and for that reason it was raised by Senator Hall, it was defended by Senator Chew and a

number of other committee members about his qualifications and his ability to serve and it was...after a heated discussion, it was approved.

PRESIDENT:

Senator Welch.

SENATOR WELCH:

Is there any requirement of living in Illinois...a residency requirement for the Illinois Commerce Commission?

PRESIDENT:

Senator Lechowicz.

SENATOR LECHOWICZ:

There is none.

PRESIDENT:

Senator Welch. All right. Further discussion? Senator Joyce.

SENATOR JEREMIAH JOYCE:

Yes, thank you, Mr. President. You know, I don't think the question is whether or not this gentleman is qualified. I think the question is, as Senator Welch is trying to put before this Body, where does he live and where did he live at the time that he was appointed. Seems to me that within our boundaries and given our situation with respect to unemployment in this State that we could find someone within our own boundaries who would be qualified to serve on this board. A question of Senator Lechowicz. At what point in time was this gentleman appointed to this commission?

PRESIDENT:

Senator Lechowicz.

SENATOR LECHOWICZ:

We have a message stating that he was recommended by the Governor in February. He moved in November. He lived in St. Louis, Missouri and as...as it was pointed out by the...in committee, there's a lot of people that live in Illinois and go to Missouri and vice versa for working, it's

an...adjoining border town...the State of Illinois. He was also a graduate of Southern Illinois University. He went to school here in this State and like a lot of SIU students, find employment maybe in adjoining areas. Based upon his credentials, the Governor saw fit to nominate a consumer advocate to...to this body, and this is what this person is supposed to be, a consumer...a consumer advocate.

PRESIDENT:

Senator Joyce.

SENATOR JEREMIAH JOYCE:

Well, Senator Lechowicz, can you tell me if there are any members of the Missouri Commerce Commission who reside in Illinois?

PRESIDENT:

Senator Lechowicz.

SENATOR LECHOWICZ:

That's not the question. The question is where the gentleman lives now. He lives in Illinois. The question is where he lived when he was appointed. He lived in Illinois. He may have moved to Illinois a short period of time ago, but there is no...there are no requirements as far as the length of residency in Illinois and if there was and he didn't comply with them, the committee would not recommend him.

PRESIDENT:

Senator Joyce.

SENATOR JEREMIAH JOYCE:

Well, do you know where the gentleman voted in the November election or whether or not he, in fact, did vote? I assume he voted.

PRESIDENT:

Senator Lechowicz.

SENATOR LECHOWICZ:

That was not a requirement for review of the committee and it wasn't checked.

PRESIDENT:

Senator Joyce.

SENATOR JEREMIAH JOYCE:

Well, Senator Lechowicz, you can go back to your district and you can tell the people in your district that you voted for someone because the Governor has sought to skip over all of the otherwise qualified people in the State of Illinois who could serve on this board and went to Missouri, but I'm not going to do that.

PRESIDENT:

Senator Vadalabene.

SENATOR VADALABENE:

...yes, I'm sorry I...I missed the discussion; however, I would like to point out this Stanford Levin is a resident of Edwardsville. He's registered as a Democrat to vote in Edwardsville in Madison County. This is a Democratic appointment, incidentally. He was screened by the...the selection committee of several candidates and the Governor and the chairman, Phil O'Connor, selected this gentleman. He's been at the university...at Southern Illinois University as an economist, as a professor for over thirteen years. Now let me remind some of my colleagues on this side of the aisle, when Dan Walker was Governor of this State; Allphin, the director of Revenue; John Kramer, Langhorne Bond and I could go on and on and on where these people came from out-of-state and served on the cabinet level in the State of Illinois, and those of you on my side of the aisle who supported Dan Walker should remember the appointments that came from the former Governor. I don't know why geography should be a case. You heard here this morning, Mr. Sanders, the State Board of Education, just got selected and he came from Nevada. We're only a...a river away from this appointment. He...he's registered in Illinois. His drivers license is in Illinois. His license plates are in Illinois. I don't know

what more you could do, and for those of you in the northern part of the State, let me tell you this, that if East St. Louis and Madison County...in the early morning, the cars that go to St. Louis and St. Louis County to go to work, if Missouri would say, no, you're not a resident of Illinois...or Missouri, we're going to close the bridges, I'm wondering...how Senator Hall and all those people who go to...to St. Louis and St. Louis County to work would like for them to be shut off because they don't live in Missouri. This man went through the screening process. He's a good man. He's an economist and...and Phil O'Connor thinks that he can fill the job. Don't let geography...now this happens to be a personal vendetta with another man from the university. This is not geography. There's a person at the university that doesn't like Levin and he came to me, and I wouldn't listen to him, I don't go for personal grudges on appointments of the Governor, but he...he went to Senator Hall; and that's the reason why this appointment is being held up, it's a personal grudge against another individual at the college and not the qualities of the man. He's a good man and he should be confirmed.

PRESIDENT:

Further discussion? Senator Friedland.

SENATOR FRIEDLAND:

Thank you, Mr. President. As minority spokesman of the committee, I'd just like to report to my colleagues that this gentleman is a resident of Illinois and he did pass 10 to 1 on the committee. Thank you.

PRESIDENT:

Further discussion? Senator Netsch.

SENATOR NETSCH:

Thank you, Mr. President. I'm interested not so much in his geography as his credentials. I believe I heard you say, Senator Lechowicz, that he does, in fact, reflect a consumer

point of view on the...or will on the Commerce Commission and I wondered if you would just briefly review what his consumer credentials are.

PRESIDENT:

Senator Lechowicz.

SENATOR LECHOWICZ:

Based upon...thank you, Mr. President. In response to the lady's inquiry, based upon some of the papers he has written on this subject matter as an economist at Southern Illinois University, he has been designated as a consumer advocate in this field. Well, because you were being in conversation with Senator Joyce...that's quite all right, but in answer to your question, ma'am, it was based upon as...number of writings he has written on this subject matter as a professor at Southern Illinois University where he has been associated...with quite...quite a bit of interest in the...in the Commerce Commission that he has written a number of papers in this...in this field and he's been labeled as a consumer advocate.

PRESIDENT:

Further discussion? Senator Hall.

SENATOR HALL:

Thank you, Mr. President and Ladies and Gentlemen of the Senate. I wasn't going to say anything about this, but since my name has been mentioned I feel that I should say there was one lone vote cast against the gentleman and it was mine. I questioned him at lengths before and in answer to you question, Senator Jeremiah, the gentleman moved over here in December. He's on sabbatical leave from the university right now. I questioned that. I said, you are going...the Governor is appointing you to a thirty-nine thousand dollar a year job, are you going to quit your university job? And he said, we'll, just wait and see what happens. Then, in questions that...with some of the other members there and I was the

lone person who voted against him. Now, the gentleman has been teaching over here for a number of years and he never once moved into this State, but once he got this appointment, then he moves over. He was not eligible to vote in this State in November because he never moved in here until December.

PRESIDENT:

Further dicussion? Senator Welch.

SENATOR WELCH:

Thank you, Mr. President. I'd just like to respond, too, to Senator Vadalabene. I'm apparently the one who held up the appointment and I don't know anything about the political situation at Southern Illinois University and Senator Hall and everything. I...I didn't ask that he be separated from the pack because of that, Senator...Vadalabene, I know nothing about it; but I think that it...what is important here is not just Mr. Levin's qualifications but his familiarity with the problems we have in Illinois with utility rates. Here in Illinois we have a very highly nuclearized utility industry. I don't know that that's true in Missouri. I certainly know one thing about Illinois that is not true of Missouri and that is that we are the storage area for all of the spent fuel rods for the entire United States of Illinois, and I doubt that Mr. Levin has had much experience in Missouri with that particular problem. I think that being a resident of Illinois for this particular job is...is not the only question that has to be raised, it's the familiarity with our utility industry in Illinois that you would gather by living in our State. That's the important part. If this were another department, it would be different. In most other departments you could transfer knowledge. For instance, Ted Sanders, that's knowledge that's transferable from the State of Nevada to the State of Illinois more readily than knowledge about our utility industry; and our utility industry, I

think, is somewhat unique. Because of the nuclear power questions, because of the many power plants that are having trouble getting completed, because of the year after year history of cost overruns of nearly every nuclear facility in the State of Illinois. I think that a person should be a resident of Illinois, I think that they should have suffered through those continuing rate increases due to mismanagement of these plants in underestimating the cost of building nuclear power plants, and I think that that personal experience of paying those ever rising utility bills is an experience that you can't get in Missouri, that it's one that is probably unique to Illinois and it's one that any member of the Commerce Commission should have lived through and should have in his background to serve on the Commerce Commission when they have these new rate increases coming month after month as they will continue to come; and for that reason, I intend to vote No on Mr. Levin for this appointment.

PRESIDENT:

All right, further discussion? Senator Joyce.

SENATOR JEREMIAH JOYCE:

Very briefly. Senator Vadalabene, I, too, am unaware of this dispute which goes on between these two people down at the university. I do wonder how we know this guy is a Democrat? Did he vote in the Missouri Democratic Primary or did he give you his word? I don't know about that, but I...what I...what I am opposing and what I object to and it's something that Governor Walker did and it's something that this Governor continues to do and that is to go outside of our boundaries to find people to fill these important State positions. You tell me in the State of Illinois we can't find people who are qualified for these positions, I just can't accept that.

PRESIDENT:

Further discussion? Senator Vadalabene.

SENATOR VADALABENE:

Yes, I want to make this observation. In the Executive Committee on Appointments, there were three that were being appointed. Stanford Levin seems to be the controversial appointment. Now this process with the Governor, I think he told me about four or five months ago that there was a Democratic vacancy on the Illinois Commerce Commission they'd like to fill this post, and you recall we did him get out of committee last year but...on the maneuvering...on the Floor it felt that he could not pass the Senate and through a new Congress now here in the...in the 84th General Assembly had to be referred back. We don't regard St. Louis and...and...and St. Louis County as being out-of-state per se. I don't know what the reason is but some of us who thought that Dan Walker was the greatest guy on earth even had Fogel for the Director of Corrections who had a prison term, and, if you recall, we rejected that one. I don't believe you should hold up a man. He went through the process. He went through the screening. He was selected. You just don't get anybody to serve on the Illinois Commerce Commission that doesn't have any...any economic interest. Don't hold up this man because of a Mississippi River. There's people that have businesses in Illinois that live in Missouri, who have outstanding businesses in St. Clair and Madison County. They don't even live in Illinois but they operate their businesses. Here's a man who went through the process, went through the screening and, incidentally, he wasn't the man that I would have liked to had. I gave the Governor another appointment to make and he didn't make it, he made this one and I believe the Governor should have the people that he wants on board and let them do a good job. Support the appointment of Stanford Levin, the Governor and Phil O'Connor. Thank you.

PRESIDENT:

All right. Further discussion? Further discussion? Senator Joyce, for the third time.

SENATOR JEREMIAH JOYCE:

Just one question, Senator Vadalabene, did...did your other appointment live in Illinois...the...the first one that you wanted?

PRESIDENT:

All right, Senator Lechowicz.

SENATOR LECHOWICZ:

Well, Mr. President, I'm sorry to see that this debate has taken this vein. The question is whether the gentleman is qualified and able to serve. He's only been teaching at Southern Illinois University since 1972. '72 he's been a professor at Southern Illinois University. I'm not asking whether he is qualified to teach at that institution because I would imagine that the institution itself has its own academic standards in excellence that they review the respective people that work at that university. The question is whether Mr. Levin is willing to serve in the Commerce Commission capacity. The Governor has asked that a Democrat be appointed to that spot to serve in that capacity, and he has asked Senator Vadalabene whether this person from Edwardsville meets those requirements; and according to the Senator from that district, this gentleman meets those requirements. According to the review of the committee, he has met every...requirement by law that is required in that position, whether it's academically, whether it's his expertise in the field where he has written a number of letters and theses on the subject matter that is reviewed by the Commerce Commission, he has passed every criteria, and he should pass this Senate today as well. The criteria of whether he is a resident of Edwardsville or St. Louis, Missouri has been tested and he is living in Illinois, and I would strongly recommend your consideration for his appointment for the

Senate advise and consent of Mr. Levin to the Commerce Commission.

PRESIDENT:

The question is, does the Senate advise and consent to the nomination just made. Those in favor will vote Aye. Those opposed will vote Nay. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Take the record. On that question, there are 38 Ayes, 9 Nays, 4 voting Present. A majority of the Senators elected concurring by record vote, the Senate does advise and consent to the nomination just made. Senator Lechowicz.

SENATOR LECHOWICZ:

Thank you, Mr. President. With respect to the Comptroller's Message of January 17th, 1985, I will read the salaried appointment to which the Committee on Executive Appointments, Veterans' Affairs and Administration recommends that the Senate do advise and consent.

To be director of personnel for the Office of Comptroller for a term expiring on January 19th, 1987, M. Alice Kirby of Springfield.

Mr. President, having read the salaried appointment, will you put the question as required by our rules.

PRESIDENT:

Question is, does the Senate advise and consent to the nominations just made. Those in favor will vote Aye. Those opposed will vote Nay. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Take the record. On that question, there are 54 Ayes, no Nays, none voting Present. A majority of the Senators elected concurring by record vote, the Senate does advise and consent to the nominations just made. Senator Lechowicz.

SENATOR LECHOWICZ:

Thank you, Mr. President. I move that the Senate arise from Executive Session.

PRESIDENT:

You've heard the motion. Any discussion? If not, all in favor indicate by saying Aye. All opposed. The Ayes have it. The Senate does now arise. Senator Marovitz, for what purpose do you arise?

SENATOR MAROVITZ:

Can...thank you, Mr. President and members of the Senate. Having checked with the chief sponsor, I would ask that...that my name be added as a hyphenated cosponsor to Senate Bill 24 and 29 sponsored by Senator Jeremiah Joyce.

PRESIDENT:

Senate Bills 24 and 29, the gentleman seeks leave to be added as a hyphenated cosponsor. Is leave granted? Without objection, it's so ordered. Senator Topinka, for what purpose do you arise?

SENATOR TOPINKA:

Yes, Mr. President. I have had...I have checked with the sponsor and I ask leave at this time of the Senate to be added as a joint sponsor to Senate Bill 245.

PRESIDENT:

Senate Bill 245, the lady seeks leave to be shown as a cosponsor. Is leave granted? Leave is granted. Senator Poshard, for what purpose do you arise?

SENATOR POSHARD:

Thank you, Mr. President. I move to Table Senate Bill 240 for technical reasons that occurred in the drafting of the bill. The LRB has redrafted the bill and I'll be introducing...reintroducing legislation today.

PRESIDENT:

All right, Senator Poshard has moved to discharge the Committee on Assignment of Bills from further consideration of Senate Bill 240 for the purpose of Tabling. All in favor of the motion to discharge indicate by saying Aye. All opposed. The Ayes have it. Senate Bill 240 is now dis-

charged. Senator Poshard moves to Table Senate Bill 240. All in favor of the motion to Table indicate by...by saying Aye. All opposed. The Ayes have it. Senate Bill 240 is Tabled. Senator Philip, for what purpose do you arise, sir?

SENATOR PHILIP:

Thank you, Mr. President and Ladies and Gentlemen of the Senate. I'd like the record to indicate that Senator Geo-Karis is home from the hospital. She is convalescing from pneumonia. Thank you.

PRESIDENT:

The record will so indicate. Senator Fawell, for what purpose do you arise?

SENATOR FAWELL:

I would like to...I am the chief sponsor of Senate Bill 8. I would like to put Senator Donahue and Senator Karpiel as hyphenated cosponsors and Senator Macdonald as a hypenated cosponsor on Senate Bill 95.

PRESIDENT:

All right, Senate Bills 8 and 95, the Senator seeks leave to show Senators Donahue and Karpiel as hyphenated cosponsors and Senator Karpiel on 95. Is leave granted? Leave is granted. It's so ordered. Senator Macdonald.

SENATOR MACDONALD:

With...with the approval of the sponsors, I've asked to be a hyphenated cosponsor of Senate Bill 179, that's Senator Karpiel's bill with Senator Dudczy and Macdonald. Senate Bill 78 with Topinka, Macdonald. Senate Bill 210, Marovitz, Smith, Macdonald. Senate Bill 101, Senator Hall. Senate Bill 83 with Senator Watson. Senate Bill 53 with Senator Topinka.

PRESIDENT:

All right, the...the Senator seeks leave to be shown as a cosponsor on Senate Bills 179, 78, 210, 101, 83 and 53. Is leave granted? Leave is granted. The brochure has been

written. Senator Etheredge, for what purpose do you arise?

SENATOR ETHEREDGE:

Yes, Mr. President, I would ask leave to add Senator Poshard as a hyphenated cosponsor on Senate Bill 92.

PRESIDENT:

Senate Bill 92, the gentleman seeks leave to show Senator Poshard as a cosponsor. Is leave granted? Leave is granted. It's so ordered. All right, with leave of the Body, we'll move to page 3 on the Calendar. I direct your attention to page 3 on today's Calendar, on the Order of Secretary's Desk Resolutions, Senator Netsch has requested that we address Senate Joint Resolution No. 3. On the Order of Secretary's Desk Resolutions, page 3 on the Calendar, Senate Joint Resolution No. 3, Senator Netsch.

SENATOR NETSCH:

Thank you, Mr. President. Senate Joint Resolution No. 3 recreates the Joint Committee on Public Utility Regulation which, as most of you know by now, is the substitute for the Sunset Commission. It is charged with the duty of reviewing the status of the Illinois Commerce Commission and its regulatory authority and reporting back to the General Assembly before the end of this Session. In the absence of the work of this joint committee, the Commerce Commission and all that goes with it will self-destruct at the end of this year. We have done this before but the resolution extended the commission only to the beginning of this year. This will now extend it to June 30th, 1985. It is a twelve-member commission, as you know, and it...it has only this one limited but extremely vital function. I would now move that the Senate do adopt Senate Joint Resolution No. 3, and I suspect that it requires a roll call because it does involve an expenditure of...a possible expenditure of funds.

PRESIDENT:

All right, question is the adoption of Senate Joint Reso-

lution No. 3. Is there any discussion? If not, the question is the adoption of Senate Joint Resolution No. 3. Those in favor will vote Aye. Those opposed will vote Nay. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Take the record. On that question, there are 53 Ayes, no Nays, none voting Present. Senate Joint Resolution No. 3 is adopted. On the same order, Secretary's Desk Resolutions, is Senate Resolution No. 34. Senate Resolution 34, Senator Topinka.

SENATOR TOPINKA:

Yes, Mr. President, I would ask at this time that we adopt Senate Resolution 34 commemorating Lithuanian Independence Day to which Senator Savickas has been added on as a joint sponsor.

PRESIDENT:

All right, Senator Topinka has moved the adoption of Senate Resolution 34. All in favor indicate by saying Aye. All opposed. The Ayes have it. The resolution is adopted. Anything else on that order of business? Senator Kelly, do you wish to proceed? Senate Resolution 39, Senator Kelly.

SENATOR KELLY:

Thank you, Mr. President and members of the Senate. Senate Resolution 39 and 40, for that matter,...I believe should have been on the agreed list. What this refers to is that we have five hundred and sixty-six servicemen who are missing in action and are actually known to be incarcerated in Southeast Asia, and what this does is it calls on the President and Congress to renew their efforts to bring back and to...recover our missing in action troops and to bring them back to our country, and I would ask for your support of this resolution which...which does that.

PRESIDENT:

All right, Senator Kelly has moved the adoption of Senate Resolution 39. Is there any discussion? If not, all in

favor indicate by saying Aye. All opposed. The Ayes have it. The resolution is adopted. Senate Resolution No. 40, Senator Kelly.

SENATOR KELLY:

Thank you, Mr. President and members. Senate Resolution 40...this relates to the subject of starvation and doing something about the problem on...not only in our country but worldwide, and what this does is it calls on the President and Congress to enact legislation which would address this issue. It talks about having our farm land dormant and this is something that's bothered me for some time. When I see on television the starvation that's taking place in Ethiopia and I know even in our own country in many of the large metropolitan areas, to have farmers who enjoy using their energies and their...their equipment to...to farm and then to pay them not to,...this...that's...this is just one part and parcel of this resolution asking that Congress take a look again at doing something about this and to come up...what this is it's...it's a...a small way...in a small pebble, I might add, that I would like to...to do in trying to do something about this problem. It's very frustrating. It's certainly a problem that's probably beyond this Body, but I would ask for your support in at least advising the President and Congress that we do have a bad situation here.

PRESIDENT:

All right, Senator...Senator Kelly has moved the adoption of Senate Resolution 40. Any discussion? Senator Joyce.

SENATOR JEROME JOYCE:

Yes, Senator, I think this is a good idea and...and I missed some of what you said. Would you kind of give us a brief thing of what's going on?

PRESIDENT:

Senator Kelly.

SENATOR KELLY:

Yes, Senator, I just briefly said that what this does is it relates to the starvation that's taking place in the world and in...in the United States and different areas, and what this does is it...it asks Congress to come up with innovative new ways to address this issue and to implement the...the farming community that...which has being paid to keep their crops dormant and I...this...this would ask them to take a look at that subject plus any others which would help to...to improve the situation and...and try to provide a mechanism so we can develop...the greatest farm land in the...in the world is right in the United States and I want to use that to help to feed the hungry people that are starving, whether they be in the United States or in Ethiopia or anywhere else in the world.

PRESIDENT:

All right, Senator Kelly has moved the adoption of Senate Resolution 40. Any further discussion on 40? Senator Karpiel.

SENATOR KARPIEL:

I wonder...thank you, Mr. President. I wonder if...since we do not have a copy of the resolution in front of us, I wonder if Senator Kelly would mind reading it; because as I remember this resolution from committee, it has some pretty high-powered or supercharged words in the whereases.

PRESIDENT:

Sponsor indicates he'll yield. Senator Kelly.

SENATOR KELLY:

Okay, I don't...I don't know how supercharged they are or what, but I...I don't think it's anything...I think it should have been agreed. Okay, I'll read it. Try to go through it quickly.

(Senator Kelly reads SR 40)

And that's it and I'd ask for your favorable support.

PRESIDENT:

Senator Karpiel.

SENATOR KARPIEL:

Well, on hearing that again, I just wanted to ask...Senator Kelly, are you advocating military force to be provided to all these countries that have a starvation problem? Are you advocating we send military troops to Ethiopia for instance?

PRESIDENT:

Senator Kelly.

SENATOR KELLY:

Well, I don't say that we should start any kind of a...a war or have any placement of our military personnel for that purpose, but what I do say is that...that there should be...even if they have to take and fly in food supplies and drop them, whether the government in Ethiopia or anywhere else in this world, if they want to sit around and...and not feed their people, I don't think that's their privilege to starve people. They're human just like we are and that means that...that we should lend our...our conscious support to try and to prevent that.

PRESIDENT:

Further...

SENATOR KELLY:

I...I would have to say this, there...there is an indication in this resolution about supplying...as supplying military force and food supplies to those heroic individuals. That word "supplying military force" may present a problem. If it does, then vote against the resolution and it'll die. I happen to think that it's worthy enough to at least receive consideration, but if you don't think it is because it has that word "supplying military force," then vote against it.

PRESIDENT:

Further discussion? Senator Collins.

SENATOR COLLINS:

Yeah, thank you, Mr. President. I...I rise in support of this resolution and I would like the permission of the...the sponsor to be added as a joint cosponsor of the bill...hyphenated cosponsor, and while it may have some strong language but so what, people are starving across this country and we've called upon this country and we pay taxes for this country to send military into other countries for the purpose of protecting them from..."communist aggression." Well, we're talking about saving lives. That's all. Feeding hungry people, stopping the masses of hungry people across the country...the globe to...from starving to death and if it's necessary to do that, I say, why not and I...I...I rise in very strong support of this resolution. We're merely...asking Congress to take some measures to study and...and to come up with some ways of...of responding to that situation and we should do so. We're not passing the law, so they can do it in any means that they feel...and I'm sure that I have the confident of the delegation from the State of Illinois and around the country to vote on and enact some measures that will take some serious action of this...this country being a leader in the world and speaking out in...and denounce the deplorable conditions that exist in countries like...places like Ethiopia and South Africa.

PRESIDENT:

All right, the lady has sought leave to be added as a cosponsor of Senate Resolution 40. Is leave granted? Leave is granted. Further discussion? Senator Fawell.

SENATOR FAWELL:

Yes, thank you, Mr. President. You know, I...I do feel some of that...that language is objectionable, Senator Kelly. I didn't quite understand what you were talking about us being alienated. Could you...could you read that...that phrase again? Something about being alienated or...or causing the people to be alienated or...

PRESIDENT:

Sponsor indicates he'll yield, Senator Kelly.

SENATOR KELLY:

Okay. Under the fourth whereas, it says, "The American people have become alienated as the result of the lack of concern shown to our citizen as well as to the hungry people of countries such as Ethiopia where starvation has become the accepted way of life for many."

PRESIDENT:

Senator Fawell.

SENATOR FAWELL:

Senator Kelly, I don't know about your side of the aisle, but it seems to me that our side of the aisle has always been very concerned about the hungry and...and I really object to that language. I mean, I don't know what people you're talking about don't give a darn, but...but it seems to me that that language is rather inflammatory and...and, you know, I personally would like to see a copy of the...of the resolution, and I would hope four of my colleagues would join with me and let's get a copy and take a look at this thing.

PRESIDENT:

Further discussion? Senator Newhouse.

SENATOR NEWHOUSE:

Thank you, Mr. President. I...I was just about to turn my light off. I'm...I'm concerned only about the...the language of the military and I...I don't quite understand why that's in there.

PRESIDENT:

Senator Kelly.

SENATOR KELLY:

Yes, Mr. President, I'm...I'm going to take this out of the record and I also intend to eliminate some of these whereases and hopefully...hopefully get everybody in this Body to support this resolution. Thank you.

SB 120 2nd Reading

PRESIDENT:

All right. Take it out of the record, Mr. Secretary. We are now...now having been...been on record in favor of starvation and against the military, we'll move on. On the Order of...page 2 of the Calendar, on the Order of Senate Bills 2nd Reading, we'll go down the list. 29, Senator Joyce. 39, Senator Hall. 50, Senator Sangmeister. 105, Senator Bloom. 120, Senator Lemke. On the Order of Senate Bills 2nd Reading, Senate Bill 120. Read the bill, Mr. Secretary.

REEL #3

SECRETARY:

Senate Bill 120.

(Secretary reads title of bill)

2nd reading of the bill. No committee amendments.

PRESIDENT:

Are there amendments from the Floor?

SECRETARY:

No Floor amendments.

PRESIDENT:

3rd reading. 132, Senator Luft. 139, Senator Rock. Read the bill, Mr. Secretary, please. Senator Carroll, with leave of the Body, will handle that...for me.

SECRETARY:

Senate Bill 139.

(Secretary reads title of bill)

2nd reading of the bill. The Committee on Appropriations I offers two amendments.

PRESIDENT:

Committee Amendment No. 1. Senator Carroll.

SENATOR CARROLL:

Thank you, Mr. President and Ladies and Gentlemen of the Senate. Committee Amendment No. 1 is a...is to correct a technical error in the title of the bill to reference the correct Public Act and I would move its adoption.

PRESIDENT:

All right. Senator Carroll has moved the adoption of Committee Amendment No. 1 to Senate Bill 139. Any discussion? If not, all in favor indicate by saying Aye. All opposed. The Ayes have it. The amendment is adopted. Further amendments?

SECRETARY:

Committee Amendment No. 2.

PRESIDENT:

Senator Carroll.

SENATOR CARROLL:

Thank you, Mr. President, Ladies and Gentlemen of the Senate. Committee Amendment No. 2 is an amendment to the State Board of Education's budget. This is based on its revised estimate of claims from local districts in the regular and special education funds. This would, therefore, because of the change, allow a freeing up of some eleven million four hundred thirty-two thousand which may now be allocated elsewhere in the budget. It is our proposal through Amendment No. 2 to therefore take all those special categoricals which we could not fund at the end of June of last year at a hundred percent level but had to, because of a lack of dollars, fund at less than a hundred percent and move those categories up to one hundred percent so that Special Ed., Extraordinary Orphanage Personnel, Private Tuition, Transportation would be funded at a hundred percent along with Voc. Ed. and downstate and Chicago Bilingual Gifted and Textbook reimbursement. I would move adoption of Amendment No. 2 which would reallocate the eleven million four hundred thirty-two thousand freed up in the State Board of Education's budget.

PRESIDENT:

All right. Senator Carroll has moved the adoption of Amendment No. 2 to Senate Bill 139. Any discussion? If not, all in favor indicate by saying Aye. All opposed. The Ayes have it. The amendment is adopted. Further amendments?

SECRETARY:

No further committee amendments.

PRESIDENT:

Are there amendments from the Floor?

SECRETARY:

No Floor amendments.

PRESIDENT:

Yes, there is a Floor amendment.

SECRETARY:

Amendment No. 3 offered by Senator Carroll.

PRESIDENT:

Senator Carroll.

SENATOR CARROLL:

Thank you, Mr. President, Ladies and Gentlemen of the Senate. At the request of the Office of the Governor there are three items that need funding as quickly as possible. One is to increase the appropriation on some fifty million dollars for the Lottery Fund for payment of prizes. That fund which we appropriate has run out of appropriation authority, so that if there is a major win in the lottery there would not be the money available to pay them by appropriation though the cash would be there. The second would be...be nine hundred twenty-five thousand for Federal Energy Grants for the poor who are in need of energy assistance. That amount was down to some four thousand dollars in the fund. There is nine hundred and twenty-five thousand of Federal money available that we need to get into the mainstream as quickly as possible. And the third is for Energy and Natural Resources to allow for a study for the super conducting super collider at Fermi Laboratory in Batavia. They need to get that underway by April 1st and this would be the funding mechanism for that. I would move adoption of Amendment No. 3.

PRESIDENT:

All right. Senator Carroll has moved the adoption of Amendment No. 3 to Senate Bill 139. Any discussion? Senator Lechowicz.

SENATOR LECHOWICZ:

Thank you, Mr. President. Will the sponsor of the amend-

ment yield to a question?

PRESIDENT:

Indicates he'll yield, Senator Lechowicz.

SENATOR LECHOWICZ:

The last portion that he just mentioned as for as making appropriation to the Department of Energy and Natural Resources to hire a consultant, is that five hundred thousand dollars for a consultant?

PRESIDENT:

Senator Carroll.

SENATOR CARROLL:

Yes, Senator Lechowicz, that is. That was the request that was made in the Governor's supplemental for five hundred thousand for the consultant for the consideration of siting the super conducting super collider. Now, I cannot answer what the super conducting super...collider is, but the institute that gets the contract is Illinois Institute of Technology, IIT, is writing the proposal.

PRESIDENT:

Senator Lechowicz.

SENATOR LECHOWICZ:

I totally concur with the concept and the necessity of trying to get that site into Illinois, I just wanted to point out that we're talking about five hundred thousand dollars in General Revenue Funds for a consultant. Now, I thought that was...IIT was working with the Governor's Office and also the group of businessmen that he has assembled to lobby Washington in reference to trying to get this site approved here in Illinois. And is this...have any...is any portion of the five hundred thousand dollars going to be used for that purpose?

PRESIDENT:

Senator Carroll.

SENATOR CARROLL:

Yes. It is my understanding...and, again, this the request of the Governor not of us, but it is my understanding that the funds will be used for IIT to do the study necessary to make the proposal to the U. S. Department of Energy to consider Fermi for this seventy-mile circumferenced super collider that allows the neutrons and protons to get together.

PRESIDENT:

All right. Further discussion? Senator Schaffer.

SENATOR SCHAFFER:

Mr. President, these are obviously items I think that were stripped out of Senate Bill 173 and they obviously are items of importance. But I would just remind the Body and those interested in the question that 173 has a number of items left in it that I think are of...of some time...tight time frame. I think immediately of the money involved for the Southworks in Chicago, the steel plant there that's been shut down, trying to get something moving there. I believe there's some unitary tax money in there owed to taxpayers of this State who will not receive their money because we're not moving at a...a fearfully fast rate, and that bill has any number of things in it that it was a...a...I agree that some of it is not of an emergency nature but we should not allow that bill to languish an undue time. We're going to be gone next week, I think we are making a little bit of a mistake that may come back to haunt us.

PRESIDENT:

Further discussion? Senator Fawell.

SENATOR FAWELL:

Thank you, very much, Mr. President. I rise in support of this motion. That five hundred thousand dollars is a drop in the bucket to what the other states are...are spending as far as trying to get that super conductor. If we can manage to get it, we will be talking somewhere in the...in the area

of three to four billion dollars worth of jobs brought to our State. There are some bourns that have to be made, there are some...some calculations that have to be done so we can present a...a picture that is a...a whole and pristines to our...to our governors and to our...to our President, and I certainly would hope that everyone would...would see the wisdom of voting for this amendment.

PRESIDENT:

All right. Any further discussion on Amendment No. 3? If not, Senator Carroll has moved the adoption of Amendment No. 3 to Senate Bill 139. No further discussion? All in favor indicate by saying Aye. All opposed. The Ayes have it. The amendment is adopted. Are there further amendments?

SECRETARY:

No further amendments.

PRESIDENT:

3rd reading. 145, Senator Carroll. 160, Senator Welch. On the Order of Senate Bills 2nd Reading, bottom of page 2, is Senate Bill 160. Read the bill, Mr. Secretary.

PRESIDENT:

Senator Fawell, for what purpose do you arise?

SENATOR FAWELL:

I would...thank you, Mr. President. I would like to add...Senator Lechowicz and Senator Vadalabene as cosponsored to Senate Bill 8. I...I'm sorry, Senate Bill 7. And I would like to rerefer Senate Bill 7 from...Higher Ed. to the Senate Executive and Veterans' Affairs Committee. This is with the agreement of Senator Newhouse who is the chairman of Higher Ed. and Senator Lechowicz who is the chairman of...of Senate Executive Appointments.

PRESIDENT:

Well, that...that motion is out of order until the chairman of Assignment of Bills Committee takes a look at that. Senator Barkhausen, for what purpose do you arise?

SENATOR BARKHAUSEN:

Mr. President, to request leave of the Body, which I have already obtained from Senator Jeremiah Joyce, to be added as a cosponsor on Senate Bill 36, please.

PRESIDENT:

All right. The gentleman seeks leave to be added as a cosponsor on Senate Bill 36. Without objection, it's so ordered. Senator Demuzio, for what purpose do you arise?

SENATOR DEMUZIO:

Yes, thank you, Mr. President. I have spoken with Senator Savickas who is the chairman of the Committee on Assignment, and Senate Bill 263 that was introduced this morning, the emergency farm credit bill, was assigned to the Senate Executive Committee and he has agreed that that bill should go to the Senate Ag. Committee. So my motion would be to discharge the Committee on the...Senate Executive Committee of further consideration of Senate Bill 263 and ask that that bill be rereferred to the Senate Ag., Conservation and Energy

Committee.

PRESIDENT:

All right. Senator Demuzio has moved that the Senate Executive Committee be discharged from further consideration of Senate Bill 263, that the bill be rereferred to the Senate Committee on Agriculture. All in favor indicate by saying Aye. All opposed. The Ayes have it. The motion carries and its so ordered. Senator Demuzio.

SENATOR DEMUZIO:

Yes, because of the emergency nature of Senate Bill 263 and the emergency farm credit, I have asked Senator Joyce, who is the chairman of the Senate Ag. Committee, if it might be possible to have a emergency hearing on this bill tomorrow, and he has indicated that he intended to do that. And, therefore, I would ask that the appropriate rules be waived that Senate Bill 263 could, in fact, be heard...tomorrow at eleven o'clock on the Senate Floor in the Committee on Agriculture, Conservation and Energy.

PRESIDENT:

All right. The motion is to waive the appropriate posting notice and the other rules and call for an immediate hearing tomorrow morning in the Senate Agriculture Committee on Senate Bill 263. Any discussion on that motion? All right. All in favor of the motion to suspend indicate by saying Aye. All opposed. The Ayes have it. The...the rules are suspended and Senate Bill 263 will be heard in the Senate Agriculture Committee tomorrow morning at eleven o'clock here on the Senate Floor. Senator Watson, for what purpose do you arise?

SENATOR WATSON:

Thank you, Mr. President. I'd like to be added as a hyphenated cosponsor of Senate Bill, was it 263? Could I have leave of the Body to do that?

PRESIDENT:

The...the farm bill.

SENATOR WATSON:

Yes.

PRESIDENT:

263. The gentleman seeks leave to be added as a cosponsor. Is leave granted? Leave is granted. Senator Netsch, for what purpose do you seek recognition?

SENATOR NETSCH:

At the appropriate time, I have an...an announcement about the Revenue Committee.

PRESIDENT:

All right. We're just about finished here. Resolutions, Mr. Secretary.

SECRETARY:

Senate Resolution No. 60 offered by Senators Jerome Joyce and O'Daniel.

PRESIDENT:

Senator Joyce.

SENATOR JEROME JOYCE:

Yes, thank you, Mr. President. I would move to suspend the rules for the immediate consideration of...Senate Resolution No. 60.

PRESIDENT:

The gentleman has sought leave to suspend the rules for the immediate consideration of Senate Resolution 60. Any discussion on the motion to suspend? If not, all in favor indicate by saying Aye. All opposed. The Ayes have it. The rules are suspended. Before the Body now is Senate Resolution 60, Senator Joyce.

SENATOR JEROME JOYCE:

Yes, thank you, Mr. President. It's a short resolution and I'll read it. It...it also is dealing with the farm credit problem and this says,

(Senator Jerome Joyce reads SR 60)

PRESIDENT:

All right. Senator Joyce has moved the adoption of Senate Resolution 60. Any discussion? Senator Netsch.

SENATOR NETSCH:

One question, the...that bill, as I understand it, Senator Joyce, is on the...is on the President's Desk right now. Is that correct?

PRESIDENT:

Senator Joyce.

SENATOR JEROME JOYCE:

Yes, that is correct. It passed...well, as a matter of fact, it's supposed to be going to the President's Desk today. It is going through the House.

PRESIDENT:

Senator Netsch.

SENATOR NETSCH:

Well, I realize I do not represent the largest agricultural Senate district in the State of Illinois, although we do have a lot of window boxes in some of our apartment buildings. But, it seems to me that anyone who is an Illinoisan is totally aware of how dependent this State is on agriculture. The farm credit bill that was passed is critical not just to our farm community in the State but to all of us in the State. And it seems to me that not only should this resolution pass but that it ought to be...the resolution ought to be marched right down to the Governor's Office on the second floor and he ought to be asked to get on the telephone, like this afternoon, and talk to the President. He was, after all, as the resolution indicates, the...the President's Campaign Manager in Illinois and he often tells us how he is able to talk to the President about very sensitive issues. I cannot think of an issue more sensitive, and it seems to me all of us as representatives of the entire population of the State ought to encourage, indeed urge,

beseech the Governor to get on the telephone today and talk to the President about this bill. I would strongly support the resolution and would ask that it be carried downstairs.

PRESIDENT:

Further discussion? Senator Joyce has moved the adoption of Senate Resolution 60. All in favor indicate by saying Aye. All opposed. The Ayes have it. The resolution is adopted. Further business to come before the Senate? Senator Hall.

SENATOR HALL:

I'd like to announce that the Appropriation II will meet immediately. It's going to be very short.

PRESIDENT:

Appropriations II immediately in Room 212. Senator Netsch.

SENATOR NETSCH:

Thank you. The Revenue Committee was scheduled for 10:00 a. m. tomorrow morning. There are several briefings on the Governor's Budget that are scheduled at...one at nine-thirty and one at ten and covering all the members of the Revenue Committee, and it occurred to me that the members would like an opportunity to participate in those briefings. What we have done, and this is with Senator Etheredge's concurrence, is as follows. The Revenue Committee will meet at eleven o'clock tomorrow. Director Johnson will be before us for several of the items that we have asked him to report on, including an update of the amnesty program. We will not hear any of the bills tomorrow, we will not have time in that hour's period, and we will reschedule that meeting for Tuesday the 19th when we return at four o'clock in the afternoon. We will meet again at eleven for the purpose of hearing Director Johnson and those matters that we have asked him to report to us on. Thank you.

PRESIDENT:

Further announcements? Senator Collins.

SENATOR COLLINS:

Yes, I...I would like to announce that the Labor Committee will meet immediately following the Session, and we should be about five minutes. If you hurry to the Stratton Building, A-1, you should be out of there in five minutes. But, please, all of the members, I would like very much for you to be there.

PRESIDENT:

All right. Labor and Commerce immediately upon adjournment in Room A-1. Senator Kelly.

SENATOR KELLY:

Thank you, Mr. President. The Elections and Reapportionment Committee will have a meeting tomorrow morning at 10:00 a. m. in Room A-1. Appreciate very much the members attending that and the sponsors, of course, of their legislation. Thank you.

PRESIDENT:

All right. That's four...three committee meetings tomorrow morning plus the briefing. Do not forget the Joint Session at noon. Senator Luft moves that the Senate stand adjourned now till Wednesday, March 6th, at the hour of eleven forty-five. We'll come in at quarter to twelve and go over to the House at noon for the Joint Session. The Senate stands adjourned until eleven forty-five tomorrow morning.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Rock.

SENATOR ROCK:

Thank you, Mr. President. Ladies and Gentlemen of the Senate, Senate Joint Resolution 20 is the adjournment resolution. When we conclude our business today, and I hope very shortly, it calls for us to return to Springfield on Tuesday, March the 19th, at the hour of noon. We will not be here next week at all. The 19th of March. So I would move to suspend the rules for the immediate consideration and adoption of Senate Joint Resolution 20.

With leave of the Body, we'll add Senate Resolution 61 to the Resolutions Consent Calendar. Is leave granted? Leave is granted. Senator Poshard now moves the adoption of the Resolutions Consent Calendar. Those in favor signify by saying Aye. Opposed Nay. The Ayes have it. The Resolutions Consent Calendar is...is adopted. Senator Rock, for what purpose do you arise?

SENATOR ROCK:

Thank...thank you, Mr. President, Ladies and Gentlemen of the Senate. With leave of the Body, I'd ask that we go to the Order of Senate Bills 3rd Reading. Senate Bill 139 contains a number of appropriations of an emergency nature, and I am told also that they are without objection. And I think in order to move the process along, the State Treasurer has indicated that the amount appropriated for him is of an emergency nature as is the lottery money which was added by amendment by Senator Carroll yesterday. So with leave of the Body, I'd like to go to that order and get that bill out of here.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. With leave of the Body, we'll go to Senate bills on...on 3rd reading. Is leave granted? Leave is granted. Mr...Secretary, on page 2 is Senate Bill 139. Read the bill.

SECRETARY:

Senate Bill 139.

(Secretary reads title of bill)

3rd reading of the bill.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Rock.

SENATOR ROCK:

Thank you, Mr. President and Ladies and Gentlemen of the Senate. Senate Bill 139 is a supplemental appropriation and as amended it would appropriate fifty-one million four hundred and forty thousand dollars; fifty million of which is for lottery prizes, which the superintendent tells us he needs in hurry. There's a five hundred thousand dollar appropriation to begin the commitment to the super conductor, super collider. There's a nine hundred thousand dollar appropriation to the Department of Energy and Natural Resources for homeowner loans, and the bill as it started out, the main provision, obviously, is the fifteen thousand dollar appropriation to pay the interest on the coal development bonds which the Treasurer says he needs by the middle of April. And additionally, we have taken an eleven million dollar amount that the State Board of Education suggested could be reallocated and we have reallocated that...along the lines for the categorical grants so that they are in fact each will be funded at a hundred percent. I know of no objection and I would solicit a favorable roll call.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Any discussion? Any discussion? If not, the question is, shall Senate Bill 139 pass. Those in favor will

vote Aye. Those opposed vote Nay. The voting is open. Senator Rock. Have all voted who wish? Have all voted who wish? Have all voted who wish? Take the record. On that question, the Ayes are 44, the Nays are none, none voting Present. Senate Bill 139 having received the required constitutional majority is declared passed. All right. With...all right. With leave of the Body, we'll return to introduction of bills. Is...leave granted? Leave is granted. Introduction of bills, Mr. Secretary.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Senator Davidson. Senator Davidson, for what purpose do you arise?

SENATOR DAVIDSON:

To ask...excuse me. To ask for excuse for Senator Geo-Karis who is convalescing at home from the aftermath of pneumonia and expects to be here when we come back in the middle of March.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. The record will so indicate. Further business to come before the Senate? Senator Philip, for what purpose do you arise?

SENATOR PHILIP:

Thank you, Mr. President, Ladies and Gentlemen of the Senate. I'd like the record to indicate that Senator Geo-Karis is home from the hospital and convalescing.

PRESIDING OFFICER: (SENATOR DEMUZIO)

The record will so show twice. Any further business to come before the Senate? All right. Senator Rock moves that the Senate stand adjourned till the hour of twelve noon, March 19th. Whoops...Senator Rock. Senator Rock...

PRESIDING OFFICER: (SENATOR SAVICKAS)

For what purpose Senator Netsch rise?

SENATOR NETSCH:

Thank you...thank you, Mr. President. Just while we are in limbo, if I might take care of a housekeeping matter, with the permission of the sponsor, I would like to be shown as a hyphenated cosponsor of Senate Bill 249.

PRESIDING OFFICER: (SENATOR SAVICKAS)

You've heard the motion. Any discussion? If not, those in favor indicate by saying Aye. Those opposed. The motion carries. What purpose Senator Vadalabene rise?

SENATOR VADALABENE:

Yes, since there's a little pause in the action here, I would like to have my name removed from Senate Bill 233 and Senate Bill 101, and I would like to be put as the sponsor on Senate Bill 263. Thank you.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Is there any discussion? You've heard the motion. Those in favor indicate by saying Aye. Those opposed. The Ayes have it. The motion carried. Senator Vadalabene, on 263, was that cosponsor or are you asking to be the chief sponsor?

SENATOR VADALABENE:

No, hyphenated.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Rock.

SENATOR ROCK:

Thank you, Mr. President and Ladies and Gentlemen of the Senate. If I can have the attention of the membership for just a moment...thank you. There are a number of bills that have been filed for introduction and I think, next, we will go to that order to allow the members an opportunity to recognize the fact that it is St. Joseph's Day and in that spirit, Senators Nedza and Lechowicz and Lemke and others have provided...what should I say, St. Joseph Fair. A St. Joseph table for...to which they invite everybody to partake. They are cooking...for those of you haven't been in the back

of the Chamber, they are cooking in my office and you can't miss the...aroma. So, that I'd suggest during the course of the introduction...and please don't leave yet, during the course of introduction, you may want to go back and avail yourself of their hearty fair and grab a sandwich. Then, we will go to the Committee of the Whole. Senator Berman and Senator Maitland have a number...I guess two, at least, witnesses who are prepared to discuss educational reform and respond to your questions. Allow me, if I can get their...their attention, Mr. President, allow me to say I apologize for starting late. I just returned from Detroit where I was privileged to be a member of a delegation meeting with the chairman of the board of General Motors and the new president of the Saturn Corporation; and as one of sixteen individuals representing business and labor and government and politics in this State, we left for Detroit at seven-thirty this morning and just returned, and I...had the opportunity to represent all of you and I will share with you, obviously, this afternoon the written materials which were presented, but I think it's fair to say that we were extremely well received. The group was called together by Dan Rostenkowski...Congressman Rostenkowski who is the chairman of the Ways and Means Committee and we had the presidents of banks and utility companies and Representative Daniels and I...from the House represented the General Assembly and Director Woelffer flew back from China to represent the Governor; and I think, in general, we visited with the GM people for in excess of an hour and toured their newly automated and newly built plant in Detroit, and I think we made a presentation, the likes of which, at least in Chairman Smith's words, he had not received from anyone, and I think the array of people that were assembled and each of us had something to say truly impressed them. Our information is that they will be prepared to make an announcement...final

selection, if you will, in mid-June or certainly by the first of July. So, I think I can represent without fear of contradiction to all of you that our State has been very ably represented. We have presented the hard data to them in terms of tax advantage and tax incentive and programs we are prepared to move forward with, obviously, stressing the centrist nature of our State in terms of transportation and energy resources. All in all, it was well received and I hope you will be hearing a lot more about it. They are most welcome, obviously. So, if we can, Mr. President, I think the proper moment is now for introduction; and on behalf of those who will be providing the food, I wish you all a very happy St. Joseph's Day and then we'll get on with the Committee of the Whole.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Before we go to that, Mr. President, we do have Ann Fink and WICS, they request permission to tape the Senate Session today. Is leave granted? Leave is granted. We have Senator Newhouse that sought recognition. Senator Newhouse.

SENATOR NEWHOUSE:

Thank you, Mr. President. I have asked permission of the sponsor of Senate Bill 191, Senator Netsch, and been granted permission to be a hyphenated cosponsor on that bill.

PRESIDING OFFICER: (SENATOR SAVICKAS)

You've...you've heard the motion. Is leave granted? Leave is granted. Senator Fawell.

SENATOR FAWELL:

Thank you. I would like to see Senator...Judy Barr-Topinka as cosponsor of Senate Bill 109...hyphenated with me.

PRESIDING OFFICER: (SENATOR SAVICKAS)

...Senator Topinka. She's not sure, Senator. Senator Demuzio. Senator Zito. Senator Zito, oh...

SENATOR ZITO:

Thank you, Mr. President. At the proper time, I'd ask leave of the Body to add Senators Kustra, Nedza, Vadalabene and Poshard as cosponsors of Senate Bill 172.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Is leave granted? Leave is granted. Senator Smith.

SENATOR SMITH:

Yes, Mr. Chairman, I beg leave to ask that the name of Senator Emil Jones be placed as hyphenated sponsor on Senate Bill 75.

PRESIDING OFFICER: (SENATOR SAVICKAS)

You've heard the motion. Is leave granted? Leave is granted. Senator Demuzio.

SENATOR DEMUZIO:

Yes, with leave of the Senate, I'd like to have Senator Dunn added as a hyphenated cosponsor of Senate Joint Resolution 9...hyphenated.

PRESIDING OFFICER: (SENATOR SAVICKAS)

You've...you've heard the motion. Is leave granted? Leave is granted. Senator Fawell.

SENATOR FAWELL:

I'm sorry, would you...correct that to Senate Bill 107? Judy Barr-Topinka.

PRESIDING OFFICER: (SENATOR SAVICKAS)

You...you've heard the motion. Senator Fawell seeks leave to have Senator Topinka placed on as a hyphenated cosponsor of Senate Bill 107. Is leave granted? Leave is granted. Senator DeAngelis.

SENATOR DeANGELIS:

Thank you, Mr. President. I would like to point out to the members of the Senate, on this St. Joseph's Day,... (Italian phrase)...and I just want to say that it's an extremely important Italian holiday, and I would like to add my name to this...this little circular that's being circulated around.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Your name will be added, Senator DeAngelis. Senator Newhouse.

SENATOR NEWHOUSE:

I just want to tell the Senator, I understood him a little better the first time around.

Executive. Senator Coffey, for what purpose do you arise?

SENATOR COFFEY:

Thank you, Mr. President. I'd like to have leave to be added as a hyphenated sponsor on Senate Bill 262.

PRESIDENT:

262, the gentleman seeks leave to be added as a hyphenated cosponsor. Without objection, is leave granted? Leave is granted. All right, can we take the caucuses off the Floor and I'd ask the members to please take their seats. Senator Maitland, for what purpose do you arise, sir?

SENATOR MAITLAND:

Thank you, very much, Mr. President and Ladies and Gentlemen of the Senate...of the Senate. I would...would move at this time that the Senate resolve itself into a Committee of the Whole.

PRESIDENT:

All right, Senator Maitland has moved that the Senate resolve itself into a Committee of the Whole for a special order of business, again, to consider the issues of education reform and education funding. Any discussion? If not, all in favor of the motion indicate by saying Aye. All opposed. The Ayes have it. The motion carries. I'd ask the members to please be in their seats...the members will please be in their seats. The Chair has requested of Senator Berman and Maitland that we attempt, at least, to hold this discussion at this time, there will be other opportunities...about an hour so that those of you who have committees and witnesses awaiting to appear figure on the committees starting around two-thirty. All right, the motion is carried. The Chair will now yield to the chairman of the Elementary and Education...Elementary and Secondary Education Committee of the Senate, Senator Arthur Berman. Senator.

MR. CHAIRMAN: (SENATOR BERMAN)

Thank you, Mr. President. Ladies and Gentlemen of the Senate, the Committee of the Whole is now in order. Today we will be hearing reports on two...commission reports that have addressed the issue of education reform in Illinois, the Commission on the Improvement of Elementary and Secondary Education and the Illinois Project for School Reform. Following today's Committee of the Whole, we have two more Committee...of the Whole Sessions scheduled; one on March 26th where we will hear testimony from Reg Weaver, president of the Illinois Education Association; Bob Healy, president of the Illinois Federation of Teachers; Doctor Paul Young, president of...of the Illinois Association of School Adminis-

trators and Joan Leavy, president of the Illinois Association of School Boards and we will have a concluding Committee of the Whole meeting on April 10th. It is my pleasure at this time to introduce Senator John Maitland of the 44th District who was elected to the Illinois Senate in 1978. He is the Minority Spokesman on the Senate Committee on Elementary and Secondary Education and was a member of the Illinois Commission on the Improvement of Elementary and Secondary Education. He is vice-chair of the Agriculture Food Policy and Nutrition Committee of the National Conference of State Legislators. He is active in the...central Illinois as the president of the Illinois Wesleyan University Board of Directors and numerous other community and civic organizations. In 1984, Senator Maitland was presented with the Friend of Eduation Award and he did yeoman service on the Commission on the Improvement of Elementary and Secondary Education. Senator Maitland.

SENATOR MAITLAND:

Thank you, very much, Senator Berman, my colleagues in the Senate. If "A Nation at Risk" did anything at all for this nation, it once again put education back on the front burner. For all too long the enthusiasm for education across this nation was dwindling and, indeed, the quality of education was dwindling also. That report called..."The Nation at Risk" report called for some far-reaching changes in education. As a consequence of that, the Legislature, the General Assembly of the State of Illinois, created Senate Joint Resolution 61, in 1983, to react to those charges, to build on what Illinois had that was very good in education and do away with what we had that was not very good. The commission set about the task of holding a number of hearings across the State and the report has been presented to the General Assembly. I'm proud to have served on that commission. I see the young people in the galleries today and I think about what

we...truly need to be committed to in...in Illinois. This year can be the year for educational reform. I am convinced of that. Senator Rock referred to the GM plant, the Saturn plant, the possibility of getting it in the State of Illinois. Just this morning, driving down here, the president of GM said on the radio that tax incentives weren't the only determining factor for coming into a state. The quality of their educational program was a part of this decision making process also. Yes, 1985 can be the year for educational reform. We're proud and pleased to present this report to you this afternoon, allow you to view it and listen carefully to it and, hopefully, this will be the year for reform in Illinois. Thank you, very much.

MR. CHAIRMAN: (SENATOR BERMAN)

Thank you, Senator Maitland. At this point, I wish to introduce our colleague, Senator Joyce Holmberg of the 34th District who was elected in November of 1982. She is the vice-chair of the...Senate Committee on Elementary and Secondary Education and serves on the Committees of Higher Education, Local Government and both Appropriations Committees. For the 1985 Session, she will also serve as vice-chair of the State Infrastructure Committee. She is also a member of the Legislative Study Group of Children and Family, the Committee on the Status of Women and Council of Women Legislators. She has worked ardently on behalf of the report of the commission and I'm pleased to present at this time for remarks, Senator Joyce Holmberg.

SENATOR HOLMBERG:

Thank you, Mr. Chairman, colleagues. As a member with Senator Maitland on the Commission on the Improvement of Elementary and Secondary Education, I had the privilege of serving with other colleagues here in the Senate; Senator Davidson, Senator Etheredge, Senator Newhouse and, of course, Chairman Berman who co-chaired, with Representative Dick

Mulcahey, the commission which so ably brought its report to all of you. I think one of the significant things about the commission is the makeup of the commission as it was voted in the Senate resolution. The twenty members, I think, represent some of the most significant thinking in education in the State. Senator Rock, as President of the Senate, and Speaker Madigan chose the educational leadership of the Senate and the House. Representative Gene Hoffman, head of the School Problems Commission, chose five members of the School Problems Commission and Governor Thompson had the foresight to pick some very creative members with his choices; such as, Sarina Bellmann, the issues analyst of Illinois Bell; Doctor Bob Goodall, who is head of in-service training at Illinois State University; Doctor Orley Herron, the president of the National College of Education; Bud Thompson, from the State Board of Education and Reg Weaver, head of the IEA. Those members worked very diligently. Beginning September 1st, 1983, they decided to hold thirteen commission hearings around the State in Springfield, Grayslake, Carbondale, Glen Ellyn, Moline, Champaign, Flossmoor, Rockford and several in Chicago. This was a key decision because I have long felt, as did the members of the commission, that the schools belong to the people. So, when you're talking about improvement and you're talking about reform, it's time to go to the people. What we did is we went in a body and it was not uncommon to see fifteen to eighteen of the twenty members at any given hearing, and when we...were in a school auditorium, the auditoriums would be packed and the commission members were curtain to curtain on the stage. We then met to write the document together, and Serina Bellmann gave us a great deal of help, and word for word, we approved the wording based on what we had heard from the public. What had happened over those one and a half years is that we had been able to absorb and then finally

articulate what the public had told us; and, basically, in this document, we have made them an offer they can't refuse, because we have given to them what they told us, and I think we should be able to win the public and all of your constituents' support in the funding of what is needed in the way of improvement of education. It's a consensus document, it's a strong foundation upon which the Senate can build its work in education this year and I, like Senator Maitland, support the commission report.

MR. CHAIRMAN: (SENATOR BERMAN)

Thank you, Senator Holmberg. There has been distributed to all of the members of the Senate the report of the Illinois Commission on the Improvement of Elementary and Secondary Education. The resolution which created the commission called on the State Board of Education to provide the necessary staff support for the commission's deliberations. Mrs. Gail Lieberman served as the contact person for the Illinois Commission along with other persons on the staff of the State Board of Education, but Gail did a yeoman job in organizing and carrying out all of the staff duties, ninety percent of it, for the commission. She has been with the Illinois State Board of Education since 1971, was a teacher prior to joining the State agency. All of us on the commission have saluted Gail for her dedication and talent, and I'm very pleased to introduce her to the Senate today to present the report of the Illinois Commission on the Improvement of Elementary and Secondary Education. Gail Lieberman.

GAIL LIEBERMAN:

Mr. Chairman and members of the Senate, thank you for the opportunity to present information today about the Illinois Commission. As a member of the State Board of Education, I was assigned to assist the commission with the implementation of Senate Joint Resolution 61. Senator Maitland has already noted the need for and the background of the commission.

Many of the conditions deplored in the national reports have already begun to improve. The real issue, therefore, is not the rising tide of mediocrity, since that tide has already begun to recede, but rather, what we must do to build on the schools' recent start toward self-improvement. Senator Holmberg noted the public hearings. The public was asked to address select theme questions and those questions were key. They were: How adequate are the State's expectations for instructional standards and pupil performance across all ages? How should time in school be specified to assure effective instruction and meet our expections? How can we recruit, educate, retain and reward more good teachers and educational administrators? and finally, How can we assure that our schools are adequately preparing youth for higher education and/or the public/private employment sector? The State's responsibility to adequately fund public education was of concern to all of the members. Discussion of school finance, however, was deferred in order to have the recommendations for improvement drive the need for school finance. Upon completion of the hearings, the commission reviewed the testimony received from the public. The testimony, as you've heard from Senator Holmberg, reflected the care and concern of Illinois citizens about the quality of education in our State and their desire to be involved in the process of improving education for all school children. The commission recognized there would be a price tag to the recommendations and discussed the fact that future support for public education, both financial and political, would depend, in large part, on public education's willingness to assume a greater level of accountability. The hearings were open, yet certain points of view were specifically solicited, hoping to hear from the business and education and instructional community, the university sector, parents and a number of others. The commission heard from more than three hundred and fifty

groups and individuals which represented many Illinois citizens. Those who participated, as you heard described, in these open dialogues realized soon that they were give-and-take and not just a usual hearing and the opportunity for questions by all the commission members was present. You as members of the Illinois Senate also heard from the commission periodically. There were individual letters to all of you last March regarding the mid-point status and progress and then again later on regarding the preliminary and final report. After the initial round of hearings, members deliberated on the theme questions I mentioned earlier and then the public recommendations. The result last July was a document called, "Excellence in the Making: A Preliminary Report" and the document was circulated widely. Following that document's distribution, two more public hearings were held in Springfield and Chicago in order to obtain citizen comment on those preliminary recommendations and, finally, to hear suggestions on school finance. The mission, as mentioned by Senator Maitland, was to report findings and suggest necessary legislation to improve education in Illinois. After fourteen public hearings, a preliminary report and much deliberation, you now have that final report, "Excellence in the Making." The suggestions for necessary legislation are embodied within that report. Let me share with you some of the specific findings and recommendations. In traveling throughout Illinois the commission heard that the quality of our State's public school system must be significantly improved, and that we must renew our commitment to excellence in education. Towards that end, it has fashioned recommendations in three areas: instructional programs, personnel and organization of the schools. The recommendations will require action, as specified in the report, by the State and/or by local school district. The major recommendations are: students will

demonstrate academic proficiency at grades three, six, eight and ten, according to State criteria; the school district will regularly and thoroughly evaluate and assist teachers in their teaching role; teacher salaries will be raised in order to both retain current competent staff and attract new and capable beginning staff; and that administrators must meet standards for...recertification every five years. The commission feels that the ability of the State to establish reasonable goals for schooling is perhaps the most important contribution it can make to the improvement of student learning. There is dissatisfaction with Illinois' present system of setting educational priorities only through course requirements or mandates for schools. The present system fails to clearly outline the State's compelling interest in education. Commission members believe that schools must be held accountable for the academic progress of students. The commission recommends: identifying the primary purposes of schooling and the use of resources consistent with this purposes; requiring local assessment systems and public reporting; encouraging full day kindergarten programs; having programs to prevent at-risk youth from dropping out and expanding options for high school pupils who don't adjust to the regular school program; and having a process to commend those top-achieving school districts in Illinois. With regard to specific personnel recommendations, the commission feels that you improve the quality of education by starting with those who provide the service. It recommends: requiring staff development programs and continuing individual professional education for all teachers and administrators; requiring administrative recertification every five years; supporting scholarships and internships for women and minorities in administration; raising the statutory minimum salary for beginning teachers to twenty thousand dollars by 1987-88 and also improving the salaries to retain current competent

teachers; developing a recognition process for outstanding staff performance; meeting performance requirements in basic skill areas prior to entering teacher training; passing an examination prior to receiving initial certification; establishing criteria for regular evaluation of all personnel; training administrators regarding effective personnel evaluation and remediation processes; and awarding scholarships in the areas of teacher shortages. One of the many national reports viewed by commission members was called, "Beyond the Commission Reports: The Coming Crisis in Teaching." That document opened with the following want ad. "Wanted: College graduate with academic major, masters degree preferred. Excellent communication and leadership skills required. Challenging opportunity to serve a hundred and fifty clients daily, developing up to five different products each day to meet their needs. This diversified job also allows the employee to excercise typing, clerical, law enforcement and social work skills between assignments and after hours. Adaptability helful, since suppliers cannot always deliver goods and support services on time. Typical work week forty-seven hours. Special nature of work precludes fringe benefits such as lunch hour or coffee breaks, but the work has many intrinsic rewards. Starting salary twelve thousand seven hundred dollars, with a guarantee of twenty-four thousand dollars after only fourteen years." The conditions described in this want ad depict many of our current teaching assignment and the commission echoes those who say that a society that generally fails to adequately pay members of the teaching profession is implying that that occupational class which educates our children is of less importance than other professions. The report also stresses a need for Illinois school districts to provide a more efficient operation of local schools. This was a familiar theme to many of the members. The allocation of responsibilities among the various

levels of the educational system is unnecessarily confusing and contributes to inefficiency in the planning and delivery of education. Consolidation and streamlining of regional structures would be in the interest of local school district. The report recommends reviewing and proposing a more productive service delivery system; local review of local school size and district organization; recognizing effective schools; and a local review of the school day and year to maximize time available and emphasize academic learning. In summary, the commission concludes that the State Board of Education should prepare an annual report to the General Assembly and Governor on the status of education in Illinois, specifically identifying problems and recommending solutions; and that the commission should reassemble in three years to assess the outcome of these recommendations and comment to the General Assembly, Governor and the public. These recommendations and much more are contained in "Excellence in the Making," and I'd ask, if the Pages haven't done so already, to make sure that the copies of the report are distributed. The report was issued in January of 1985 to each of you, individually, and to Governor Thompson, and then released to the general public. To date, more than fifteen thousand copies of the report have gone out, plus over a hundred copies of the half-hour videotape on the commission. Let's talk about money. The commission asked staff to cost out the recommendations. Staff of the State Board of Education presented a lengthy paper and reviewed with the commission the items and assumptions behind Appendix E which is the cost chart located near the end of the commission report. The commission also heard from the Bureau of the Budget and the Economic and Fiscal Commission, and staff of the General Assembly Revenue Committees were also asked to prepare information on potential revenue options. The commission, with that background information, now has estimates of the

necessary costs. Without reprioritizing local and State activities or funds, it will take an additional two hundred and twenty-five million in Year One at the State level for these reforms. It was acknowledged by all that the State will need to raise additional revenue. The commission recommends increasing the income tax to a level required for the support of these educational reforms. It recommended no specific amount of increase. The media has covered well the various reform reports, beginning with "A Nation at Risk" and accelerating the pace of information to the public. Coverage at the local and national level on the rising tide of reports is making the public aware of issues in instructional reforms, personnel and school finance. One of the latest educational pieces was a series of editorials by the Chicago Tribune. The first editorial opened with: "If Illinois' public schools are ever going to improve, this is the year to set changes in motion." The final editorial in the series of four concluded with: "The danger is that in its eagerness to avoid increasing income taxes, the General Assembly will settle for raising teachers' pay in exchange for only token reforms. The extra money will sink into salary scales and nothing will change. That would be a dismaying waste of the efforts of thousands of committed people who have worked on the reform reports, of public sentiment for education change and of the irreplaceable years in the lives of children who depend on the public schools for their future." The commission's report was entitled "Excellence in the Making." That title was also the result, like the recommendations, of much discussion and reflects the perception that Illinois education is good and could be better. The report began with a quotation from John Gardner. Let me end with one now. He noted that, "Those who achieve excellence will be few at best," but added that, "many more can achieve it than do now," and that society benefits not only from those who

achieve excellence but also from those who strive for it. It was the commission members' hope that the General Assembly could work towards a single major package on educational improvement between January and June. Members have pledged their effort towards that goal, towards excellence in education in Illinois. The commission urges you to seek meaningful educational improvement in Illinois. It's time to stop talking. It's the season of decision. Thank you for the opportunity...to present today.

MR. CHAIRMAN: (SENATOR BERMAN)

Thank you, Gail. What...because of our time restrictions, I'm going to ask Gail to stand by and have the report from Doctor Bakalis and then we'll open it for questions for either or both of the presentors. Doctor Michael Bakalis has had a distinguished career in education and government affairs. He served as Superintendent of Public Instruction from 1970 to 1974, State Comptroller from 1976 to '78 and was a candidate for Governor in 1978. In...in addition to a distinguished career in teaching at Northwestern University, Doctor Bakalis also served as undersecretary for intergovernmental affairs in the Department of Education during the Carter Administration. His most recent undertaking has been as executive director of the Illinois Project for School Reform. It is a pleasure to have him here today before the Illinois Senate to speak...to the issues contained in his report, "Education for a New Illinois." Doctor Michael Bakalis.

DOCTOR MICHAEL BAKALIS:

Thank you, Mr. Chairman, President Rock, Ladies and Gentlemen of the Senate. First of all, I appreciate the opportunity to be before you and share with you our ideas on school reform from the Illinois Project for School Reform. I think it is a fine idea to give this kind of a forum to all of the individuals who are involved in this impor-

tant...important endeavor this year. And secondly, to congratulate the...the Senate and the House for their Legislative Commission report. It is a fine report and I hope as we go through these next few months in this State that we are not holding one against another but recognizing that so many people in this State have worked together on a common interest that I think all of them have something worthwhile to say, so I do congratulate the Legislative Commission on...on what they have...what they have done. President Reagan, about two years ago, initiated what may in retrospect be perhaps the most significant educational reform effort in this century. I think that is significant because if you think about that report entitled, "A Nation at Risk," what strikes me about that report is that it stimulated a flurry of activity for school reform across this country. In fact, over three hundred commissions and boards across this country to improve our schools, it stimulated that activity without one penny being offered by the Federal Government and without any kind of sticks being offered over the heads of school people. In other words, the President stimulated activity in thinking about schools by recognizing that the time had come and by providing the kind of moral leadership that a President ought to provide. I think that's an important lesson in 1985, because in our project, which is the result of the sponsorship of the private sector of this State, our project recognizes that so much of education can be improved without money as well...as the substantial needs of money for the public schools. So, we want to make that clear in the beginning. We believe the schools need money, but we believe the schools need much, much more than money; they need the opportunity for creativity, they need the opportunity to stretch people's minds to really identify talent and to allow men and women to really reach their potential. What we are saying is that the twenty year history of our country, from 1965 to

today, has seen the gradual escalation of decision making power in education to higher and higher and higher levels. We think in many ways that's been good. It's unlikely, for example, that schools would have been desegregated had things been left only to local people. It's unlikely that bilingual education would have been provided to young men and women if things had only been left to local people. It's unlikely that we would have been provided opportunities for special education if it had not been for bodies such as this and State agencies, but we think we have to really balance that and recognize that when it come to the academic learning side of things, the record of taking decision making power away from local people has not been quite as good; and so the major recommendation of our report is that we need, in whatever way we can, to restore local control to people, to recognize that men and women at the local level have the ability and have the talent working in conjunction with teachers and students and community people to deal with these problems. So, what I am suggesting to you, ladies and gentlemen, is that you have a very important role to play as a Legislative Body, but it may be a role different than what we have played in the past and that the role today, in 1985 and beyond, may be really for you to act as stimulators and encouragers of people at the local level to be empowered to do things on their own. I think in the long-run that may well be the most significant role that government can play in the future of education. We have, I think, ironically, the most educated or at least the most schooled nation in the history of the world and, yet, we have systematically taken away from that school population the capacity and the ability to involve themselves in decision making. That, I think, is ironic and that, I think, is tragic, and that we have a historic chance now in this State to really reverse that tide and empower people to do things on their own. This is what

we seek to do. Our report does not believe that education is going to change over night and, consequently, we make recommendations for many pilot programs that I'll touch on. We believe that education is not going to be changed by any one group, and so, consequently, we believe that school boards and administrators in partnership with teachers have to change the schools. We believe that this can only be done by people being activated and given the opportunity at the local level. Two recent scholars have viewed the reform movements of this country over the past two years and have come up with some interesting kind of conclusions. A gentleman named Michael Kerst from Stanford and a professor named Patricia Cross from Harvard have viewed the whole educational ferment of this country. Professor Cross, I think,...offers some very interesting kind of observations. What she finds as she looks across this country is that in many ways we're getting the same old things; more mandates, more requirements, more kinds of things coming from on top down to local people, and what she suggests is that maybe we ought to look at the private sector a little bit today, because in the private sector they are coming to the conclusion finally that in order to...increase productivity, in order to really make us competitive again that they have to understand how...human resources are developed, how you nurture human resources, how you tap them, how you identify that kind of talent and those are being done in a variety of ways which create environments whereby that kind of talent can find fruition. She suggests that educators have forgotten that kind of thing and that simply we believe that more laws, more mandates, more requirements are going to do the job. I happen to think Professor Cross is right and that we need to approach school reform in a different kind of way; and that is, first of all, by trusting people; by trusting people at the local level to really follow some broad general guidelines that you in the

State Office of Education will provide but by and large empowering people to do the job. Let me give you a couple...specific kind of suggestions that we have put forward that will give you a flavor of what we're talking about in our report. Clearly, I can't go over everything in the time period today. We believe...the title of our report, by the way, is "Education for a New Illinois: The Public Schools in a Changing Economy," and we believe, as Governor Thompson said to this Body a few weeks ago, that the future of Illinois is tied to its schools, that the economic future of this State will be directly tied to the quality of schools and the quality of men and women who come out of those schools. We believe that we can really foster that kind of quality by recognizing that in the twenty-first century, I don't have a very clear vision nor do I think do you, probably, of what those requirements are going to be. We do know this though, that these young...men and women are going to have to change jobs and change them again, that they're going to have to be trained and retrained and retrained, that jobs will be created that aren't even around today, that the best legacy that we can give those young men and women is the capacity and the ability to learn and to relearn and to relearn. In other words, they have to have those basic kind of skills and anything short of that really won't do the job. In many ways the irony is that it calls for, in some ways, a very old-fashioned kind of education for a very modern kind of era. We are suggesting in our report that the State Board of Education establish some broad general guidelines about what those curriculum goals ought to but that we allow local districts to provide individual curriculum plans on their own, that each district in this State in conjunction with community people and teachers working together and administrators and boards would submit a plan to the State determining what that curriculum is that they want. We believe

also that school districts ought to be freed up and liberated in terms of other kinds of restraints, that we think they ought to have control over the time and place where education takes place. There's nothing magic about Monday through Friday, nine to three, September through June. There's nothing magic about a school year that is...simply the one that you and I understood, but that is a carry-over from the nineteenth century...rural economy and probably has no bearing to the twenty-first century. We need to free local districts up, give them the opportunity to create that school year or school calendar; in other words, utilize time and place any way they want to as long as...it is educationally sound, as long as it receives the approval of the State of Illinois. We don't think the State ought to fold its tent up and go home; the State, after all, has a constitutional responsibility for education, but we think the State has to play a new role of stimulating that kind of creativity at the local level. We believe then that curriculum has to be created at an individualized basis. We believe that we need to improve the quality of teachers in at least three ways...that the quality of teaching has to be attacked three ways; on the...on the requirements to get into teaching, on the compensentation which is only partially monetary; and, thirdly, on the whole issue of status of teaching. We believe we have to raise requirements to get into teaching. It's just simply too easy to become a teacher in the State of Illinois. That's not only bad for the kids of Illinois; frankly, it's bad for the profession, because I don't respect a profession, and I'm part of it, that is easy to get into, and I don't think most people do, and we make recommendations for that. We make recommendations for a gradual escalation of teachers' salaries to a starting salary of twenty thousand dollars a year after three years, but our recommendation is a little different. We believe that twenty thousand dollars a

year ought to be for a twelve-month job, a twelve-month contract. We think there's work to be done in this State educationally, not only for kids who need special help, not only for curricular revision, not only for professional development but for the status of teachers. Teachers shouldn't have to go out and moonlight to make a buck. They shouldn't have to do that unless they want to, perhaps, but they shouldn't have to do that and we think that twelve-month contract is important and, frankly, our...our involvement of citizens, and we involved over three thousand citizens in this past year, indicates to us that the citizens of Illinois are a little skeptical about paying people twenty thousand dollars a year for what they perceive as a part-time job. So, for political, educational and all kinds of reasons, we think that has to occur. We also believe that teaching can only be improved if we understand what we all...so clearly understand in the private sector, and that is that people are motivated not only for money; when I talk to teachers across this State, they're telling me they're leaving teaching not because of the money, they are leaving teaching because it is to them boring, there's no place to go, it is not challenging any longer, they are not finding the kind of excitement that they believe they ought to have in a career, and we have to understand that those things that are true in the private sector in terms of motivating people almost totally don't exsist in teaching, almost none of the things that we know as motivators of people; and until we address that problem, ladies and gentlemen, we will not address the best and the brightest coming into teaching. We believe we need to have career ladders and that we ought to try those on a pilot...pilot basis and we make recommendations for those kinds of career ladders. We make a recommendation for an Educational Leadership Academy in this State. It goes beyond just a Principals' Academy, involves teachers and school

board members and the private sector in a joint effort to continue the impetus for school renewal. We're worried about what's going to happen a year from now when all this school stuff is suddenly forgotten. We're worried about how the impetus for school reform is going to continue, and we think we need to have people involved on an ongoing basis to continue this effort over and over and over. We believe there are too many school districts in this State and we think we need to reduce the number of school districts and need at least to go to unit districts, perhaps even more than that. We do not say that every small district is bad or every big district is good. In fact, we make a recommendation that Chicago is probably too big. We think the key is what kind of quality can a district provide. If that district can provide high quality, we say keep it; if it can't provide high quality, we say change it. The key ought to be quality, not necessarily size. We believe the State Board of Education is too big and we think the State Board of Education ought to be reduced in size. We have a new State Superintendent. I think he's a fine man. I want him to succeed. I want that board to succeed. Our recommendation is that the State Board of Education be reduced from seventeen to nine members. We think it needs to be more manageable in a variety of ways. There are many more recommendations, and my time is coming to a close here, but I just want to mention a couple of things. We've worked very diligently on recognizing that we have special conditions in this State as we do in the nation. Almost eighty percent of the taxpayers of this State have no children in the public schools. We think that is a very significant statistic that this Body needs to address and think about in many, many ways. It's not that those people aren't interested in education, it just simply...it's not on their minds every day, it's not the kind of thing they wake up with and go to bed with at night and yet they are the taxpaying

public, they support the schools. We believe you need to reconnect those people to public education and we make recommendations to do that. We think school districts in this State have not paid the attention that they need to pay to those people. When people tell me as I go around the State that I'm a taxpayer but I...I want to use the school gym to...to jog and the school district tells me, I'm sorry you can't use that, and that individual tells me, well, I pay for those schools, don't I? Well,...I don't have a very good answer to that, very frankly, and yet we go back to those people and ask them to dip into their pockets to pay for the schools, but we don't really go out of our way to provide them with a connection to public education. We think there are many things that need to be done in this year of school reform; only some are legislative, and you will have before you those recommendations, but I would encourage you, in conclusion, to at least think carefully about that role I suggested in the beginning, that role of providing some seed money, providing some incentive money to local districts to do the things themselves. We need to trust people. I believe we can trust people and I think we will find that if we do that, we will really...we will really stimulate a flurry of activity across this State that will result in some of the most creative things we have seen in a very, very long time. We have a chance to do something important. We have a chance to do something different. We have a chance to do something very, very significant that no other State, frankly, in the union has done. I hope that in the months ahead you'll call on me in any way that you would like, both sides of the aisle, to help in this endeavor. It's a very important one and I think we have a chance now to do it as we never have before. Thank you, Mr. Chairman.

REEL #2

MR. CHAIRMAN: (SENATOR BERMAN)

Thank you, Dr. Bakalis. Mike, would you stay up here, and Gail would you come back up here. And...if any Senator has a question of either of the presentors, to address your question to either or both of them, we'll try to respond and we've got approximately ten to twenty minutes under the guidelines set by the President. Senator Netsch.

SENATOR NETSCH:

One question. Gail, I'm not sure I heard you address this one way or the other, and Michael Bakalis, I think it was not on your list of three things that had to be addressed about the teaching profession. It is obviously one of the more controversial things. Did you have any recommendations that deal with incompetency in teachers who are in the business as opposed to obviously higher standards for those who are going to be entering...and hopefully higher incentives in the way of higher pay for them to stay in and be excited about it? What about those who are not doing the job?

GAIL LIEBERMAN:

The commission recommendations talk about a regular evaluation of all school district personnel and further training of administrators on how to do that and do that better. So that's their...their answer tied with staff development efforts in terms of the current personnel.

SENATOR NETSCH:

Just to be clear, you say training for those who are in the system, including the teachers, is that what...is that the...

GAIL LIEBERMAN:

Staff development for all personnel as well as training of administrators in evaluation and assisting teachers in

improving their skills.

SENATOR NETSCH:

What about those who don't improve their skills, have you...did you address that problem?

GAIL LIEBERMAN:

They did not deal with dismissal procedures, if that's where you're heading, except to modify that process. And there's one recommendation creating a three-person teacher hearing dismissal panel dealing with that issue.

MICHAEL BAKALIS:

Senator Netsch, our...our commission did address that issue. We addressed it in this way, in our...in...in light of our philosophy that people at the local level ought to be involved in this, we suggested every district in the State submit to the State Board of Education a personnel evaluation plan. In other words, this plan would, in effect, spell out the rules of the game in terms of how teachers and administrators would be evaluated. So what we're saying is that every district in the State would submit to the State Board of Education this plan which would say how poor teachers would be remediated, how good teachers would be rewarded and how bad teachers would be terminated. And so the State Board would make a judgment on that plan. There may be, literally, a hundred different plans across the State. We don't think that's a problem, we think it's an important first step to get local people to put in that kind of a recommendation.

MR. CHAIRMAN: (SENATOR BERMAN)

Senator Schuneman.

SENATOR SCHUNEMAN:

Thank you, Mr. Chairman, a question of Dr. Bakalis. You made special reference to the idea that schools should perhaps be...a teaching job should perhaps be a twelve-month job. And I...I find that suggestion particularly appealing and I think it would be very, very popular in most local

school districts, because I...I agree with...with your premise that much of the opposition comes from the belief on the part of people that...that teachers are working only part-time and therefore ought to be compensated on a part-time basis. But I can see all kinds of problems in...in what you suggest also. Could you elaborate a little bit on some of the details of what would have to be done if we would go to a twelve-month school system and exactly how you perceive it might work.

MICHAEL BAKALIS:

Okay. I want to make it clear, I am not talking about having kids be in school twelve months a year, first of all. I am talking about having teachers be on contract for twelve months a year, and our proposal, as I suggested earlier, Senator, that we are suggesting that local districts, for example, be very active in submitting their own curriculum plans. We think teachers have a very major role to play in that whole effort and that so the summer months, the summer month or month and a half, whatever it's going to be, they would be spending doing a number of things. Gail said professional development, we think that's the time for really serious professional development of an individual. We think that's the time they would be working on these curriculum plans. We think that's the time they could be working on these plans for how they're going to be evaluated. We also think there's much to be done in terms of using teachers in ways we haven't used them before. One of the great complaints of teachers is a sense of isolation, and as much as they love kids, frankly, dealing with just kids all the time is not something they always want. And we think, for example, that...the private sector offers enormous opportunities for men and women to work out in the education there. The private sector is spending over sixty billion dollars a year in education these days. We...we have so many thousands

of adult illiterates in this State, adult illiterates, we think the teaching force can be used for that. In other words, we're saying we've got to redefine the role of a teacher and in...in the same way we define the role of a physican or a lawyer and obviously we do not say a lawyer is only a lawyer when he's in court, we...we make a broader definition of that, we think the same has to be true of teaching. I don't know what the problems would be that you're referring to specifically.

SENATOR SCHUNEMAN:

Well, okay, I...I guess perhaps the problem came about in my perception of what you were saying, and apparently we had a misunderstanding because I thought that your response to my question was going to be, we have kids who are falling behind all the time, we need teachers to teach those kids and the time to do it would be in the summertime.

MICHAEL BAKALIS:

Yes, I did make reference...

SENATOR SCHUNEMAN:

But you didn't say that. The other problem would be that if we're going to keep the schools open all the time, there are probably all kinds of playground activities, recreational programs that teachers could...could supervise, but I didn't hear you say that. What I heard you say was something that frankly disturbs me a little and that is, if we're going to pay teachers to take a sabbatical in the summertime to go off and study, you know independent study, then I don't think the public is going to buy that.

MICHAEL BAKALIS:

I agree with you, Senator.

SENATOR SCHUNEMAN:

But if you're going to do something for kids in the summertime, I think the public will buy that and will support increased funding for it. So I was curious to know...

MICHAEL BAKALIS:

I agree with you, Senator, they're not going to buy...

SENATOR SCHUNEMAN:

...what...what you were saying.

MICHAEL BAKALIS:

...they're not going to buy that kind of a...what looks like a pain for you to go to school or something like that, I agree with that. And I wasn't suggesting that. I...I don't think it's courses...I'm talking about work activity in the district. Certainly, I alluded to that in my more formal remarks that there are young people who need that kind of help very seriously in the State and those summer months could be ample opportunity to give that help.

MR. CHAIRMAN: (SENATOR BERMAN)

Senator Poshard.

SENATOR POSHARD:

Thank you, Mr. Chairman. Dr. Bakalis, I'd like to ask you a question. I know we're dealing with some very complex issues here that demand some complex answers but I'd like to simplify something, if I may. Trusting people at the local level to do what's right in education for our children, I agree with that. But it seems to me that just offering some broad, general guidelines for education to our people at the local level, what's different in doing that than what we've been doing for years in education? I remember your A-1 '60 program that you initiated some twelve or thirteen years ago, that's what you did, and you required the local districts to comply with some specificity toward that. But it was broad, generalized suggestions for local districts. Now it seems to me that if...if we don't standardize some things, maybe reading quality and math appreciation and the ability of children to read at certain grade levels at certain times chronologically throughout their educational experience, it seems to me that we can never be sure, whether it's a kid in

Cairo or a kid in Chicago, whether they're getting exactly what they need in terms of the level of performance of every other student. What's wrong with a minimum competency test to be given to children at the third and fifth and seventh and eleventh grade levels to say, I know how my child is doing in comparison to children in LaSalle or Peru or wherever? What's wrong with that in terms of requiring the local districts to do that? And...and before you answer that, I'd like to ask Miss Lieberman to please follow up the comment that you made to Senator Netsch in regard to the three-person ...hearing panel. How does that differ from the process that we already have legally in the school districts of providing the school board with a list of five hearing officers for those teachers that are supposedly being called up on the carpet for not doing their job well? Is that threemember board...who appoints that board? I'd be interested to know that and how is it going to be more partial than...than the system that we already have? And...I'd like to know, you know, the cost of such a measure, are...is that intended to save money or is it going to cost more money or whatever? Doctor Bakalis.

MICHAEL BAKALIS:

That's a good question, Senator. The...there's nothing wrong with what you said, what's...when you said what's wrong with having people be able to make comparisons and make sure that their children are reaching certain steps, absolutely nothing wrong with that at all. We do make recommendations that local districts will do testing at periodic times so that the community will know exactly where they are. We think the State Board of Education would establish these guide...these...these general guidelines. That would really be general only in the sense that they would say to a district...for example, obviously in our view a child coming to maturity in the twenty-first century is going to have to

have some basic kind of skills to be able to learn, relearn and relearn. Certainly, I would be very surprised and dismayed if the State Board of Education would approve a...a program coming from a local district where there was no math, for example, or there was no English. I mean, obviously, that is not a minimum kind of...of program. All we're saying is that the State Board of Education can establish those kind of requirements, but how you get there, the road you take to get there, can be individualized. We make three specific recommendations in our report. We say, number one, maybe you want to go to a core curriculum. So a district can go to a core curriculum, a tough kind of traditional curriculum. Maybe they want what's called, learning outcomes, as the State Board has suggested. We say, fine, you submit a proposal for that. Maybe it's interdisciplinary, we say, that's fine. All we're saying is that there is not necessarily any one road to get to those...to those goals and that we ought to allow people the freedom at the local level to choose that road. But you're absolutely right, if the State sat back and said, you guys do whatever you want, I don't think anybody would support that kind of program.

GAIL LIEBERMAN:

The commission's recommendation is to create a three-person hearing panel which is different than the current system of a...a single hearing officer hearing at the local level. Last year we had thirty-three cases of hearing officers being requested and hearing a case all the way through the process. What this would have is instead of using twenty, thirty, forty different hearing officers for cases, would establish a three-member panel. The commission did not deal with the selection process. That would have to be addressed in a...in a revised Statute. In terms of the cost, last year...or FY '84, the State spent about a hundred thousand dollars in terms of teacher hearing panel. And the

recommendation is the cost would increase, we figure the number of cases would also increase as it has every year, and approximately two hundred and fifty thousand dollars was the estimate for the first year for this recommendation.

MR. CHAIRMAN: (SENATOR BERMAN)

Senator Welch.

SENATOR WELCH:

Thank you, Mr. Chairman, I just had a couple of questions of Ms. Lieberman. Could you tell me what the term "nonprejudicial error" means according to your report?

GAIL LIEBERMAN:

The term "nonprejudicial error" was dealing with items that are not meant to be substantive in nature but more procedural in nature.

SENATOR WELCH:

Could you give me an example of...what you...

GAIL LIEBERMAN:

In terms of a...a specific time line as an example.

SENATOR WELCH:

What revisions in the tenure law would be necessary to make nonprejudicial error not a basis for reinstating dismissed personnel?

GAIL LIEBERMAN:

The commission did not deal with the specific wording in the law within their recommendations. They said this is the concept of the recommendation and you'll be seeing in bills over the next few weeks the specific wording, so I'm unable to address the wording of the Statute.

SENATOR WELCH:

Well, wouldn't the determination of a prejudicial or a nonprejudicial error...mainly be a court function as opposed to a hearing board function?

GAIL LIEBERMAN:

The recommendation of the commission was to not make it

part of the hearing officer's process.

SENATOR WELCH:

One final question. Has there been any attempt between your commission and Doctor Bakalis' commission to come to some mutual agreement as to legislation you're going to introduce?

GAIL LIEBERMAN:

The commission is in the position of having ceased its operation in January when the report was issued to you. And so, since January, and that report having been filed, there has not been a formal discussion between the commission per se and the Illinois Project for School Reform. I know members of both have discussed the issue.

SENATOR WELCH:

Well, my understanding is, there's going to be something like three bills out of your commission. So, we're going to be given a choice of either the commission or Doctor Bakalis, we have to decide one or the other, there's not going to be any attempt to work together on the two, is that correct?

GAIL LIBERMAN:

I can't address that, it's beyond the scope of what the commission did and finished its report.

SENATOR WELCH:

Perhaps the chairman has an idea.

MR. CHAIRMAN: (SENATOR BERMAN)

The chairman does have an idea, if I might. The purpose of the introduction of bills which will be done tomorrow regarding the improvement commission...is the introduction of the embodiment of the fifty-two recommendations of the commission that require legislative action. Once those bills are introduced and the public has an opportunity to digest them, I expect them to go through the process that we are all involved in and proud of, and that is...of evaluation, critique, negotiation and hopefully involvement of everyone,

the Senate and House members in particular and people outside of the halls of the General Assembly including Doctor Bakalis, Governor Thompson, the State Board of Education, et cetera, et cetera, et cetera. So there is nothing that I'm aware of, and I think Mike will agree with me, that is chiseled in granite yet. Senator Geo-Karis. Before Senator Geo-Karis, let me indicate the following people have indicated their request for questions; Senator Geo-Karis, Senators Kelly, Vadalabene, Schaffer, DeAngelis, Smith and Kustra.

SENATOR GEO-KARIS:

Thank you. I'd like to address my querries to both Doctor Bakalis and Ms. Lieberman. Three of the things that I've...that bother me, and I don't know whether they've been taken up in your...course of your investigation and...and summary. Many of my teachers complain that we're top-heavy in administrators who don't have the guts to survey a teacher who's in for the first year and... because they're...they don't want to make enemies, they don't botherdoing anything about anything and the teacher gets tenure and whether she's...she or he is well qualified. Number one, I will ask you if you address that. The second thing that I'm...I'm concerned about is the fact that teachers have the right to strike. I think that is wrong 'cause I am a great believer in collective bargaining, mandatory arbitration and right of appeal to the courts if the standards aren't followed, but has anything been done by your committee on that point? And the third thing, I...since I understand you said seventy-eight percent of the people don't have children? Well, I'm one of those who has been paying taxes for many years to help other people's children and I don't resent it at all. But in view of the fact that we are in the majority of the pairs, in the minority of having any children, what is being done...what you're suggesting about a greater emphasis

of cooperation between those of us, for example, who don't have children and the...the use of the schools and what have you, I think is a good point, 'cause I think you're absolutely right. We pay taxes to support the schools. And the forth point is, I'm not opposed to private education and I'm wondering if your committee took that into consideration considering the fact that people who support private education are also paying taxes for public education. Four points; one is, did your committee address the fact that we're top-heavy with administrators? Two, what about the right of strike instead of binding arbitration, no strike and right of appeal the courts, when tailored to the...if it's not tailored to the guidelines? Three, how about private education? And four, as I said, a better community spirit, as you suggested, between your teachers and the local community and the fact that they were...they get paid for twelve months of the year even though the children aren't there for twelve months of the year, I happen to agree with you there. How does that strike...have you gone into it, how will it affect...you...the possibility of...education with... what kind of cooperation...are you going to get from the teachers' unions, that's what I'm driving at?

GAIL LIEBERMAN:

The commission heard from a number of folks, a number of teachers, who said they had never been evaluated in the classroom, particularly in the critical beginning years, and that's why the recommendation of administrators having a plan for personnel evaluation, being trained to do it and doing it effectively was so critical. The commission did not address administrative personnel within a school district or numbers in any case, too many or too few, teachers or administrators within a school district, nor did they hear from or address the issue of striking. They did talk a little bit in terms of an extended school year and public use of facilities.

Like Doctor Bakalis mentioned, the commission did want local school districts to consider an extended school year for remedial services or staff development or any number of issues. They also talked a little bit in terms of private education but wanted to put the focus on improving public education because they felt that was the area where the majority of families did not have a choice and the State had a compelling interest to assure a quality education. We did hear, as a commission, from members of the nonpublic sector though.

MICHAEL BAKALIS:

Senator Geo-Karis, the four points you....you mentioned, our commission did not look at the issue of the legitimacy or changing the law in terms of teachers' strikes. We did certainly address the issue of the poor process that is being used and has been used for years in terms of evaluating teachers. We don't think teachers are evaluated very well in this State and consequently we did not support a merit pay kind of a recommendation because the evaluation procedure we don't think is...is adequate. What I addressed to Senator Netsch before I think deals with that issue and that is that the local recommendation for personnel evaluation plans would evaluate administrators and teachers, but we did not address the issue of are there too many administrators or too few administrators. On the issue of the seventy-eight percent of the people who have no children in the public schools, we're suggesting every local district...do a conscious effort to submit a community outreach plan to the State Board of Education. We don't think...we think that's kind of done helter-skelter now; if you have time, you get around to thinking of these people, but, in fact, we ought to be thinking about them really right up-front because as you suggested, the overwhelming majority of citizens in this State now are not directly connected and...and...and yet

supportive. We think we need to involve them in...in a lot of ways, that has to be done systematically. We also make a...a unique recommendation which I didn't want to get into here 'cause I think I'd be here all day long, frankly, it's called the...an educational bank. And in a nutshell, the educational bank proposal in effect says that a certain percentage of local property taxes would be put into a new entity called an educational bank. From that bank, individuals whether they had children in public schools or not could withdraw funds for their own further education or for their children's post-secondary education. We think you've got to give some people some incentives to support public schools and the way to do that is in a very concrete kind of way, and I'd be happy to provide you with some of the details of that, Senator.

MR. CHAIRMAN: (SENATOR BERMAN)

Senator Kelly.

SENATOR KELLY:

Thank you, Mr. Chairman. I'd like to ask either of our witnesses or the chairman or Senator Maitland, but...in reviewing all of these reports, I really don't see where there's been a...much attention given to the differences in the funding, the wealthy versus the poor school districts, and I'd like to get a rating if, in fact, that issue is being overlooked. I think it's important whether we are able to do anything or not about it, that it's an issue that ought to be on the table. And I'd like to get some response if, in fact...do you think enough attention has been given in these reports to the differences in the funding of the poor and the wealthier school districts in Illinois?

MICHAEL BAKALIS:

I can do that quickly, Senator. Our...our commission did not address the issue of the formula at all and so that just wasn't a part of our consideration.

GAIL LIEBERMAN:

The commission had a...a similar discussion. We discussed briefly the general State Aid Formula and some of the proposals like the resource cost model and others but did not want to come to closure on formulas, instead said, these are the dollars that should be used behind these specific reform efforts and stop there.

SENATOR KELLY:

And...I suppose on that same vein you'd have difficulty in determining whether or not children attending the wealthier districts would have a...more of a likelihood of having a higher rate of competency in passing a test. Is that...that, you never got into that issue? Okay, thank you.

MR. CHAIRMAN: (SENATOR BERMAN)

Senator Vadalabene.

SENATOR VADALABENE:

Yes, thank you...Mr. Chairman, Doctor Bakalis. Just recently I attended a...a seven-county meeting of the unit superintendents and the school board members in the Tri-City area and the meeting was held at Edwardsville. And one of the...one of the questions posed to me by the moderator was the...in regard to the...the dismissal procedures of the teachers. Now, it's been bantered around here on several of the people who have asked the questions but no one has come directly into mentioning the two powerful lobby groups, the IEA and the IFT in regard to the dismissal of teachers. Has your commission or will the commissions be in contact with these two big organizations in regards to what procedures they would accept in the dismissal of their tenure teachers? Whether they're competent or not, I believe they are going to have a strong position in regard to their membership. And I'm wondering if you are going to pursue or the commissions are going to pursue some type of a meeting with these two powerful teacher organizations.

MICHAEL BAKALIS:

Senator Vadalabene, in the construction of our report, we had a statewide advisory committee which had on there Mr. Weaver from the IEA and representatives of the Chicago Teachers' Union and the Illinois Federation of Teachers, they were part and parcel of our process. That doesn't mean they agree with everything we...we've said. Our recommendation, as I indicated earlier, is for local districts to submit that kind of personnel evaluation plan. My...my...if I'm correct, I believe the Chicago Teachers' Union has submitted a very similar kind of proposal in their own package, so I...I can't...obviously, I can't speak for either of those groups. But I think you might find that really what teachers are looking for is some fair, equitable procedure evaluation which recognizes that...that the evaluation of teachers probably ought to be done best in conjunction of teachers and administrators. I think that's what they're looking for and I...my feeling is the time might be right to get something like that.

SENATOR VADALABENE:

Yes, to follow up that question then, in the event that either teacher organization does not support the claims that the teacher is incompetent, like Senator Geo-Karis said, do you think that would promote a strike so that those teachers would be maintained?

MICHAEL BAKALIS:

Well...over the years I suppose I've had as many disagreements with the teachers' organizations as anybody. I must say on this issue I have to be with the teachers in terms of how they view their own profession. The evaluation of teachers, Senator, has simply not gone on very well in this State or around the country. And I think Senator Maitland, I recall, at a...at a hearing, a couple of times I've heard him speak, indicate how surprised he was at the

number of...at really the poor state of teacher evaluation, the few times that administrators go into the actual classroom. So, until we get the ground rules set and administrators have the time, the capability to be managers in the true sense of the word, I think teachers are going to justifiably, frankly, be upset about the way evaluation goes on right now. So...so...they...we've got to address that issue of fair, equitable evaluation. To answer your question, yes, they probably would go on strike if the...if the process was in...in their view not fair.

SENATOR VADALABENE:

So, what...so what I'm really saying is, once you get all these recommendations into place, there still is going to be some type of a problem with these two major organizations in regard to their teachers.

MICHAEL BAKALIS:

Well, I can't...obviously, I can't speak for them, I don't know what those problems will be. I'm just suggesting, I think that both of those very important organizations have made some steps and said...made some sounds that indicate to me they are seriously looking at the issue of teacher evaluation.

SENATOR VADALABENE:

Okay. This is just a statement, though. I don't know what problems there's going to be either, but when some teachers are going to get laid off, I think there are going to be some problems.

MR. CHAIRMAN: (SENATOR BERMAN)

All right. We have four more questioners. Let's try to bring these to a reasonable closure. Senator Schaffer.

SENATOR SCHAFFER:

Apparently both you are planning on...on the...both of the committees will be introducing legislation in the next few weeks, obviously, before the thirteenth of April. I have

kind of a reoccurring nightmare, and the nightmare is that we sit down here in our all-seeing wisdom and pass a whole series of bills to reform education, and I get back to my district to find out that we didn't fund any of those reforms for my districts and that because of the unfunded reforms, class size for grade school is going to be fifty-six kids and we're going to not be able to teach English in the high school class to the third year 'cause there's no money left 'cause everything went into the reforms. I sincerely urge you and...and hope that your legislative proposals, and I'll ask the question, include the...the fact that we're going to fund them. If we don't fund them, they ought not to be inflicted in the form of mandates. The second thing which Senator...Kelly addressed somewhat, I come from a part of the State that has pretty darned good school districts that turn out pretty good educational programs and do a pretty good job with the kids, and our papers right now are filled with cutbacks and layoffs and eliminations because of one thing, not because our people aren't highly taxed; oh, they're highly taxed, let me assure you of that, they are brutally taxed because the formula is not fair. And to many of us from the suburban and collar county and I think some downstate areas, to talk about reform and not talk about the formula is the biggest piece of hypocrisy going. I gave Superintendent Sanders a hard time for copping out, I guess I have to give you the same kind of thing. How can we talk about reform when the whole structure is based on a formula which is on its very face unfair? How can we not talk about coming up with a formula that each of us can go back...I can go back to my people and say, we get thirty percent less than City x because we're thirty percent wealthier? I can't go into a district and say, well, you're actually...poorer than City x, but they get four times as much 'cause they got more clout in the Legislature. How can you not talk about formula

reform? It makes the whole rest of your report really a bit of hypocrisy.

MR. CHAIRMAN: (SENATOR BERMAN)

Is...is that a question?

SENATOR SCHAFFER:

Yeah. At least I ought to give them a chance to defend themselves.

MR. CHAIRMAN: (SENATOR BERMAN)

All right. Defend yourself, Mrs. Lieberman, and then Doctor Bakalis.

GAIL LIEBERMAN:

I think the commission members would both share the fear that you mentioned with increased class size and layoffs and share the hope that there's the dollars behind the reforms. The commission members did not address a specific formula, not that they weren't interested. And I think that the ongoing legislative members will address those issues, but they decided to look at what were the needs for school improvement and then focus on the finances for those and raising the revenue for the finances for those reforms; not that the formula doesn't need addressing, they all said it did.

MICHAEL BAKALIS:

Senator, our group, as I indicated, was a private group having no real governmental status of any kind, of course. And it was our view that we could only do...certain things with the time we had and the money we had and consequently that...we did not deal with the issue of reforming the formula. What we did say is that the funds that will be needed for this...our package will...should be raised in a number of ways. Our major recommendation is...is what we think is the fairest one in the long-run. We think we need to raise the income tax in this State and simultaneously give property tax relief over the next four years, so that by 1990 the State

would have a responsibility for about fifty-one percent of education. But we saw a number of groups, the State Board of Education and others, looking at the formula so we just...given as I said, the scope and the money we had, just didn't do it.

MR. CHAIRMAN: (SENATOR BERMAN)

Senator DeAngelis.

SENATOR DE ANGELIS:

Yeah, thank you, Mr. President and Mr. Chairman. I'm not going to talk about the...the formula once again. I...I do want to commend Doctor Bakalis though, because when I first received his letter I was wondering if it was the third launch of Superintendent Bakalis' political career, and I almost studiously avoided participating. However, after reading a little bit more, I went ahead and did as directed and did, in fact, appoint by formula, if...if you may, the people that he suggested, and I would like to share with you just two small experiences from those meetings, quickly. He indicated that I should...that the proper makeup should be twenty people composed of all the various groups including business people. Well, I dug into my file and took out a particularly harsh letter from a businessman who wanted to know why enrollment had declined by twenty percent at this one particular school and costs had gone up sixty percent and appointed him to that. I appointed also a member...a local president of one of the school districts that had a particularly serious problem between the teachers and the administration. At the end of the meetings, over the two-or three-month period, the businessman was backing a tax increase for education and the local union president had submitted a lengthy paper on how teachers and administrators could get along better. And so I want to commend you if for nothing else creating a dialogue within districts. And I might tell you that some of these people had never sat down

to talk to each other before, had merely talked to people of their own belief or their own particular interest. And I have to tell you, it generated a considerable amount of interest and we have gone forth and carried forward from our report to meet regularly with the same group on the continuing problems of education. So, first, I want to apologize for questioning your motives; secondly, I want to commend you for the end results.

MR. CHAIRMAN: (SENATOR BERMAN)

Senator Smith.

SENATOR SMITH:

Thank you, Mr. Chairman and to the people who are present here at this meeting. I'd like to address my question to Doctor Bakalis, please. First, I want to commend you for your presentation here this afternoon, and I'm very much encouraged about the updating of our teachers' system, you've talkedabout the money, but I'm very concerned about the recipient whom we are all talking about but it just seemed like its a passing. I would...and I heard you use the word "basic," getting back to the basics. What provisions are being made after you've upgraded the teacher and...and the school and the system, et cetera of giving the student the basic needs of knowing how to read, how to write, how to spell? That's our whole dilemma among our young people today in our society. And you go across the country and you go around the world, in Japan you study eleven months out of the year and they know how to read, they know how to write, they know how to spell. This is the dilemma of our children in our...in our society. What efforts are being made as you are upgrading our school system, our taxes, our money, et cetera to help the child to be a productive citizen here in the State of Illinois?

MICHAEL BAKALIS:

Well, Senator, I would hope that all the recommendations

coming out of the Legislative Commission, ours, and everybody else, they're all...in that respect, all after the same goal. We want young people to be able to survive productively in the twenty-first century. So none of the things that any of us have done, I...I think side-skirt that issue. We do think, though, that what you have to do is create incentives for people at the local level to really get on people if...if they are not doing the case. One of the groups, for example...we make a recommendation which another group has made in this State called Designs for Change, which is that local school buildings have councils and those councils really oversee to make sure that the kind of curriculum is going on in that building that ought to be going on, that kids are reading, kids do have the kind of ability to compute mathematically, so forth. The State clearly has a responsibility here, don't...I want to repeat that again, and the State cannot turn its back on that responsibility. We're just saying again, let districts and people at the most local level determine how that's best done. But no one should misinterpret my words in saying that the State should let everybody do anything they want or...or we should abandon those kind of things. We can't abandon those things.

MR. CHAIRMAN: (SENATOR BERMAN)

Senator Kustra, with the closing question.

SENATOR KUSTRA:

Thank you, Mr. Chairman. My question is of Doctor Bakalis. Doctor Bakalis, as you know, I formed one of those local groups that was put together and we met out in my district and I hoped in some small way, anyway, contributed to the final product. The one question that I do not remember my local group talking about and you mentioned here today is the...the question of the role and the size of the State Board of Education, and this may be a slighty difficult question for you since, as I remember it, you served as the last

elected State...Superintendent of Schools. You asked us today to consider your recommendation reducing its size from seventeen to nine, isn't that correct?

MICHAEL BAKALIS:

Yes, sir.

SENATOR KUSTRA:

I guess I...I have always had great difficulty since 1970 and since the end of your tenure trying to figure out just what the State Board of Education is and what it does and what positive and significant role it plays in education. And I wonder if your group or you considered as an...as...as alternatives too to the proposal that you gave us today; number one, going back, as some have suggested, to electing the State Superintendent and that may be sensitive given the fact that you were the last one to do that or having the Governor appoint that State Superintendent the way we appoint the head of Transportation, Mental Health, Public Aid, whatever major issue and...and direction we must deal with here in the General Assembly and in State Government. I find the State Board to be neither fish nor fowl. You can't compare it to the local board because it doesn't have taxing authority, it can't...it isn't elected. In a sense at the State level we're the...we're the State Board of Education. The School Code is passed by the Illinois General Assembly. Perhaps you can enlighten us on...if you consider those alternatives and if either one of those alternatives make as much sense as just reducing the size of a board that has yet to be able to define what it does for public education in the State of Illinois.

MICHAEL BAKALIS:

The recommendations that came from a variety of people in the State, there were obviously some that talked about returning the State Board to an elected position. I did not honestly see any kind of groundswell for that around the

State at all. I think you're absolutely right, Senator...I've said this many times in speeches and to the State Board that you are the State Board, you are the ultimate State Board of Education, this legislative Body. I think one of the interesting things is that as you think back to 1969, '68, what we were trying to do is...is we hope to depoliticize education by moving from an elected to an appointed superintendent. What, of course, none of us could have seen at that time is that education was becoming more and more politicized every day. I aways tell the story, if the Chair will permit me one second, when I ran for State Superintendent I went to the IEA in 1970 and I asked for their support, and their response to me was, well you seem like a nice guy, we never heard of you, but we don't endorse candidates, we don't give any money to candidates and we don't put anybody in precincts to elect candidates, that's not our role. I said, okay, thanks a lot. Two years later they were the largest contributor to Governor Walker's campaign. So in that short period of time we went...we really politicized education, but as I said, we couldn't have known that. I've honestly told...now, as I said, I wouldn't say anything that I haven't told them directly, I told Superintendent Sanders my opinion was that...that he was the last chance for the appointed superintendent to remain and that I thought...and I honestly am very pleased by his appointment, I think he is a very able educator. And so I'm...I'm optimistic about the future, Senator.

MR. CHAIRMAN: (SENATOR BERMAN)

On behalf of the Senate we want to thank Doctor Bakalis and Mrs. Lieberman for their presentation. Senator Maitland.

ACTING SECRETARY: (MR. FERNANDES)

Senate Resolution 78 offered by Senators DeAngelis, Philip and all members of the Senate.

(Secretary reads SR 78)

PRESIDENT:

Senator DeAngelis.

SENATOR DeANGELIS:

I think for all of us who had the opportunity to share our lives with Joe we know that he was a sincere person, a sympathetic person, a warm person and probably the best thing is a great sense of humor. I remember on the closing days of each Session when we tend to get a little irritated and the tensions are great, I would walk to the back of the room and Joe always had a smile and we'd crack a little joke and it would cut a lot of the tension that was out of the air. I would like to on behalf of the Senate, Mammie and Judy, extend our sympathy and condolences for somebody we're going to miss.

PRESIDENT:

Senator Kustra.

SENATOR KUSTRA:

Thank you, Mr. President. I've never stood on a death resolution before and maybe I wouldn't be this time if I had known about Joe's death in time and I would have been there at the Cathederal to pay my respects. You know, you get these little yellow telephone messages, we all know they come throughout the Session and they start multiplying toward the end of the Session, and about half of them you can do without. And when they land on that desk by that person who is delivering them, you sometimes confuse who it is whose name you see on the telephone message with who it is that's delivering the message. And every now and then I see a member, perhaps, kind of rebuff at the thought of getting that message. In my case, most of my messages were delivered by Joe Maher and I have to say that in all of those days I can remember when some of those messages were tough and you'd just as not soon take them and you were ready for debate. It was a...a real pleasure and a special opportunity to make a friendship with a gentleman who was really, as Senator DeAngelis said, so full of vitality and an Irish sense of humor and an Irish wit that I don't think this Body will see very often. It was infectious. I know that in the last two years I've served here he made my life infinitely more easy and I will miss him very much. I can just imagine how his family will miss him and I just wanted to stand, I know we get caught up in our legislative duties, for a moment to reflect on Joe's passing how much we'll all miss him and also perhaps we ought to reflect at this moment on the importance of those human relationships, not only in Joe's case but those who served with him and who still serve us. May he rest in peace.

PRESIDENT:

Senator DeAngelis has moved to suspend the rules for the immediate consideration and adoption of Senate Resolution 78.

All in favor of the motion and the adoption please rise. Senate Resolution 78 is adopted. The Senate stands adjourned until noon tomorrow.

84TH GENERAL ASSEMBLY

REGULAR SESSION

March 20, 1985

PRESIDENT:

The hour of noon having arrived, the Senate will come to order. Will the members be at their desks. Will our guests in the gallery please rise. Prayer this afternoon by the Reverend William Oaks, Elliott Avenue Baptist Church, Springfield, Illinois. Reverend.

REVEREND OAKS:

(Prayer given by Reverend Oaks)

PRESIDENT:

Thank you, Reverend. Reading of the Journal. Senator Luft.

SENATOR LUFT:

Mr. President, I move that reading and approval of the Journal of Tuesday, March 19th, in the year 1985, be postponed pending arrival of the printed Journal.

PRESIDENT:

With leave of the Body, will...will Senator Carroll handle the amendment? Is leave granted? Leave is granted. On...Amendment No. 1. Senator Carroll.

SENATOR CARROLL:

Thank you, Mr. President and Ladies and Gentlemen of the Senate. Amendment No. 1 would be to transfer out of Ag. Premium Funds approximatley two hundred and forty-four thousand nine hundred of what had been...State matching funds for county extension service programs and, in lieu thereof, make it available for the Extension Service Phone-In Program. As we all know, the farmers of our State are having unique and severe problems. This will allow that phone-in program which has had a significant amount of calls beyond their ability to maintain the program, they were running out of funds. This surplus is available because the counties could not match the State's services for the extension program. This would therefore allow a phone-in service to continue so that farmers with problems will at least have a place to call. The answer may be, ain't nothing we can do for you, but at least they'll have a place to call and see what services might, and I repeat, might be available. I would move adoption of the amendment.

PRESIDING OFFICER: (SENATOR DEMUZIO)

PRESIDING OFFICER: (SENATOR DEMUZIO)

SECRETARY:

Amendment No. 1 offered by Senator Hall.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Hall on Amendment No. 1.

SENATOR HALL:

Thank you, Mr. President and Ladies and Gentlemen of the Senate. This amendment does two things. It deletes the condemnation powers of the authority and it makes technical changes. The deletion of the condemnation power of the authority was requested by the Executive Committee, and I agreed to do that which I'm doing. The second, it's all com-

bined in this one. It makes the various technical changes which were suggested by the Reference Bureau. I would ask that this amendment be adopted.

For what purpose Senator Demuzio arise?

SENATOR DEMUZIO:

On a point of personal privilege.

PRESIDING OFFICER: (SENATOR SAVICKAS)

State your point.

SENATOR DEMUZIO:

Well, Mr. President, there's a great deal of interest and I've been asked many questions today relevant to where the Emergency Farm Allocation Act...is currently. Senate Bill 263, the substantive bill, is on 3rd reading in the Senate, and Senate Bill 262, the appropriation bill of twenty-five million dollars, was read in to the record today. It will show up on the Order of 2nd Reading when we...when we return next week. It is our intention, again, to stimulate the Congress into some affirmative action relevant to a farm program for Illinois farmers for this year. And it's my understanding that the task force will be returning to Washington tomorrow and that...to intensify their lobbying efforts...in order to effectuate some kind of farm...loan program for this year. I will tell the Senate that when we come back next week that the Senate will be poised and have the bills positioned in order to take affirmative action, and they will not be called...Senate Bill 263 will not be called today. And with that, I will yield to the chairman of the Senate Agriculture Committee, Senator Jerome Joyce.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Joyce.

SENATOR JEROME JOYCE:

Yes, thank you, Mr. President. I think that, as we all know, the farm credit crisis is...we're running out of time and there is a delegation going to Washington tomorrow to

talk with the Secretary of Agriculture and our congressional delegation. I was just informed at eleven o'clock this morning Secretary Block had a press conference and loosened up supposedly the...some more Farmers Home Administration qualifications, but as we have seen in the past, that has not worked very well at all, and I think that we have one opportunity left in Washington. If that doesn't come to fruition, then, we will have to see what we can do in the State of Illinois, and I would urge all of us to contact our congressmen and...and tell them that, you know, we need help desperately here. Thank you.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Are there further announcements or further business to come before the Senate? Senator Geo-Karis.

SENATOR GEO-KARIS:

On a point of personal privilege, Mr. President, Ladies and Gentlemen of the Senate.

PRESIDING OFFICER: (SENATOR SAVICKAS)

State your point.

SENATOR GEO-KARIS:

I have three constituents in the audience. Cindy May from Zion, Illinois and Reverend and Mrs. Norman Schneller from Zion, Illinois. I would like to have you welcome.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Would they stand and be recognized. Senator Dunn.

SENATOR DUNN:

Thank you. Mr. President, I'd like permission to be added as a hyphenated cosponsor to Senate Bill 292. I have permission of the sponsor.

PRESIDING OFFICER: (SENATOR SAVICKAS)

You've heard the request. Is leave granted? Leave is granted. Senator Berman.

SENATOR BERMAN:

Thank you, Mr. President. I'd ask for leave to be added

as a hyphenated cosponsor to Senate Bill 238, and I have gotten the consent of the sponsors and to be added as a hyphenated cosponsor on Senate Bill 257. I've also got...the permission on that one.

PRESIDING OFFICER: (SENATOR SAVICKAS)

You've heard the request. Is leave granted? Leave is granted. Senator Macdonald.

SENATOR MAROVITZ:

Thank you, very much, Mr. President. I would also ask leave to be added as a hyphenated cosponsor to Senate Bill 2-5-7...2-5-7, I've checked with the sponsor.

PRESIDING OFFICER: (SENATOR SAVICKAS)

You've heard the motion. Is leave granted? Leave is granted. Is there further business to come before the Senate? Further announcements? Senator Macdonald.

SENATOR MACDONALD:

Yes. We also have a number of students from my district and from all over Illinois that are in the gallery and they represent the...Political Practicum Convention that's going

on in Springfield this week. I'd like for all of them to be recognized.

PRESIDING OFFICER: (SENATOR SAVICKAS)

PRESIDENT:

Executive...are ready. Senator Maitland, for what purpose do you arise, sir? Later.

SENATOR MAITLAND:

Thank you, Mr. President. I move that the Senate resolve itself into a Committee of the Whole.

PRESIDENT:

All right, you've heard the motion as placed by Senator Maitland. On the Calendar, on page 6, we have called for a Committee of the Whole to consider the...issues of education reform and education funding. All in favor of the motion indicate by saying Aye. All opposed. The Ayes have it. The Senate will now convene as a Committee of the Whole. We will at the conclusion of the Committee of the Whole be in Regular Session. We have a number of things that we have to deal with. In the meantime, the Chair will yield to the chairman of the Senate Education Committee, Senator Berman.

CHAIRMAN BERMAN:

The Senate, as a Committee of the Whole, will please be in order. This is the third session of the Senate Committee on the Whole to address the questions of education reform. The next meeting of the Senate Committee on the Whole will be on April 10th at twelve o'clock, at which time we will hear from Bob Beckwith, Director of Government Affairs for the Illinois State Chamber of Commerce and from Dr. Manford Byrd, Superintendent, Chicago School District. This afternoon...Ladies and Gentlemen, could we please have your atten-

tion. This afternoon we are fortunate to have four presentors who represent very important constituencies in the education community of Illinois. We have Reg Weaver, who is the President of the Illinois Education Association; we have Bob Healy, who is President of the Illinois Federation of Teachers; Paul Jung, President of the Illinois Association of School Administrators and Joan Levy, President of the Illinois Association of School Boards. We have requested each of the presentors to limit their initial remarks to ten minutes. After all four presenters have completed their presentations, we will open the Floor to questions from Senators directed to any or all of the four presenters. Our first presenter is Reg...Weaver. Mr. Weaver was first elected President of the Illinois Education Association in 1981. In addition to his service on many boards and committees, Reg has represented the IEA on the State Teachers' Certification Board for nine years. A classroom teacher for over twenty-one years, Mr. Weaver earned his Bachelor of Science degree from Illinois State University in the area of special education for the physically handicapped. He also holds a Masters Degree in Educational Administration from Roosevelt University. Ladies and Gentlemen, if I can't have a little bit of your attention, I'm going to ask you by name including some names that I think would not want me to interrupt the introduction of Reg Weaver. Please, could I have your attention. Reg has also worked with educational issues on the national level and has represented the National Education Association at the World...Confederation of the Teaching Profession Conferences in Africa, Brazil and Luxemburg. He is the recipient of many awards and has been honored with Ebony Magazine's Influential Black Educators Award and is listed in Who's Who in Black America. Reg has demonstrated his commitment to the issues of educational reform through his excellent service on the Commission for the Improvement of...Elementary and Secondary

Education and other groups. We are happy to have with him...have him with us today. Ladies and Gentlemen, Reg Weaver.

REG WEAVER:

Thank you, Senator Berman. To the distinguished Body, it is indeed a pleasure for me to have the opportunity to appear before you to make a few short remarks.

CHAIRMAN BERMAN:

Excuse me, Reg. Please extend a little courtesy to our guest, Ladies and Gentlemen. Thank you, Reg.

REG WEAVER:

Thank you, very much, Senator. I feel that the single most important reform before the General Assembly this year is a proposed amendment to the Illinois Constitution that will require the State to provide at least one-half of the financing of the State's public schools. If no other reform were mandated this year, public education would still benefit significantly from the amendment, and this is what I call real reform. It is imparative that the State of Illinois fulfill its obligation to its citizens. For the past ten years, the burden of financing our schools has increasingly fallen on the local school districts with the State paying proportionately less and less. The districts have in turn,...they've had to ask their voters for help and the local...local taxpayers have grown increasingly resistant. In many districts, voters are simply refusing to accept property tax hikes to save our schools and many...many feel that they are taxed to death; and when they have a chance to say, no, many of them do so regardless of how noble the cause may be. It is time for the State to do its part and enact a real reform. Governor Thompson and State School Superintendent Ted Sanders have both proposed that the State increase its funding significantly from the current declining percentage, and we applaud them, and we certainly hope they feel as we do

that at least fifty-one percent of the State's contribution to public education should be put on the books permanently so that every year is at least a fifty-one percent year. Our future generations deserve at least that much. Many of the school...or many of the reforms in the "Excellence in the Making" package are good ones. The members of the Illinois Education Association support a Statewide test prior to certification as well as regular evaluation of teachers. The IEA has and still does support expanded, meaningful in-service staff development programs as well as other kinds of training for teachers and administrators. The IEA supports pay increases for teachers, full-day kindergarten and early learning programs. Additionally, we support encouraging private industry to get involved with public education and all of these things are part of our legislative program. However, there are some things that the IEA...some of the proposals that the IEA will not be able to support this spring; and despite the good intentions of the commission, we feel that some of the ideas could actually hurt public education in Illinois. I think most will agree that one of the biggest problems facing public schools today is the feeling of low status and low self-esteem among teachers, and the question has to be asked, what kinds of things will improve the climate in which teaching and learning can take place? Where your treasury is, there will be your heart also. If we are to renew...if we are to renew America's dream to begin a renaissance of American industry, of American cities and of American society, we must begin by renewing our commitment to excellence and equity in education for all of America's children. Surely one thing must be clear, we cannot expect to be first in defense or first in business among the nations if, in fact, we settle for second best in education. The most sophisticated machines and computers will avail us little without educating the human resources to design and maintain

and operate those sophisticated devices. Education is not just our birthright, it is the foundation of our freedom and the support of our progress. Some people seem to think that the only thing that is necessary is to grant tuition tax credits for private schools and to...and to lecture local school boards about how they should pay their teachers. In this, as in every other function of our society, rhetoric is a poor substitute for support. It is fine to suggest that we ought to pay a bonus to our most gifted teachers but of little help if a school district can't pay any of its teachers a satisfactory wage. Some of the schemes that are receiving the most publicity right now are calculated to drive away more of the outstanding teachers that we have left rather than attracting the ones that we need. So, we say to you,...we say to you, show us your good works and we shall respond favorably to you. Reveal to us your records of support and we shall work to uphold you and...and lead us responsibly and we shall follow. We say that the future, the strength, the dream of free quality universal public education is at stake. Not only is the hope of free quality universal public education at stake, but so too is the future of Illinois' children; children, many of whom come from homes where circumstances demand that they be older than their years; children who come from homes where...where both parents have to work in order to eke out a meager existence, and...and children who have been deprived of love and affection and caring, and many who come from...from...from home to school who are very, very hungry, and children whose...whose...whose lives are a steady school of hard knocks, and children whose greatest expectation...whose greatest expectation is just to survive one day at a time. These children are among our next generation of leaders. Public education is their hope. Public education is our hope. Public education is their future and our future, and

we say that we want to join hands with colleagues, we want to join hands with the parents of the students and with business and labor and all others who are interested in...in Illinois public schools, with all who cherish the integrity of the American dream; and with them, we want to resolve...resolve that through Illinois public schools we shall reaffirm the major priorities of this nation; "to form a more perfect union to establish justice, to insure domestic tranquility, to provide for the common defense, promote the general welfare and to secure the blessings of liberity to ourselves and our prosperity." Thank you, very much.

MR. CHAIRMAN: (SENATOR BERMAN)

Thank you, Reg. We will have questions after the four presenters have completed their remarks. Our next presenter is Bob Healy. Bob Healy has been president of the Illinois Federation of Teachers since 1971. He is also currently serving as vice-president of the American Federation of Teachers and secretary-treasurer of the Chicago Federation of Labor. Bob has been a delegate to many educational conventions and has been a member of numerous advisory committees. Bob is a graduate of Hyde Park...Hyde Park High School in Chicago and the University of Chicago. He has also worked as an English teacher and department chairman at four Chicago public schools, including Gage Park, Harrison, Kelly and Farrogate High Schools. A native of Chicago. Until last year, Bob served thirteen years as president of the Chicago Teachers' Union. We are happy to have him with us today. Please welcome Bob Healy.

BOB HEALY:

Thank you, Senator Berman, Mr. President and Mr. Chairman, distinguished members of the Senate of Illinois. Representing the Illinois Federation of Teachers, I am very pleased and welcome the opportunity to participate in this hearing. We in the IFT believe that the current discussion

about educational reform and change in Illinois will be beneficial to public education and to the State of Illinois economically and in all other ways. We have expressed our desire for a free and open discussion of the problems in education, the causes of those problems, as well as the proposed solution to those problems. School boards, teachers and administrators have struggled, and sometimes failed, we admit, to maintain school programs and raise the quality of instruction in the face of rising costs and other changes in our society. At the same time, unfortunately, the State of Illinois has decreased its financial support of schools. While hundreds of millions of dollars in school support have been shifted from the State to local property taxpayers, teachers have endured mounting criticism because student achievement on test scores have been disappointing in some instances. The IFT believes, therefore, that the education community and other supporters of schools must respond to the call for reform with proposals to raise standards, number one, and strengthen dramatically the State's financial commitment to education, number two. On school finance, the IFT supports the State Board of Education's recommended increase in State aid to schools of four hundred and four million dollars. We also recognize and have praised Governor Thompson's leadership in recommending in the budget the largest increase for schools that has been ever recommended. We do think it falls just slightly short of the State Board of Education's recommendation. Such an increase or increases is needed to begin the work of raising standards and improving educational opportunities for the young people of Illinois. We believe, also, that the goals of adequate State support for the schools and equity in the distribution of available resources will be far more likely to be attained through efforts to reform the existing structure of school support, rather...by...than by moving to a radically new and untested

model such as the resource equalizer model. Under the area of teacher training and certification, we believe that it's necessary to make some dramatic changes. First, we would require that all teachers seeking certification for the first time in the State of Illinois pass a rigorous examination. Number two, we think that we should require competent performance in basic skill areas for students admitted to teacher education programs in the universities and...so that all teacher candidates perform at levels higher than the average for college students. Third, require that all college and university graduates in teacher education have a major in an academic subject field other than education and that secondary school teacher candidates have an academic major in the subject area which they will be teaching. Fourth, require that students preparing for elementary school teaching have intensive preservice training in the traditional liberal arts. Fifth, require much closer supervision of student teaching and other field experiences of teacher education students by university faculty from the appropriate diciplines; and also where appropriate, that internships should be set up for beginning teachers. As well as passing a rigorous examination and academic standards, we feel there ought to be a period of time when they are supported and counseled by veteran teachers. In respect to evaluation of teachers, we recommend a comprehensive Statewide program to train evaluators; that is, the administrators. The IFT also supports a Statewide mandate that requires all school districts to evaluate its employers under fair procedures. The IFT believes evaluation procedures that are negotiated by school management and the teachers bargaining agents will improve education, and that unilaterally developed and imposed teacher evaluation methods are not as likely to be successful. In respect to the area of in-service training or staff development, the State should also require staff

development programs so that teachers can update skills and knowledge. Such in-service training programs should be developed jointly by school administrators and bargaining agents for the teachers. The one area that we have spent the most time in and we have a detailed report on it, though I must just summarize it, is in the area of discipline and a safe learning environment in the schools. We believe that this is an area where many administrators, many boards of education, many political figures and many union teacher leaders have been rather gutless. We have spent too much time being concerned about the one or two children and their rights who disrupt the classes of the school children and not enough time about the ninety-eight percent of the students whose learning is interrupted in the classroom and because of those interruptions not only takes away learning but demoralizes teachers. We believe that teachers must be given State authority to remove disruptive students from their classrooms. Students whose behavior in regular classroom settings has a continuing negative effect on other students must be placed in alternative programs developed and guided by the State of Illinois. School districts should be required also to develop and enforce fair and effective student discipline codes through joint efforts of teachers, administrators and parents. The IFT urges the development of alternative programs for students with chronic behavior problems and that such programs be funded by the State. In respect to class size and other teaching conditions, the IFT urges the General Assembly to mandate class size standards because class size has a direct bearing upon the quality of instruction and the quality of the relationship between students and teachers generally. Maximum class size should generally not exceed twenty students, with changes, of course, for special education and so on. We also believe a standard should be established Statewide to provide a minimum

sixty minutes of planning and preparation time during the regular school day for all teachers. Teachers also could be relieved of noninstructional duties through the use of paraprofessional staff. We further urge the State to give special attention to the problem of dropouts and also the early...intervention to prevent drop outs. We urge that this State establish and enforce standards to guarantee that all schools should have adequate counseling services, psychologists, social workers and school nurses in respect to this drop-out problem. You know that fifty percent of the female students who drop out of school do so because of pregnancy and in...it's in this area where school nurses and so on could be especially helpful and try to retain those students in some manner to get an education. On the question of student testing, the IFT continues to support the use of testing as a tool in the context of the total evaluation system in our schools. Tests serve a valuable function in education. We support Statewide mandated examinations of regular education students at appropriate stages during their years in school. All across the State we feel that students should be evaluated so that the schools can be evaluated so that you know whether we're doing the job you're asking us to do. We believe that early childhood education would be a...would be money well spent by the General Assembly. Special attention should be given to the establishment of early childhood programs and full-day kindergarten programs. Research has proven conclusively, and I refer you to the Ypsilanti Study in Michigan that took place over a nineteen-year period, that early childhood education programs contribute...significantly to children's success throughout their education and that such programs are also economically beneficial to society as a whole. The children who go through them earn more money in their lifetimes, they are less liable to be involved with the law...on the bad side of

the law rather, and it's proven that it would really pay to spend some money on early childhood education. We would feel that the General Assembly should mandate that a full-day of kindergarten be funded by the State. In respect to teachers' pay, which comes last in my speech but not necessarily in my heart, the teachers' pay and improving teachers' salaries and other economic benefits is crucial to the success of education reform. Current statutory minimum salaries should be raised from ten thousand dollars to twenty thousand dollars in increments by 1987-'88 and proportionally increases on salary schedules for the veteran teachers. We do know that a teacher shortage is imminent and we would like to see Illinois be the beacon light where we have decent salaries at the beginning level with a short period to maximum so that we do not start school in September with a thousand classrooms with no teachers as could happen if something isn't done now. The...school districts also should try to develop schedules of no more than ten year's length with maximum salaries to be no less than forty thousand dollars. We're asking over a three-year period to get to a base salary of twenty to forty thousand dollars for teachers, many of whom have students who graduate, as you know, from colleges and go into accounting, law, engineering and start at much more than the minimum we're suggesting.

MR. CHAIRMAN: (SENATOR BERMAN)

Excuse me, Bob.

BOB LEAVY:

...I...

MR. CHAIRMAN: (SENATOR BERMAN)

We have some people in the audience that are not Senators and we would ask them to please be courteous in extending a little bit of courtesy to our guests. I'm sorry, Mr. Healy, please proceed.

BOB HEALY:

Thank you, Mr. Chairman. The IFT would oppose any attempt by the State to impose merit pay, career ladder or differentiated staffing plans on a Statewide basis. Development and implementation of any such plans should be subject to collective...bargaining at the local level to meet local needs. Such negotiated incentive salaries should be funded by the State, that would be above the base, and we feel they should be developed locally. In conclusion,...on behalf of the tens of thousands of members of the Illinois Federation of Teachers in two hundred and eighty school districts across this State, I wanted to thank Senator Berman, President Phil Rock, my own Senator, Senator Aldo DeAngelis, who's always very strong on educational needs and whose children also go to the school that came in third in the State tournament, Homewood-Flossmoor, and Governor James Thompson for focusing attention upon the vital work of reforming and renewing public education in Illinois. We in the IFT are prepared to give full support to your efforts for change to make sure that public education remains one of the strengths of our State in the future. We want especially to thank the members of the Berman-Mulcahey Commission and all the other educational and citizens' organizations who have been and will continue to be involved in this important work. Thank you, very much, and I would be glad to respond to questions at the end of the...whole presentation.

MR. CHAIRMAN: (SENATOR BERMAN)

Thank you, Bob. Paul Jung is president of the Illinois Association of School Administrators. He has previously served as both treasurer and director of this organization. Paul is currently serving as superintendent of schools for Des Plaines District 62 and has previously held administrative positions with the LaGrange-Highlands District 106 and Palatine Community District 15. Paul holds a...Doctorate in Educational Administration from Northern Illinois University.

In addition to his school activities, Doctor Jung also has been very active in community activities including chairing local...committees for services to young people. As president of the IASA, Paul has served with distinction and we are honored to have Paul Jung with us today. Paul.

PAUL JUNG:

President Rock, Minority Leader Philip, Senator Berman and members of the Senate Committee of the Whole on Education Reform. It is a privilege to have this opportunity to present the position of the Illinois Association of School Administrators on the educational reform issues before the Illinois General Assembly this Spring. Our testimony is based on a careful review of the recommendations in the reports of the Illinois Commission of the...on the Improvement of Elementary and Secondary Education and the Illinois Project for School Reform and in the proposals released by Governor Thompson and the State Board of Education, as well as our association's legislative principles. Given the limitations of time, allow me to review some of the major reform issues. The first issue is student learning expectations. We support the recommendations of the commission and the State Board that local school districts should develop learning expectational...expectations or instructional outcomes which meet or exceed the State requirements. While the commission is silent on the issue, we can only assume its intent is the same as the State Board's proposal, that the change to learning objectives would be accompanied by a repeal of existing curriculum mandates. The commission and the State Board both have recommendations on changing the requirements for mandatory daily physical education and driver education. We prefer the State Board's proposal to make physical education elective for students in grades eleven and twelve, rather than only under certain circumstances as...permitted in the commission's proposal. And we

suggest that the State Board's proposal be expanded to allow students to be excused from physical education, with credit, if they are participating in a sports program and that kindergarten student not be permitted...not be required to take physical education and that health education classes be allowed for physical education credit. The State Board's proposal making driver education permissive should be enacted, and we support the commission's proposals to allow private providers for behind-the-wheel instruction and to charge a reasonable fee to participants, allowing for waivers for students unable to pay. Two, student assessment schedule. The commission, the Illinois Project and Governor Thompson all offer similar recommendations for assessment schedules. We support requiring regular education pupils to demonstrate academic proficiency levels at the third, sixth, eighth and tenth grades, in accordance with established criteria developed by the State Board of Education; in reading, 1987-'88; reading and mathematics, 1988-'89; reading, mathematics and language arts, 1989-'90. All grade level retention decisions should be made by the local school district. The State Board must make prudent use of test results and district by district and building by building comparisons must be avoided. We further support the Governor's report card proposal. Item three, job descriptions and certification of school administrators. As we did when the commission's draft report was issued, we must oppose its final recommendations on requiring the law to be amended to "specify the vital role of the principalship" in order to assess the current educational climate and "reestablish their teaching skills," and on requiring the law to establish the criteria for certification. We must caution against writing school personnel job descriptions in Illinois law. These recommendations fail to recognize the wide variance in school district size, organization and finances which defies spe-

cific statutory definition. In response to the commission's recommendations on certification on administrators, we proposed language that requires the State...Teachers' Certification Board to set standards rather than establishing the criteria in law. Item four, the recertification of school administrators. The commission proposes that administrators be recertified every five years. As we responded when this recommendation was issued in the commission's draft report, we will support it if it is expanded to include all certificated personnel. We found it curious that the reason the commission's draft report gave for the need for recertification of administrators was an Illinois citizen's concern that "provision must be made for periodic upgrading of competencies for both teachers and administrators." For some reason, the commission was unable to recommend that recertification should be required of all certificated personnel in Illinois school districts. Item five, racial minorities and women in school administration. The commission recommends that scholarships, fellowships and internships should be established by the State Board for racial minorities and women interested in becoming school administrators. IASA strongly supports these recommendations. As an association of school administrators, we are working to enhance recognition of the needs of racial minorities and women who would like to move up through the ranks of school administration. At our annual conference next month, we are offering special panels for these candidates on advancement as school administrators. Item six, teachers' salaries. All four proposals recommend an increase in the minimum salary for teachers. We support increased salaries for teachers, but we are cautious about the specific proposals because of the uncertainties of the costs involved. If the State is mandating increased salary costs of local school districts, we can only assume that they will cover all the additional

costs. Before legislation on increased salaries receives serious consideration, we suggest all interested parties reach an understanding of how the salaries would be increased, given effects on salaries above the minimum, and how much those increases cost...will cost in Fiscal Year '86 and in future years. We strongly urge that increases to the minimum salaries should include provisions for an extended employment year, as determined locally. Item seven, teacher evaluation schedules. The commission, Illinois Project and Governor all offer proposals regarding evaluation of teachers. We support the establishment of district evaluation procedures developed according to general State Board criteria, but we are opposed to statutory guidelines for specific procedures. For example, the number of evaluations per teacher per year should not be set in law but rather developed locally. Item eight, the probationary period for teachers. None of the education reform proposals address the issue of probationary period for teacher tenure. We support an extended probationary period to more adequately provide for careful and deliberative decisions on tenure. State Superintendent of Education Ted Sanders has said that we face the dilemma of over-choice with regard to the education reform proposals this Spring in Illinois. The burden of choice now rests with you as you consider legislation which addresses the numerous reform recommendations. Hopefully, we, legislators, educators, parents, business leaders and other citizens can work together during the coming three months to send a responsible package of education reform legislation to Governor Thompson for his approval. Thank you.

MR. CHAIRMAN: (SENATOR BERMAN)

Thank you, Paul. Joan Levy is the president of the Illinois Association of School Boards. She has previously served on several association committees including six years as chairperson of the Legislative Committee. Joan is currently

serving as a board member with New Trier Township High School District 203 where she was first elected in 1977. Joan holds a Bachelors Degree from the University of Michigan and a Masters Degree from Columbia University. She is married and has five children. Since local boards of education will play an instrumental role in any legislation that we enact to enhance the quality of education received by our young people, the Senate felt it was only appropriate that Joan Levy, president of the...IASB be invited to address us today. Please welcome Joan Levy.

JOAN LEVY:

Thank you, Senator Berman. Members of the Senate, I do thank you for the time and attention you are giving to strengthening education for the children of Illinois. You have heard more reform proposals than I'm sure you ever wanted to hear about today and I will try to condense my remarks, but I know you are looking for school districts to become more accountable and I...we have no quarrel with that. We do believe that districts ought to be accountable for the effective use of tax dollars. They ought to be accountable for student performance and accountable for employing and retaining well-qualified teachers and administrators. The IASB recognizes that 1985 is the year for action and we will support changes designed to improve our schools. Instructional standards are at the forefront of most reports and that is refreshing, for we have not talked enough in the past about the essence of education. The IASB supports the Commission on Improvement and the State Board of Education's recommendations on learning outcomes. We believe this approach acknowledges the proper role of the State while providing local school districts a reasonable degree of latitude in developing programs to meet the needs of individual students. At the same time, the General Assembly must deal with the issue of existing instructional mandates. Current

requirements are a hodge-podge of good intentions. The individual mandates have never been considered within the total framework of instructional priorities. We support the Commission on Improvement's recommendations to allow flexibility of the physical education mandate in grades eleven and twelve and the driver education behind-the-wheel mandate. We also agree with the recommendations to allow the use of proficiency tests in order to provide able students with more time to take advanced courses. Pupil testing is one of the key accountability proposals. We have doubts about the wisdom of imposing a Statewide test of academic proficiency. We much prefer that testing programs be developed and administered at the local level. Testing programs should be used to measure the needs of individual students and chart their growth, improve school curriculum and strengthen teacher performance. The recommendation that regular education pupils periodically demonstrate academic proficiency in reading, mathematics and language arts has our support with the qualification that student retention decisions remain at the local district level. Further, the State Board of Education must be prudent in the use of test results. District by district, building by building comparisons of raw scores serve no useful purpose without recognition of the varying composition of student groups. The needs of the kindergarten and preschool child have been dealt with in many reform reports. The statistics are startling, fifty-five percent of the children under twelve have working parents; forty percent of the three to five year olds have working mothers. In the coming months, we ought to carefully consider what the role of the public schools should be in this area. The care and education of these children...is a societal necessity, and public schools may well be the institutions to provide for this clientele; but there is a cost for these services and we cannot cut existing programs to meet the need, new funds are

required. We are in full agreement with proposals to improve the preservice and in-service training of school personnel. We believe that applicants for teaching, administrative and school personnel certificates should pass a proficiency examination on basic communication and mathematic skills and a proficiency examination in the major field of the desired teaching or administrative assignment. Teacher salaries are a significant consideration in the budgets proposed by both Governor Thompson and the State Board of Education and every report has called for increased salaries. The IASB's Delegate Assembly has adopted resolutions based on the national commission's report "A Nation at Risk." These resolutions call for increased teacher salaries and for the development of career ladders that distinguish among the beginning instructor, the experienced teacher and the master teacher. We support a deliberative approach to the question of performance pay. We believe that teachers, administrators and school boards can work with the State Board of Education to develop various models that districts could use as a framework for negotiating performance pay plans through the bargaining process. Let me quickly share with you some thoughts on the performance pay issue. Public school administrators must improve their evaluation techniques and the appraisal systems within the districts. For pay to be related in any way to achievement, somebody has to be equipped to evaluate the effectiveness of performance. Effective evaluation and differentiated pay are not going to make any difference in the quality of teacher performance unless the perception that bad teachers are invulnerable is changed. Statutory provisions of tenure, the hearing officer procedure and the defeatist attitudes of some administrators have convinced mediocre teachers that they are, for all practical purpose, untouchable. Many teachers cannot understand why they should work hard when there is no difference between

their...compensation and job security and that of their uncommitted colleagues who barely maintain minimum standards. Conversely, why should inadequate teachers struggle to improve when there is no reward if they do and no penalty if they don't. The most drastic punishment imposed upon an incompetent teacher is often involuntary transfer to another school or a less visible assignment. It's not enough to reward good teachers, we must identify the inadequate teachers, make a good faith effort to help them improve and fire or relocate them in a new career if they are unable and unwilling to improve. The fact that public school districts are required by law to bargain wages, hours and other conditions of employment must be carefully considered by the General Assembly as it debates the various reform proposals. State mandated teacher salaries and working conditions negate the very premise of collective bargaining and totally undermine the balance in the bargaining process. What is left for management to negotiate other than who will control the school system? We believe the existence of the collective bargaining law is itself a powerful argument against legislating minimum salaries. However, if the General Assembly determines that it is important public policy to raise minimum salaries, we think there are some significant points which should be included as we make that change. First, increases in the State mandated minimum salary must be funded by the State of Illinois and funding should also be required to cover the so-called ripple effect. Given the pattern of teacher salary schedules in this State, please remember that the ripple effect of State mandated beginning salaries of twenty thousand dollars produces forty to fifty thousand dollar salaries for the more experienced teachers. Second, the probationary period for teachers should be extended to...more adequately provide for careful and deliberative decisions on tenure. For the teacher who is just beginning a

teaching career, we would suggest an initial one-year internship program followed by a four-year probationary period. Experienced teachers who move from district to district should have a three-year probationary period rather than the existing two-year period. This is not intended to be punitive but, rather, to make the evaluation system more reasoned and effective. A system of renewable tenure should be examined, a system that would allow, with necessary safeguards, relocation or removal of the mediocre. This is particularly relevant since about only twenty-five hundred new, inexperienced teachers are hired by Illinois school districts each year out of a teaching force of one hundred thousand. Local school districts must be given some leverage in requiring improved performance by teachers already in the system. Third, we need to move toward a system that will allow at least a portion of our teaching staff to be employed on eleven or twelve-month contracts. Until we overcome the perception that teaching is a part-time occupation, the profession will never achieve the status it deserves. Not every teacher would want to take advantage of the full-year contract, but the longer contract would provide opportunities for increases in compensation, more effective use of teacher talents and generally raise the status of teachers. One short word about funding. I will not belabor the statistics, but I must assure you that the IASB has as its highest priority the State assumption of a greater share of the costs of public education. These reforms all have a price tag and substantial amounts of new dollars are required. At the same time we have to keep our existing programs operating at least at their current levels. I urge you to continually be aware of the necessary balance between dollars for reform and dollars for maintaining current services. The eighty million dollars estimated by the commission is the State cost of increasing beginning teacher salaries next year, plus the

ripple effect is based on the assumption that all school districts will pay a five percent across the board salary increase to all teachers. The local district cost is estimated at a hundred and twenty-five million new dollars for next year and does not include the cost of the longevity step in all teacher salary schedules. The cost of that automatic salary increase for teachers who've not reached the top of the salary schedule is usually two to two and a half percent of the total salary cost. All of these costs are supposed to be assumed by the local district next year. Since there is expected to be virtually no increase in local property assessments throughout the State next year, this mandated five percent increase in teacher salaries will have to be funded by new State dollars or must come from increased class size or reduction in school programs. I bring this to your attention because there are so many reform proposals before you, many of them imposing new requirements on local school districts. I have frequently heard our membership express the fear that on June 30th, we will end up with many new mandates, as well as all of the old mandates still in place, and once again, insufficient funding to carry on our existing programs, much less implement new reforms. Such a self-defeating response to the needs of Illinois students can only...be compared to the compromise which a not-so-funny comedian proudly described after he and his wife failed to agree on how to spend their limited resources. He wanted a car. She wanted a fur coat. So, they compromised. She got the fur coat and they keep it in the garage. Please, don't saddle school districts with the trappings or wrappings of reform instead of investing in less glamorous vehicles with long-term capability to achieve meaningful improvement. We look forward to working with you in this effort. Thank you.

MR. CHAIRMAN: (SENATOR BERMAN)

Thank you, Joan. Now if we could have the four

presenters come to the Rostrum; Reg, Bob, Paul and Joan. Questions from the members of the Senate. Looks like you've answered everybody's questions, I see no lights lit up. Very good. Thank you, very much, all four of you, for your fine presentations. The Chair recognizes Senator Maitland.

SENATOR HOLMBERG:

Committee Amendment No. 1 deletes everything after the enacting clause and requires that the State's portion of the proceeds of the lottery shall be paid into the Common School Fund. As we know, the Governor recently announced his support for total transfer of lottery proceeds to be transferred into the Common School Fund rather than the General Revenue Fund and this amendment will accomplish that transfer.

PRESIDENT:

SECRETARY:

Senate Bill 1.

(Secretary reads title of bill)

3rd reading of the bill.

PRESIDENT:

Senator Welch.

SENATOR WELCH:

Thank you, Mr. President. This Senate Bill No. 1 will appropriate one million fifty-seven thousand six hundred dollars to the Board of Regents to enable Northern Illinois University to create an engineering school. The purpose for this bill is to insure that there are sufficient number of spaces for individuals in Illinois where students who want to become engineers to fulfill their goal. The State Board of Higher Education has already passed a resolution enabling Northern Illinois University to create an engineering school at Northern Illinois. In fact, what we are now awaiting is the funding from the State in order to proceed. At the present time, there are many Illinois citizens who want to become engineers but are unable to attend school due to the lack of space in those schools or to the high tuition requirements at other private schools. In fact, twelve hun-

dred Illinoisans have had to go to the State of Iowa in order to receive an engineering degree in the last year. The number of students who are dissuaded from becoming engineers cannot be measured. For those who go to see their counselors, when they are counseled on their future careers, must be told that to get into engineering school you either have to be in the top one percent of your class or be rich or be both. The idea of an engineering school is not merely for academic purposes, it is for purposes of improving the economy of the State of Illinois. One of the main requirements of General Motors to bring the Saturn Plant to Illinois is that they be within fifty miles of an engineering school and engineering goes hand in hand with high technology. For too long we have not played up the high technology aspects and the availability of our schools of higher learning to business and now we must play catch-up. It's not for no reason at all that Massachusetts has become such a center of high technology; with MIT and Harvard and their other fine schools, they're a natural magnet for this type of high tech. industry, and that's what we want to do here in the State of Illinois. This bill has received a great deal of support, I believe we have thirty-one sponsors at this time. The number of jobs that it will create is unknown, but we think that in northern Illinois with the availability of the Argonne Lab, with our attempts to bring in the super colliding super conductor to the area, with other attempts at making it a high tech. area, we're trying to bring in Chrysler into Belvidere with more automobile building. Each of these requires engineering training and both takes from engineering schools the courses that they teach and supplies teachers to those schools. For this reason, those of us in northern Illinois and throughout the entire State, in order to improve our economy and make life careers for our students here in Illinois, are supporting this bill. I'd be glad to answer

any questions, Mr. President.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Is there discussion? If not, the question is, shall Senate Bill No. 1 pass...Senator Bloom.

SENATOR BLOOM:

Thank you, Mr. President and fellow Senators. Got a question of the sponsor.

PRESIDING OFFICER: (SENATOR SAVICKAS)

He indicates he'll yield.

SENATOR BLOOM:

In the presentation of this bill, the Board of Higher Education, it was stated, endorsed the creation of another engineering school in the State of Illinois. Was not the staff of the Board of Higher Education...did not their study end up recommending against creating another engineering school in the State at this time?

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Bloom, would you repeat that. Senator Welch missed your question.

SENATOR BLOOM:

I'm...oh all right, Mr. President. My...question is, although it has been stated both in committee and now on the Floor that the Board of Higher Education has endorsed the creation of an additional engineering school in the State of Illinois, is it not correct that the staff of the board, the study that they conducted, concluded that it would not be necessary to create another engineering school in the State of Illinois?

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Welch.

SENATOR WELCH:

Senator Bloom, my understanding is that the initial staff report in December, before the bill was introduced, did indicate that based on projections then available that not enough

students were applying to become engineers. But that's a self-fulfilling prophecy. If there are not enough spaces for people to become engineers, you're going to have fewer students applying; plus, you're going to have your school counselors discouraging students from becoming engineers. So, in effect, what you had was an attempt by the...the staff of the Board of Higher Education, who I am not sure are wholly neutral on this issue, making a recommendation early on which was not followed by the Board of Higher Ed., just the staff recommendation is what you're referring to.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Bloom.

SENATOR BLOOM:

Well, I...I don't want to unduly prolong the proceedings here. With thirty-one cosponsors, perhaps the outcome is foreordained, but I think a record must be made. The response about kids discouraged and so on and so forth, I have been informed by...schools that are among the Federation of Independent Colleges and Universities that indeed there is not, outside of the University of Illinois, such a demand as to warrant an additional engineering school. I would...respectfully disagree with the characterization of the staff recommendation, not that any agency should blindly follow the recommendations of staff. However, it is with a great deal of reluctance that I do rise against this particular measure because I...it could be misinterpreted in the sense that somehow I want to...it has nothing to do with the sponsor, I understand why the sponsors...the thirty-one sponsors are doing what they're doing, but I would suggest that it probably would be a wiser allocation of the 1.7 million dollars if we got the institutions of higher education that offer such programs, especially the independents and Southern and some of the others, to do rather aggressive outreach program, I know that Bradley University which has such a program

in my own home town would be willing to participate to do an outreach to encourage high school students to enroll and pursue a career in engineering. Thank you for your time.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Maitland.

SENATOR MAITLAND:

Thank you, very much, Mr. President. It is tough to go against thirty-one...thirty-one cosponsors on a bill. But, Senator Welch, I would...I would submit to you that the argument that we use from time to time in Illinois that the students go elsewhere to get their degree and that ultimately go someplace else to...to get a job would still take place even if we educated those students in Illinois. I'm not sure we have a deficiency in...in...in engineers in Illinois. Certainly, we may...we may want to...the young...the young people who want to pursue an...an engineering degree may want to go to school here, but I'm not sure that after graduation they really want to...to seek employment here. That concerns me just a little bit. But I think of a bigger...bigger magnitude is...is the fact that every senior university in this State wants to be all things to all people, and I...I don't fault university presidents for that, I don't...I don't fault the people involved in those universities for wanting to do that. But we are never going to fund higher education in this State until we address the fact that these universities, each and every one of them, can't be all things to all people. They have to build on the programs they have that are very good and do away with those that are not doing what they should do. The same argument applies with creating new courses at those universities and that troubles me a great deal. It would seem to me, that as Senator Bloom mentioned, that privates and...and in particular University of Illinois should expand their program and do a more efficient and...and better job of...of engineering of...of educating engineers in

the State. And again, I don't think we're going to fund...higher education at an adequate level until we address those problems. My final point would be this, could you tell the Body what the ultimate cost of...of the engineering program at Northern will be? Now the 1.7 million dollars I understand is for the first year of operation. What then would be the ongoing annual cost?

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Welch.

SENATOR WELCH:

Senator, the...the...this bill is one million fifty-seven thousand six hundred dollars, not 1.7 million. The three year...1.9 million is going to be the total cost of the program over the next two fiscal years. Right now, even though there is some problems getting engineering faculty, here at Northern Illinois University we already have ten or eleven engineers on the staff that will move within the school to the engineering school upon its designation. So the initial cost is going to be 1.9 million dollars..for two years.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Maitland.

SENATOR MAITLAND:

Thank you, Mr. President. Can you...can you reach out a...a bit farther on that though?

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Welch.

SENATOR MAITLAND:

Or not...if not, that's okay, I just was curious.

SENATOR WELCH:

Senator, the...the projections for this school are that we continue to use existing facilities and hire some twenty engineering teachers. So the...the cost, unless there's a radical change, will continue to remain within that million dollar proposal.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Schaffer.

SENATOR SCHAFFER:

Well, I think we've all had a lot of discussion on whether we need any more law schools or any more medical schools, and our friends in those two professions will at least privately tell us there's plenty of lawyers and plenty of doctors; but if you talk to an engineer, most of them will tell you there aren't enough engineers. And if we are serious about all the programs, Build Illinois, education reform, one of the things...all of those things are aimed at is creating the kind of a...an economy where engineers are going to be absolutely vital. The students for this proposed...Northern Illinois Engineering School come primarily from northern Illinois, from Cook County, the collar counties and the northern twenty counties. Northern has a very enviable...record compared to some of the other universities in that the kids that are educated at Northern tend to go back to those northern twenty counties and...and have careers and become solid...contributing citizens to the State...Senator Bloom points out, I didn't make that mark quite yet. One of the saddest things for me is every year talking to the parents of kids who have straight A averages that can't get into an engineering school here, that end up in Iowa or Nebraska and all around the country. We cannot afford to export our brightest and best. And I'm led to believe that the private engineering schools in this State have no shortage of candidates, and for them to be in here and hiring lobbyists to shoot this bill down is...well, at the best, terribly tacky. Thank you for the word. This is something that should happen, this is something that's needed; and frankly, if the other institutions, State institutions or private institutions, need additional help, I think this General Assembly is prepared to do that simply

because we recognize to build the kind of economy we need, we're going to need to keep the brightest and best in this State and this is one way to do it.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Is there further discussion? Senator Holmberg.

SENATOR HOLMBERG:

Thank you, Mr. President. One of the things that we find in northern Illinois is when we talk to businesses that are interested in coming into the area or businesses that are thinking of leaving our area, the number one reason that they give is the lack of immediate studies in engineering. They cannot have ongoing, up-to-date programs for the men that they wish to employ. If we want to go to an engineering school, it's that same four-hour drive down Highway 51, and I think Senator Maitland and a few other people have experienced it coming the other way, and it certainly has been something that has hindered the progress of the economy from the northern edge of the State. I think as we're trying to rebuild Illinois, I can think of no better way than to bring northern Illinois back into the State with an engineering school.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Further discussion? If not, Senator Welch may close.

SENATOR WELCH:

Thank you, Mr. President. I'd like to point out for the Body that fifty percent of all the scientists, technologists and engineers employed in Illinois are within a fifty-mile radius of Northern Illinois University and that eighty percent are within a seventy-mile radius. And it was for that reason that only two months ago Governor Thompson came to DeKalb and announced his support for the engineering school, and as he did, he said that we need the engineering school to help bring in jobs and that was the bottom line. I know schools try to be all things to all people, Senator, but I

think that they should be something to the people who want to attend a school. And the people who want to attend a school in my area want to become engineers and that's what we're trying to do with this bill. Even though this may cost a million dollars this year and a million dollars next year, I think that we should look at this in the broad perspective. I think that we should look at this not as an expenditure of funds but an investment; an investment in the future of Illinois, an investment in our students here in the State of Illinois, an investment in bringing in jobs and not just high tech. jobs because those jobs bring in your low tech. jobs. I think that this is a bill that can help not just the school but help the entire State of Illinois, and for that reason, I would ask for a favorable roll call.

PRESIDING OFFICER: (SENATOR SAVICKAS)

The question is, shall Senate Bill 1 pass. Those in favor will vote Aye. Those opposed vote Nay. The voting is open. Have all voted who wish? Have all voted who wish? Take the record. On that question, the Ayes are 44, the Nays are 11, none voting Present. Senate Bill 1 having received the constitutional majority is declared passed. Senate Bill 39, Senator Hall. Senate Bill 40, Senator Hall. Senator Hall. Read the bill, Mr. Secretary.

SENATOR HALL:

Hold it, just a second.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Hall.

SENATOR HALL:

Thank you, Mr. President, Ladies and Gentlemen. I'd like to pass at this time, I'm waiting on an amendment. If we can come back to it, please.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senate Bill 123.

3rd reading of the bill.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Lemke.

SENATOR LEMKE:

What this...bill does, it revised the manner in which vacancies in the office of...of...of...township trustees of schools are filled. What this does is when there's a...an even split, it allows the local regional superintendent of public instructions to choose the...the other trustees so they can choose the treasurer to administer the trustees...the township funds. I think it's a good bill and I ask for its adoption.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Is there discussion? Senator Welch. Is there any discussion? If not, the question is, shall the Senate...Senator Schuneman.

SENATOR SCHUNEMAN:

Question of the sponsor.

PRESIDING OFFICER: (SENATOR SAVICKAS)

He indicates he'll yield.

SENATOR SCHUNEMAN:

This has to do with, for example, in our case, the County Board of School Trustees?

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Lemke.

SENATOR LEMKE:

This...this deals with what we call the...township trustees. In other words, if the...they...what...their pure function is to choose a treasurer to invest and take in the school funds of the schools in the township. That's the mere function what we're doing here, and what we have is that we

have a board of...of five and we have a split of two and they can't choose who the treasurer is. This allows the...the fifth guy to be chose after a period of time.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Schuneman.

SENATOR SCHUNEMAN:

Well, what...what committee did this go through, if I may ask? I...I'm not sure that I'm opposed to the bill, but I'm just curious as to whether or not you're affecting school government in my area, and...and in our case, we have county boards of school trustees or regional trustees as opposed to the...the method that you're talking about. And it seems to me that what your bill is going to do is take selection of those people out of the hands of the public or the...other trustees and put it in the hands of some other elected official. So...I guess my first question is, where did the bill...through what committee did the bill go, education or elections?

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Lemke.

SENATOR LEMKE:

No, what this does...I'm sorry, this applies to boards of school trustees, the same method as...is for filling on school boards. It's...it's...it just includes the board of trustees.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Schuneman.

SENATOR SCHUNEMAN:

Our staff tells me that the bill only applies to Cook County, so that takes care of my objection.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Kelly.

SENATOR KELLY:

Well, just briefly in support, this bill was given a full

hearing at the Elections Committee and it does apply to one isolated case that just...when you have two persons and they won't compromise and that's why. So there's a...the number of days that are given would...would more or less place them in a position to make a decision...to make...to make this decision during the period. So, it's a...we didn't have any opposition in committee and I think it's a good concept and it only applies to Cook County.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator DeAngelis. Senator Macdonald.

SENATOR MACDONALD:

Yes. I was going to say also that there was no testimony against this bill, and I think that I...I have read of and I have heard of situations that this tie breaker would affect in Cook County. And, as I say, there was no opposition against it and I see no problem with the bill.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Is there further discussion? If not, the question is, shall Senate Bill 123 pass. Those in favor will vote Aye. Those opposed vote Nay. The voting is open. Have all voted who wish? Have all voted who wish? Take the record. On that question, the Ayes are 54, the Nays are none, 2 voting Present. Senate Bill 123 having received the required constitutional majority is declared passed. Senate Bill 132, Senator Luft. Senate Bill 160, Senator Welch. Read the bill, Mr. Secretary.

SECRETARY:

Senate Bill 160.

(Secretary reads title of bill)

3rd reading of the bill.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Welch.

SENATOR WELCH:

Thank you, Mr. President. This bill will create bonding

of two hundred million dollars to finish off Route 51. As many of you know, Route 51 is the corridor going from Rockford to Bloomington that we're trying to build and also down to Decatur, trying to make it a four-lane road. The Governor recommended in his address on Build Illinois that Route 51 was utmost importance. The Governor recommended that we not waste any time in completing this road and he recommended that...that we do it with bond funds. The purpose of this bill is to insure that the bond money is available early on to complete Route 51. And for that reason, I would ask for a favorable roll call.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Is there any discussion? If not, the question is, shall Senate Bill 160 pass. Those in favor will vote Aye. Those opposed vote Nay. The voting is open. Have all voted who wish? Have all voted who wish? Take the record. On that question, the Ayes are 52, the Nays are 3, none voting Present. Senate Bill 160 having received the constitutional majority is declared passed. With leave of the Body, we'd like to go back to Senate Bill 40. Senator Hall has received the amendment. Leave granted? Leave is granted. On the Order of Senate Bills 3rd Reading, Senate Bill 40. Senator Hall.

SENATOR HALL:

Thank you, Mr. President and Ladies and Gentlemen of the Senate. That...my...I...I have an amendment on here that I want...

PRESIDING OFFICER: (SENATOR SAVICKAS)

...Senator Hall...seeks leave of the Body to bring Senate Bill 40 back to the Order of 2nd Reading for purpose of amendment. Is leave granted? Leave is granted. Mr. Secretary.

SECRETARY:

Amendment No. 2 offered by Senator Hall.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Hall.

SENATOR HALL:

Thank you, Mr. President and Ladies and Gentlemen of the Senate. This just simply takes out the City of Chicago.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Is there any discussion? If not, those in favor...of adopting Amendment No. 2 indicate by saying Aye. Those opposed. The Ayes have it. Amendment No. 2 is adopted. Any further amendments?

SECRETARY:

No further amendments.

PRESIDING OFFICER: (SENATOR SAVICKAS)

3rd reading. We have Senate Bill 168. Senator Carroll. Senate Bill 263, Senator Demuzio. On the Order of Senate Bills 3rd Reading, Senate Bill 168. Read the bill, Mr. Secretary.

SECRETARY:

Senate Bill 168.

(Secretary reads title of bill)

3rd reading of the bill.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Carroll.

SENATOR CARROLL:

Thank you, Mr. President and Ladies and Gentlemen of the Senate. The impact of Senate Bill 168 is now to transfer the monies that were available out of Ag. Premium Funds that had once been allocated for county matching of extension services for farming. Since that...the counties were unable to adequately use up the full match that we had given to the university, this would transfer that to create a hotline so that those in our Rural Route Program who need help in agricultural problems which we know that the farming communities of our State are now being faced with, can have the expertise

AB 263 3rd Reading

available to at least give them that advice that is available. We know that there are no good programs yet in place to save the Illinois farmer but at least that which may be available should be advisable to them. So this would, therefore, transfer those monies that would otherwise have been unused and extend the hotline program so that they will have a place to call even if they can only find out that the news is bad. And I would ask for a favorable roll call.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Is there discussion? If not, the question is, shall Senate Bill 168 pass. Those in favor will vote Aye. Those opposed vote Nay. The voting is open. Have all voted who wish? Have all voted who wish? Take the record. On that question, the Ayes are 56, the Nays are none, none voting Present. Senate Bill 168 having received the constitutional majority is declared passed. Senate Bill 263, Senator Demuzio. Read the bill, Mr. Secretary.

SECRETARY:

Senate Bill 263.

(Secretary reads title of bill)

3rd reading of the bill.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Demuzio.

SENATOR DEMUZIO:

Thank you, Mr. President, Ladies and Gentleman of the Senate. Senate Bill 263 creates the Emergency Farm Credit Allocation Act. When we originally started in this proposal we had envisioned at least a fifty million dollar interest proposal; however, we have amended that by virtue of an amendment that we placed on the appropriation bill today, the twenty-five million dollars. Also, when this bill originated it started out with a ninety percent guaranteed provision by the State of Illinois which was amended out on...by virtue of Amendment No. 1. And Amendment No. 2...placed a fifty thou-

sand dollar cap on the amount of the loan rather than the one hundred thousand dollars. What, in fact, we are doing here is we are embarking upon a...a loan program for Illinois agriculture for those individuals who are in need of planting or seed money for crops for this year. It is certainly not an unprecedented...position for the State of Illinois to be involved in loan programs since we have already been involved with a twenty million dollar allocation to Chrysler a few years back. This is not a bailout also for the agriculture community in Illinois but it is certainly a loan program that provides that lenders working with the borrowers may have the opportunity to negotiate the loan. At the end of twelve months the borrower would then pay back the full amount of the loan up to the maximum of fifty thousand dollars plus one-half of the interest. The remaining one-half of the interest would be paid back to the State of Illinois over a five-year period of time. It is a proposal that, frankly, the State of Illinois...it's questionable as to whether or not we should, in fact, be embarking upon this position in the first place. But it is something that we are responding to as a result of the inaction of the President and inaction of the...quite frankly, the Secretary of Agriculture who is a resident or was a resident of the State of Illinois has refused to go along with helping out agricultural interests in this...in the...in the United States. Therefore, there's still some room, I am told, for possible negotiations between the Congress as well as the President in an attempt to extract a compromise that might lead to a Federal solution to this very severe problem. As such the...the House and the Senate here in Illinois are certainly not going to turn our back on our responsibility to Illinois agriculture. And as a result, we are proceeding and poising ourselves to be in position to act affirmatively to help the farmers in...in Illinois in case the Federal Government does not, in fact,

come through with any kind of a...a compromise. It is a...as I said, it is a proposal that is a loan proposal. It is one that will be only for Illinois residents and who are principal operators of the farm for which the...the loan is intended. The person must demonstrate that he has a positive cash flow where the depreciation and the net income do not exceed twenty-five percent of their gross income. He must demonstrate that he is creditworthy according to the standards that have been prescribed by the lender and the Illinois Farm Development Authority who will be the administer of the program, and it seems to me that they will have an immediate effective date. This twenty-five million dollars and interest would assure us that we would have about three hundred and eighty-four million dollars in principal for operating loans in Illinois. It would serve at the maximum about seven thousand six hundred and ninety-two providing that all of the individuals that applied for the fifty thousand dollars would be eligible and that the awards were made...or the...the loans were made at the fifty...fifty thousand dollar level. I would ask for your positive support relevant to Senate Bill 263 and would respond, if necessary, to any questions.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Is there discussion? Senator Joyce.

SENATOR JEROME JOYCE:

Thank you, Mr. President. I think it is indeed a shame that we have to be debating this measure here in the State of Illinois. I agree with what the sponsor is trying to do and I support him and I applaud him. But for us to have to do this, to take twenty-five million or fifty million or whatever it is, out of our treasury when our schools could use it and it could be used many, many other places, for us to have to bail out the Federal Government when they are letting the farmers in this nation go by the wayside is indeed a shame.

We have an administration that is totally unreceptive to the farmers. We have a Secretary of Agriculture who is...who is a native son of Illinois and will not promote a program that originated here in this Senate, that would not cost the Federal Government anything but would bring a billion eight hundred million dollars into this State to help out farmers. We are, today, trying to...to help these farmers and we're not going to get to the ones that really need the help, the bottom fifteen percent, they're going to go down the drain if help doesn't come from Washington and then next year the next fifteen percent will go down the drain. We are not in as serious a trouble in Illinois as they are in Iowa and some of the other states, South Dakota, North Dakota, but it won't be long until we are. Farmland values in Iowa are on a downward spiral, they're going down five, ten percent a week. The equity is gone from all of those farms in...in Iowa and it's fast happening to us in the State of Illinois. Another native son of this State, the President of the United States, was quoted the other night, saying the...that we should export the farmers and keep the grain. We were in Washington, a bunch of us last week, with the Governor's Task Force and one of the Secretary of Agriculture's spokesmen told us that if we had a farm program next year like the one we had this year with target prices for farmers, it would be horrendous the amount of people that would go along with the farm program. I've never known an administration that would set up a farm program and then hope that no one went along with it. We are not the cause of low grain prices and failing farmers in this State, we balance our budget, we had a tax increase a couple of years ago; but the high dollar is the real culprit and that's caused by the Federal deficit not the State. So, for us to have to come here today and...and attempt to keep our farmers solvent is not the right thing to do but it's something we have to do. Another native son of

this State many years ago in 1896 said, "Burn down your cities and leave our farms and your cities will spring up again as if by magic, but destroy our farms and the grass will grow in the streets of every city in this country." And that was William Jennings Bryan. So, today, we should try and help farmers and we should pass this bill but, indeed, it is not our responsibility. And I think the responsibility will be borne heavily by those folks in Washington, D. C. whose responsibility it is. Thank you.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator DeAngelis.

SENATOR DeANGELIS:

I don't know whether to debate Senator Joyce or ask Senator Demuzio a question, but I'll ask Senator Demuzio a question first.

PRESIDING OFFICER: (SENATOR SAVICKAS)

He indicates he'll yield.

SENATOR DeANGELIS:

If I might. Senator Demuzio, how much money does Treasurer Donnewald have available at this time for farm loans?

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Demuzio.

SENATOR DEMUZIO:

Over the last...three allocations, I think he probably has around two hundred and twelve million dollars that had been made available to three hundred and eighty banks out of twelve hundred in Illinois, I'm told.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator DeAngelis.

SENATOR DeANGELIS:

Well, you mean three hundred and eighty-one banks have applied.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Demuzio.

SENATOR DEMUZIO:

I believe so.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator DeAngelis.

SENATOR DeANGELIS:

A little different than the way you phrased it. Two hundred and twelve million is correct. Does his bill cap the interest the bank can charge?

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Demuzio.

SENATOR DEMUZIO:

I am told that the...the treasurer puts out money, I think, each week and I think...on a bid basis, and I think that the...the...the recent figures I...I believe on the bid was nine percent and the banks are allowed a two and a half percent...addition to the...the nine percent, that's what I am told.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator DeAngelis.

SENATOR DeANGELIS:

That's correct, he has a two and a half percent cap. Does this bill have a cap?

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Demuzio.

SENATOR DEMUZIO:

No, but it's anticipated that the Illinois Farm Development Authority will by rule or regulation cap and suggest that no loan would be more than thirteen percent.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator DeAngelis.

SENATOR DeANGELIS:

Well, you know, the State is going to get stuck for half of the interest cost. I think the State ought to at least know what the interest cost is going to be. And there's a

tendency, and my good friends in the banking community might disagree, but when there's such an attractive opportunity where the State's going to pay half the interest, I think there might be something there. Why...why did you not include a cap in your bill?

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Demuzio.

SENATOR DEMUZIO:

The bill provides that it would be...that the prevailing interest rates...and I'm trying to find the certain section for you, but that is what the bill says, at the current interest rates which are...which is not an unusual statement.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator DeAngelis.

SENATOR DeANGELIS:

Well, who is eligible under this bill that will not be eligible under Treasurer Donnewald's program which is three times larger than this and currently is not even totally subscribed?

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Demuzio.

SENATOR DEMUZIO:

Well, I didn't totally hear the last part of your question, but on page 3 of the bill, Section 7, it indicates that...the interest rate not exceeding the prevailing rate...not exceeding the prevailing farm operating loan rate and the final approval, in fact, will be made by the Illinois Farm Development Authority to allow us an opportunity to keep a...an...eye on that. Who can qualify for the program is an individual who is...stipulated to and by definition on page 1 of the bill, "applicant meaning an Illinois farmer," Senator...

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator...Senator DeAngelis.

SENATOR DeANGELIS:

That wasn't my question. My question was, who would be qualified for your loan that wouldn't be qualified for Treasurer Donnewald's program?

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Demuzio.

SENATOR DEMUZIO:

I think about twenty percent of those who apply for this particular program...I'm sorry, twenty...twenty percent of those that are in Illinois won't be helped at all; about thirty percent of those will, in fact, probably not apply and this would apply to about fifty percent of those that are currently in financial problem. It's not the availability of the money, it is the cost of the money that makes it more attractive to the lendor to...to make the loan because the balance of the one-half of the interest is deferred. So, I think that if you're talking about cash flow that those individuals are...are the persons who would be more...more apt to be included in this program rather than the treasurer's program.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator DeAngelis.

SENATOR DeANGELIS:

Well, Senator Demuzio, without making a big issue on this, what you are doing essentially is...is giving credit to those who least need the credit; because under the stipulation of your bill, it's the creditworthy that are going to receive the credit. Now I'm not opposed to that, but not...let's not paint it as a program that's going to help the distressed farmer that's teetering on bankruptcy that may not make it through this year, 'cause that person under your bill is not going to get a loan. So what's going to happen, it's going to benefit those people who normally could go and get a loan but they're going to get it at a lower rate of

interest. Now, we are already funding Treasurer Donnewald's program by subsidizing the interest differential on his loss of interest at a normal rate to allow them to put the two hundred and twelve million dollars. And I...I just don't want the false impression that this is going to solve the farmer who is about ready to go under in my district's problem because this bill is not going to do anything for him or her.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Maitland.

SENATOR MAITLAND:

Thank you, very much, Mr. President. I...am disappointed I guess that we got into a...a partisan debate on...on this issue with regard to the present administration. I am...we've work shoulder to shoulder and...and head to head on this issue for...for some weeks together and...and have disagreed with the...with the Secretary. I've talked with him on several occasions and tried to urge him to change his position, and I can recall never getting up on this Floor when...when an embargo was presented some years ago by another administration and yet I think that's why we are in part here today grappling with this problem, and I would hope that we not get involved in a partisan debate on this matter any further. I voted against this bill in committee, as Senator Demuzio very well knows, and I think it's quite a...an inappropriate position for a state to have, and I agree, Senator, with your position on that; and...and yet, it seems to me that given the inability of all of us to convince the Secretary that a change has to be made, I believe we need to advance a number of tools to help us get out of the dilemma that we're in. My problem, Senator, with the bill, and it continues to be a problem, is...is two or threefold. I guess, number one, I'm concerned that it almost becomes a bank bailout bill to the...to the extent that I...I'm afraid

they're going to...to charge a higher interest rate, and prevailing interest rate bothers me a little bit and they could up that by a percent or a percent and a half, and it seems to me that should be tied to something. We've not been able to do that yet. Secondly, I would like to see it with a one-year provision. I think we discussed that this morning and I think that's...that's your plan. I think that should be...that should be a...a part of the bill. And the third factor goes back to the bankers. If, as you suggest, that the farmer has to show a positive cash flow, as we discussed in committee some weeks ago, they can still alter that cash flow projection to allow a farmer to show a positive cash flow and then qualify for the loan. And I...I'm not sure we want to do that, it...it would seem to me as though there should be an oversight on that cash flow projection, because you can make...I can even make my farming operation show a cash flow, a positive cash flow, I'd love to do that, it doesn't look that way right now. But that's a...that's a prominent concern that I have. I'm going to vote for the bill this time. I'm going to vote to get it out of here. I'm not convinced it's the proper tool, but I...I think we need to advance those different mechanisms to try to resolve the problem.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Coffey.

SENATOR COFFEY:

Thank you, Mr. President and members of the Senate. I rise also in favor of this bill and would like to make a couple of comments. First of all, just a few short weeks ago when the Governor come out with his Build Illinois program I felt that agriculture should be part of that. I think it's a sad day that when we talk in this Body that another twenty-five million dollars to...to help out the agriculture industry of this State, that if we think that's too much money, I

think we need to take a look at the taxes that agriculture pays in to...to our schools, for instance. In one county in my district the total taxes collected is...around nine million dollars and of that nine million dollars, six million, a little...a few dollars less than six million is actually paid by agriculture by the farmer theirselves. If we allow the agriculture in our districts, if we allow them to fail and if allow them not to go to the fields as...has presented several numbers to us; for instance, the Illinois bankers are saying maybe as many as five out of every banks might not be able to go to the field, I don't know what that percentage is going to be, I've heard as high as thirty percent of farm loans might be turned down. I'm not sure this is going to address all the problems but if it addresses only a small percent of those problems, it's going to be helpful. If we lose, if these farmers fail and do not go to the field and that if they take a Chapter 7 or a Chapter 11 and don't pay their real estate taxes, that money we're thinking about putting into education on the top end is going to be nothing to what they lose in those school districts. So I think this a...a bill that we ought to move on, it maybe needs a little work, I think we can still got a few days to do that, but I'd ask our...our colleagues to support this bill.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Joyce.

SENATOR JEREMIAH JOYCE:

Thank you, Mr. President. I have since I've come in this Senate represented a district that has a farm in it, so I can rise with some standing on this question. I would like to address my comments to Senator Maitland, for whom I have a great deal of respect. But I would like to explain to you, Senator Maitland, why this has now become somewhat of a partisan issue, even though I know that you know why. Senator Joyce has referred to our native sons, we have the President

of the United States from Illinois, and we have the Secretary of Agriculture from Illinois and the present Governor of the State of Illinois was the campaign manager in Illinois of the President of the United States and was, in part, responsible for the Secretary of Agriculture being appointed to his position; and yet through all of this, he has remained relatively silent on the question. The farmers of Illinois have gone to him and have sought to involve him in their problem and he has played politics with...with this. He has chosen to stay on the side of the administration and not offend those people in Washington at the cost of sacrificing the farmers of Illinois, and that's why it has become a partisan issue.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Is there further discussion? Senator Keats.

SENATOR KEATS:

I want to explain, I'm a real expert on this subject myself, I think I got three or four farms. No, I got two in Glenview and one in Buffalo Grove that I'm aware of. There's one in...unincorporated Northfield too. I wanted to throw in one thing for Senator Joyce, the other Senator Joyce. I've been sitting here listening and I'm sympathetic to what you're saying, but almost everyone who's bothered to study this problem realizes there are two or three very root causes. I can't remember who was President when we had a grain embargo, I don't remember, but it wasn't Ronald Regan, that much I do remember. And when you look at all the programs that started this deficit which is part of what's caused the dollar problem overseas, awful lot of those programs passed in the sixties and seventies. Now I can't remember who controlled Congress but it wasn't my party. So when you're blaming it on everyone, don't lose your historical perspective on where this came from. I've been sitting here so I'm going to vote for the bill, we're sympathetic on the issue, but while you guys make it a partisan issue...you

pretend like this problem started yesterday. Maybe I'm a little older than you guys are and maybe I have a longer memory, but some of us know this problem didn't start yesterday, that budget deficits started in the sixties under the great society and that grain embargo came under another president. So, when you're being partisan, keep in mind that the root cause goes back a little farther than the memories of some of our members.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Is there further discussion? If not, Senator Demuzio may close.

SENATOR DEMUZIO:

Thank you, very much, Mr. President, Ladies and Gentlemen of the Senate. I won't attempt to get into all of the things that have gone back and forth. I want a program that works, I want a program that helps my community of Carlinville, I want a program that will help Carbondale and all the rest of the downstate communities and those areas that have farming interests. And my office has been loaded with people that can't get credit and can't get their...funding sources from the respective lending institutions that have traditionally...received their loans. It seems to me that there is still some room for negotiation as these bills cross the respective Chambers as we wait for additional congressional action, and it seems to me that, Senator Keats, the only thing I have to say is that the deficit under the current President is...far exceeds all of the deficits of George Washington up to his administration. So I would ask for your affirmative support on this bill...on Senate Bill 263.

PRESIDING OFFICER: (SENATOR SAVICKAS)

The question is, shall Senate Bill 263 pass. Those in favor will vote Aye. Those opposed vote Nay. The voting is open. Have all voted who wish? Have all voted who wish? Take the record. On that question, the Ayes are 55, the Nays

are none, 1 voting Present. Senate Bill 263 having received the constitutional majority is declared passed. Senator Rock, for what purpose do you arise?

SENATOR ROCK:

...before we move to the Executive Committee report, I'd just like to point out a real true partisan issue.

PRESIDING OFFICER: (SENATOR SAVICKAS)

With leave of the Body, we will now go to committee reports.

END OF REEL

REEL #3

PRESIDING OFFICER: (SENATOR SAVICKAS)

You've heard the two motions by Senator Lechowicz; the first that we go into Executive Session, and the second to consider these appointments on one roll call. Is leave granted? Leave was granted. All those now in favor of supporting Senator Lechowicz's motion on the appointments indicate by saying Aye. Those opposed. We need a recorded roll call. All those in favor will vote Aye. Those opposed will vote Nay. The voting is open. Have all voted who wish? Have all voted who wish? (Machine cutoff)...the record. PRESIDENT:

All right. WCAI...CIA-TV has requested permission to shoot some film. Is leave granted? Leave is granted. Senator Kelly, for what purpose do you arise?

SENATOR KELLY:

Yes, Mr. President, I'd like to make a motion to Table my Senate Joint Resolution 24. This concerns Amtrack...and

it...reinstalling the eight-thirty train ride from Chicago to Springfield and I've been advised as...as of October, it's going to be reinstituted; so, therefore, I'd like to make the proper motion to Table Senate Joint Resolution No. 24. Yes, the bill...the resolution is now in the Executive Committee and maybe I can't do it here.

PRESIDENT:

Well, we...we could do it. Why don't we...any way you want. But you will have to discharge...we'll have to discharge the committee and then Table it.

SENATOR KELLY:

Okay. I'd like to do that.

PRESIDENT:

All right. Senator Kelly...has moved to discharge the Committee on Executive from further consideration of Senate Joint Resolution 24 for the purpose of Tabling. All in favor of the motion to discharge indicate by saying Aye. All opposed. The Ayes have it. Senate Joint Resolution 24 is now discharged. Senator Hall on Senate Bill 39. Top of page 4. Senator Hall on Senate Bill 40. Senator Hall, you wish that bill called?

SENATOR HALL:

Yes...Mr...Mr. President...

PRESIDENT:

Yes?

SENATOR HALL:

I put amendment...I'd like for it...the bill to be ruled back to 2nd reading because the amendment we put on yesterday

was defective. If we may do that and then get back to it, please.

PRESIDENT:

All right...Senator Hall seeks leave of the Body to return Senate Bill 40 to the Order of 2nd Reading for purposes of an amendment. Is leave granted? Leave is granted. On the Order of Senate Bills 2nd Reading, Senate Bill 40, Mr. Secretary.

SECRETARY:

Senator Hall has offered Amendment No. 3 but I think he has a motion.

PRESIDENT:

Senator Hall.

SENATOR HALL:

Yes. On Amendment No. 3, I want it for clarification, if we're going to delete...Amendment No. 2 which was defective, would this still be 3 or 2?

SECRETARY:

3.

SENATOR HALL:

It would still be 3. Okay. I would like to...for the Body that the Amendment No. 2 was defective and I put an amendment in there that corrects it. And, so that would be Amendment No. 3 and I'd like to...permission of the Body to...for the correction of the amendment.

PRESIDENT:

All right. Senator Hall has moved to reconsider the vote by which Amendment No. 2 was adopted. All in favor of the motion to reconsider indicate by saying Aye. All opposed. The Ayes have it. Amendment No. 2 is Tabled. Further amendments, Mr. Secretary?

SECRETARY:

Amendment No. 3 offered by Senator Hall.

SECRETARY:

Senate Bill 262.

(Secretary reads title of bill)

3rd reading of the bill.

PRESIDENT:

Senator Demuzio.

SENATOR DEMUZIO:

Thank you, Mr. President, Ladies and Gentlemen. Senate Bill 262 is in fact a...an appropriation of twenty-five million dollars out of the General Revenue Fund to fund the substantive emergency farm bill that we passed out of here yesterday. The original bill was for fifty million dollars and that's been reduced by action of the Senate Appropriations I Committee. It now calls for...appropriation of twenty-five million dollars, and I would ask for your affirmative support.

PRESIDENT:

Is there any discussion? Any discussion? If not, the question is, shall Senate Bill 262 pass. Those in favor will vote Aye. Those opposed will vote Nay. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Take the record. On that question, there are 52 Ayes, 1 Nay, none voting Present. Senate Bill 262 having received the required constitutional majority is declared passed. Senator Hall on Senate Bill 40. On the Order of Senate Bills 3rd Reading is Senate Bill 40. Read the bill, Mr. Secretary.

SECRETARY:

Senate Bill 40.

(Secretary reads title of bill)

3rd reading of the bill.

PRESIDENT:

Senator Hall.

SENATOR HALL:

Thank you, Mr. President and Ladies and Gentlemen of the Senate. The reason this is an emergency, if...those of you who were around here some years ago, you remember when Senator Graham and Senator Dougherty worked so long and so hard to have consolidations of elections. It worked fine in some places, but a city like East St. Louis, where the assessed evaluation dropped from over three hundred million to the day it's thirty-eight million, it's caused a great havoc. In other words, that each time the cities must have an election, they come up with less than fifteen...twenty-five thousand dollars to pay for the cost of all elections. Now, what we trying to do now is simply bring...there are two places, Kankakee County and East St. Louis. Now, Kankakee County is a county and therefore their law is that they must vote over eight hundred people. East St. Louis is Board of Elections so their's is six hundred. We're simply trying to bring it in line with the rest of the State. The...the chief judge

and others in our district say they can no longer afford to add additional precincts which means you put on extra precincts, more judges and because you have voted six hundred. So we simply want to bring it in line with everything else, and I'd ask your most favorable support, and this is supported by the...all of the areas here and also it's...I have a resolution here of the Election Commission...officials of Illinois. I know of no opposition and I'd ask your most favorable support.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Any discussion? Senator Jerome Joyce.

SENATOR JEROME JOYCE:

Yes, Mr. President, thank you. I would just like for the record to say that this bill doesn't affect Kankakee County, because we want the...the precincts split in Kankakee County like the rest of the State, but...under another provision of the law...it affects Kankakee County, but just in case someone up there gets the wrong message, I would like for the record just to reiterate that this does not affect Kankakee County.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Further discussion? Senator...Senator Kelly. Senator Kelly.

SENATOR KELLY:

Thank you...thank you, Mr. President and members of the Senate. I just rise to support Senator Hall's bill. It...it allows for a...an increase from six hundred to eight hundred persons...voters in a precinct and it's a cost saving factor. It's needed in East St. Louis and very proud to support Senator Hall's bill.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Further discussion? Senator DeAngelis.

SENATOR DeANGELIS:

Question of the sponsor, please.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Indicates he will yield. Senator DeAngelis.

SENATOR DeANGELIS:

Why is Cook County taken out of this bill?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Hall.

SENATOR HALL:

...Cook County asked to be out of it. It doesn't really...affect them. They just don't want...they just...do not want to be in. There are only two places that have lever machines. We have levers...we don't have electronic devices. The only electricity on that machine adjusts the lights. The lever is by hand and so everything is controlled...but they asked to be out, so I took them out.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator DeAngelis.

SENATOR DeANGELIS:

Well, Senator Hall, to paraphrase one of your...or to just change one of your commonly asked questions, who in Cook County doesn't want this bill?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Hall.

SENATOR HALL:

No...Senator Lechowicz asked that they be taken out.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Further discussion...Senator DeAngelis.

SENATOR DeANGELIS:

Well, I'm not going to quarrel with you, but I would ask for the same privilege someday, 'cause I reside in Cook County, that if one Senator requests, will you also oblige my request?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Hall.

SENATOR HALL:

Well, I hope when the bill gets over to the House, Senator, that...when they find out it doesn't really affect them that they may...may change their mind. I just did this because I'm in the eleventh hour and I'm pressed against time, because our chief judge...and there has to be a decision made. So time was in essence. I just found out that they wanted to be out at the eleventh hour yesterday.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Further discussion? Senator Hall, you wish to close?

SENATOR HALL:

I ask for your most favorable support.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. The question is,...question is, shall Senate Bill 40 pass. Those in favor will vote Aye. Those opposed will vote Nay. The voting is open. Have all voted who wish? Have all voted who wish? All voted who wish? Take the record. On that question, the Ayes are 48, the Nays are none, 3 voting Present. Senate Bill 40 having received the required constitutional majority is declared passed. With leave of the Body, we'll go to...Senator Lemke, for what purpose do you arise?

SENATOR LEMKE:

I'd like to...on Senate Bill 267, I'd like to add Senator Nedza as a hyphenated sponsor.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Senate Bill 267...

SENATOR LEMKE:

...read Lemke-Nedza.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Read Lemke...Nedza. Any objection? So ordered. All right. With leave of the Body, we'll go to the Resolutions Consent Calendar. Is leave granted? Leave is granted. Mr. Secretary, on the Order of Resolutions the Consent Calen-

dar...have any objections been filed?

SECRETARY:

No objections have been filed, Mr. President.

PRESIDING OFFICER: (SENATOR DEMUZIO)

I am told that the Resolutions Consent Calendar that's been passed out, there has been some additions to; namely, Senate Resolutions 99, 100, 101, 102, 105 and Senate...Senate Joint Resolution 29. With leave of the Body, we will add those. Is leave granted? Leave is granted. Senator Rock now moves for the adoption of the Senate Resolutions...Consent Calendar. Those in favor signify by saying Aye. Opposed Nay. Senator Welch, for what purpose do you arise?

SENATOR WELCH:

Mr. President, I would like to add a cosponsor to Senate Resolution No. 89 at this time.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Is leave granted to add Senator...

SENATOR WELCH:

I would ask to add Senator Rupp and Senator Zito as cosponsors.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Welch, I am told that we in fact can do it but the resolutions are already typed. We'll digest it, but we may not very well show up on the resolution, all right. Senator Rock has moved the adoption of the Senate Resolutions Consent Calendar. Those in...Senator Netsch, for what purpose do you arise?

SENATOR NETSCH:

Thank you, with the sponsor's permission, I would like to be added as a hyphenated sponsor of a House bill. House Bill 252.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Well,...Senator, let's work on the adoption of the Reso-

lutions Consent Calendar first.

SENATOR NETSCH:

I'm sorry, I thought you had taken the vote. I beg your pardon.

PRESIDING OFFICER: (SENATOR DEMUZIO)

I generously acknowledged you 'cause I thought you had a question relevant to this matter. Senator Rock has moved for the third time...the adoption of the...Senate Resolutions Consent Calendar. Those in favor signify by saying Aye. Opposed Nay. The Ayes have it. The Resolutions Consent Calendar is adopted. Senator Netsch, for what purpose do you arise now?

SENATOR NETSCH:

The same purpose I just...rised for a few minutes ago.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. You want to restate your purpose?

SENATOR NETSCH:

Yes. With the sponsor's permission, I would like to be added as a hyphenated cosponsor of House Bill...

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Netsch, your time is running.

SENATOR NETSCH:

...252.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. You've heard the request. Is leave granted? Leave is granted. Senator Hall, for what purpose do you arise?

SENATOR HALL:

For a point of personal privilege, Mr...Mr. President.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. State your point.

SENATOR HALL:

Mr. President, I would like to say I was in error a minute ago, that this amendment only excludes the City of

Chicago, not Cook County. I used the wrong term and I hope that I'm forgiven for that. It...the amendment excludes Chicago and that was the purpose of the amendment, not Cook County.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. On the Order of Resolutions, Mr...Senator Maitland, for what purpose do you arise? Senator Maitland. Mr. Secretary, read the resolution.

SECRETARY:

Senate Resolution 106 offered by Senators Maitland, Jerome Joyce, Rigney and O'Daniel.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Senator Maitland. Senator Maitland.

SENATOR MAITLAND:

...Mr. President. First of all, I'd like to ask leave of the Body to suspend the appropriate rules and ask for the immediate...consideration of Senate Resolution 106, please.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. You've heard the request. Senator Maitland has moved for the suspension of the rules for the immediate consideration and adoption of Senate Resolution 106. Those in favor signify by saying Aye. Opposed Nay. The Ayes have it. The rules are suspended. Senator Maitland, on the adoption of the amendment.

SENATOR MAITLAND:

Well, thank you, very much, Mr. President, Ladies and Gentlemen of the Senate. As most of you know, there have been several of us that have discussed last couple of weeks with the Secretary of Agriculture, John Block, the possibility of advancing the part of the commodity credit corporation loan that normally is available in September of the year following the harvest of the crop. We have asked for the Secretary to consider the advancement of one-third of this loan to apply toward the...the financing of the crop

for...for this particular crop year. Senator Joyce has worked long and hard on this, has...had long discussions with Senators Dixon and...and Simon. Others of...others of us have talked with the Secretary on a number of occasions and simply have not been able to prevail upon him to change his mind. The credit...crunch for American farmers is indeed a very real thing right now, and with those thoughts in mind and with the thought in mind that the Governor has also encouraged the Secretary to advance this loan, we offer this resolution with the support of the Senate urging the Secretary to act favorably upon advancing this loan. We think the issue is in his hands. He has been made aware of the...of the urgency of this and we think that by passing this resolution and this Body behind it might provide a bit more encouragement for the Secretary to...to advance that loan. And I would ask for your favorable consideration of Senate Resolution 106.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Senator Maitland has moved the adoption of Senate Resolution 106. Any discussion? Senator Joyce. Can I have your attention, please. Senator Joyce.

SENATOR JEROME JOYCE:

Yes...yes, thank you, Mr. President. I totally agree with Senator Maitland. I think that we should exhaust every effort to implore the Secretary of Agriculture to do what he can do whether by legislation or by administrative act. It is becoming very frustrating for all of us who have worked on this measure for these past few months, and I don't know whether John Block is being made a scapegoat by the administration or just what's happening there, but I think it behooves us to pass this resolution and...and at least make one more attempt to try and bring some aid to our farmers. Thank you.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Further discussion? Senator Maitland has moved the adoption of Senate Resolution 106. Those in favor signify by saying Aye. Opposed Nay. The Ayes have it. Senate Resolution is adopted. All right. With leave of the Body, we'll go to introduction of bills. Is leave granted? Leave granted. Mr. Secretary, introduction of bills.

Thank you, Senator Rock. The Senate Committee on...the Senate Committee of the Whole on Education Reform will please come to order. Ladies and gentlemen, this is the final Committee of the Whole meeting that has been scheduled pursuant to the resolution that was previously adopted. We have several witnesses today who will address issues relating to the question of education reform. Our first witness is Bob Beckwith. Bob Beckwith manages the Small Business and Education Departments of the Illinois State Chamber of Commerce. Could we please have some attention and ask that the conferences be removed from the Floor so that we can extend some courtesy to our guests who are here to testify on the question of education reform. In the field of education,...in the field of education, Bob Beckwith's responsibilities include representing the viewpoint of industry in maintaining and strengthening the State's educational system with a particular emphasis on manpower training. He is the senior staff leader for the Task Force on the Future of Education in Illinois composed of a variety of groups in the private sector. Mr. Beckwith is a member of the State Council on Vocational Education, the Illinois Literacy Council and represents the Chamber on the Illinois Job Training Coordinating Council which oversees the Federal Job Training Partnership Act. Bob earned his Bachelor of Science Degree in Elementary and...Education and a Masters Degree in Educational Administration, both from the University of Illinois. Before joining...the Chamber staff in 1967, Bob served as a classroom teacher in Wheeling and Decatur, Illinois and was a field representative from the Illinois Education Association for five years. It is a pleasure to have Bob Beckwith with us today. Mr. Beckwith. Before you start, Bob, ladies and gentlemen, could we please have your attention. If there are conferences, please take them off the Floor so that we can give our undivided attention to our witnesses today. Thank

you. Mr. Beckwith.

MR. BECKWITH:

Thank you, Mr. Chairman, honorable members of the Illinois Senate. The Illinois State Chamber of Commerce appreciates this opportunity to share with you a business perspective regarding the need for education reform and the work of the Task Force on Education in Illinois. For more than thirty-five years the State Chamber has worked to better education in Illinois. In the early fifties we addressed the need to build more schools and improve teacher salaries, in the sixties we supported the creation of the Board of Higher Education and the Community College System, in the seventies we advocated an appointed State Board of Education and supported passage of the Resource Equalizer Formula whose implementation resulted in the additional eight hundred million dollar State investment in our public schools. We commend the Illinois General Assembly, Governor Thompson, the State Board of Education and the State's leading education organizations for taking forthright steps to identify and offer solutions to many of the major impediments which are seriously undermining the ability of public education to efficiently do its job of educating the children of Illinois. We are impressed with the breadth of the recommendations, many of which call for change and innovation. Business knows only too well that without the desire for responsible change, the willingness to assume some risk, true progress will be difficult, if not impossible, to achieve. It is incumbent upon the business community as part of society to lend its support and influence in the development and maintenance of an efficient system of high quality education institutions and services. It has an equal obligation to direct attention to education programs and services which it believes are failing to achieve their purpose and suggest their modification or elimination so that precious tax dollars can be reallocated

for educational improvement. A strong education delivery system is vital to the economic security of Illinois. If we are to retain and encourage the expansion of commerce and industry and attract new jobs into this State, education must be ready to provide from our high schools, colleges and universities a well trained and educated work force. The...interdependency of education, commerce and industry is undeniable. To help being the business community into support of true education reform, the State Chamber's Board of Directors established a task force on the Future of Education in Illinois. The task force functions under the auspices of the Illinois Alliance for Economic Initiatives, which is a Statewide coalition of employers, concerned government leaders, other Statewide business associations including the Taxpayers' Federation of Illinois, the Illinois Farm Bureau, the Chicago Association of Commerce and Industry, the Civic Federation of Chicago and over seventy local chambers of commerce. The purpose of the alliance is to encourage everyone in Illinois to work together for stronger economic growth, more investments and more jobs. Rather than developing its own reform program, the task force has focused on the...on the major reform programs now before this General Assembly; namely, the recommendations of the Illinois Commission for the Improvement of Elementary and Secondary Education, the State Board of Education, the Illinois Project for School Reform and the Illinois Better Schools Program proposed by Governor Thompson. The task force will identify from a business perspective which combination of...

MR. CHAIRMAN: (SENATOR BERMAN)

Bob, just one minute. Would those people in the audience

who are guests of the Senate please extend a little courtesy to our witness. Thank you, Bob. Please continue.

MR. BECKWITH:

Thank you. The task force will identify from a business perspective which combination of recommendations it believes will best strengthen student learning, improve instruction, upgrade supervisory standards, stimulate cost efficient school management, provide incentives for school district reorganization, assure accountability to the public and assure an adequate source of financing and distribution of those finances to the elementary and secondary schools and to higher education. The need to maintain and strengthen this State's outstanding system of public and private higher education institutions will be addressed later on this year. The task force's first step was to establish criteria against which the various reform proposals could be evaluated. For example, does a proposal to restructure the academic/occupational program provide a method of measuring individual student performance and progress, does it identify and eliminate or modify ineffective courses and introduce new courses if they more efficiently address present and future needs. The task force believes the single, most important component in the education process is the teacher. Competent teachers value the need to grow professionally, update their knowledge and teaching skills and be compensated for what their students have learned under their tutelage. Equally, the need for well prepared supervisory administrators is essential. The various recommendations dealing with supervisor/teacher relationships reform are receiving very careful review. For those few professionals who have fallen short of expectation is there a mechanism which will be...which will enable the employing school district to more expeditiously identify and retrain, reassign or replace them? The task force is concerned with a need to strengthen teacher

training programs and encourage talented students to enter teaching particularly in high demand subject areas. Major reform is also necessary at the general administration level. To achieve improved efficiency of operations, the proposed reforms must encourage reallocation of funds to reduce or eliminate duplication of effort, lead toward increased worker productivity and incorporate other cost and time efficient procedures. There is a need to reorganize the education systems so as to reduce costly and duplicative administrative overhead and reallocate the dollars saved toward improved curriculum and instruction. There is a need to give the local school districts adequate authorities to set education standards and goals, monitor their progress and be held accountable. In the important area of school finance and distribution of funds, the task force is cognizant that there is keen competition for the education tax dollars from elementary, high school and unit districts, public community colleges and universities, private colleges and universities. Reform proposals are being reviewed as they may encourage reallocation of existing resources from lower to higher priority programs. A dependable program for generating revenues to provide public services and adequately sustained government is considered essential. The task force believes that any change in the current State tax program must be considered only after exhausting all avenues of identifying and applying tax saving measures to existing programs; determining that the present tax program has no further growth potential under the existing rate structure and that the express desire of the taxpayers is to increase taxes if the failure to do so would jeopardize essential services such as public education. The complete text of the task force education criteria should be at your...at your desks. The task force has also developed some preliminary opinions and prioritized some twenty-nine broadly stated reform concepts.

While this is not the finalization of the task force's position, there are several reform concepts which seem noteworthy. There is a strong belief in the preservation and enhancement of local control of the education enterprise. There is a strong belief in the need to measure student achievement using Statewide education achievement standards and appropriately reporting the results to the student, parent and the public. This is essential for maintenance of accountability. In conjunction with testing is a strong belief that local school districts must establish learning objectives and report to the public how well they are being met. There is a strong belief that the present methods of compensating teachers are inadequate, fail to attract the ablest of our college graduates, provide no incentive for the teacher to excel and have no bearing on student achievement. Few businesses could survive if they similarly compensated their valued professional staff. There is a strong belief by the task force that schools need to adopt innovative methods which will enable the general public and business to assist the schools. Too frequently the desire by business to be of assistance is seen as unwarranted intrusion into the classroom. Business has no business telling a teacher how to teach, but business like all other responsible segments of society has a right, an obligation, to inform the school system of what it believes should be taught, and the schools should reach out for the voluntary services of business people to advise on how to help acquire better, more current education equipment and lists of helps the local business community could provide are endless and many could result in a more educationally productive use of our tax dollars. Next Monday the task force meets again. It is expected to identify the specific reform recommendations it believes can best strengthen public education. In some instances it may suggest modifications to be in more acceptance or accordance

with the criteria. The conclusions of the task force will then be presented for adoption by...to the Executive Committee of the State Chamber a week from this Friday. As soon as possible we will share with you this phase of the task force's work. With the prospect of real education reform, the opportunity to help build Illinois will be significantly enhanced. But the question most raised of the business community is, "How do you, business, propose to pay for this and will you support a tax increase?" Many of the reforms will require little if any additional expenditure. They will require a new way of doing the job because the old way has not been good enough. Reallocation of existing dollars is a first step. Some reforms can be carried out by eliminating duplication or consolidation of administrative units so as to free up dollars to better use in the classroom rather than unnecessary overhead. Existing State tax programs should be reviewed as to the effectiveness of collections, uniformity of application, simplicity of administration and the extent they minimize negative impacts on economic growth and job creation. Incentives should be created, or at least disincentives removed which inhibit the expansion of the tax base. These are but several examples of what can be done to help pay for needed improvements in public education. Will business support a tax increase? A simple yes or no answer is not possible. The wrong tax increase at the wrong time can be counterproductive to economic growth, job creation and to the self-interest of public education. Several other steps for generating revenue need to be taken first. Further, unless there is clear indication that significant reforms we can sell to the general business community will be enacted and enforced with assurances of public accountability, the State Chamber would be hard pressed to convince the general business community of the need to support more funding for education much less for additional taxes. In 1969 it

was clear the State could not continue to fulfill its responsibilities without a major source of new revenue. For the first time in fifty years the State Chamber removed its opposition and supported a State Income Tax. As mentioned earlier, the State Chamber supported the Resource Equalizer Formula which added eight hundred million dollars to fund elementary and secondary education. The Illinois business community wants the finest education system this State can afford. We know most school teachers, administrators and school board members are working toward the same end. We know the great responsibility of the General Assembly and the Governor to chart the legislative course which will provide for an efficient system of high quality public education institutions and services so as to provide for the educational development of all persons to the limits of their capacities. We are thoroughly impressed by the magnitude of the job at hand and the importance facing this Senate. The Illinois State Chamber of Commerce offers its assistance, advice and counsel and enthusiastically looks forward to an active role in helping clarify the issues and find equitable solutions. We thank Senator Berman for inviting us and appreciate your thoughtful consideration of our views. Thank you.

MR. CHAIRMAN: (SENATOR BERMAN)

Thank you, Bob. We'll ask that the questions of the witnesses be held until all of the witnesses have completed their testimony. Our next witness is Doctor Manford...Byrd. Manford Byrd was appointed general superintendent for the Chicago Public School System on March 25th, 1985, just two weeks ago. Prior to his appointment as general superintendent, Doctor Byrd has served as a classroom teacher for eighteen years and as deputy...superintendent of the system responsible for a variety of educational programs since 1967. Doctor Byrd received his Bachelor of Arts Degree from Central

College in...Pella, Iowa, his Masters Degree in Educational Psychology from Atlanta University and his Doctoral in Educational Administration from Northwestern University in Evanston. Doctor Byrd is the recipient of over fifty different awards and honors in addition to being listed in Who's Who in America, Who's Who in Education and Volume I of the Ebony Success Library. He is the author of three books. Doctor Byrd is also a member of numerous educational and civic organizations. Manford Byrd assumes his responsibility as general superintendent at a time when a serious rethinking of the mission and purpose of our educational system is being considered. I personally wish him well as he begins his tenure in one of the most difficult yet challenging positions in American public education. On behalf of the Illinois Senate, we're very pleased to welcome Superintendent Manford Byrd.

MR. BYRD:

Mr. Chairman, President Rock, Minority Spokesman Maitland and distinguished Senators, I welcome the opportunity to address you, and I wish to thank you for affording me the chance to do so. I'm here today as the new general superintendent of Chicago Public Schools. It is equally significant, however, that you note that I am here today as Manford Byrd, Jr., a man who has committed his entire career to the growth and development of our State's children through education. Beginning as a teacher in Quincy, Illinois in 1949, I have labored for thirty-six years to provide our state with the intelligent, trained and productive citizenry it requires to hold its place as a leader among states. Educational reform is being widely discussed throughout Illinois this year. I welcome this public debate on a most important topic, public education. This nation made an early commitment to free, universal, public education in the belief that only an educated citizenry could ensure continued liberty.

Since that time, the vast majority of Americans have been products of the public schools. I would guess that most of you today are products of the public schools. Public education has fulfilled society's charge to prepare America's children to be productive adults and competent citizens. We can and must continue to perform this service for the young generations of today and tomorrow. As I am enthusiastic about public education, I am also a believer in the Chicago Public Schools. We have in our classrooms, our offices and throughout the school system many men and women of dedication, talent, experience and integrity. We also have a community of parents and citizens who want quality schools for their children and are willing to invest their time and energies to ensure that we have quality schools. I recognize and...and acknowledge, however, that we have some distance to travel before we reach our goal of a quality education for every child. Too many of our youngsters drop out of school before they graduate; too many students are failing their courses; too many pupils are not mastering reading and math skills; too many children are being caught in the web of gang activity. In accepting the responsibility to lead the Chicago Public Schools, I have committed myself to re-forming them into a model for the nation. All children can learn, and every school can give its students a quality education. To make certain this happens, I am making it my priority to reduce the number of students who drop out of school. There are many reasons why...youngsters quit, but perhaps the most important is that their sense of continuing failure and frustration in school. Failure starts in the elementary schools. We are examining our systemwide reading and mathematics programs, Mastery Learning, to determine if they work as intended. We also need to strengthen our elementary teachers' grasp of subject content, we need to emphasize science and math in the early grades, and we need to expand our kin-

dergarten and preschool efforts. Experience and research have demonstrated that earlier education can significantly contribute to children's success in school. Among our successes in Chicago are the magnet schools and programs which have helped in our desegregation efforts. However, some critics have charged that the local elementary and general high schools have been shortchanged in the process. We must make certain that every school has the resources, the staff and the leadership to meet the needs of every student. Many voices have been heard recently, both nationally and in Illinois, calling for more demanding high school programs. I support the concept of a more challenging education for our students. At the same time, however, we have to make certain that they are able to meet the challenge. We need to re-examine and strengthen high school requirements, but we must simultaneously initiate strategies to make certain our students can succeed in high school. To reduce the number of failures and to help keep students in school, we need to restore free summer school for youngsters who are falling behind. A full summer school program will give students a chance to keep pace with their peers. We also need to institute other strategies to help youngsters stay in school. This year, our legislative program seeks your help with some of these: an extended day high school program; a pilot project in dropout reduction; high school preparation centers for elementary students; a career training and job academy; and intermediate schools for students who are likely dropouts. In many of our programs, we desperately need to upgrade equipment. But because of the financial difficulties of recent years, we have been unable to modernize our scientific, vocational and other equipment. If we are to give students quality programs, we must give them proper equipment to use. To do so, we need your help. In addition, we need your help to reinstitute the Lighted Schoolhouse Program, to

open our doors after the regular school day. This program will help to reduce the number of dropouts, will give young people an alternative to gangs and will serve as a recreational and educational resource to all the citizens of the community. The Lighted Schoolhouse will be one step in our efforts to forge a new alliance with the parents and the community. They are the cornerstone upon which a successful school is built, and I intend to work closely with them on matters affecting their schools and their children. I also intend to strengthen the role of the school principal. Soon, I will be presenting a reorganization plan to give principals and other field administrators more control of the decisions that affect their schools. They will be given more authority and will be held accountable. While I'm on the subject of school personnel, let me note that it is a myth that the central office of our school system is top heavy with administrators. Of some forty thousand employees, administrators make up slightly more than two percent, or nine hundred twelve positions. And of this number, six hundred seventy-three are principals, their assistants and district superintendents who are serving in the field. Over ninety-four percent of our staff is in the classroom and school buildings, providing direct service to the students. In reorganizing, I propose to make sure that the remaining six percent are providing more efficient and effective support to the schools. I also promise to provide to the public accurate, reliable, clear data about the schools. We must recognize the size and scope of the problems if we hope to solve them. Therefore, I am now moving to restore credibility and integrity to our citywide testing program. At the same time, I want to remove the burden of unnecessary paper work from the local schools. Principals and teachers spend too much time responding to administrative requests for information, time that is taken away from their students. We

will be simplifying the information collection process, cutting back on the paper bureaucracy. I'm also going to ask the Chicago business community to help us in several ways: by turning work sites into classrooms; by donating state-of-the-art equipment that we cannot afford; and by inviting teachers into their firms during summers to learn up-to-date practices that they in turn will teach their students. An important point I want to mention is that the Chicago Board of Education improved its financial position during the fiscal year that ended on August 31, 1984. For Fiscal 1984, the Board operated within its resources. When Fiscal 1985 ends on August 31, it will mark the fourth consecutive year that the Chicago Public Schools have completed...has completed its fiscal year with a balanced budget. I can assure you that these improvements are no aberration. The goal of financial management has been and continues to be to make constant improvements in this area and to ameliorate past problems and improve financial and accounting controls. An improved financial position does not belie the need for additional revenue, and we are asking you for that this year by eliminating utility taxes we pay; allowing us to levy a transportation tax just as all other districts do; and increasing the playground tax rate for the first time in fifteen years. We're also seeking to correct a technical error in previous legislation and asking for the elimination of the investment tax credit for replacement taxes. Most of all, we're asking you to commit yourselves to educational reform by fulfilling the State's constitutional responsibility to assume the primary responsibility for funding public education. Educational reform is essential today. But reform measures without the money to support them will be empty promises. It is time to give the citizens and children of Chicago, and of Illinois, not promises, but hope. We must renew public education and the dream upon which this country

was built, that every person is entitled to an opportunity for a full and decent life. Without a good education, a good public education, many of our children will be denied this dream. As educators and legislators, we must encourage young people's dreams and hopes and ambitions. We must help them to expand their minds and develop their talents. We must stimulate them to challenge the world and discover its secrets, even in Chicago. Who will make the city joyful? Who will wipe away its tears? Who will tell the children stories? Who will make their clear eyes gleam? Maybe lawyers nursing tender flowers, businessmen exploring stars. Maybe those who listen to the children are beyond the other maybes, maybe you and maybe me. We must help the children become the future of which we ourselves dream. Thank you, very much.

MR. CHAIRMAN: (SENATOR BERMAN)

Thank you, Doctor Byrd. We'll...we'll entertain questions. There are two more witnesses and then we will open it up for questions of any of the witnesses. This being the concluding session of the Committee of the Whole, fourth session, we've heard from a number of people that have had important titles. The two last witnesses hold what, in my opinion, are probably the most important titles, the title of parents of children in our schools, and we're very pleased to have them with us today. They are constituents of Senator Savickas. The first witness of this duet will be Marge Sullivan who is a president of a parents' organization on the southwest side of Chicago. She has five children that have gone through the public schools and has been a close observer of the Board of Education for over thirteen years. Mrs. Sullivan.

MRS. SULLIVAN:

Thank you, Senator Berman. Senators, I have two and a half minutes, so please listen. My credentials are that I am

a wife and a...a mother and a taxpayer living on the southwest side of Chicago. As Senator Berman said, five of my children have gone through the public schools, but I still have one left in the Chicago Public Schools in elementary school. Time and time again the Chicago Board of Education has come down to Springfield asking for more money, more money, more money. A few years back...you set up the Chicago Finance Authority to oversee their budgets and keep them in line, and the more money that is given, I have seen...not only have I not seen any improvement in education, but I have seen a decline in education. My children are in the schools. My children have been in the schools and I have seen the decline since my oldest one graduated until my youngest one now is in seventh grade. What we...we don't need reform, we have to go back and restore. Ask any ten year old or twelve year old what is the capital of Illinois...a child that lives in the State of Illinois. You'll be lucky if they can tell you Springfield. Ask them where east, west, north and south is. Ask them what is a city and what is a state. Geography hasn't been taught in the schools for many, many years. That's what we have to do. We have to put back into the schools what we had before. You can come up with all the innovative programs you want to, all the consultants can be hired, all the money that can be given to them and our children's education has declined, and it concerns me. And if you wouldn't have to give millions...millions you give to the colleges today for remedial programs. Why? Think about that. Why are you giving millions to colleges for remedial programs? They shouldn't even be in college if they're in remedial classes and it has to start in first grade and has to start in the elementary schools. I...I would like to see one thing in...public schools in the City of Chicago and that is the Mastery Learning Program be disbanded. It is nothing except teachers are teaching to test and that is the problem,

that's all they're doing. Week after week they're teaching the students to test. There's no recall, there's no more enjoyment of reading, children are not getting anything out of it, they're moving from classroom to classroom and it has gotten so that our children who are in the above average reading groups are now not passing their high school exams from our own local school and it is true that the magnet schools have hurt the neighborhood schools. Everything is being put into the...magnet schools, the high schools have left...has...have lost languages...I haven't kept time part of the time, so...let me know when my two and a half minutes are up. But they take the languages out of the local high schools and put everything in these magnet schools to attract. The principals in the magnet schools can pick their teachers; the principals in the neighborhood schools do not have that privilege, they have to take what's sent to them, and we do need some overseeing of the teachers. All they have to do is send in their five dollars every year and renew their teacher's certificate. If they're not teaching, we have to have a way of getting them out of these schools and they're...and getting them off this gravy train, but the answer is not always more funding. Please believe me. I am sick and tired of paying more money to see my children...they're not getting the education they did five years ago. Thank you. And I'll...and I'll be available for questions too.

MR. CHAIRMAN: (SENATOR BERMAN)

Our final witness is Francine Fatima.

MRS. FATIMA:

Yes, good afternoon. I am a mother, a parent of four children, I have a husband who supports us as well as he can living in the City of Chicago which is draining our budget drastically, and I am really very frightened coming before you...certainly not to speak before you, that doesn't

frighten me. I do want to have faith that you will do the best you can in your votes regarding Chicago funding, not to fund it any more than it is presently being funded. Did you hear me? Not to fund it. I know there are proposals for an increase in the transportation tax, playground fund and various things. Please do not believe these are going to benefit the children. My children have been in the schools since 1971. There has been a steady deterioration as there has been an escalation in our taxes...increases in our taxes. It's very difficult for me in some ways to speak before you because we are a minority opinion here. This Committee of the Whole has heard other testimony, the Illinois Education Association, the Illinois Federation of Teachers and it would seem that this was a very one-sided type of testimony, vested interest in jobs. Well, I have no vested interest but a child who presently is in the Chicago Public Schools, and all I want is for her to be educated and it very upsetting to me to find that people will sit here...here in the Senate or in the House and be very willing to just vote Aye and not expect real reform from those educators at the Chicago Board of Education. You see, they're using the word reform and it...all it means is more monies for them to play with. Now we do have a new superintendent of schools and there is always hope that some good will come of it, but don't believe in promises because I don't. I don't believe in politicians' promises. I believe in action and believe me, we haven't seen much in the way of action since 1980 when it was all restructured. So, all I'm trying to bring before you is some balance and I would hope, Senators, yourself, I realize you have very heavy schedules but you are parents yourselves, it would be an eye-opener for you to walk into a public school. I welcome you to mine, John F. Eberhardt on the southwest side. Walk into a classroom, sit there and see the learning process that's going on. You may find a good teacher or two, but

believe me, even in that fine school, it's my neighborhood school, the good teachers are at a minimum because the principal cannot choose...because of union...restraints he cannot choose fine teachers for that school and that's why the children are suffering, and money is not the solution. They're very finely paid in Chicago. So, I guess what I'm just trying to get the point across to you is, a lot of money is going to the magnet schools and a lot of money is not going where it really is needed, but they don't need any more money. Thank you.

MR. CHAIRMAN: (SENATOR BERMAN)

Thank you, Mrs. Fatima.

MRS. FATIMA:

And I am also available for questioning.

MR. CHAIRMAN: (SENATOR BERMAN)

All right. If you'd stay right there and, Mrs. Sullivan, if you'll come back and Doctor Byrd and Bob Beckwith and now we'll open it up for questions from the Senators. Senator Geo-Karis.

SENATOR GEO-KARIS:

I would like to address my query to Doctor Manford Byrd, please. And, Doctor Byrd...

MR. BYRD:

Yes...yes, Senator.

SENATOR GEO-KARIS:

...I'm Adeline Geo-Karis. I would like to ask you, what is about the...the minimum salary of assistant principals?

MR. BYRD:

I would think it's...I would think the...the minimum salary of assistant principal? Somewhere between twenty-five and thirty thousand dollars.

SENATOR GEO-KARIS:

You said in your remarks, sir, that don't believe that we are top heavy with administrators. Well, I have figured it

out, if you have forty thousand employees and you have nine hundred and twelve positions as...as administrators, there's one administrator to...forty-three persons. Don't you think that's quite a...a big amount of administrators?

MR. BYRD:

No, Senator. I think if you were to really to take a look at the personnel that we have to administer our schools and compare those with schools all over the State that you would find that we are...administering them with fewer resources. Let me...let me tell you this. When I served as principal of Englewood High School, twenty years ago in the city, there were more human resources for administering a community of three thousand youngsters than there are today. We've reduced and we've cut because of financial restraints and difficulties so that we are thin. Let me give you another example. We do not have freed assistant principals in our elementary schools. Those are teaching assistants. We give them an...a stipend for serving as an assistant principal so that we have someone responsible in that building at all times, but they are full-time teachers...they're full-time teachers. We have eliminated freed assistant principals at the elementary level, even in the very large elementary schools.

SENATOR GEO-KARIS:

Yeah, but, Doctor Byrd, I'm not trying to be facetious...when I went to grammar school, which was a few years ago, we had eight hundred students in the school and one principal.

MR. BYRD:

And an assistant principal.

SENATOR GEO-KARIS:

No, one principal.

MR. BYRD:

In Chicago?

SENATOR GEO-KARIS:

Yes, sir. I happen to be from Chicago. One principal and it seems to me that you are top heavy in administrators because that's the problem we're having all over. Number two, what have you done to stop the unions from having the right to strike instead of having collective bargaining with mandatory arbitration and right of appeal to the courts if it's not...if they're...if they don't follow the standards? Isn't that an expense...a great expense that your school district has to face with the present laws that have been passed here which I opposed? What have you done to encourge collective bargaining with mandatory arbitration so that our children aren't out of schools and the parents aren't worried where they are and the teachers have to make the...finance companies...wealthy? What have you personally done about it?

MR. BYRD:

Well, I have had about three weeks, personally, to address this...this problem, since March 25th. I plan to take a look at our collective bargaining procedures, the laws that we have for that process, and I indeed...would want to not have that as a wasteful process but to save it and to stop interruptions of schooling and I'm hopeful that we will stop the strikes there. I want to go back to one thing though about...I don't want to belabor it on the matter of the assistant principals. I came into the system in 1954, came into a school that had two freed assistant principals at that time. That same school today does not have one freed assistant principal and that's the comparison in...between 1954 and 1985 in Chicago.

SENATOR GEO-KARIS:

One more point, sir. It would seem to me that it isn't just money, I think dedication and discipline where your teachers feel safe to teach. More money should be spent on discipline and more encouragement for...dedication on the

part of the teachers when they feel safe enough to teach in areas instead of just slopping their work, some of them. You heard these two ladies, Mrs...

MR. BYRD:

Mrs. Fatima and Mrs. Sullivan. I...

SENATOR GEO-KARIS:

...Mrs. Fatima and Mrs. Sullivan. I think they're very...

MR. BYRD:

I...I know them.

SENATOR GEO-KARIS:

...well, I haven't met them before, so I've never had any concert with them, but I can tell you, I think that they're right. Money doesn't make for good education. It's the dedication and the discipline that goes with it like Marva Collins has. So, I cannot believe that this money is going to do it. You've got to protect your teachers in some of these areas where they're teaching with good discipline around the areas, and I say to you, Doctor Byrd, I hope that you will consider what I'm saying at this time that perhaps some of the money that's going for so many principals and assistants and assistant superintendents probably should go for some discipline personnel so that the teachers can feel comfortable teaching and the...and the children can feel safe.

MR. BYRD:

Let me...let me say this...let me hasten to add, never once would I say that monies will...solve all of our problems. I agree that we've got to have high morale in the staff, we've got to have dedication and we have that. You hear a lot of negatives, but you've got to know that out of our forty thousand employees we have people who give of their evenings, who give of their weekends. We had a science fair at the Museum of Science and Industry last week and we had

teachers there who had been giving their time since January. So in that school population we do have people who give of themselves beyond what we would require to earn their salaries. Now we do want to make each of our schools safe and we'll work for that and we'll work hard for that. We're going to reorganize. We're going to try to give more responsibility to principals and field administrators, and we're going to supervise them closely because I agree with you that we must have a...a safe environment in order for learning to take place.

SENATOR GEO-KARIS:

I happen to know a lot of your...well, I would say at least a hundred teachers in the Chicago area are teaching there, and I can tell you one of their biggest gripes is as follows and they teach in areas where it's rather unsafe at times, many times.

MR. BYRD:

Yes.

SENATOR GEO-KARIS:

They say if we had better discipline...better discipline...personnel keeping an eye out for us and for the children, we would feel that we could do a better job teaching, and they say that you are top heavy with personnel that is not...that necessary. So, I hope that you take that back.

MR. BYRD:

I....

SENATOR GEO-KARIS:

Plus, I feel...that teachers and public employees should never have the right to strike, they're entitled to collective bargaining with mandatory arbitration with the right of appeal to the courts if the guidelines aren't followed, because we don't have the right to stop paying taxes when all those strikes take place.

MR. BYRD:

Thank you.

MR. CHAIRMAN: (SENATOR BERMAN)

Senator Kelly.

SENATOR KELLY:

Thank...thank you, Mr. Chairman. I'd like to ask one of the witnesses a question. Anyone would...would be fine. I see now that there are those who have...might have a little different outlook as far as the educational community withstanding our distinguished witness...right here, but what I'm concerned about or interested in is the final product and I'd like to know...we keep looking at earlier intervention into the educational process. Let me ask you a question to Mr. Byrd or one of the other witnesses. What would the possibilities be of improving the final product if we held off the...the student to a later age rather than something like seven or eight for entrance as opposed to five or at a younger age? Do you think there is any merit to that or do you think that by entering a student in at an earlier age that the final product would be better? I've been told and had some visits recently from some proponents of...of raising the age rather than lowering it, and I'd like to get some professional...some testimony on thoughts on that.

MR. BYRD:

Well, my experience, personally and what I've gained from the research, if we were to raise the age for entry, it would be disastrous for us. There is the preponderance of evidence in our city if we can get youngsters in the child/parent centers even before kindergarten and work with them and follow programs once they have entered kindergarten, we do a much better job of making them successful in the upper grades of elementary school and if they're successful there, they're going to be more successful at high school. So, I...I think it would be disastrous for us in Chicago.

SENATOR KELLY:

Thank you, Mr. Byrd. I...I would say that in certain areas that that would be a...a fact, particularly in areas where there is disadvantaged or low process where you need more early teaching and intervention, but I'd like to know how this would apply Statewide? Suppose I should just make a statement that when we look...

MR. CHAIRMAN: (SENATOR BERMAN)

...excuse me, Senator, Mrs...Mrs. Sullivan would like to respond, Senator Kelly.

SENATOR KELLY:

Oh, thank you.

MRS. SULLIVAN:

Senator, I...I can tell you from my own experience because I have two children that had late birthdays and entered kindergarten at the age of four and consequently college at the age of seventeen, and in both their cases I would say that they did well, but if I had to do it over again, I would...have held both of them back. They did well academically and they got through, but I would have held them back. If...if I was told when I...was registering the children that I had a choice, and parents are not told that, that the children do not have to enter kindergarten at five, that they can go when they're six, and if I was told at that time that I had a choice that both these children, I would have held them back for a year and I think that's what has to be is that the school districts have to tell the parents that these children do not have to be in school when they are five.

MR. CHAIRMAN: (SENATOR BERMAN)

Senator Kelly.

SENATOR KELLY:

Thank you, very much, for those comments and I...I had visits from...from teachers in public schools who had discussed this subject with me, believe it or not,

and...and...and advised me, at least, in their opinion that a student who graduated from high school may, in fact, even though they entered...at an age of eight might be, in fact, equal to if not more so advanced than a student going...graduating from high school or going into college, and that sort of intrigued me not being an educator and that's why that had brought...and also they even mentioned the development. For instance, we have a lot kids now that have eyeglasses. If...we didn't have those in years past and there was some thoughts along the line that maybe physically the eyes aren't even ready at...at age five and that they have to develop to a certain point and that's why maybe we have some problems. What I'm doing is giving you a little different perspective on some of these issues, and I thank you for the courtesy, Mr. Chairman.

MR. CHAIRMAN: (SENATOR BERMAN)

Senator Schaffer.

SENATOR SCHAFFER:

Doctor Byrd, I was wondering, in your comments you didn't get too specific, how many new dollars are you looking for from the State for the Chicago School System next year over this year?

MR. BYRD:

Mr. Senator, there are some things that we'd like to do that I think are harmonious with the concept of reform. We talk about trying to catch some kids at middle grades with some...prevocational programs. We'd like to come with some flexible scheduling from high schools. We've got a package of what we call drop-out prevention and staying in school programs that amount to something like nineteen million dollars, those would be new dollars. But I have to say to you that although I mentioned that we're going to balance our budget by the end of this year in August, we will balance our budget this year with a lot of one-time only revenues that we

received last session of the Legislature, and if we were to try to carry forward the programs we have in place right now, this very moment, we have inadequate dollars in prospect to do so to the tune of something in the neighborhood of seventy million dollars, just to be made whole.

SENATOR SCHAFFER:

The seventy million plus the nineteen?

MR. BYRD:

Yes.

SENATOR SCHAFFER:

So we're ...we're quickly...

MR. BYRD:

If we're going to do those...if we're going to do those reform things.

SENATOR SCHAFFER:

And does that...does that fund any increases in salary or is that just...

MR. BYRD:

No...no, it does not.

SENATOR SCHAFFER:

So that just...that gets you...that opens the door September 1 with what you have in place plus...

MR. BYRD:

Plus the new...plus some new programs and I would not be opposed if those monies were categorical for those programs.

SENATOR SCHAFFER:

So...but that would not leave any new dollars for labor contracts or anything else?

MR. BYRD:

That's right.

SENATOR SCHAFFER:

Well, let me ask you a question, and I...I've listened to your suggestions for your new programs and I guess the...the buzz word is reform and...and I...I can't argue with what

you're talking about, they all sound good to me. But many times we have seen people, not only from Chicago but Chicago has certainly been there, come down with, if you will, highfalutin new plans and wanting new...new dollars and then lo and behold there was a labor negotiation or an increase in the prevailing wage, and when we looked back we found that none of those programs had really gotten off the ground because all the money had been taken up by a new labor contract or a...some of the prevailing wage employees got rather sizable gains and that sort of thing; and I'm not arguing against good salaries, I...I think you got to pay good salaries if you want good teachers, but I can recall for instance the Title I money which was supposedly for poor kids in Chicago went ten or fifteen years before it ever got any relationship to helping poor kids, and to this day I'm not really sure that there's a real relationship, I hope there is, I'll take your word that there is. I guess what I'm saying is, if you want a hundred million plus new dollars over...new State dollars over last year, what assurances do we have that these reforms will really happen, that in fact the new dollars won't be sucked up by your labor negotiations which I assume are ongoing or an increase in the prevailing wage? I don't question your credibility or your good intentions, I just know that about the fifteenth day of that labor strike next fall, some of those good programs, and maybe the lights will go out at nights in the schools again. What kind of assurances can you give us and what kind of things can we do to see that these monies which are for these noble causes end up being spent on those noble causes and not bargained away in the wee hours some Sunday morning? And, again, I'm not hacking salary increases; if their reasonable, fine, we...I can go along with it, but all too often the reforms go by the wayside in those late hour sessions.

END OF REEL

REEL #2

DOCTOR BYRD:

Mr. Senator, I appreciate very much your remarks and it was for that reason that I responded the way that I did. First of all, I do not want to have to try to talk about dismantling any other programs that we have in order to balance a budget for us to open the doors. That's the reason I said we need desperately to be made whole for once. And then to prevent the...the kind of thing that you talk about to insure that those dollars that we talk about over and beyond what we need to be made whole, I have no problem. If in staff development, if in developing incentives for increasing the expertise of teachers, if in retraining administrators and indeed if salaries, if that's a categorical item, I have no problem if the monies that come with the reforms are categorical to that...to that extent because I, too, want to see programs get down to youngsters. And I have been concerned about some of the things that you've talked about over the years, the State Title I monies and the rest of them, and I think we're doing better in...in that area. But I have the same concerns as you, I want to be made whole and then I am not bothered if the funding for specific programs are indeed categorical.

MR. CHAIRMAN: (SENATOR BERMAN)

Senator Schaffer.

SENATOR SCHAFFER:

I think...I think I just heard a...a rather eloquent plea for some very careful appropriations process and I think perhaps that's something we ought to bear in mind and it's my hope, quite frankly, not only for Chicago but for all schools that whatever reforms that we implement that they are funded in each and every school district at a hundred percent or we

don't force the school districts to implement the reforms. However...noble and wonderful sounding they are, if we don't pay for them we ought not to force the school districts...Chicago or Deerfield or Carbondale ought not to be forced to implement them.

DOCTOR BYRD:

Thank you.

MR. CHAIRMAN: (SENATOR BERMAN)

Senator DeAngelis.

SENATOR DeANGELIS:

I...thank you, Mr. President. I have a question of Dr. Byrd. Dr. Byrd, I believe that the Chicago Board of Education is the second largest school district in the United States and the largest one from a contiguous municipal boundary in the United States. My question is, do you feel that the Chicago Board of Education as currently constructed is manageable in the form it's in? If not, what type of restructuring would you like to see done?

DOCTOR BYRD:

I think the...the district, geographically, ought to remain intact as District 299. I think the district is manageable because I think you can get some smallness within that largeness and I...I think we ought to do it administratively. Financially we've been...been forced to do the reverse of what I think we ought to be doing. Twenty...twenty years ago, twenty-five years ago there were twenty-seven subdistricts within the system. Because of financial reasons four or five years ago we were forced to...to cut those districts to...to twenty. And so, in essence, we have a single district superintendent trying to administer thirty-one schools, probably making that subdistrict larger than any other district in the State of Illinois. And if you take a look at the resources we've...we've put at the disposal of that administrator, we have really

given him an awesome task. Over the long-haul, our...our improved results will come from not new strategies but will come from improved output from persons so that we pick the best people we can get, supervise them closely. I think we've got to...to redesign our districts in a way that we can supervise closely that way and not charge a district superintendent for administering and knowing what's going on in thirty-one schools. I think we can do it administratively and I'd like to see us move in that direction.

MR. CHAIRMAN: (SENATOR BERMAN)

Senator DeAngelis.

SENATOR DeANGELIS:

Well, what you're talking about is maintaining 299 but regionalizing it.

DR. BYRD:

That's right...or increase the subdistricts. We've got twenty-nine and we've got to stay with that because we don't have the funding. I would like to see more districts. Especially in some areas where the youngsters are having great difficulty, we need the district superintendents and staff to get into those schools often to know what's going on. I'd like to go in that direction.

MR. CHAIRMAN: (SENATOR BERMAN)

Because of time constraints our last questioner will be Senator Hudson.

SENATOR HUDSON:

Thank you, Mr. Chairman...members of the Senate. I think my question would be addressed to one or both of the two ladies that testified and if I understood them correctly, either one or both made the point that in their opinion it was not necessary to infuse massive...that is, infuse money in massive new amounts into the educational program in the City of Chicago but that seems to be at variance with Dr. Byrd's requests or assessments, if I may. Now, my question

boils down to this, Dr. Byrd outlined certain reforms that he indicated in response to questions asked him would cost a considerable amount of money. My question to you ladies, one or both of you, do you see in those reforms that are mentioned the remedies, the solutions to the problems that you seem to be most concerned about? And you might...you might tell us again how you see the educational system going ahead without the new money that Dr. Byrd seems to feel is necessary?

MR. CHAIRMAN: (SENATOR BERMAN)

Mrs. Sullivan.

MRS. SULLIVAN:

Well, as far as the dropout program is concerned, I'll tell you what is going on right now in the public schools, in some of the schools. I received a call...because I am a board watcher, people throughout the area do call me. I received a call from a mother who has a child in a local high school and this boy was cutting classes. This mother was not aware of the fact that this boy was cutting classes because she was never notified there. Now the system is set up now that that mother should have been notified but somebody wasn't doing their job. And then when she found out the...went...when she did go to the school, she found out her boy was cutting classes, she also found out that...and this school is open from 8:00 a. m. to 4:00 p. m. and the child attended classes...he should have been attending classes from 8:00 a. m. to 1:00 p. m. Instead of going to his classes, he was supposed to sit in a room because he cut classes; so, consequently, not only...he was...he was punished for cutting classes but he still kept on missing his classes because he was supposed to sit in this room. And her objection was, since he went to school from 8:00 a. m. to 1:00 p. m., why couldn't he sit in this room for the three hours after and make up for his punishment. So he continued missing classes,

missing classes, and this is not an isolated case and that's why you have drop-outs. Because if the kid cuts first to start with, they're prevented from going to class because they're sitting in some classroom reading comic books and they're prevented from attending their regular classes. If there's punishment going to be given, it should be given before school or after school and not during school hours. Now this should...this is set up right now that this should be done and it isn't being done. So how it's going to be changed...is another hundred thousand dollars going to make some counselor call a parent? Is...is...is that going to change it? I don't see that change.

MR. CHAIRMAN: (SENATOR BERMAN)

Mrs. Fatima.

MRS. FATIMA:

Yes. Senator, my response would be this. Granted, Dr. Byrd has come with proposals in preventing dropouts, et cetera, and of course there's money attached in the tune of eighteen million dollars at least. I would watch those funding, it always seems to escaluate. But I think my main...the main thrust would be this. In the School Code the City of Chicago's city council does not have the ability of a line item veto in the school system's budget. In other words, the budget comes forward to the city council and under this home rule provision or whatever, they just blanketly approve it...by law they do, without any type of scrutiny in actuality. Now if there are proposals for reform, I think first what must have to come is that that budget is looked at line by line to exactly see what is in place right now and how it is being implemented before these proposals are enacted. That is our feeling as taxpayers in the City of Chicago that that is not being done now, and it is a 1.5 billion dollar budget and our councilmen in Chicago have no real authority over it. And if they had that, and you are the ones that can

give that to them by changing the School Code, then that would be real reform because that would allow for the ridding of all the fat that's in that budget, and maybe then implementing some good reform.

MR. CHAIRMAN: (SENATOR BERMAN)

Dr. Byrd.

DOCTOR BYRD:

Mr. Senator, I wanted a whack at your question because I want you to know that a few years back this Body in collaboration with the House installed the Chicago School Finance Authority that does, in...in fact, oversee our budget operation. The chairman of that Finance Authority, Mr. Van Gorkom, when he approved the board's amended budget in January indicated that we did face the shortfall that I just talked about and further indicated that the Board of Educated...Education needed an...an infusion of new monies. He had his accountants take a look at the funding for the schools and found that when we compare what we're receiving this year with what we received in 1977 that there has been a reduction of ten percent for funding behind each of the students in the Chicago schools. So we do need some additional funding to do some things. I...I would say this, that we are a big school district with some four hundred and thirty thousand youngsters. You ought to know that Mrs.Sullivan and Mrs. Fatima come from a school where the youngsters are achieving at grade level, that feed into a high school that has a very low dropout rate when we compare it to the full city. And we applaud that, we've got other schools that way, but we've got some other schools that are not functioning well and it is our responsibility to try to salvage all of the youngsters in that school system. And I think if you heard the testimony of some parents from many of those other schools they would describe some needs that indeed would be impressive to you.

MR. CHAIRMAN: (SENATOR BERMAN)

Ladies and Gentlemen, that...concludes the questions and the testimony. We have had four Commissions of the Whole...Committees of the Whole of the Senate. I personally want to thank Senate President Rock and Senate Minority Leader Philip for allowing the Senate and the witnesses to show our concern to the people of the State of Illinois as to the importance that we place on the question of education reform and education funding. Of course the specific legislation will be introduced by Friday and they will be carefully analyzed in the respective committees. I want to thank the members of the Senate as well as the witnesses for their attention and tell the people of the State of Illinois that we look forward to working with all of them for the improvement of our educational system. Senator Maitland, for the purpose of a motion.

SENATOR MAITLAND:

Thank you, very much, Mr. President, I want to personally thank you for holding these hearings. I think the speakers that we had at all hearings were quite good. I want to personally thank the speakers today for...for their involvement in our endeavor. And at this point, Mr. Chairman, I would move that the Senate arise from Committee of the Whole.

MR. CHAIRMAN: (SENATOR BERMAN)

You've heard the motion. All those in favor signify by saying Aye. Nay. The motion carries and the Committee of the Whole does arise.

PRESIDENT:

All right. Senators Berman and Maitland have moved that the Committee of the Whole do now arise. All in favor indicate by saying Aye. All opposed. The Ayes have it. The Senate is now back in Regular Session. Resolutions.

PRESIDENT:

Executive Committee. Senator Savickas, for what purpose do you arise?

SENATOR SAVICKAS:

Well, for two motions, Mr. President. One is, we have an influx of Senate bills and we have postponed assigning House bills. I would ask then for the permission of the Senate and I would move for the immediate suspension of Senate Rule 5 to allow for the assignment of all House bills following the deadline for introductions and assignment of Senate bills, because we do have...instead of assigning some House bills now, we'd like to finish the assignment of all the Senate bills and then move on to the House bills.

PRESIDENT:

All right. You've heard the motion to delay the assignment of House bills in the Senate until the Senate bills have been assigned. Any discussion? If not, all in favor indicate by saying Aye. All opposed. The motion carries and it's so ordered. Senator Savickas.

SENATOR SAVICKAS:

And we do have...a few reassignments. We have found that in Public Health we had Senate Bill 339 that deals with Alzheimer's insurance. We had that in Public Health, we want to...reassign that to Insurance. In Insurance we had two

bills that deal with humane care for animals and these are dog...humane care for treatment of dogs. We thought they were...dog racing bills and we found out they are not, Senate Bill 86 and 370. So we'd like to reassign that from Insurance to Agriculture. And we had a bill that we...Senate Bill 437 that we assigned to Labor but it dealt with...consideration of tenure in teachers, and we...reassigned that to Elementary Ed.

PRESIDENT:

All right. Senator Savickas has moved that the Committee on Public Health be discharged from further consideration of Senate Bill 339 and that the bill be reassigned to the Committee on Insurance. All in favor of that motion indicate by saying Aye. All opposed. What...what, I beg your pardon, what number is it? You read 339.

SENATOR SAVICKAS:

Oh, I'm sorry, 389. Senate Bill 389.

PRESIDENT:

3-8-9. The motion is to discharge the Committee on Public Health from further consideration of Senate Bill 389 and...and reassign the bill to the Committee on Insurance. All in favor indicate by saying Aye. All opposed. The Ayes have it. The motion carries and it's so ordered. The next one is Senate Bills 86 and 370. The motion is to discharge the Committee on Insurance from further consideration of those bills and move that they be reassigned to the Committee on Agriculture. All in favor of that motion indicate by saying Aye. All opposed. The Ayes have it. The motion carries and that's so ordered. The final bill is Senate Bill 437. The motion is to discharge the Committee on Labor from further consideration of Senate Bill 437 and request that the bill be reassigned to the Committee on Elementary and Secondary Education. All in favor indicate by saying Aye. All opposed. The Ayes have it. The motion carries and it's so

ordered. Senator Vadalabene, for what purpose do your arise?

SENATOR VADALABENE:

PRESIDENT:

All right. The gentleman seeks leave to show Senator Zito as a cosponsor of Senate Bills 22 and 23 and further show Senator Netsch as the chief Senate sponsor of House Bill 428. Without objection, leave granted? Leave is granted. Senator Geo-Karis, for what purpose do you arise?

PRESIDENT:

3rd reading. If I can have your attention. We have, it appears, a couple of hundred bills for introduction. The last day for introduction, obviously, is Friday. When we...adjourn today, we will come back at noon tomorrow and we will go through the Calendar on Senate bills 2nd reading, Senate bills 3rd reading, House bills 3rd reading. We will...we will be in Session on Friday for the purpose of introduction of bills. We will start at nine o'clock in the morning and the Senate will remain open or at the call of the Chair until five o'clock, until the close of business. The Reference Bureau has indicated that they think they can accommodate...will have accommodated everybody's request so

that bills will be introduced up to and including Friday at five o'clock. It will not be necessary for all of us to be here on Friday. So, at the close of business tomorrow, those who have pressing constituent business back in the district can feel free and...to get back. But tomorrow we will go on the Order of Senate Bills 2nd Reading and the Order of Senate Bills 3rd Reading and the Order of House Bills 3rd Reading. In the meantime, since committees are scheduled to meet at this moment, Transportation is scheduled in Room 400, Labor and Commerce in Room A-1 and Appropriations II in Room 212, might I suggest that...the only other business that will transpire is the introduction of bills and that members can feel free to go to their committee, and the Secretary and the Assistant Secretary and myself and the Parliamentarian will sit here and make sure that everything is properly introduced, at which point we will adjourn until ten o'clock tomorrow morning. Senator Netsch, for what purpose...noon tomorrow morning. Tomorrow...Thursday at noon. Announcements or further business to come...

SENATOR NETSCH:

Yes. Thank...

PRESIDENT:

...before the Session. Yes, Senator Davidson, I'm aware. Senator Netsch.

SENATOR NETSCH:

...thank you, Mr. President. I wanted to announce to all of the members of the Illinois Economic and Fiscal Commission that we will meet at 8:00 a. m. in Room 212 tomorrow morning, and those who are members of the Pension Subcommittee of Economic and Fiscal, we will meet at 7:00 a. m. in Room 212. So that's 7:00 a. m. for the Pension Subcommittee, 8:00 a. m. for Economic and Fiscal Commission, and then the regular Revenue Committee meeting will be a 10:00 a. m. also in Room 212.

PRESIDENT:

Senator Davidson, for what purpose do you arise?

SENATOR DAVIDSON:

Mr. President, I'd like to remind yourself and the other members of the Senate that tomorrow morning starting at 8:00 a. m. in Room 400 will be the annual fitness examination testing for members of the Legislature as we did last year, put on by the I-A...for the Illinois Association of Health and Physical Fitness instructors and people throughout the State. Many of you participated last year and found out how good or how bad you were as far as fitness. Now, if you want to participate in the blood testing, you must have a twelve-hour fast. So please do not eat any breakfast before you go if you're going to want that blood sampling testing done; otherwise, you can go up and take it anytime, it'll be going on from 8:00 a. m. till noon or till two o'clock tomorrow afternoon. I hope you enjoy the apple.

PRESIDENT:

Senator Kelly.

SENATOR KELLY:

Yes, Mr. President, I'd like to make an announcement that the Elections and Reapportionment Committee will be meeting tomorrow at ten o'clock in A-1 in the Stratton Building. Appreciate the members being there and thank you, very much.

PRESIDENT:

Senator Collins.

SENATOR COLLINS:

Yes...like to announce that the...that the Labor Committee will meet immediately after the Session. We have only two bills, so that if you would please go directly to A-1, we can complete our business in about fifteen minutes. So, I'm asking all of you to be there and be there on time because I do have another committee meeting.

PRESIDENT:

Senator Berman.

SENATOR BERMAN:

Thank you, Mr. President. In order to accommodate the fitness program which will be in Room 400, the Senate Committee on Finance will be held at 10:00 a. m. tomorrow morning on the Senate Floor. Finance, on the Senate Floor, 10:00 a. m.

PRESIDENT:

Senator Hall.

SENATOR HALL:

Thank you, Mr. President. I'd just like all the members of Appropriations II to gather in Room 212 immediately.

PRESIDENT:

All right. Any further announcements or further business? Otherwise, we will begin with the introduction of bills. Upon the conclusion of the introduction, we will adjourn until Thursday at the hour of noon. Tomorrow at noon. Mr. Secretary, introduction of bills.

PRESIDING OFFICER: (SENATOR DEMUZIO)

UPI has requested permission to take still photos. Is leave granted? Leave is granted. With leave of the Body, we'll go to resolutions. Is leave granted? Leave is granted. Resolutions, Mr. Secretary.

SECRETARY:

Senate Resolution 127 offered by Senators Lemke, Zito, Kelly, Vadalabene and others.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Lemke.

SENATOR LEMKE:

I'd like to make the appropriate motion to have this resolution heard immediately today and passed as I must have it for tomorrow.

PRESIDING OFFICER: (SENATOR DEMUZIO)

You've heard...Senator Lemke has moved for the suspension of the rules for the immediate consideration and adoption of Senate Resolution 127. Is leave granted? Leave is granted. Senator Lemke.

SENATOR LEMKE:

Okay, what this resolution does is simply...is sent to the College of DuPage, a two-year tax supported community

college, that we're not happy with their religious defamatory actions. It's similar to what we did for the University of Illinois expressing our views before they get into an activity of having a play which is anti-religious to a particular large segment of the population in this State. This resolution is supported by the Catholic...Chicago Chapter of the Catholic League of Religious...and Civil Rights and also by the B'Nai B'rith Association and other antidefamation activities. It's the...it's the play "Saint Mary Ignatius" which is a national play. It's been national and has been attacked nationally by the particular defamation leagues and I think it's fitting in this State not to have a...to us, as a Senate, to pass a resolution telling a tax supported body that you are not to allow to have religion in the school but we also don't want you to have anti-religious activities in the school also 'cause it could happen to any religion and in this case it happens to be the Catholic religion, in other cases it could be some other religion. I think it's something we should do and send to that president of that particular college expressing our disagree because the play is starting tomorrow night, and I want to take this resolution and present it to them before they have the play.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right, is there any discussion? Senator Fawell.

SENATOR FAWELL:

Thank you, very much, Mr. President. I...I know of the college that you are speaking of because it happens to be within blocks of my neighborhood. I think perhaps the Assembly should know; number one, the president had nothing to do with picking out that play, there was a committee that picked out that play and I think if we're going to direct this resolution at anybody we should direct it at that committee, not at the president. I'm sure he would love to...some way or another to sink that...that committee, that he has been told

off by any number of people. I think if we're going to be fair, let's at least make sure that the ones that we are expressing our anger at are the ones that are guilty of the sin. Number two, I...I also think that...that this play was originally supposed to be scheduled in a very small auditorium which would hold approximately fifty people. It was a...a play that was really supposed to be for a...a small group. They have put on four plays a year. I am not...I by no means mean to say that I think this was a good choice. I don't think it was. I think that...that...I know the college professor...college president regrets, indeed, the...the choice, but that is not his right to sit there and tell a faculty member what...what they can put on as far as a play is concerned, that's...that's not...not within his realm of responsibility. It's within that department's realm and I...I think, you know, let's...let's put the blame where it belongs.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right, further discussion? Senator Kelly.

SENATOR KELLY:

Yes, thank you, Mr. President and members of the Senate. I rise to support this resolution. While I have had a conversation with the president and is a very excellent gentleman, a fine gentleman, and it...pointed out that the committee had actually made this determination. I think the fact remains that the president is still the president of his institution and, in fact, you have responsibilities if you are the...the head of that institution. And I think that brings us to the important point in this item, this play has been shown privately where you can go out to a show or a theater and...and partake in it, but this is a public institution and public funds, and people who are providing these funds are resisting the...the play. And I think it's taxpayers' money and it's a very good point that we should bring

the attention...not only of...of the College of DuPage but certainly for other institutions. We had the some thing, if you recall, at the University of Illinois with an art display about a year ago along the same line and...and if we don't do something when these things occur, they're going to come in more often and it won't be just the certain religion, it'll...it'll be all of them that will be effected. So, I strongly urge your support for Senate Resolution 127.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Further discussion? Senator Davidson. Senator Davidson.

SENATOR DAVIDSON:

Question to the Senator that has DuPage...College of DuPage in.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Indicates...Senator...Senator Fawell...indicates she will yield. Senator Davidson.

SENATOR DAVIDSON:

I've had some of this controversy with an institution that's located in my district. Sometimes the things that are put on are sponsored by the student affairs which is paid out of their fees, there's no taxpayers' money...whatsoever involved and the administration of the college has no veto power over that activity. Is this the case in this play that was put on or do you know?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Fawell.

SENATOR FAWELL:

I'm not sure...I'm not sure.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Davidson.

SENATOR DAVIDSON:

Does...does Senator...the sponsor of the resolution have an answer to that question?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Lemke.

SENATOR LEMKE:

My understanding that the president of the university...the...of the...of this particular community college granted permission for this group to...use a bigger auditorium and he's quite aware. I understand the people I talked to who are involved in this have talked to him many times and he has been...very indignant to him, but this resolution does not defame the president of the university, it just says that we don't want this going on and he should exercise his authority. It's all we're saying. We're not running him down or anything else, we're just saying that since it is tax supported we think that he's the president, he should stop it and come up with the necessary things to stop it, just like the University of Illinois.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Further discussion? Senator Davidson.

SENATOR DAVIDSON:

Well,...a question to the maker of the motion. You stated it was public money. Is it or is it not public money or do you know?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Lemke.

SENATOR LEMKE:

Well, I...I understand that the auditorium has employees that are paid with public funds and who will get paid overtime with public funds for running this auditorium; therefore, it is public funds and I think indirectly if the play makes money, then it isn't public funds, but if the play looses money, it is public funds and I will assure you this play is not going to make money, it's going to loose public funds, like most plays do. So, I think indirectly it's going to be public funds.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right, further discussion? Senator Fawell, for a second time.

SENATOR FAWELL:

Thank you, very much and I apologize for...for speaking for a second time, but let me tell you, I live about four blocks away from this college. They constantly have these kinds of plays on. I have never in my life even gone to see one of these much less know whether the plays are on or not. They do not normally broadcast this, this was going to be held in an auditorium where a classroom was going to see the...the play, period, until...until all this publicity came about. Once all this publicity came about and all these letters started arriving and everybody wants to see the play. You know, I...my personal feeling is if...if they had just let the class see it, shut up about it, they would have been much better off. Now, everybody knows the play is on. I didn't even know that they even put these productions on and this is my college, within four blocks of my...my...my home. You know, I...I...I just think they've...they've created a monster that...that was supposed to be a classroom exercise, basically.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right, further discussion? Senator Lemke has moved the adoption of Senate Resolution 127. Those in favor signify by saying Aye. Opposed Nay. The Ayes have it. The resolution is adopted. Further resolutions?

SECRETARY:

Senate Resolution 128 offered by Senators Kustra and Dudycz. It's congratulatory.

Is leave granted? Leave is granted. On the Order of Secretary's Desk Resolutions is Senate Resolution 47, Mr. Secretary.

SECRETARY:

We have an amendment filed to the resolution by Senator Lemke, Amendment No. 1.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Lemke.

SECRETARY:

...oh, I'm sorry, we have an amendment in committee from Executive which is Amendment No. 1, Senator Lemke.

SENATOR LEMKE:

I believe that's a...could you read that amendment?

SECRETARY:

(Secretary reads amendment)

SENATOR LEMKE:

Yeah, I think what happened was when the resolution initially was they forgot the Governor's Office and this adds the Governor's Office to the rest of the people to be notified.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right, Senator Lemke move the adoption of Amendment No. 1 to Senate Resolution 47. Those in favor signify by saying Aye. Opposed Nay. The Ayes have it. Amendment No. 1 is adopted. Further amendments?

SECRETARY:

No further committee amendments.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Any amendments from the Floor?

SECRETARY:

Amendment No. 2 offered by Senator Lemke.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Lemke.

SENATOR LEMKE:

I...is this the date change? Could you read that...what the exact date would be?

SECRETARY:

This does include the change of the date and then it also changes...inserts "church, law enforcement and health...

SENATOR LEMKE:

This is the resolution that was suggested after talking to various schools and so forth to delete...the date May 6th of '85 to May 11th and change that to June 2nd of '85 to June 8th of '85. A suggestion by the educators in line 25, deleting "school" and inserting "churches and school," which was suggested and also deleting "local law enforcement officers" and inserting "law enforcement and health officers." I think these are words of technical changes. I ask for their adoption.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right, Senator Lemke has moved the adoption of Amendment No. 2 to Senate Resolution 47. Is there any discussion? If not, those in favor signify by saying Aye. Opposed Nay. The Ayes have it. Amendment No. 2 is adopted. Any further amendments?

SECRETARY:

No further amendments.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Senator Lemke, is it your desire to take up this resolution? All right, on the Order of Resolutions is Senate Resolution 47. Senator Lemke.

SENATOR LEMKE:

What this resolution does is sets forth child awareness...week in the State of Illinois, adds the date June 2nd of '85 to June 8th of '85. This is in conjunction with the national campaign on ISEARC and missing children and making people aware of child abuse. I think it's a good resolution and set up this week. I think it's a...a necessary matter. I ask for its adoption.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Lemke moves the adoption of Senate Resolution 47. Is there any discussion? If not, those in favor signify by saying Aye. Opposed Nay. The Ayes have it. The resolution is adopted. Messages from the House.

SECRETARY:

It calls for us to return to Springfield on next Tuesday, I believe, at the hour of noon. Effectively, we will be finished this afternoon. SENATOR ROCK:

Thank you, Mr. President and Ladies and Gentlemen of the Senate. This is a piece of legislation suggested by the Governor's Office to afford those boards under the Executive Agency who are in mid-term the opportunity to be restructured so that they can take advantage of the compensation increase. Amendment No. 1 calls for the expiration of the terms of the Prisoner Review Board to happen at the end of May to afford the Governor an opportunity to reappoint and to allow the Senate to advise and consent, and I would move the adoption of Amendment No. 1.

SENATOR ROCK:

Thank you, Mr. President and Ladies and Gentlemen of the

Senate. This amendment...Floor Amendment No. 2 puts in the other agencies that were inadvertently omitted; the Racing Board, the Civil Service Commission, the Liquor Control Board, the Pollution Control Board, the Human Rights Commission, the Commerce Commission, the Board of Elections and one member of the Industrial Commission. You'll recall that prior to the approval of the Compensation Review Board report, we had, in fact, changed the terms for the...some members of the Industrial Commission and for the banking commissioner and the deputy banking commissioners. This simply affords some equity toward all the other appointed members. This amendment comes also from the Office of the Governor and I would move its adoption.

Senator Lemke.

SENATOR LEMKE:

Well, this is the amendment that changes it and turns it into a refund which makes it...the...the way it is now it's an exemption, this returns it to a refund. Makes it easier for the administration of the bill.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Lemke has moved the adoption of Amendment No. 1 to Senate Bill 187. Is there any discussion? Senator Etheredge.

SENATOR ETHEREDGE:

Yes, sir, will the sponsor yield?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Indicates he will yield. Senator Etheredge.

SENATOR ETHEREDGE:

Senator, I just want to understand the thrust of this amendment. Does the...it simply eliminates the exemption and provides for a...only a refund? It does not provide for a tax credit?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Lemke.

SENATOR LEMKE:

According to my staff it provides only for a refund. This is a method that the utility companies thought was best for the administration of the...of the bill. It creates an...exemption, but it...it...you actually get a refund. It makes the administration better for the utilities.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Further discussion? Senator Etheredge.

SENATOR ETHEREDGE:

It provides for a refund and...and not a credit then, as

SB 212 3rd reading

I understand it...as...as I understand your answer. I have a second question. Does the amendment change the...the...the list of those institutions that can participate in this program or let...let me...let me ask the question this way. Would you give me a listing of the types of institutions that would be eligible to participate in this tax refund program?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Lemke.

SENATOR LEMKE:

According to the staff, it's still...is for schools, school districts, non-public, elementary and secondary schools and community colleges. Doesn't do...that's the list.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Etheredge.

SENATOR ETHEREDGE:

All right, so that the non-public schools as well as the public schools and the community colleges are...are still in the program. So, as I understand this amendment then, it does not change the...the force or the thrust of this...of the original bill then. Thank you.

PRESIDING OFFICER: (SENATOR DEMUZIO)

END OF REEL

REEL #3

SECRETARY:

Amendment No. 1 offered by Senator Demuzio.

PRESIDENT:

Senator Demuzio.

SENATOR DEMUZIO:

Yes, thank you, Mr. President. Ladies and Gentlemen of the Senate, House Bill 485, of course, is the...the Emergency Farm Credit Allocation Act. This morning, myself and Representative Richmond had a conversation with Jim Reilly who is the Governor's Chief of Staff, and the Governor has indicated that he is amenable to four substantive changes in House Bill 485 as well as the Senate bill, and that with the adoption of this amendment that this bill would have his approval on Tuesday of next week when we manage to get it to his desk for...for his signature. The substantive changes are that all payments, adjustment and commitments on farm loans should be made by June 15th of 1985. Therefore, if the loan is not made by June 15th of 1985, obviously, it's not going to do anyone any good anyway, so June 15th is certainly a date that is a matter of compromise that we've accepted. The other parts of the...of the substantive parts of the...of amendment indicate that we were...cleaning up the language in terms of the definition of an operating loan to assure ourselves that it would be, in fact, for our spring planting money and that the operating loans would not be utilized for preexisting debt. The third provision indicates that we would assure ourselves that the interest rate would be no more than thirteen percent. We, in debate here, argued one day that the Illinois Farm Development Authority by rule or regulation could, in fact, establish the ceiling on the particular interest rate. They feel more comfortable with it being in

this matter of Statute, we have no objections to it and therefore seek to...to have that put into the statutory language. And the fourth provision that I think...or the substantive provision is to assure ourselves that it is a...a program that is not perpetual, that it is, in fact, a one-time program and that it, in fact, will expire...or shall expire sometime in 1985 and the date escapes me, I don't see it here. But for matter of compromise for...it seems to me that...that we do have a reasonable proposal, and I would move the adoption of Amendment No. 1 to House Bill 485.

PRESIDENT:

All right. Senator Demuzio has moved the adoption of Amendment No. 1 to House Bill 485. Is there any discussion? If not, all in favor of the adoption of the amendment indicate by saying Aye. All opposed. The Ayes have it. The amendment is adopted. Are there further amendments?

SECRETARY:

No further amendments.

PRESIDENT:

3rd reading. All right. The only business remaining is further introduction of bills. The Senate will then adjourn until nine o'clock tomorrow morning and will be open until five tomorrow afternoon for the purpose of introductions. So between nine and five tomorrow. And the Chair will come in from time to time. All you have to do is check with the Secretary, those of you who are in town, get on the roll call. Senator Davidson, for what purpose do you arise?

Reading of the Journal. Senator Kelly.

SENATOR KELLY:

Mr. President, I move that reading and approval of the Journals of Wednesday, April 10 and Thursday, April 11, in the year 1985, be postponed pending arrival of the printed Journals.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right...you've heard the motion. Those in favor signify by saying Aye. Opposed Nay. The Ayes have it. The motion is carried. Ladies and Gentlemen, let me try to give you some guidance as to what we're going to do here this morning. It is the intention of the...of the Chair, and of course by our...our previously arranged agreement, today is simply for the introduction of bills, no other business will be transacted. It is suggested that...perhaps we will go to introduction of bills promptly this morning, read the few bills that we have into the record. We'll probably stay open for about another half an hour for...allowing for the rest of our members to...to be in attendance and then perhaps Recess till eleven o'clock. And then eleven o'clock...come back in for the purpose of introduction of bills and transact whatever business is necessary at that time and then perhaps Recess till two o'clock this afternoon allowing for the membership to...to have lunch, and then, we would urge everyone to get their bills in promptly. This is, in fact, the last day for introduction of bills and we will play this afternoon by ear depending on how we proceed with the Refer-

ence Bureau. With that announcement, Mr. Secretary, introduction of bills.

Senator Sangmeister.

SENATOR SANGMEISTER:

All this amendment does...it was brought to our attention by staff in committee that the word "or" ought to be placed in there so that it is clear that all of those provisions in the bill are alternative and not treated as a whole. So the word "or" has to be put in there and move the adoption of the amendment.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Is there any discussion? Senator Sangmeister has moved the adoption of Amendment No. 1 to Senate Bill 155. Those in favor signify by saying Aye. Opposed Nay. The Ayes have it.

Amendment No. 1 offered by Senator Sangmeister.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Sangmeister. Have some order, please.

SENATOR SANGMEISTER:

Mr. President and members of the Senate, this bill obviously comes out of the Revenue Committee. And the purpose of the bill was to take the investment credit for...placing in service qualified manufacturing mining and retail property was originally all being charged against the...the Replacement Fund, and the original intent of this bill was to move it from the Replacement Fund and take it out of the State Income Tax Fund. I felt that there was some merit in the bill but that we ought to maybe share the responsibility between both the funds and therefore this amendment would split it fifty-fifty; fifty of it would be credited toward the State Income Tax Fund and the other fifty percent would go against the Replacement Fund and give each fund a...a fair shake rather than moving it out of one and into another. Move the adoption of the amendment.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Senator Sangmeister has moved the adoption of Amendment No. 1. Is there any discussion? Any discussion? Senator Holmberg.

SENATOR HOLMBERG:

Thank you, Mr. President. I would like to speak against this particular amendment. I think with the school districts needing all of the personal property replacement tax during very, very trying times, I think most of us in our campaigns found out that that was the number one priority issue, additional funding for education, this is certainly one way to keep that tax from being robbed of additional funds. I think...it's not a great amount of money, but I think we need to figure it against the State Income Tax rather than against the Corporate Personal Property Replacement Tax so that edu-

cation will continue to get the full amount of that replacement tax as was promised years ago. I...do not support this amendment.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Further discussion? Senator Netsch.

SENATOR NETSCH:

Thank you, Mr. President. I also rise in opposition to the amendment, and would point out to the members of the Senate that we are dealing with the Corporate Personal Property Replacement Tax Fund which is still an extremely significant source of revenue for low...

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right...Senator Netsch, just a moment, can I get some order? Could we have some order, please. Senator Netsch.

SENATOR NETSCH:

...thank you, Mr. President. The Corporate Personal Property Replacement Tax Fund which is an extremely significant source of funding for all of our units of local government and of course particularly for school districts which get a major part of the share of it. I believe, probably, most members of the Senate are now aware, and if not, I will refresh their recollection that the Corporate Personal Property Replacement Tax Fund has been on the skids for several years and although it's looking a little bit better right now than it did for several years, it is still calculated at a level that probably is no more than and very likely less than the amount that the corporate personal property replacement...I'm sorry, the Corporate Personal Property Tax itself was bringing in at the time it was abolished. And this as you know was intended to be a dollar for dollar replacement, at least. In addition, we have not even built in a computation for the amount by which that Corporate Personal Property Tax would have increased had it remained in effect since 1979, the year it was abolished. In other words, our units

of local government are taking something of a beating at our hands and it is simply not fair, it makes no sense at all. The corporate income tax itself is a little bit volatile these days, it's been a little hard to predict for the last few months, in fact, really the last eighteen months. But, I...I don't think, despite the way that it's coming in right at the moment, that it is likely to get much better looking over the next eighteen months or two years. In the meantime, when we passed tax relief for business, which is exactly what the investment tax credit bill was, we did not have the courage to absorb it in our own State Corporate Income Tax, instead we put it off on to the locals. I think that really does not make any sense and it seems to me we ought to have the courage of our convictions and say that if we believe that an investment tax credit is a good idea, which....which parenthetically I think is of some doubt in terms of its effectiveness, but if we do believe that it is a good idea that at least we ought to have the courage to say that the cost will come out of our own State-level Corporate Income Tax and not the local governments' share. So, on that basis, I would strongly support the bill as it came out of committee and oppose Senator Sangmeister's amendment.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Further discussion? Senator Etheredge.

SENATOR ETHEREDGE:

Mr. President,...I...question of the Chair. I filed a request for a fiscal note. I have not seen that fiscal note and I would like to request that the fiscal note be distributed so that we can get a better idea as to what the impact of the passage of this legislation might be on local governments and on State Government both.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Well, Senator, the...certainly your request is in order. The fiscal note responsibility, according to the Secretary,

has been met. There is nothing in our...our rules that require us to have the fiscal note to be distributed to the members. It, in fact, can be distributed, but on the order of business that we are now, it just seems to me that it...it may be inappropriate. Senator Etheredge.

SENATOR ETHEREDGE:

Then I would request that the amendment be distributed.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Senator, are you joined by four additional members on the...

SENATOR ETHEREDGE:

Yes.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Senator Etheredge has requested that the amendment be distributed. There is the requisite number of members that have made the request. Senator Sangmeister, we ought to take this out of the record and come back to it. Senator Holmberg. Mr. Secretary, take it out of the record. Senate Bill...Senator Keats, for what purpose do you arise?

SENATOR KEATS:

Thank you, Mr. President, strictly for a technical clean-up. Senate Bill 1061 is presently under my sponsorship. I would appreciate...and we've cleared this, I would appreciate it if my name would be removed as sponsor and the sponsorship would read, Bloom, Carroll, Dawson.

Thank you, Mr. President and members of the Senate. This Amendment No. 1 to Senate Bill 336 takes care of the problem that was questioned in the committee. There was some question of school districts that...that had transportation systems...would...to get the thirteen percent Motor Fuel Tax discount. If they picked up parochial schools or others in that system, they would not be able to take advantage of that. We did correct that by striking "set school districts" which would make that benefit available to them also. And I'd ask for a favorable roll call.

SENATOR FAWELL:

Thank you, very much. This is a bill that was brought to me by one of our former colleagues, Jack Bowers. He had a neighbor who was a prisoner of war during World War II that has a blind retarded child. This man has suffered a massive heart attack and is no longer able to work. All the bill does is allow the same amount of monies that we would normally have allowed this man to spend on the POW scholarship which allows a...a child of a POW-MIA to attend any university in our State for four years...it gives them the same amount of money to be able to take care of this child at a similar institution so that she can too receive the proper training and...allow...be able to live some kind of a...of a half-way decent life. There are two thousand one hundred and twelve prisoners and MIAs in the State. I have talked to the State Board of Education, they feel that there would be...there are approximately two hundred special ed. children per two thousand people...two...two thousand families and that includes anything from a speech impediment down. The feeling is that this would not be an expensive bill and I think this man has suffered enough for his country. He...was...weighed eighty-five pounds when he was found in the camp in Germany. I think we owe this to him and I ask for your support.

Thank you, Mr. President and members of the Senate. Senate Bill 9 provides for the clarification that counties are to be...reimbursed for extradition expenses in all felony cases. The bill was amended to the satisfaction of the committee. We're having problems with the Department of Law Enforcement where they authorize the counties to pick up or extradite prisoners back to Illinois, and when they submit their vouchers to law enforcement they do not pay these travel expenses. And what we've done, we've amended the bill to pay for extradition expenses in all felony cases. And I would appreciate a favorable vote.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Any discussion? Senator Marovitz.

SENATOR MAROVITZ:

Thank you, very much, Mr. President and members of the Senate. This bill...did come before the Judiciary Committee, it does address a legitimate problem, particularly in downstate counties. And the bill was amended to take care of some problems that were discussed in committee. I would support this legislation and urge your Aye vote.

SENATOR ROCK:

Thank you, Mr. President, Ladies and Gentlemen of the Senate. Senate Bill 106, sponsored by myself and Senator Philip, effectively restructures the leadership of the Senate by the addition and creation of the post of Whip; one Whip for the Republican side and two Whips for the Democratic side. Given the new structure of the leadership, I think this fairly reflects the concerns, at least on my side of the aisle, with respect to upstate, downstate, Chicago, non-Chicago, et cetera. I think the...the amendment has been discussed at some length. The only other change, that it raises the compensation of the Caucus Chair to be the equivalent that...that is...of that that's enjoyed by the assistant leaders and the Whips and I would ask for your favorable consideration.

3rd reading of the bill.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Netsch.

SENATOR NETSCH:

Thank you. Last Session we passed a bill which dealt with pharmaceutical assistance for senior citizens. The Governor, as is usual, used his amendatory veto and, as is all too common, he messed up the bill in the process and made

it applicable only to those who would have reached age sixty-five by 1984 which was...the exact opposite, of course, of what the bill was intended to do. It is totally, by everyone, conceded to have been a technical error of major proportions but nevertheless a technical error. This bill corrects that error and makes the existing program available to those for whom it was originally designed. I would be happy to answer any questions; otherwise I would solicit your support for Senate Bill 111.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Any discussion? Any discussion? Any discussion? Any discussion? If not, the question is, shall Senate Bill 111 pass. Those in favor will vote Aye. Those opposed will vote Nay. Senate Bill 111 having received the required constitutional majority is declared passed. Now, Senate Bill 118, Senator Lemke. We...the Chair apologizes to...to you for having...having taken your bill out of the record. On the Order of Senate Bills 3rd Reading is Senate Bill 118. Mr. Secretary, read the bill.

SECRETARY:

Senate Bill 118.

(Secretary reads title of bill)

3rd reading of the bill.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Lemke.

SENATOR LEMKE:

What this bill does is amends the...the Illinois Veterans' Home provisions, decreases from ninety days to thirty days the number of war time days necessary for admission to the Illinois Veterans' Home. This bill will take effect, my understanding, on January 1st of '86 and at time time we'll

have an additional three...three hundred bed...capacity. I think it's a good provision because most states on the subject matter go from one to ninety days, most being in thirty days. And I think if anybody serves in wartime, if they serve one day or one hour, they're just as important if you serve four years because you can get shot in an hour or in a...in a year depending how long you serve. I think it's a good bill and we should open our doors up to these veterans. I ask for its adoption.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Any discussion? Any discussion? If not, the question is, shall Senate Bill 118 pass. Those in favor vote Aye. Those opposed vote Nay. The voting is open. Have all voted who wish? SENATOR ROCK:

Thank you, Mr. President, Ladies and Gentlemen of the Senate. This proposal addresses one, two, three, four, five, six, seven, eight commissions and boards that the Compensation...Review Board felt were entitled to additional compensation. And what happened, in fact, you'll recall last year, we did change the terms of office for the banking commissioner, for the Industrial Commission and for the assistant banking commissioners. There were eight other agencies whose membership at the moment are unable to receive the proper compensation. What this legislation would do is terminate their terms at the end of May, afford the Governor an opportunity to reappoint, if he so desires, the current membership and afford the opportunity then for those members

who are serving to receive the additional compensation. Amendment No. 1 included all the other agencies at the request of the Office of the Governor. And I would urge your favorable consideration of Senate Bill 141.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Any discussion? Senator Lechowicz.

SENATOR LECHOWICZ:

Thank you, Mr. President, Ladies and Gentlemen of the Senate. Very briefly, I stand in full support of Senate Bill 141. As the President pointed out to you, this matter was addressed by this General Assembly in the last Session. These boards and commissions were missed by an oversight. This is a corrective piece of legislation and it merits your support. Thank you.

doing that?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Weaver.

SENATOR WEAVER:

Well, basically, there's such a little amount of money in the fund right now, about ninety thousand dollars. They're waiting...for another year to build that up to at least a hundred and eighty thousand before they make any appropriation...thinking that there wasn't enough money to support any real activity in the disciplinary fund.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Welch.

SENATOR WELCH:

Well, do we have podiatrists that are in need of having their license reviewed or some other type of activity that is not being done and we're delaying that?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Weaver.

SENATOR WEAVER:

Well, this is a recommendation from the Illinois Podiatry Association. The money comes from their license fees, a portion of their fees. We raised their fees to...last year to establish this fund and it just doesn't bring in enough money to do the job properly, and so they want to delay it for one year.

SENATOR VADALABENE:

Yes, thank you, Mr. President, members of the Senate. Senate Bill 247 provides and authorizes the county coroner to maintain a special fund from which the county board shall authorize payments by voucher between board meetings to pay necessary travel, dues and other expenses incurred in attending workshops, educational seminars and organizational meetings for the purpose of providing in-service training. The bill was also requested by the Illinois Association of Coroners and I appreciate a favorable vote.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Any discussion? Senator Luft.

SENATOR LUFT:

Question, please.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Sponsor indicates he will yield. Senator Luft.

SENATOR LUFT:

Why?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Vadalabene.

SENATOR VADALABENE:

Why not?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Luft.

SENATOR LUFT:

Well, having been a county auditor for eight years and have dealt with budgets on the county level for eight years, the last thing you want to do is to start eliminating and creating new funds. And I think you'll find in the counties over the last few years what they've tried to do is to control funds. And this seems to me, when every officer has a line item in his budget for travel and whatever, why do...that comes out of the corporate general fund of a county, why we have to set up a special sinking fund for cor-

oners, and are in fact are we going to have to set up a fund for every county official in the future concerning travel expenses. That's why I want to know why.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Senator...Senator Vadalabene.

SENATOR VADALABENE:

Already the county clerks have this option and also this would speed up the process and have no delay in getting...their reimbursement for their travel. And I would appreciate a favorable vote.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Further discussion? Senator Luft.

SENATOR LUFT:

Thank you, Mr. President. I just rise to oppose this because I don't think in the experience that I've had there is any real delay in payment of travel expenses. I don't think there's any situation that exists that we can't go with the ordinary budgetary and payment of voucher process in the county.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Further discussion? Senator Geo-Karis.

SENATOR GEO-KARIS:

Mr. President and Ladies and Gentlemen of the Senate, I rise in...in favor of this bill because this bill is still under the supervision of the county board about this special fund and it does...require, it...it has...it does provide it to pay expenses incurred for in-service training. And I think that since the county clerks already have the identical provision allowing payments by vouchers between county board meetings out of their special funds for expenses incurred for the purposes of in-service training, I think we should accord this same courtesy to the coroners. I speak in favor of the bill.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Further discussion? Senator Lechowicz.

SENATOR LECHOWICZ:

Thank you, Mr. President. Will the sponsor yield to a question?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Indicates he will yield. Senator Lechowicz.

SENATOR LECHOWICZ:

Does this apply to home rule counties as well?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Vadalabene.

SENATOR VADALABENE:

No, it does not.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Further discussion? Senator Welch.

SENATOR WELCH:

Thank you, Mr. President. I would just rise in opposition. It seems to me that the main reason for doing this is to make sure the county coroner gets money quicker so that he doesn't have to wait till a board meeting to get his travel dues. It seems to me that if those of us here in the Senate can wait a couple of weeks to get our travel vouchers paid, the county coroner is no better than us, and I think that they can wait until a board meeting which are usually at least once or twice a month. So I would urge a No vote.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Further discussion? Senator Vadalabene may close.

SENATOR VADALABENE:

Yes, there's no problem being effected by this legislation. The county clerks have used this system for a long time and I don't...know why the county coroners cannot use it. And I would appreciate a favorable vote.

PRESIDING OFFICER: (SENATOR DEMUZIO)

The question is, shall Senate Bill 247 pass. Those in favor will vote Aye. Those opposed will vote Nay. The

voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Have all voted who wish? Take the record. REEL #2

PRESIDING OFFICER: (SENATOR DEMUZIO)

(Machine cutoff)...Senate Bill 248.

SECRETARY:

Senate Bill 248.

(Secretary reads title of bill)

3rd reading of the bill.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Holmberg.

SENATOR HOLMBERG:

This bill as amended does something very simple but I think very significant for all your constituents in the State of Illinois. It requires that the State's portions of the proceeds of the lottery shall be paid into the Common School Fund. As we all know, when we go out to speak, this is one of the main questions that we get asked time and time again, why doesn't the amount of money that we give to the lottery go into the Common School Fund. It's exactly what we thought we were doing when you passed it originally, that's where we want the money to go. The Governor has said that he is willing to sign such a bill this year, although I know we passed one like this before. I think this is the time and this is the year. I...I think a further problem as people look at their lottery tickets and they see that it's State set, part of the money goes to education, they are thoroughly confused. I think we could simplify all of our meetings. We can get back to our constituents and say that we have finally accomplished what they wanted us to do. I recommend a favorable roll call.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Is there any discussion? Senator...a lot of

flashing lights. Senator Fawell.

SENATOR FAWELL:

Thank you, very much. Will the...the sponsor yield for a question?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Indicates she will yield. Senator Fawell.

SENATOR FAWELL:

We're not actually adding any more monies to the...to the budget of the schools with this, we're just sort of transferring money. Is that right?

PRESIDING OFFICER: (SENATOR DEMUZIO)

...Senator Holmberg.

SENATOR HOLMBERG:

Yes. Thank you, Senator Fawell, that's a very important point, that we will not be adding one penny more necessarily, but it just is the intent of what we...all thought originally might be done, that we will put all of the money into the Common School Fund. As the bill began its progress through the Legislature years ago, that's what the public was told and we will do that, but it will not increase the amount per se.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Further discussion? Senator Schuneman.

SENATOR SCHUNEMAN:

Thank you, Mr. President, Ladies and Gentlemen of the Senate. This bill is actually a carbon copy of Senate Bill 319 which I introduced in 1983 and which was vetoed by the Governor at that time. Senator Holmberg has chosen to take this issue, apparently, after having introduced Senate Bill 248 in a different form but, then, having learned that the Governor...had asked Senator Emil Jones and I to introduce this bill, introduced...amended her bill into the form that the Governor would approve. Senator Jones' bill and mine is Senate Bill 305 and is on 3rd reading. I support that bill

and I support this bill, but I would ask that you be aware of how this particular bill got where it is. Thank you.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Further discussion? Senator Maitland.

SENATOR MAITLAND:

Thank you, very much, Mr. President, Ladies and Gentlemen of the Senate. Well, here we go again. I...I joked with the Governor the day that he made his pronouncement that he now in fact was going to support the lottery money for education that I had always been with him on this issue and many times was the only No vote here, and now he had left me high and dry and perhaps I'm the only one opposed to the bill. But he jokingly said that, just think, John, this is going to cut down every meeting that you speak at by ten minutes because you always have to explain to people what happens with the lottery money. Well, let me tell you something, I don't mind making that explanation, I can make it. I can tell them what happens to the money. But after you pass this bill and you come back here in a couple of years and you begin to get comments from those same constituents at the meeting who say to you, hey, you promised us the lottery money, you passed it and we still didn't get it. Senator Fawell, you were right on target, it means no more money. It's a charade, and the bill should be opposed.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. The AP has requested leave to take still photos. Is leave granted? Leave is granted. Further discussion? Senator Kelly.

SENATOR KELLY;

Thank you, Mr. President and members of the Senate. I somewhat concur with Senator Maitland. The only difference is I'm not sure if he's going to support it. I am going to support this proposition because I think if nothing else the public will feel better that they know that these funds are

supposedly going for education, but we in the Legislature know better that in fact, there's going to be more...bureaucracy, there's going to be more accounting practices and it's going to cost the State more than it's taking in. But I think it's worth it to the public to just have that feeling that my money is going for education when I buy that lottery ticket. Maybe they'll buy more lottery tickets.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Further discussion? With all of the requests that we've had now for still photos by the media, the...the board is lit up like a Christmas tree. Senator DeAngelis.

SENATOR DeANGELIS:

Thank you, Mr. President. I don't know how appropriate this is but I have a question of the Chair.

PRESIDING OFFICER: (SENATOR DEMUZIO)

State your question.

SENATOR DeANGELIS:

Can the Chair advise me if under our appropriation rules and systems that exist under our Constitution is it possible for the lottery monies to be deposited directly into the Common School Fund and then spent out of that fund without going through the appropriation process?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator DeAngelis, state your question again.

SENATOR DeANGELIS:

If I can. What I would like to know, can we legally under our Constitution and our rules of appropriation actually...I know we can deposit money into a fund, but can we in fact allow that money to be spent without going through the appropriation process?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Well, if...if you're asking for...for a personal opinion, the...the...the question that I would...the answer that I

would give you is that, no, I don't know of any...any...anything in our rules that would prohibit that. Senator DeAngelis.

SENATOR DeANGELIS:

If that be so then, what would preclude if the lottery monies were to decline? A loss in funding for education. Since you're channeling that money directly and you're counting that as part of the total...Senator Holmberg indicated there would not be another extra nickel in education. Assuming that the lottery sales were to drop, what would happen to the monies then? Would the appropriation or the amount of monies available to education decline?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Well,...

SENATOR DeANGELIS:

Since they're not going through the appropriation process?

PRESIDING OFFICER: (SENATOR DEMUZIO)

...if you...if you have a...a net loss in the proceeds of the lottery, the balance of the funding for elementary and secondary education is still subject to the appropriations process and still within the jurisdiction of the...of the Legislature. Senator DeAngelis.

SENATOR DeANGELIS:

Well, the appropriations are made a year in advance. If you're indicating the...the first answer you gave was that this would not go through the same process, that it would go directly to the Common School Fund and be spent from there. Now how do you make up the loss without coming back and making it up through either a...a supplemental approp.?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Well, Senator Lechowicz, on a point of order.

SENATOR LECHOWICZ:

My point of order, sir, you have made your ruling. I

believe the gentleman is...the question...

PRESIDING OFFICER: (SENATOR DEMUZIO)

No, the Chair...the Chair...

SENATOR LECHOWICZ:

...if he has any further questions, he can address it to either economic or fiscal appropriations. Let's get on with the business before us.

PRESIDING OFFICER: (SENATOR DEMUZIO)

First of all...first of all, the...the Chair didn't make any ruling...it was simply asking...it was a response to a question that was posed by Senator DeAngelis. Further discussion? Senator Netsch.

SENATOR NETSCH:

Thank you. If I might try to respond, at least in part, to Senator DeAngelis' concern. This was one that he raised in committee, I might say, several times and it was addressed several times by members of the committee. I believe the...the simplest and straightest answer to his concern is there is already a provision in the Illinois Revised Statutes that in effect...not in effect, it does require one-twelfth of the annual appropriation for school aid, at least the general school aid, to be transferred every month into...from general revenue into the Common School Fund, and...so that there should not be any possibility at all that the...the cash flow process would not meet the appropriation process. And it's got nothing to do with where the lottery money goes, it's something that has been there for a long period of time to began with. I would like to be able to give you chapter and verse, and I'm sorry our staff person is not immediately on the Floor who was going to get that section out for us. Someone is trying to find it still now. But I think that is the answer to your question, Senator DeAngelis, and I thought it was at the time that we discussed this in committee as well. There is an automatic transfer that takes place into

the Common School Fund to cover the appropriation that the General Assembly has made with respect to general school aid.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Further discussion? Senator Hall.

SENATOR HALL:

Thank you, Mr. Chairman, Ladies and Gentlemen of the Senate. I just want to simply say that what this does, it clarifies...if any of you were around and many of you are still here when this lottery bill was passed, there were several bills, and some of them did indicate that the money was going into the...this Common School Fund. It just so happened the one that the Governor signed was not that bill and that's why we have that right now. That's why so many people are of the impression...that this money would go for schools entirely. So this just simplifies the matter and brings it to the attention of many, many people voted for that with that understanding. And that's why you...have asked so many questions.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Further discussion? Any further discussion? Senator Lechowicz.

SENATOR LECHOWICZ:

Very briefly, Mr. President, Ladies and Gentlemen of the Senate. This is really a truth in lending bill. It's being truthful with the taxpayers of this State when both bingo and lottery were presented, not only to the General Assembly for consideration, but throughout the...gathering support throughout this State. What the lady has presented to you is the conception that has been adopted by the public generally throughout this State that the proceeds of lottery and bingo are supposed to go into this Common...Common School Fund. Unfortunately, we all know what happened in the Conference Committee and that the Governor requested that the money be placed in the General Revenue Fund. I'm not saying that this

will alleviate the problem...the monitory problem of the Common School Funds, but it will correct a perception of the general public which is long overdue. And for that reason alone, this bill should...receive unanimous support, because this is the way it was told to the people of Illinois and this is the way it should be accepted. Thank you.

PRESIDENT:

Further discussion? Senator Schaffer.

SENATOR SCHAFFER:

I think the previous speaker failed to mention which Governor cut that particular deal and I think the record ought to be clear. The original proponents of the...lottery did want the money in the Common School Fund. The lottery was passed, I believe, in this Chamber thirty minutes after the creation of the RTA, and then Governor Dan Walker wanted in the General Fund to make up the subsidy for the mass transit. So if you wonder where all your money went all these years, those of you in education, think about it.

PRESIDENT:

Further discussion? Any further discussion? Senator Holmberg, you wish to close?

SENATOR HOLMBERG:

I just ask for a favorable roll call.

PRESIDENT:

The question is, shall Senate Bill 248 pass. Those in favor will vote Aye. Those opposed will vote Nay. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Take the record. On that question, there are 52 Ayes, 3 Nays, none voting Present. Senate Bill 248 having received the required constitutional majority is declared passed. 252, Senator Rigney. On the Order of Senate Bills 3rd Reading, top of page 8, is Senate Bill 252. Read the bill, Mr. Secretary.

SECRETARY:

Senate Bill 252.

(Secretary reads title of bill)

3rd reading of the bill.

PRESIDENT:

Senator Rigney.

SENATOR RIGNEY:

Mr. President, this legislation will make it possible for credit card key or coin operated fuel pumps. Many of our sister states are into this already and have operated them for many years without any serious consequences whatsoever; in fact, the insurance rates have not gone up under that type of an operation. This bill is of great interest to our many small, rural towns throughout Illinois, where there's probably only one set of gas pumps in the whole town and when you lock the door at six o'clock in the evening, there's no fuel available until the next morning. For instance, in my district, I have about fifty small communities. There are only three in which you can buy fuel during the evening hours. I might point out that this legislation is supported by the Chamber of Commerce, Farm Bureau and most recently by the petroleum marketers. I ask for a favorable vote.

PRESIDENT:

Any discussion? Senator Lechowicz.

SENATOR LECHOWICZ:

Thank you, Mr. President and Ladies and Gentlemen of the Senate. I don't know how current you are in receiving and reading your mail, and I know how...how pressed especially at this time of the year as far as trying to catch up with your correspondence. But I was fortunate enough to go through the mail both last night and this morning here, and I received a letter from the Firefighters' Union of the State of Illinois in reference to Senate Bill 252 and why there was some concern with the passage of this bill; and I know it was sent to every member here, but I don't know if you had an opportunity

to catch up with your mail. But I'd like just to bring to your attention some of the comments that were in the correspondence and also with my questioning of the Fire Marshal of the State of Illinois in reference to this legislation, and both of those groups are...violently opposed to Senate Bill 252, because of the safety factor that is contained under their current jurisdiction with the regulation of self-service gasoline station. And I share the gentleman's concern in reference to providing this type of a needed service to every community in this State, not only the rural community but the metropolitan areas as well and the economic advantage of having this type of service for the consuming public. But our primary concern as far as government is...is concerned is to make sure that the general public of this State is protected not only from the consumer aspect but from the safety aspect. And I beg to disagree with you on Senate Bill 252 that you're removing a very important safety aspect in the control of the self-service gasoline stations, and I believe that's an overwhelming factor that should be considered on this bill; and for that reason, I have to rise in...in opposition to Senate Bill 252. I have to respect the guidance and judgment of the State Fire Marshal of this State and also the people that are protected...protecting the public in this vein. Thank you.

PRESIDENT:

Further discussion? Senator Hall.

SENATOR HALL:

Will the sponsor yield for a question?

PRESIDENT:

Sponsor indicates he'll yield, Senator Hall.

SENATOR HALL:

Senator Rigney, there is...I want to get this straight. What would keep a person...you're supposed to put gas into a container that's...you're not supposed to walk up there with

a glass jar or something that...anything like that. Now, what's to keep a person from coming up there and using a...a container that was illegal and to get gas if there's no attendant?

PRESIDENT:

Senator Rigney.

SENATOR RIGNEY:

Well, first of all, I'd have to be candid enough to concede your point, Senator Hall, that would be possible. I would point out to you, however...for instance, where I service my own car, fill my own tank, of one of these self-service station with eight islands out there and one girl on duty taking the money that really isn't monitoring what's going on out on the drive, it would be possible now, in fact, I have seen from time to time when fuel has been put into a container that perhaps would not be approved by the Fire Marshal. That is something that of course it's impossible to deal with if we're going to allow this kind of activity. I think the best thing we can do, however, and I did point it out in my opening remarks, is look what has happened in the fourteen states that already allow this. They have done so without any consequences, and I don't anticipate any problem here in the State of Illinois.

PRESIDENT:

Senator Hall.

SENATOR HALL:

But, Senator, you have to admit, it's...it's there and that's the problem if we're going to be safe with these things. I mean, it...it's there and that's the thing that I'm concerned about. I would hate to walk into someplace and somebody have some gas sitting in a jug or in a glass container or something and...having a big explosion. That's the...the key thing. Now, if your bill dealt with that, I could support it; otherwise, I cannot.

PRESIDENT:

Further discussion? Senator Kelly.

SENATOR KELLY:

I'd like to ask the Senator a question.

PRESIDENT:

Sponsor indicates he'll yield, Senator Kelly.

SENATOR KELLY:

Yes. Senator Rigney, the self-service stations, are these unattended? In other words, I'd like to have the procedure. A self-service station is one usually where there's an attendee who takes in your cash and allows you to make your purchase. This station is one that operates twenty-four hours a day without an attendant?

PRESIDENT:

Senator Rigney.

SENATOR RIGNEY:

Yes, and that would be under the control of the station owner. For the...for the most part, I...I think you can be assured that he would not give a key or a credit card to someone that he did not know or did not trust. For that reason, I think we have nothing to fear about, you know, the type of people that would be using that equipment, but it is true that there would be no one on duty during those...those evening hours. Keep in mind, again, I say in a lot of our small towns there's about fourteen hours a day when you can't buy fuel.

PRESIDENT:

Further...I beg your pardon. Senator Kelly.

SENATOR KELLY:

Well, along that line I can see where there would not be in many cases an attendee...you could actually have a gasoline store owner who actually does not have a person there except it's all computerized and they can...I...I just think that it's going in the wrong direction. I do think that

there is a danger involved which Senator Lechowicz had pointed out. I also think that if you get a owner of a gas station who has that system, they can change the prices very easily, and...there could be abuses in many ways when you don't have a person who's running that operation. I...I think it's a bad concept and I'm going to oppose you, Senator.

PRESIDENT:

Further discussion? Senator Demuzio.

SENATOR DEMUZIO:

I just want to ask the sponsor a quick question. It says...

PRESIDENT:

Sponsor indicates he'll yield, Senator Demuzio.

SENATOR DEMUZIO:

...indicates in the synopsis that there are only three such unattended stations that operate in the State of Illinois, and I was wondering to which does this...where are those three and is this bill only for those three or are there more?

PRESIDENT:

Senator Rigney.

SENATOR RIGNEY:

First of all, I'm not aware of those...of any operating in the State of Illinois. They are prohibited now by resolution of the Fire Marshal, and if they are operating, I assume that they must be operating illegally.

PRESIDENT:

Senator Demuzio.

SENATOR DEMUZIO:

Okay, then, assuming that we pass this particular piece of legislation, how do you...what...what do you propose that will happen? I mean, how many...how many unattended filling stations do you think we have, or do you think these are just

for...from the...petroleum dealers themselves or individual dealers or how...how many unattended service stations are we going to have that's going to be pumping gas?

PRESIDENT:

Senator Rigney.

SENATOR RIGNEY:

I would think that over a ten-year period of time, particularly in...in the small towns of this State, you would find a lot moving in that direction. There's no...there would be no big reason to do it say in a community the size of Freeport, because you have two all night service stations in that community. There wouldn't be much reason to put in that kind of a pump in that kind of a community. But for the small towns where there is no fuel available, I would anticipate that they would probably go to some type of a credit card pump.

PRESIDENT:

Any further discussion? Further discussion? Senator Rigney may close.

SENATOR RIGNEY:

Well, Mr. President, in reply to the objection that Senator Lechowicz raised, I might just point out, I'm old enough and been around here long enough to remember the arguments that were advanced against the self-service stations. Basically the arguments were the same. We were saying that, well, if we allowed self-service stations in the State of Illinois that people would be spilling gas on the drive, they would be starting fires, they would be hurting themselves or their neighbors by inexperienced people who are running all of these pumps. So, what we're asking for here is merely a...a slight extension of...of the principle of the self-service station, and that is to say, we can take it one step further and to have that station unattended in the evening hours.

PRESIDENT:

Question is, shall Senate Bill 252 pass. Those in favor will vote Aye. Those opposed will vote Nay. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Take the record. On that question, there are 29 Ayes, 21 Nays, 1 voting Present. Senator Rigney wishes to have further consideration of Senate Bill 252 postponed. So ordered. 254, Senator Luft. 269, Senator Lemke. 281, Senator O'Daniel. On the Order of Senate Bills 3rd Reading, the middle of page 8, is Senate Bill 281. Read the bill, Mr. Secretary.

SECRETARY:

Senate Bill 281.

(Secretary reads title of bill)

3rd reading of the bill.

PRESIDENT:

Senator O'Daniel.

SENATOR O'DANIEL:

Mr. President, members of the Senate, Senate Bill 281 merely provides for fees for sheriffs attempting to serve documents in the county. Many times, especially in downstate counties, sheriffs have to make several trips out to...to locate the people and find them at home in order to save...to serve the document, and this would provide fees for his services when he goes out to attempt to serve these documents, and I would appreciate a favorable consideration.

PRESIDENT:

Any discussion? Senator Geo-Karis.

SENATOR GEO-KARIS:

Would the sponsor yield for a question?

PRESIDENT:

Sponsor indicates he'll yield, Senator Geo-Karis.

SENATOR GEO-KARIS:

I...I understand, Senator, that there are approximately six documents served by the county sheriff which would be

affected by this legislation. Would you tell me what kind...what are those documents?

PRESIDENT:

Senator O'Daniel.

SENATOR O'DANIEL:

It would be summons and deeds...just any kind of a document that needed to be served in the county. And this doesn't affect Cook County. Cook County has already be taken care of in this. It just affects downstate counties.

PRESIDENT:

Senator Geo-Karis.

SENATOR GEO-KARIS:

According to our analysis, it affects my county and I'm Lake County. My county is under...under five hundred thousand and according to our analysis, it says counties with a population of less than twenty-five thousand and counties with a population greater than twenty-five thousand but less than a million...people. It affects my county and I can tell you what...is happening now. When we want someone served, we have to send the money in advance to the sheriff of our county for the service fees, and I haven't had any of it returned yet when they didn't serve them. So, I'm just wondering whether we should go ahead with this bill considering the fact that we can't prove whether they...even have tried to serve the people.

PRESIDENT:

Further discussion? Is there any further discussion? Senator Nedza.

SENATOR NEDZA:

Thank you, Mr. President. A question of the sponsor.

PRESIDENT:

Sponsor indicates he'll yield, Senator Nedza.

SENATOR NEDZA:

Senator, is there some provision in the bill that there

is some verification or some...of the attempted service? Is there anything in the bill that the sheriff in his attempts to serve whatever summons he is, that there is some notification...some verification of his attempted service?

PRESIDENT:

Senator O'Daniel.

SENATOR O'DANIEL:

Well, the...any time the sheriff is...is directed to serve a...serve a...a summons, it's made of record, I'm sure.

PRESIDENT:

Senator Nedza.

SENATOR NEDZA:

No further questions.

PRESIDENT:

All right. Any further discussion? Further discussion? If not, Senator O'Daniel, you wish to close?

SENATOR O'DANIEL:

No, I'd just ask for a favorable roll call.

PRESIDENT:

The question is, shall Senate Bill 281 pass. Those in favor will vote Aye. Those opposed will vote Nay. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Take the record. On that question, there are 46 Ayes, 5 Nays, none voting Present. Senate Bill 281 having received the required constitutional majority is declared passed. 286, Senator Barkhausen. The Order of Senate Bills 3rd Reading, Senate Bill 286. Read the bill, Mr. Secretary, please.

SECRETARY:

Senate Bill 286.

(Secretary reads title of bill)

3rd reading of the bill.

PRESIDENT:

Senator Barkhausen.

SENATOR BARKHAUSEN:

Mr. President and members of the Senate, Senate Bill 286 is simple in concept. It would simply require that any memorandum of judgment recorded with the recorder of deeds or in Cook County with the registrar of land titles specify the judgment debtor's last known mailing address. This bill was requested by a particular title company but is supported generally by title companies and by recorders and, I imagine, by the registrar of land titles in the Torrens Office in Cook County. Right now when a employee of a title company is trying to determine the identity of a judgment debtor, it may in some cases be difficult because the address is not specified and it would simply add the requirement that the address if available be added to the...included in the memorandum of judgment.

PRESIDENT:

Any discussion? Senator Welch.

SENATOR WELCH:

Yes. Would the sponsor yield for a question?

PRESIDENT:

Sponsor indicates he'll yield, Senator Welch.

SENATOR WELCH:

Senator Barkhausen, you indicated this only applies to Cook County?

PRESIDENT:

Senator Barkhausen.

SENATOR BARKHAUSEN:

No. It apply...it would apply throughout the State. I tried to indicate because the question arose both in committee and to some extent on 2nd reading that it would also apply to...to memorandum of judgments...registered with the Torrens Office as well as those that are registered with recorders.

PRESIDENT:

Senator Welch.

SENATOR WELCH:

Senator, a memorandum of judgment is a very specific document. If you have the wrong address on the memorandum of judgment, that may affect the total validity of the judgment. Now, I'm sure it would be nice for the title companies to have an address on there, but I'm not so sure it is good for the people obtaining judgments. Is it your intention that if the last known address is either incorrectly entered or the wrong address is entered that the memorandum of judgment is then ineffective?

PRESIDENT:

Senator Barkhausen.

SENATOR BARKHAUSEN:

That's not...specified in the bill. What is specified is the last known address would have to be provided, or if the person against whom the judgment was entered if the address is not known, then the memorandum...a copy of the judgment would have to specifically state that the address is not known.

PRESIDENT:

Senator Welch.

SENATOR WELCH:

Senator, what would happen if the address which should be listed in the summons...when you serve the debtor with a summons, you have to have an address for the sheriff to serve him. What happens if the court record indicates there is an address in the court file but your memorandum of judgment which is not filed with the court does not indicate that address? According...it would seem to me that there is a case to be made that your memorandum of judgment is ineffective and if your memorandum is ineffective, your judgment does not apply as a lien against the real estate. Now, is that your intention to make that...the change in the law?

PRESIDENT:

Senator Barkhausen.

SENATOR BARKHAUSEN:

Senator Welch, I think you're trying to read a little bit more into this proposed legislation than...than what is attempted. This simply amends the section of the Code of Civil Procedure dealing with lien of judgments, and...you know, if in fact there is a correct address, certainly it would be within anyone's power to...to make that fact known. This is simply an attempt to...to simplify for all concern judgment debtors and creditors and whoever else may be affected by judgment to make it...to make it easier to identify who...who is in fact liable on these judgments.

PRESIDENT:

Senator Welch.

SENATOR WELCH:

Senator, I...I understand your intent, but I'm a member of the Attorney Title Guarantee Fund, I write title policies for this. And what you're asking here is that when we write a title policy that we write on the memorandum whether the address is correct...if you have a similar name but a different address, then you're going to raise the question as to whether that should be included as an exception to the clear title on that property. By...what you're doing here in an attempt to clarify the law, I think is...is muddying up the water. You're going to make it so that there are going to be more exceptions to title policies. You're going to...it's going to result in more litigation under the guise of trying to help out a couple of title companies which I don't think is really necessary. If there is confusion as to the address of a judgment debtor, it's very simple...when the title policy comes through and you're trying to clear up the title to the land, the attorney for the...for the judgment plaintiff is listed on the memorandum of judgment. It's very

simple to call that attorney to find out who the judgment debtor is and to get a release. What this is doing, this is...you know, this is trying to make it easier for the title companies, but it's going to make it more difficult for people, for corporations or anybody else who is a plaintiff in this State to collect on judgments, as well as it's going to muddy up the recorders office and going to make it more complicated than it already is. I don't think this is a good idea. I think that the existing law is sufficient. If you have the address, you can put the address on a memorandum of judgment now, if you want to; you don't have to. So...I...I think this is an addition that really isn't necessary.

PRESIDENT:

Further discussion? Senator Geo-Karis.

SENATOR GEO-KARIS:

Well, Mr. President and Ladies and Gentlemen of the Senate, I've had the experience as I do a lot of real estate law work that where there's a John H. Smith, for example, in a memorandum of judgment and there's no address for him, and John H. Smith may be an innocent person in that real estate transaction because there's some other John H. Smith who is a...a debtor, and I think what Senator Barkhausen is trying to do with this bill is to clear it up a little bit. I submit that if there is an address placed on a memorandum of judgment, it will be better for the title company and...and...and it will avoid unnecessary objections for the most part; and the fact that you could always...talk to the lawyer, well, people can file these memorandum of judgments without a lawyer. So who do you talk to then?

PRESIDENT:

Any further discussion? Further discussion? Senator Berman.

SENATOR BERMAN:

Thank you, Mr. President. I think in line with what

Senator Geo-Karis has just said, what in...to protect judgment creditors, I would again ask the sponsor to state on the record that...that an inadequate...inaccurate address does not jeopardize the validity of the judgment. Isn't...is that your intent? Otherwise, what you're going to do is make the...make the address more important than the judgment. I don't think you want to do that. So, would you state for the record what...if there is an inaccurate address, does it jeopardize the validity of the judgment?

PRESIDENT:

Senator Barkhausen.

SENATOR BARKHAUSEN:

It...no, it doesn't, Senator Berman.

SENATOR BERMAN:

Thank you.

PRESIDENT:

All right. Any further discussion? Further discussion? Senator Barkhausen, you wish to close?

SENATOR BARKHAUSEN:

Just to...like to add, Mr. President and members, in...just to add to the point made by Senator Geo-Karis, that this legislation is...not solely for the benefit of title companies, it's meant to protect the innocent persons or those who are not liable; for example, that...the John H. Smith who is not in fact the judgment debtor by...by specifying what is thought to be the correct address for the John H. Smith who is in fact the judgment debtor. So, it will help all of those, I believe, currently involved in the...in the process of checking title to land or recording memorandum of judgments whether they be creditors or debtors or whether they be innocent third persons, and I would ask for your support of this bill.

PRESIDENT:

Question is, shall Senate Bill 286 pass. Those in favor

will vote Aye. Those opposed will vote Nay. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Take the record. On that question, there are 54 Ayes, 1 Nay, none voting Present. Senate Bill 286 having received the required constitutional majority is declared passed. 296, Senator Mahar. 314. 338, Senator Holmberg. On the Order of Senate Bills 3rd Reading, Senate Bill 338. Read the bill, Mr. Secretary.

SECRETARY:

Senate Bill 338.

(Secretary reads title of bill)

3rd reading of the bill.

PRESIDENT:

Senator Holmberg.

SENATOR HOLMBERG:

Thank you, Mr. President. As you remember, last Session we passed a free senior citizen tuition bill which has proven to be very, very popular. A total of twenty-eight thousand eight hundred and forty-eight senior citizens in Illinois took advantage of this law last year. One of the things we did in that bill was allow a great deal of flexibility for guidelines for the community colleges and senior colleges, and they have come back to us and asked us to present them with a uniform set of guidelines that they have approved. And so what this bill basically does is cleanup that particular law, make it easier for the public institutions of higher education to administer and to make the program uniform for all public institutions of higher education, and I would ask for a favorable roll call.

PRESIDENT:

Is there any discussion? Any discussion? Senator Kustra.

SENATOR KUSTRA:

Thank you, Mr. President. Question of the sponsor.

PRESIDENT:

Sponsor indicates she'll yield, Senator Kustra.

SENATOR KUSTRA:

Senator Holmberg, I...I'm just curious, I'm reading the language of the bill. You're applying it to credit courses and exempting courses designed specifically...could you clarify exactly what language you're adding and what impact that's going to have on the administration of this program?

PRESIDENT:

Senator Holmberg.

SENATOR HOLMBERG:

Currently, under the Act, which was not our intentions, senior citizens are permitted to matriculate in a course for either credit or non-credit and receive free tuition. What we wanted to do and what this legislation does is require that the individual take the course for credit in order to qualify for the free tuition, because the way the bill was written is...the students taking the course by the tuition they pay actually pay the instructor and then the empty spaces in the classroom can be filled by senior citizens. By changing the language, we're doing what the bill first intended, which is to allow them to fit in the empty spaces and...in...in those credit courses in both the junior colleges and the senior colleges.

PRESIDENT:

Further discussion? Senator Maitland.

SENATOR MAITLAND:

Thank you, Mr. President. Just, then, for further clarity, is this only where space is available then?

PRESIDENT:

Senator Holmberg.

SENATOR HOLMBERG:

That's...that's it...the number of people taking the course must have paid for the course so that the college will

not lose money; in other words, there's enough money to pay that instructor, then the empty spaces may be filled by senior citizens.

PRESIDENT:

Senator Maitland.

SENATOR MAITLAND:

Well, okay. So the senior citizen is not competing with a college-bound student for the enrollment?

PRESIDENT:

Senator Holmberg.

SENATOR HOLMBERG:

No, he is not.

PRESIDENT:

Further discussion? Senator Hudson.

SENATOR HUDSON:

Would the sponsor yield?

PRESIDENT:

Sponsor indicates she'll yield, yes.

SENATOR HUDSON:

Senator Holmberg, I remember vaguely the discussion, or maybe more than vaguely, in committee on this bill, but I have forgotten one point; and that is that if we have a number of senior citizens, let's say we have ten vacancies and there are thirty senior citizens that would like to avail themselves of this opportunity, how are they selected?

PRESIDENT:

Senator Holmberg.

SENATOR HOLMBERG:

Just according to who first applied for the course until the spaces are filled up.

PRESIDENT:

Senator Hudson.

SENATOR HUDSON:

In other words, first come, first served, and it is your

contention that there is not one extra dollar then added to the cost of the institution providing the education. Is that correct?

PRESIDENT:

...Senator Holmberg.

SENATOR HOLMBERG:

That was our intent.

PRESIDENT:

Further discussion? Further discussion? Senator Watson.

SENATOR WATSON:

Thank you, Mr. President. I'd like to ask the sponsor a question.

PRESIDENT:

Sponsor indicates she'll yield.

SENATOR WATSON:

Are there any restrictions on senior citizens or does everybody qualify or how do they determine who's going to be eligible?

PRESIDENT:

Senator Holmberg.

SENATOR HOLMBERG:

It's...those who are eligible for circuit breaker, this is the way the bill passed before, and are sixty-five years of age.

PRESIDENT:

Senator Watson.

SENATOR WATSON:

Those only.

PRESIDENT:

Senator Holmberg.

SENATOR HOLMBERG:

That's right.

PRESIDENT:

Further discussion? Any further discussion? Senator

HB 485
3rd Reading

Holmberg, you wish to close?

SENATOR HOLMBERG:

I just ask for a favorable roll call.

PRESIDENT:

The question is, shall Senate Bill 338 pass. Those in favor will vote Aye. Those opposed will vote Nay. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Take the record. On that question, there are 51 Ayes, no Nays, none voting Present. Senate Bill 338 having received the required constitutional majority is declared passed. 344, Senator Netsch. On the Order of House Bills 3rd Reading, House Bill 485, Senator Demuzio. Bottom of page 8, with leave of the Body, we'll move right down the Calendar. House bills 3rd reading, House Bill 485. Read the bill, Mr. Secretary.

SECRETARY:

House Bill 485.

(Secretary reads title of bill)

3rd reading of the bill.

PRESIDENT:

Senator Demuzio.

SENATOR DEMUZIO:

Thank you, Mr. President. This House Bill 485 has been around here a while. It creates the Emergency Farm Credit Allocation Act. We amended it with four specific provisions at the request of the Governor just the past week. One provision was to assure that the operating money would be utilized only for planting for this year and that pre-existing debt would not qualify in the note. It also provided that we strengthen the...the interest provision to assure that the interest rates would remain either at prevailing wages...prevailing interest rates of the day or not to exceed thirteen percent. We also made a provision in the proposal to assure that the...if you haven't got your loan by

June the 15th and the proposal is not going to consummated and no loans will be made after that date, and that it is not a perpetual program and that it would, in effect, end in a twelve-month period. With those specific provisions the Governor has indicated his support, and I would ask for favorable support of the Senate.

PRESIDENT:

Any discussion? Is there any discussion? If not, the question is, shall House Bill 485 pass. Those in favor will vote Aye. Those opposed will vote Nay. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Take the record. On that question, there are 55 Ayes, 1 Nay, none voting Present. House Bill 485 having received the required constitutional majority is declared passed. All right. The hour of two has arrived, we have a pretty heavy committee schedule. Is there further business to come before the Senate, Mr. Secretary? All right. We'll do...we'll do the paper work; in the meantime, we will then entertain a motion to adjourn until noon tomorrow right after the paper work. Senator Philip.

SENATOR PHILIP:

Thank you, Mr. President and Ladies and Gentlemen of the Senate. I'd like the record to indicate that Senator Macdonald is here...she has sickness in her personal family.

PRESIDENT:

All right. The record will so reflect, Senator Philip. Senator Smith.

SENATOR SMITH:

...Mr. President, I'd like leave to request that Senator Geo-Karis, please forgive me, will be hyphenated sponsor to House...Senate Bill 152, please.

PRESIDENT:

152, the lady requests leave to show Senator Geo-Karis as the hyphenated cosponsor. Is leave granted? Senator Jones,

for what purpose do you arise?

SENATOR JONES:

Yes, thank you, Mr. President. Leave to waive the posting requirement for Senate Bill 53 so it can be heard in committee today.

PRESIDENT:

All right. The gentleman seeks leave to waive the posting requirement for Senate Bill 53. Is leave granted? Without objection, leave is granted. Senator Carroll.

SENATOR CARROLL:

Point of an announcement, Mr. President and Ladies and Gentlemen of the Senate. Appropriations I will be meeting immediately following adjournment in Room 212. I assume the movie that you sent out the announcement for went ahead at one-thirty.

PRESIDENT:

I...I don't know that. I suggested to them that we would not have left by...it probably did...

SENATOR CARROLL:

All right. Or immediately after the movie, whichever comes first.

PRESIDENT:

Right. Senator Savickas.

SENATOR SAVICKAS:

Yes, Mr. President, the Legislature has declared today as the Illinois Association of Rehabilitation Facilities Day and they are hosting the Tenth Annual Legislative Reception at the Illini Country Club tonight from six to nine. They've provided limousine service every fifteen minutes from the north drive both to and from the Country Club so those that wish to participate may do so very easily.

PRESIDENT:

All right. Senator Nedza. Senator O'Daniel.

SENATOR O'DANIEL:

Mr. President, I'd like leave to be added as a hyphenated sponsor of House Joint Resolution No. 4 and also Senate Bill 383 and Senate Bill 363.

PRESIDENT:

383, 363 and Senate...and House Joint Resolution 4, gentleman seeks leave to be added as a cosponsor. Is leave granted? Leave is granted. Senator Lechowicz, at Senator Nedza's desk.

SENATOR LECHOWICZ:

Thank you, Mr. President. Purpose of announcement. The Executive Appointments Committee will meet tomorrow morning at ten o'clock in Room 212. Thank you.

PRESIDENT:

Senator Marovitz.

SENATOR MAROVITZ:

Two purposes; one for announcement, the Committee on Judiciary II will meet tomorrow morning at ten o'clock in Room A-1 in the Office Building; and also, having checked with the sponsor, I would ask leave to be added as a hyphenated sponsor to Senate Bill 248.

PRESIDENT:

The gentleman seeks leave to be added as a cosponsor of Senate Bill 248. Without objection, leave is granted. Senator Topinka.

SENATOR TOPINKA:

Mr. President, may I have leave to Table Senate Joint Resolution 34 and to be added as a cosponsor to Senate Bill 92 and Senate Bill 316.

PRESIDENT:

Where...where is Senate Joint Resolution 34?

SENATOR TOPINKA:

It's in the Executive Committee and I did speak to Senator Sangmeister's Office regarding that and this was his suggestion.

PRESIDENT:

All right. Senator Topinka has moved to discharge the Committee on Executive from further consideration of Senate Joint Resolution 34 for the purpose of Tabling. All in favor of the motion to discharge indicate by saying Aye. All opposed. The Ayes have it. The motion carries. Senate Joint Resolution 34 is now before us and Senator Topinka moves that that resolution be Tabled. All in favor of the motion to Table indicate by saying Aye. All opposed. The Ayes have it. The motion carries and it's so ordered. She also seeks leave of the Body to be shown as a cosponsor of Senate Bill 92 and Senate Bill 316. Without objection, leave is granted. Senator Fawell.

SENATOR FAWELL:

Thank you, very much. I would like to add as a hyphenated...cosponsor Senator Hudson to Senate Bill 7.

PRESIDENT:

Senate Bill 7. The lady seeks leave to add...show Senator Hudson as a hyphenated cosponsor of Senate Bill 7. Without objection, leave is granted. Senator Coffey.

SENATOR COFFEY:

Thank you, Mr. President. I'd like to be added as a hyphenated sponsor on 485.

PRESIDENT:

...485.

SENATOR COFFEY:

House Bill 485.

PRESIDENT:

House Bill 485. The gentleman seeks leave to be shown as a cosponsor on House Bill 485. That request is order. Leave is granted. So ordered. Senator Berman.

SENATOR BERMAN:

Thank you, Mr. President. I'd ask for leave to be added as a hyphenated cosponsor on Senate Bill 588, and I wish to

announce that the Committee on Elementary and Secondary Education will meet tomorrow morning in Room 400 at 9:00 a.m...9:00 a.m.

PRESIDENT:

All right. Senator Berman seeks leave to be shown as a cosponsor to Senate Bill 588. Without objection, leave is granted. Senator Barkhausen.

SENATOR BARKHAUSEN:

Mr. President, would ask leave to be added as a hyphenated cosponsor on Senate Bill 412 with the concurrence of the sponsor, Senator Rigney.

PRESIDENT:

The gentleman seeks leave to be shown as a hyphenated cosponsor of Senate Bill 412. Without objection, leave is granted. All right. Mr. Secretary. Committee reports.

SECRETARY:

Senator Savickas, chairman of the Committee on Assignment of Bills, assigns the following bills to committee. Now, I'll read this in three separate reports.

These were worn by the participants this morning at eleven o'clock at the Old State Capitol at a memorial service attended by the Governor of this State who spoke eloquently and by other participants including a number of our colleagues from the Illinois Senate that joined us. The atrocities cannot be adequately enumerated, they can never be remembered adequately. We try on this day in this week to recall a terrible chapter of our history of man's inhumanity to man, and it is not only for the Jews that died but for all persons that perished in the Nazi Holocaust and even more so for the indifference shown by all peoples in the world to that terrible tragedy. Accordingly, Mr. President, I would move for the immediate adoption of Senate Resolution 148 and I appreciate your courtesies.

SENATOR VADALABENE:

Yes, Mr. President and members of the Senate, Senate Bill 327, I would like to rerefer back...or have leave to rerefer that back to the Committee on Executive.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Darrow.

SECRETARY:

SENATOR DARROW:

Thank you, Mr. President. Senate Amendment No. 1 merely exempts Chicago from the effect of this legislation.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Senator Darrow moves the adoption of Amendment No. 1 to Senate Bill 394. Is there any discussion? Senator Etheredge. Senator Etheredge. Senator Etheredge.

SENATOR ETHEREDGE:

Question of the sponsor...

PRESIDING OFFICER: (SENATOR DEMUZIO)

Indicates he will...

SENATOR ETHEREDGE:

...Mr. President.

PRESIDING OFFICER: (SENATOR DEMUZIO)

...indicates he will yield. Senator Etheredge.

SENATOR ETHEREDGE:

Senator Darrow, I just want to make sure that I understand the impact of...of this amendment. This...the bill itself eliminates a tax on a tax. If I understand the thrust of your amendment correctly, what this means is that the...the citizens of Chicago would have to continue to pay this tax on tax, is that correct?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Darrow.

SENATOR DARROW:

That's up to the citizens of Chicago and my...indications from their representatives down here is that they would appreciate it if we would not have this legislation apply to them. I'm concerned about my district and so...if that's their feeling up there, I'm willing to exempt them.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Further discussion? Senator Marovitz.

SENATOR MAROVITZ:

Just to...just to clarify...seems to be kind of a weird situation here. You mean to say that if we don't exempt

Chicago, then if the bill passes we can remove the tax on tax in Chicago? And the City of Chicago wants to exempt themselves?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator...Senator Darrow.

SENATOR DARROW:

No, you have it backwards. With the adoption of the amendment, we exempt Chicago out so there will be no revenue loss to the City.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Further discussion? Senator...Senator Dudycz.

SENATOR DUDYCZ:

I have a question for the...sponsor.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Indicates he will yield. Senator Dudycz.

SENATOR DUDYCZ:

Senator, which representatives from Chicago indicated that they wish to be excluded?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Darrow.

SENATOR DARROW:

Well,...Senator Dawson seemed to indicate so by sponsoring this amendment with me.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Senator Dudycz.

SENATOR DUDYCZ:

Senator Dawson is representing the entire City of Chicago?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator...Senator Darrow.

SENATOR DARROW:

No, but on occasion I think his ward committeeman does.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Further discussion? All right. On that, Senator Darrow

moves the adoption of Amendment No. 1 to Senate Bill 394. Those in favor will signify by saying Aye. Opposed Nay. The Ayes have it. Amendment No.1 is adopted. Any further amendments?

SECRETARY:

Amendment No. 2, by Senator Darrow.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Darrow on Amendment No. 2. Can we break up the caucus in front of Senator Darrow.

SENATOR DARROW:

Amendment No. 2 came up in committee, Senator Rigney was concerned about this and so this is the amendment to answer his concern. It...it exempts the bill from the State Mandates Act.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Senator Darrow has moved the adoption of Amendment No. 2 to Senate Bill 394. Is there any discussion? Senator DeAngelis.

SENATOR DeANGELIS:

Well,...I do not believe that if you check the State Mandate's Act...I don't believe under the State's Mandate's Act that you can exempt by reference.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Well, Senator DeAngelis, is that a question, a statement, or...

SENATOR DeANGELIS:

Well, just...just to clarify what Senator Darrow said, I don't think that takes care of Senator Rigney's problem because you cannot exempt by reference. You can exempt by consent but you can't exempt by reference.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Further discussion? Further discussion? Senator Darrow may close.

SENATOR DARROW:

Well, there's a question whether...first of all, whether the State Mandate's Act applies or not. In order to make sure that it does not, we've used this method. It's the same method we've used over the years. The staffs have drafted this amendment and it would appear appropriate. I'd ask for a favorable vote.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Senator Darrow moves the adoption of Amendment No. 2 to Senate Bill 394. Those in favor will signify by saying Aye. Opposed Nay. The Ayes have it. Amendment No. 2 is adopted. Any further amendments? Any further amendments? Any further amendments?

SECRETARY:

No further amendments.

PRESIDING OFFICER: (SENATOR DEMUZIO)

3rd reading. Senate Bill 419. Is Senator Savickas on the Floor? Seth Pearlman of the AP has requested leave to take still photos. Is leave granted? Leave is granted. tributed to the membership, and with leave of the Body, we will add House Joint Resolution 33, Senate Resolution 146, Senate Resolution 147 and Senate Resolution 149. Is leave granted to add those to the Resolutions Consent Calendar? Leave is granted. It's so ordered. Mr. Secretary, have there been any objections filed to...to the...to the Resolutions Consent Calendar?

SECRETARY:

No objections have been filed, Mr. President.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Senator Rock has moved the adoptions of the Resolutions Consent Calendar. Those in favor signify by saying Aye. Opposed Nay. The Ayes have it. Resolutions Consent Calendar is adopted. Senator Davidson, for what purpose do you arise?

SENATOR DAVIDSON:

To ask leave of the Senate on House Bill 72 to show the sponsorship...excuse me...Poshard...Poshard-Davidson.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Senator Davidson wishes to have Senator...the Senate...House Bill 72 to read Poshard-Davidson. With leave of the Body...is leave granted? Leave is granted. So ordered.

SENATOR WELCH:

Thank you, Mr. President. I would like to ask leave to be removed as a cosponsor of Senate Bill 262.

PRESIDENT:

The gentleman seeks leave to be removed as a cosponsor of Senate Bill 262. Without objection, leave is granted. Senator O'Daniel, for what purpose do you arise?

The gentleman seeks leave to have his name removed from 262. Is leave granted? Leave is granted. Senator Poshard, for what purpose do you arise?

SENATOR POSHARD:

Mr. Chairman, I ask leave to have my name removed from Senate Bill 262.

PRESIDENT:

The gentleman seeks leave to have his name removed from Senate Bill 262. Without objection, leave is granted. Senator Darrow, for what purpose do you arise?

SENATOR DARROW:

A similar request.

PRESIDENT:

Senator Darrow seeks leave to have his name removed from Senate Bill 262. Is leave granted? Leave is granted. Senator Joyce. The sink is ship...sinking here, yes. Senator Joyce seeks leave to remove his name from Senate Bill 262. Is leave granted? Leave is granted. Senator Coffey, for what purpose do you arise, sir?

SENATOR COFFEY:

Thank you, Mr. President, for the same reason on...262.

PRESIDENT:

All right. Senator Coffey seeks leave to have his name removed as a cosponsor of 262. Without objection, leave is granted. Senator Donahue, similar request. Leave is granted. Senator Chew asks to remain as a cosponsor. Senator Luft seeks leave to have his name removed as a cosponsor. Is leave granted? Leave is granted. Senator Fawell.

SENATOR FAWELL:

Thank you, very much, Mr. Chairman. In my case, two brilliant minds came up with but one thought. Senator Jeremiah Joyce and I both put in the same bill, Senate Bill

8. So, I would like to place him as a hyphenated cosponsor on Senate Bill 8. And I think he's planing on removing his, so that we end up with one bill that we're talking about.

PRESIDENT:

All right. The lady seeks leave to have Senator Jeremiah Joyce shown as a cosponsor of Senate Bill 8. Is leave granted? Leave is granted. Senator Poshard.

SENATOR POSHARD:

Mr. Chairman, I'd like to have my name removed as cosponsor of Senate Bill 1-4-5-7, 1457.

PRESIDENT:

All right. Gentleman seeks leave to have his name...himself removed as cosponsor of Senate Bill 1457. Without objection, leave is granted. Senator Carroll, for what purpose do you arise?

SENATOR CARROLL:

Two, Mr. President. First of all, with leave of the Body, I would like to be added as the principal cosponsor of Senate Bill 326. I...I assume I'm on 262 already, but 326. And also, if I may, have two bills...rereferred. They have been assigned to Appropriations II and should have been assigned to Appropriations I. I would therefore ask, Mr. President, that Senate Bill 863 and Senate Bill 1410 be taken from the Committee on Appropriations II and reassigned to the Committee on Appropriations I.

PRESIDENT:

All right. The gentleman seeks...has moved to discharge the Committee on Appropriations II from further consideration of Senate Bills 863 and 1410 for the purpose of rereferral to the Committee on Appropriations I. All in favor of the motion to discharge indicate by saying Aye. All opposed. The Ayes have it. The motion carries. It's so ordered. The gentleman is also seeking leave to be added as a cosponsor of Senate Bill 326. Without objection, leave is granted. Mes-

sages from the House.

SECRETARY:

A Message from the House by Mr. O'Brien, Clerk.

Mr. President - I am directed to inform the Senate the House of Representatives concurred with the Senate in the passage of a bill with the following title:

Senate Bill 262 together with House Amendment No. 3.

PRESIDENT:

All right. In order to expedite the schedule, I know everybody is in a hurry, with leave of the Body, we'll move to the Senate Calendar, Supplemental Calendar No. 1, Senate Bill 262 on the Order of Secretary's Desk Concurrence. On the Order of Secretary's Desk Concurrence on Senate Calendar Supplemental No. 1 is Senate Bill 262. Mr. Secretary.

SECRETARY:

With House Amendment...Senate Bill 262 with House Amendment No. 3.

PRESIDENT:

Senator Demuzio.

SENATOR DEMUZIO:

Thank you, Mr. President. On Senate Bill 262, the Amendment No. 3 that was added by the House, I doubt very seriously if there's anybody in this Chamber that is not aware of the provisions that are in this supplemental request. We sent a twenty-five million dollar appropriation bill for the emergency farm relief to the...to the House and...and it is back. It has some of the controversial...perhaps the most controversial, I guess, provision is the money for the pay raises of approximately seventy-seven million dollars. It has seventy-five million dollars of revenue, lottery prizes; fifty-five million dollars worth of income tax refunds, debt service on the Coal Bond Development Act, Inheritance Tax distribution of eight hundred and seventy-five thousand, reapportionment fees...in-home services operations,

Southworks study, debt service on the civic centers in Rockford and Danville, the Federal Solar Bank, energy conservation, the Fermi Lab study, the general and refugee assistance, which I am told is a...or at least it's shown as a transfer. It would seem to me that this has been debated on numerous occasions, everyone knows what's in it. I would move for the concurrence of Amendment No. 3 to Senate Bill 262.

PRESIDENT:

The gentleman has moved that the Senate concur in House Amendment No. 3...Mr. Secretary, is that the amendment number?

SECRETARY:

Number 3, yes.

PRESIDENT:

All right. House Amendment No. 3 to Senate Bill 262. Is there any discussion? If not, the question is, shall the Senate concur in House Amendment No. 3 to Senate Bill 262. Those in favor will vote Aye. Those opposed will vote Nay. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Have all voted who wish? Take the record. On that question, the Ayes are 28, the Nays are 25, none voting Present. Senator Demuzio.

SENATOR DEMUZIO:

Perhaps we might have a postponed consideration.

PRESIDENT:

All right. The gentleman seeks leave to have further consideration postponed. Resolutions, Mr. Secretary.

SECRETARY:

(Machine cutoff)...Joint Resolution 44.

(Secretary reads SJR 44)

PRESIDENT:

Senator Demuzio, the adjournment resolution.

SENATOR DEMUZIO:

Yes, Mr. President. I...would move for the...adoption of the Senate Joint Resolution 44 which is, in fact, the resolution that calls for us to return to Springfield...

PRESIDENT:

Tuesday at noon.

SENATOR DEMUZIO:

...Tuesday at noon. Would...move the adoption.

PRESIDENT:

All right. Senator Demuzio has moved to suspend the rules for the immediate consideration and adoption of Senate Joint Resolution 44. All in favor of the motion to suspend indicate by saying Aye. All opposed. The Ayes have it. The rules are suspended. Senator Demuzio now moves the adoption of Senate Joint Resolution 44. All in favor indicate by saying Aye. All opposed. The Ayes have it. The resolution is adopted.

PRESIDING OFFICER: (SENATOR SAVICKAS)

For what purpose does Senator Geo-Karis seek recognition?

SENATOR GEO-KARIS:

Yes, I do...Mr. President, Ladies and Gentlemen of the Senate, I would like to add as an immediate cosponsor to Senate Bill 617, Senator Emil Jones.

PRESIDING OFFICER: (SENATOR SAVICKAS)

You've heard the motion. Is leave granted? Leave is granted. Senator Geo-Karis.

SENATOR GEO-KARIS:

And I would like to be added as an immediate cosponsor to Senate Bill 372 of Senator Lemke's and with his okay.

PRESIDING OFFICER: (SENATOR SAVICKAS)

You've heard the second motion by Senator Geo-Karis. Is leave granted? Leave is granted. For what purpose does Senator Demuzio arise?

SENATOR DEMUZIO:

Yes, Mr. President, I would...with leave of the Body, I

would request that we go to the Order of Consideration Postponed, House Concurrence for the purpose of reconsidering...Senate Bill 262.

PRESIDING OFFICER: (SENATOR SAVICKAS)

You've heard the motion by Senator Demuzio. Is leave granted? Leave is granted. Mr. Secretary, on the Order of Bills Consideration Postponed...read House Bill...Senate Bill 262...concurrence. Senator Demuzio.

SENATOR DEMUZIO:

Yes, Mr. President, apparently there was some confusion during the last debate relevant to what was in this proposal. I would, in fact, request that the Senate concur with House Amendment No. 3 to Senate Bill 262. It seems to me that we need to do this today, it is immediate. Most of these items that are in this appropriation are going to pass anyway, sometime during this Session. And I would ask that we now give thirty affirmative votes to the concurrence of Senate Bill 262.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Is there further discussion? Senator Rock.

SENATOR ROCK:

Thank you, Mr. President, Ladies and Gentlemen of the Senate. I rise in support of House Amendment No. 3 to Senate Bill 262. This bill was just obviously within the hour reported to us having received sixty-two affirmative votes in the House. And for those who are playing some games, let me just point out that we have had a great deal of debate on the Floor of this Senate with respect to the plight of the farmers. And there is twenty-five million dollars that the Governor is waiting for to...to sign into law today to alleviate that problem. In addition, there are fifty-five million dollars in income tax refunds, and I dare to say that there is not a single member of this Chamber or the other who has not in their district office heard from people who are

awaiting their income tax refunds. Well, it's right here and it can be signed into law today. And the fact of the matter is, we have been subject to unfortunately some sheer demagoguery with respect to the seven hundred thousand dollars that's necessary to fulfill the will of this Body with respect to the compensation of State officials. The fact of the matter is that is the law and we ought to be responsible enough to fund our action. It's not going to go away and we ought to do it and we ought to own up to our responsibility. We approved by the will of this Body, increased compensation long overdue for Cabinet officials, yes, for legislators, some of you enjoy, some of us do not, because we are in midterm; but the fact is that that's a decision that has already been made, and now as we are required by our oath of office to do we are fulfilling our statutory and constitutional responsibility by funding the programs that we have approved. I urge an Aye vote on the motion to concur.

PRESIDING OFFICER: (SENATOR SAVICKAS)

The question is, shall the Senate concur in House Amendment No. 3 to Senate Bill 262. Those in favor will vote Aye. Those opposed vote Nay. The voting is open. Have all voted who wish? Have all voted who wish? All voted who wish? Have all voted who wish? Take the record. Senator Luft.

SENATOR LUFT:

Mr. President, having voted on the prevailing side, I'd like to move to reconsider the vote by which Senate Bill 262 failed.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator, as soon as I announce the vote, you can make that motion. On that question, the Ayes are 27, the Nays are 25, none voting Present...the Ayes are 29, the Nays are 25, none voting Present. Senator Luft.

SENATOR LUFT:

Thank you, Mr. President. I'd like...having voted on the prevailing side, I move to reconsider the vote by which Senate Bill 262 failed.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Luft moves to reconsider the vote by which the Senate failed to concur in House Amendment No. 3 to Senate Bill 262. Those in favor indicate by saying Aye. Those opposed. The Ayes have it. Mr. Secretary.

SECRETARY:

Senate Bill 262 with House Amendment No. 3.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Demuzio.

SENATOR DEMUZIO:

Thank you, Mr. President. Apparently there was still some confusion relevant to the last explanation and therefore I would...I think the confusion has now been cleared up, and I would ask for the Senate's concurrence of House Amendment 3 to Senate Bill 262.

PRESIDING OFFICER: (SENATOR SAVICKAS)

The question is, shall the Senate concur in House Amendment No. 3 to Senate Bill 262. Those in favor will vote Aye. Those opposed vote...Senator Joyce.

SENATOR JEREMIAH JOYCE:

I would just like to explain my vote...and I don't think I've...I've done that in all the time I've been here. I'm going to vote Yes on this bill because I think that's the right vote, but I was very disappointed in the members of the House who stood in this Chamber waiting to reap the benefits of legislation that I thought was proper the last time and then ran and scurried across to the other side and cast a vote to, I assume, insulate themselves from their constituencies. So I am voting Yes on this bill, but I would like that message to be in the record.

PRESIDING OFFICER: (SENATOR SAVICKAS)

The question is, shall the Senate concur in House Amendment No. 3 to Senate Bill 262. Those in favor will vote Aye. Those opposed vote Nay. The voting is open. Have all voted who wish? Take the record. On...on that question, the Ayes are 30, the Nays are 25, none voting Present. The Senate does concur in House Amendment No. 3 to Senate Bill 262 and the bill having received the required constitutional majority is declared passed. Senator Rock.

SENATOR ROCK:

I would move that the Senate stand adjourned until next Tuesday at the hour of noon.

PRESIDING OFFICER: (SENATOR SAVICKAS)

The Senate does stand adjourned until Tuesday...at the hour of noon.

PRESIDENT:

All right. The lady seeks leave of the Body to discharge the Committee on Agriculture from further consideration of Senate Bill 255 for the purpose of Tabling, Appropriations from 256 for the purpose of Tabling and Transportation from 69, is that correct? For the purpose of Tabling. All in

favor of the motion to discharge indicate by saying Aye. All opposed. The Ayes have it. The motion carries. Senator Topinka now moves to Table Senate Bills 255, 256 and Senate Bill 69. All in favor of the motion to Table indicate by saying Aye. All opposed. The Ayes have it. The motion carries and it's so ordered. Senator Schuneman, for what purpose do you arise?

SENATOR SCHUNEMAN:

For the purpose of asking leave to be added as hyphenated cosponsor to Senate Bills 1353 and 1354.

PRESIDENT:

I'm sorry, Senator, I missed those.

SENATOR SCHUNEMAN:

Senate Resolution 158, by Senators Marovitz, Newhouse and Fawell, and it's congratulatory.

PRESIDENT:

Consent Calendar. Senator Netsch, for what purpose do you arise?

SENATOR NETSCH:

Thank you, Mr. President. I would like to request leave of the Senate to have the amendment to Senate Bill 1021 printed although the bill has not yet been set for hearing in committee and I should just briefly explain. This is...Senate Bill 1021 is the bill that will carry the amendment of the Joint Utility Committee dealing with the Commerce Commission changes and the Energy Commission changes. It is an extraordinarily long amendment. No one will have an opportunity, really, to look at it ahead of time unless we find the device for getting it printed; and at the President's suggestion, this is probably the most expeditious way to do it. So, I would request leave to authorize the Senate...the Secretary of the Senate to print the amendment, which I will furnish a copy of, to Senate Bill 1021.

PRESIDENT:

All right. The...the lady seeks leave to have the amendment to Senate Bill 1021 which will be the utility rewrite given to the Secretary for the purpose of immediately printing and distributing to all members in advance of the committee meeting. Without objection...it seems reasonable. Is leave granted? Leave is granted. Senator Bloom, for what purpose do you arise?

SENATOR BLOOM:

For a...for a parallel purpose of...Mr. President. The

other part of the joint committee recommendations involves telecommunications, and Senator Netsch and I discussed this and she conveyed to me the suggestion that these...that the amendments be printed up, and I would seek leave to have the amendment to 994, which has been rereferred to the proper committee, printed up so that the membership could also read the telecommunications component of the joint committee's recommendations.

PRESIDENT:

All right. The gentleman seeks leave to have the amendment for Senate Bill 994, which has been rereferred to the Committee on Agriculture, also given to the Secretary for the purpose of printing and distribution to all members in advance of that committee meeting. Without objection, leave is granted. Senator Marovitz, for what purpose do you arise?

SENATOR MAROVITZ:

Thank you, very much, Mr. President and members of the Senate. Having checked with the principal sponsor, I would ask that my name be added as a hyphenated sponsor to Senate Bill 882 and Senate Bill 1377.

PRESIDENT:

SENATOR WELCH:

Thank you, Mr. President. I would ask leave to add Senator Jones as a hyphenated cosponsor of House Bill 23.

PRESIDENT:

House Bill 23. The gentleman seeks leave to add Senator Jones as the hyphenated cosponsor. Without objection, leave is granted. (Machine cutoff)...Jones, for what purpose do you arise?

SENATOR JONES:

Thank you, Mr. President. Seek leave to add the names Dawson, D'Arco and Netsch as hyphenated cosponsors on Senate Bill 1018 instead of cosponsors.

PRESIDENT:

All right. Senate Bill 1018, Dawson, D'Arco and Netsch to be shown as hyphenated cosponsors, is that the request? Without objection, leave is granted. So ordered. Senator Berman, for what purpose do you arise?

SECRETARY:

Senator Lechowicz, chairman of the Committee on Executive Appointment, Veterans' Affairs and Administration, to which was referred the Governor's Message of February the 5th, 1985; March the 6th, 1985 and April the 10th, 1985, report the same back with the recommendation that the Senate advise and consent to the following appointments.

PRESIDENT:

Senator Lechowicz.

SENATOR LECHOWICZ:

Thank you, Mr. President and Ladies and Gentlemen of the Senate. I move that the Senate resolve itself into Executive Session for the purpose of acting on the Governor's appointments set forth in his Messages of February the 5th, 1985;

March 6th, 1985; April 10th, 1985.

PRESIDENT:

All right. You've heard the motion to resolve into Executive Session. Any discussion? If not, all in favor of the gentleman's motion indicate by saying Aye. All opposed. The Ayes have it. The motion carries. It's so ordered. The Senate is now in Executive Session. Senator Lechowicz.

SENATOR LECHOWICZ:

Thank you, Mr. President. With respect to the Governor's Message of February 5th, 1985, I will read the salaried appointment to which the Senate Committee on Executive Appointments, Veterans' Affairs and Administration recommends that the Senate do advise and consent.

To be the Director of the Department of Employment Securities for a term expiring January 19th, 1987, Sally A. Ward of Oak Park.

I may just point out that this Senate thoroughly reviewed the qualifications of Ms. Ward and some of the allegations that were presented to the committee, and over six weeks of thorough investigation have found that the allegations that were confronted by this woman were not true. And basically what the element of employment was exposed to is a cutback in Federal funds of approximately 14.2 million dollars and, for that reason, the adjustments that had to made. I'd like to commend her and her...entire staff in conjunction with our staff for thoroughly investigating some very serious charges. Mr. President, having read the salaried appointments, would you put the question as required by our rules.

PRESIDENT:

All right. Is there any discussion? Any discussion? If not, the question is, does the Senate advise and consent to the nomination just made. Those in favor will vote Aye. Those opposed will vote Nay. The voting is open. (Machine cutoff)...all voted who wish? Have all voted who wish? Have

all voted who wish? Have all voted who wish? Take the record. On that question, there are 55 Ayes, 2 Nays, none voting Present. The...Senate does advise and...the majority of the Senators elected concurring by...record vote, the Senate does advise and consent to the nomination just made. Senator Lechowicz.

SENATOR LECHOWICZ:

Thank you, Mr. President. With respect to the Governor's Message of February 5th, 1985, I'll read the salaried appointments to which the Senate Committee on Executive Appointments, Veterans' Affairs and Administration recommends that the Senate do advise and consent.

To be members of the Illinois Industrial Commission for a term expiring January 19th, 1987, Calvin Tansor of Harwood Heights, Adolphus Green of Chicago.

To be members of the Illinois Industrial Commission for a term expiring January 16th, 1989, Ted Black of Chicago, Ralph Miller of Chicago, Dennis Douglas of Edwardsville.

To be chairman and member of the Illinois Industrial Commission for a term expiring January 19th, 1987, Mervin Bachman of Chicago.

Mr. President, having read the salaried appointments, I now seek leave to consider these appointments on one roll call unless some Senator has objection to a specific appointment.

PRESIDENT:

All right. The gentleman seeks leave to have the aforementioned on one roll call. Is leave granted? Senator Berman.

SENATOR BERMAN:

Thank you, Mr. President. I have no objection but I thought it important for the record, these nominees were...their consideration was...were...was held up for a number of weeks. Essentially, the reason was because of the

terrible delay that has occurred in the decision-making process at the Industrial Commission. One of the commissioners in particular was the object of much criticism because of the large number of cases to which he was assigned and which there was an undue delay. Without going into the merits of that particular situation, I wanted to inform my colleagues in the Senate that the chairman, Chairman Bachman, has undertaken and has gotten the consent of all of these nominees...all of the commissioners to a procedure that hopefully within thirty days the backlog of cases will be substantially reduced; and those cases that are not disposed of within thirty days will, within the power of the chairman, be reassigned. I have alerted, as has the chairman of the...Executive Appointments Committee, that the Senate intends to watch very carefully that these cases that have long sat dormant will be expeditiously handled and justice done on behalf of both sides in the controversy. I wanted to share this information with the members of the Senate. Thank you, Mr. President.

PRESIDENT:

All right. The gentleman is seeking leave to have those names on one roll call. Senator Newhouse.

SENATOR NEWHOUSE:

Mr. President, I want to speak on the previous bill. So, perhaps, my remarks are not appropriate now, but would you recognize me once this goes out, please?

PRESIDENT:

Indeed. Senator Lechowicz.

SENATOR LECHOWICZ:

Thank you, Mr. President. Well, I would like to put the question as required by our rules.

PRESIDENT:

The question is, does the Senate advise and consent to the nominations just made. Those in favor will vote Aye.

Those opposed will vote Nay. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Take the record. On that question, there are 53 Ayes, no Nays, none voting Present. A majority of the Senators elected concurring by record vote, the Senate does advise and consent to the nominations just made. Senator Newhouse.

SENATOR NEWHOUSE:

Thank you, Mr. President. Mr. President, for the record, I inadvertently punched the wrong button on the previous appointments; and had I been more alert, I would have objected to a roll call on that list. There are still some unresolved questions regarding the appointment of Sally Ward, and I would have asked for a separate roll call on that basis. I simply want to get this into the record. Thank you, Mr. President.

PRESIDENT:

All right. The Chair should point out, as I'm sure Senator Lechowicz will as chairman, there was, in fact, a separate roll call for that reason. Senator Lechowicz.

SENATOR LECHOWICZ:

That is correct, Mr. President, there was a separate roll call for that reason. But I now, Mr. President, with respect to the Governor's Message of February 5th, 1985, I'll read the unsalaried appointment to which the Committee on Executive Appointments, Veterans' Affairs, Administration recommends that the Senate do advise and consent.

To be member of the Department of Conservation Advisory Board for a term expiring January 16th, 1989, Mr. Dick Kehn of Bolingbrook.

Mr. President, having read the unsalaried appointment, will you put the question as required by our rules.

PRESIDENT:

The question is, does the Senate advise and consent to the nomination just made. Those in favor will vote Aye.

Those opposed will vote Nay. The voting is open. All voted who wish? Have all voted who wish? Have all voted who wish? Take the record. On that question, there are 54 Ayes, no Nays, none voting Present. A majority of the Senators elected concurring by record vote, the Senate does advise and consent to the nomination just made. Senator Lechowicz.

SENATOR LECHOWICZ:

...Mr. President, with respect to the Governor's Message of March 6th, 1985, I'll read the unsalaried appointment to which the Committee on Executive Appointments, Veterans' Affairs, Administration recommends the Senate do advise and consent.

To be a member of the Capital Development Board for a term expiring January 18th, 1988, Miki Cooper of Harrisburg.

To be members of the Board of Elections for a term expiring on June 30th, 1989, Carolyn R. Eyer of Springfield, David Murray of Sterling, Richard A. Cowen of Chicago, Langdon

Neal of Chicago.

Mr. President, having read the salaried appointments, I now seek to consider these appointments on one roll call, unless some Senator has objection to a specific appointment. Pursuant to Chapter 46, paragraph 1A-4 of the Illinois Revised Statutes nominees to the State Board of Elections shall require the advise and consent of a three-fifths vote of the members elected to the Senate. Mr. President, will you put the question as required by our rules.

PRESIDENT:

The question is, does the Senate advise and consent to the nominations just made. Those in favor will vote Aye. Those opposed will vote Nay. The voting is open. (Machine cutoff)...all voted who wish? Have all voted who wish? Have all voted who wish? Take the record. On that question, there are 58 Ayes, no Nays, none voting Present. A majority of the Senators elected concurring by record vote, the Senate does advise and consent to the nominations just made; and in accordance with the Statute as pointed out in the Constitution, as pointed out by Senator Lechowicz, with three-fifths of the members elected having concurred by record vote, the Senate does advise and consent to the nominations just made. Senator Lechowicz.

SENATOR LECHOWICZ:

Mr. President, with respect to the Governor's Message of April 10th, 1985, I'll read the salaried appointments to which the Committee on Executive Appointments, Veterans' Affairs, Administration recommends the Senate do advise and consent.

I am now reading Senate Resolution No. 160 which reads as follows:

(Senator Newhouse reads SR 160)

Coach McQuillan, let me then present you with a formal copy of the resolution. Congratulations.

COACH MCQUILLAN:

SENATOR D'ARCO:

All right. I would like to rerefer Senate Bill 572 to the Public Health Committee. When this bill was presented in the committee, the opponents apparently were taken off guard and they were not prepared to testify. So we do want the opponents to be able to testify on the bill and therefore I would move to rerefer the bill back to Public Health.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator D'Arco, would you give us the number and the location of the bill again, please?

rently repose?

SENATOR COLLINS:

Sorry, I can't.

Well, Senator, your motion is out of order until...included in your motion has to be the location for where the bills are. So, if you would, we can come back to you. Okay? Senator Lemke, for what purpose do you arise?

SENATOR LEMKE:

Just the purpose of an announcement.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right, what's your announcement?

SENATOR LEMKE:

The Secretary of State and I would like to announce that...being deeply interested in ethnic heritage of the...our great country, I thought it would be proper to invite you all and to let you know that on Monroe Street side of the Capital, the exhibit..."The Move to Freedom" exhibit is there. This exhibit is a traveling display...housing a forty-eight foot highway wedge van designed to recreate the images and impressions arrived by immigrants shared...of Ellis Island and the Statue of Liberty. My grandparents and my forefathers came and were part of that, as many of us; and the creative display is of history and patriotism, including a multimedial production, historical photography and film footage of the 1976 bicentennial celebration in a three and a half minute audio-visual presentation. It concludes with the direct request for visitors to the exhibit to support the Statue of Liberty restoration project financially, and the exhibit will be there from 9:45 a.m. today to 6:00 p.m. And I think it's appropriate that we all should go there and advise as many of our staff and everybody else to go there because this is a symbol of patriotism in this country. This is the first symbol that my forefathers or most forefathers

saw when they came to this country was the Statue of Liberty,and I ask you all to take time out today to look at this exhibit. Thank you, very much.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator O'Daniel, for what purpose do you arise?

SENATOR O'DANIEL:

Mr. President, I would like leave to be added...with permission of the sponsor to be added as a cosponsor of Senate Bill 665. No, just...no, just a cosponsor.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Well, Senator, you can simply do that by giving the notice to the Secretary. Senator O'Daniel seeks leave of the Body to be added as a cosponsor of Senate Bill 665. Is leave granted? Leave is granted. It's so ordered. Senator Etheredge, for what purpose do you arise?

SENATOR ETHEREDGE:

Two...two items, Mr. President. First, I would be...like...I would like to be identified as hyphenated cosponsor on Senate Bill 492, and then I would also like to move to Table Senate Bill 797 which is presently in the Transportation Committee.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right, you've heard the request. Senator Etheredge seeks leave of the Body to be added as the hyphenated cosponsor of Senate Bill 492. Is leave granted? Leave is granted. It's so ordered. Senator Etheredge...Senator Etheredge now moves to discharge the Committee on Transportation from further consideration of Senate Bill 797 with the purpose of Tabling. Those in favor signify by saying Aye. Opposed Nay. The Ayes have it. The committee is discharged. Senator Etheredge now moves to Table Senate Bill 797. Those in favor signify by saying Aye. Opposed Nay. The Ayes have it. The bill is Tabled. Senator...Senator Netsch, for what purpose do you arise?

SENATOR NETSCH:

Thank you, Mr. President. For two purposes; one, I want to Table a bill of my own that was a duplicate of an earlier one. So, I would then move to discharge the...the Committee on Agriculture from further consideration of Senate Bill 917 for the purpose of Tabling.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right, Senator Netsch has moved to discharge the Committee on Agriculture, Conservation and Energy from further consideration of Senate Bill 917 with the purpose of Tabling. Senator Netsch now moves to Table Senate Bill...917. Those in favor signify by saying Aye. Opposed Nay. The Ayes have it. The bill is so Tabled. Senator Netsch.

SENATOR NETSCH:

Thank you. I would then seek leave, with your permission as principal sponsor, to be added as a hyphenated cosponsor on...two bills, Senate Bills 673 and 674, both of which were Legislative Audit Commission bills that I would have been involved with had I still been on the Legislative Audit Commission.

PRESIDING OFFICER: (SENATOR DEMUZIO)

PRESIDENT:

All right. The gentleman seeks leave to be added as a cosponsor of Senate Bill 11 and to show Senator Geo-Karis as the chief sponsor of 195 along with Senator Kustra. Without objection, leave is granted. Senator Davidson, for what purpose do you arise?

SENATOR DAVIDSON:

Announcement. Mr. President and members of the Senate, I want to remind all of you. Yesterday laid on your desk was about the Governor's Prayer Breakfast of which the legislators are invited to attend. The tickets are seven dollars, a very rare thing this day. We reduced the price by fifty

cents from last year. President Rock is the one who will give the invocation that morning. You had also an order blank included with that. Would you please fill it out and get it to me between now and May the 9th so we'll have an opportunity to place the members of the Legislature at reserved seats in the more advantageous seats. Thank you.

PRESIDENT:

Senator Schaffer, for what purpose do you seek recognition?

SENATOR SCHAFFER:

Actually two; one, I wondered if the drop in the price of tickets has anything to do with your giving the invocation?

PRESIDENT:

...a great deal to do with that, yes.

SENATOR SCHAFFER:

I just wondered. Second, to request a Republican Caucus immediately upon adjournment, it will be short. We ask the indulgence of the two committees that are going to convene upon adjournment. We will have what we think will be a very brief caucus. And when you call a caucus after adjournment, you know it's likely to be brief, that's the only time I would bet on brevity in a caucus.

PRESIDENT:

Republican Caucus immediately upon adjournment in Senator Philip's Office. Senator Jeremiah Joyce can join the Republican Caucus if he really wants to attend one. Senator Donahue, for what purpose do you seek recognition?

SENATOR DONAHUE:

I would like...thank you, Mr. President. I would like to make a motion to discharge Committee on Credit and Finances of Senate Bill 1260 and put it...and recommit it to the Committee on Agriculture.

PRESIDENT:

All right. The lady seeks leave to discharge the Commit-

tee on Finance from further consideration of Senate Bill 1260 and asked that it be rereferred to the Committee on Agriculture, Energy and Conservation. All in favor of the motion indicate by saying Aye. All opposed. The Ayes have it. The motion carries and it's so ordered. Senator Carroll, for what purpose do you arise?

SENATOR CARROLL:

Just by way of announcement to the members...Senator Marovitz has returned. On his behalf, of Judiciary II at two o'clock, we have asked on Senate Bill 1060, Channel 5, Carol Murine will be narrating her presentation on "Dragon of the Gods" as part of the testimony on Senate Bill 1060. So if the members could please be there by two so that we can begin.

PRESIDENT:

What room is that, Senator Carroll?

SENATOR CARROLL:

That's in 212, Judiciary II.

PRESIDENT:

Senator Netsch, for what purpose do you arise?

SENATOR NETSCH:

Thank you, Mr. President. I would like to explain something to the membership about the...the legislative proposals of the Joint Utility Committee. I had indicated the other day that we would try to get a copy of the text of the proposals printed so that members could have it to look at it even though it won't be offered in committee until next week. For a variety of reasons that was not possible. However, there is in draft bill form a seventy...a two hundred and five page text of what will, in fact, be the substance of the Utility Act as proposed by the Joint Committee, including both the energy and telecommunications sections and the changes in the Commerce Commission. It will not be offered until next week, but we know that some members, very badly,

want to take this two hundred and five page document home and read it over the weekend. There are some copies available in xeroxed form and they will be available...where...in the President's Office...Mr. President? Right...

PRESIDENT:

Yes.

PRESIDENT:

...in the President's Office for anyone who would like to pick a copy up and take it home with them to read. It is almost identical, we believe, to what will actually be offered as an amendment, it just simply is not in the right form. Again, it is the text of what will be essentially the proposed new Commerce Commission Act, both energy and telecommunications sections. And it will be offered primarily as an amendment to Senate Bill 1021. Thank you.

PRESIDENT:

Senator Netsch, will you make sure Senator Sangmeister has one for the weekend? I know he's...Senator Collins, for what purpose do you arise?

SENATOR COLLINS:

Yes, thank you, Mr. President. For the purpose of discharging a list of bills from their respective committee to be referred to the Labor Committee. These bills represent a comprehensive economic and job training...project and I would like leave to have all of these bills heard together in one committee. And the bills are Senate Bill 64, currently now in Finance and Credit Reform; Senate Bill 1405, in Revenue; Senate Bill 1406, in Revenue; Senate Bill 1407, in Insurance; Senate Bill 1408, in Local Government; Senate Bill 1409, in Revenue; Senate Bill 1458, in Executive; Senate Bill 1459, Executive and Senate Bill 1461 in Ag...Agriculture and Conservation and Energy Committee.

PRESIDENT:

All right. Senator Collins has sought leave to have the

following bills discharged from their current committee and rereferred to the Committee on Labor and Commerce so that they can all be heard together; Senate Bill 64 from Finance, 1405 and 1406 from Revenue, 1407 from Insurance, 1408 from Local Government, 1409 from Revenue...1458 and 59 from Executive and 1461 from Agriculture. The motion is to discharge the respective committees and rerefer those bills to the Committee on Labor and Commerce. All in favor of the motion indicate by saying Aye. All opposed. The Ayes have it. The motion carries. It's so ordered. Senator Vadalabene, for what purpose do you arise?

SENATOR VADALABENE:

Yes, thank you, Mr. President and members of the Senate. I want to thank both sides of the aisle for searching for my glasses. They've been located and so they can stop searching. Thank you.

PRESIDENT:

Senator Marovitz, for what purpose do you arise?

SENATOR MAROVITZ:

Thank you, Mr. President. I would move that the Committee on Transportation...that...that Senate Bill 1244 be discharged from the Committee on Transportation for the purpose of transmit to...to the Judiciary II Committee. I had spoken to the chairman of the committee, I believe I spoke to you about it last night, that's a DUI bill.

PRESIDENT:

All right. The gentleman has sought to discharge the Committee on Transportation from further consideration of Senate Bill 1244 for the purpose of rereferral to the Committee on Judiciary II. All in favor of the motion indicate by saying Aye. All opposed. The Ayes have it. The motion carries and it's so ordered. Resolutions.

SECRETARY:

Collins and others and it's congratulatory.

PRESIDENT:

SENATOR JEROME JOYCE:

Yes, thanks, Mr. President. It's another bill that I'm going to seek leave to waive the posting rules so that the Senate Ag. Committee can hear this bill. It's Senate Bill 1260 that was just transferred into our committee.

PRESIDENT:

All right. The gentleman seeks leave to have Senate Bill 1260 heard in the Committee on Agriculture next week. All in favor of the motion indicate by saying Aye. All opposed. The Ayes have it. PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Rock, for what purpose do you arise?

SENATOR ROCK:

Thank you, Mr. President, Ladies and Gentlemen of the Senate. If I could have your attention, the committee schedule obviously is burdensome this week. We will begin again tomorrow at the hour of one o'clock to afford those committees that are meeting tomorrow morning an extra hour. In the meantime, while we are here, and we do have approximately forty-five minutes before the next committee begins, my suggestion is, and I've spoken with Senator Philip, that we start on Senate bills 2nd reading. As you know, as bills are amended particularly with committee amendments they...of necessity go upstairs to Enrolling and Engrossing so that copies can and will be made available, and the paper work is almost insurmountable. What I would ask is if the members would each knowing obviously their own legislative proposal, if we can attempt to move those that are not so very controversial, and attempt...there are bills that came out of committee without any controversy, there are amendments that are to go on virtually without any controversy, and if we could kind of discipline ourselves to handle the noncontroversial ones, we'll have plenty of time within which to fight, but let's see if we can move the paper along. So in that regard, Mr. President, I'd suggest that we start on

Senate bills 2nd reading, asking the members to skip only those where there might be some controversy and try to move as many as we can in the next forty minutes.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. With leave of the Body, we will go to Senate bills 2nd reading, top of page 2. I am told there are two hundred sixty-eight bills on 2nd reading and a hundred more coming tomorrow. SENATOR TOPINKA:

The amendment was adopted in committee and it came out 9-7, I believe, and you know, I...obviously, there are some people who may or may not agree with it or not, but I think that would be with any bill.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Senator Donahue moves the adoption of Amendment No. 2 to Senate Bill 339. Any discussion? If not, those in favor will signify by saying Aye. Opposed Nay. The Ayes have it. Amendment No. 2 is adopted. Any further amendments?

SECRETARY:

No further amendments.

PRESIDING OFFICER: (SENATOR DEMUZIO)

3rd reading. On...Senator...Senator Jones, for what purpose do you arise? Senator Jones. Senator Jones.

SENATOR JONES:

Yes, thank you, Mr. President. I have a motion to suspend the...the posting rule...Six-day Posting Rule so that Senate Bill 56, 60, 96, 101, 140, 293, 369, 424, 566, 591, 614, 622, 630, 637, 638, 710, 715, 716, 717, 718, 726, 752, 817, 873, 907, 974, 1030, 1048, 1062, 1066, 1068, 1069, 1080, 1131, 1132, 1138, 1220, 1221, 1222, 1223, 1224, 1226, 1247, 1258, 1299, 1309, 1353, 1354, 1355, 1362 and 1375, that these bills be posted for a hearing tomorrow in the Insurance Committee at 5:00 p.m. Due to a mix-up, the bills were inadvertently not posted, and that I...I'd like to suspend the posting rule that...so that these bills can be posted in hearing tomorrow in the Insurance Committee.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right, you've...heard the motion. Senator Jones wishes to suspend rule 7C for the purpose of waiving the posting requirement so that the bills, in fact, can be heard this week. Those in favor signify by saying Aye. Opposed Nay. The Ayes have it. Motion is carried. All right. Senator Etheredge, for what purpose do you arise?

SENATOR ETHEREDGE:

Mr. President, I move to discharge the Committee on Local Government from further consideration of Senate Bill 780, and further move that that bill, 780 be referred to the Senate Revenue Committee. I have discussed this with the two chairmen.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Senator...Senator Etheredge has moved to discharge the Committee on Local Government from further consideration of Senate Bill 780 and that the bill be rereferred to the Committee on...on Revenue. Senator...Senator Netsch.

SENATOR NETSCH:

I would think then, Senator Etheredge, you might want to, just to cover us, to make sure to waive the Six-day Rule and

it will be posted for Thursday, right?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Let's...let's take one at a time, all right? All right...Senator Etheredge has moved to discharge the Committee on Local Government from further consideration of 780, that the bill be rereferred to the...Committee on Executive. Those in favor will signify by saying Aye. Opposed Nay. The Ayes have it. It's so...Committee on Revenue...I think I said Executive, Committee on Revenue. I...all right, now, Senator Etheredge wishes to move to suspend Rule 7C for the purpose of allowing this bill to be heard...suspending the rules on the Order of Posting. Is leave granted? Leave is granted. It's so ordered. On the Order of Motions, Senator Netsch.

SENATOR NETSCH:

Thank you, Mr. President.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator...Senator Netsch, for...we'll have the motion read. Mr. Secretary, read the motion.

SECRETARY:

I move to suspend Senate Rule 5C for the purpose of allowing Senate Committee on Agriculture, Conservation and Energy to conduct a hearing and to make a recommendation on Senate Bill 1021 on or before May the 10th, 1985. Signed, Senator Netsch.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Netsch.

SENATOR NETSCH:

Thank you, I...I think it is important for all the members to listen to this. This with the concurrence...

PRESIDING OFFICER: (SENATOR DEMUZIO)

Hold on...hold on...just a moment, Senator Netsch. If we can have order for a moment, please. We're getting ready to adjourn. This is an important announcement and certainly we

want to afford Senator Netsch every courtesy. Senator Netsch.

SENATOR NETSCH:

...this relates to the bill of the...that represents the findings of the Joint Committee on Utility Regulation. What we are requesting is that the bill be heard and acted on after the deadline of this week. This is with the concurrence of the chairman and minority spokesman of the Committee on Agriculture, and the President of the Senate and the minority leader. It obviously is a very complicated bill and, in fact, it is about two hundred and four pages. It is not fully available to the members as yet and it seemed only reasonable that it be given an ample opportunity to be fully heard. So what...we will do is, the bill is posted for tomorrow. If the amendment is available, and we hope it will be, it will be put on the bill tomorrow so that people can see the text of the bill. It is only a shell bill at the moment. I understand from Senator Joyce there will some witnesses heard, but the bill will not be finally heard and acted on until next week when there is more time for it. That is the purpose of the motion and I would now move adoption of the motion.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. You've...you've...you've heard the motion...is there any discussion on this motion? All right. Senator...Senator Netsch has moved to...to suspend Rule 5C to extend the deadline in reference to Senate Bill 1210 to May 10th. All right. Senator Netsch has moved to suspend Rule 5C for the purpose of allowing the Senate Committee on Agriculture, Conservation and Energy to...conduct a hearing and to make a recommendation on Senate Bill...1021 on or before May 10th, 1985. Those in favor will signify by saying Aye. Opposed Nay. The Ayes have it. The motion is adopted. All right. Senator Geo-Karis, for what purpose do you arise?

SENATOR GEO-KARIS:

Mr. President, Ladies and Gentlemen of the Senate, I would like to remove myself as chief sponsor of Senate Bill 1153 and substitute Senator David Barkhausen as chief sponsor on Senate Bills 1153 since this topic takes mostly...takes place mostly in his district.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. You've heard the motion. Is leave granted? Leave is granted. So ordered. Senator Barkhausen will be substituted in place of Senator Geo-Karis on Senate Bill 1153. Senator Smith, for what purpose do you arise?

SENATOR SMITH:

Thank you, Mr. President. I'd ask leave of the Body, please, to offer the name of Senator Keats as hyphenated sponsor to Senate Bill 74.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Senator Smith...requests Senator Keats be added as a hyphenated cosponsor to Senate Bill 74. Is leave granted? Leave is granted. Senator Barkhausen, for what purpose do you arise?

SENATOR BARKHAUSEN:

Mr. President, in the President's Gallery we are privileged to have visiting today, Mayor Paul Neal and his wife, Mary, from the Village of Libertyville, in my district. I'd ask the Senate to make them welcome.

PRESIDING OFFICER: (SENATOR DEMUZIO)

SECRETARY:

Senate Resolution 180 offered by Senator Rock and all Senators.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right, can we have some attention, please. Can we have some order, please. Senator Rock.

SENATOR ROCK:

Thank you, Mr. President and Ladies and Gentlemen of the Senate. If I can have the attention of the membership...

PRESIDING OFFICER: (SENATOR DEMUZIO)

Ladies and Gentlemen, can we break up the caucuses. Will our guests from the House please retire to the rear. Senator Rock.

SENATOR ROCK:

...I will...I will be moving, Mr. President and Ladies

and Gentlemen, for the suspension of the rules and the immediate consideration and adoption of Senate Resolution 180 and ask leave that all members be added as cosponsors. The resolution is in favor of Doctor Percy Julian,...imminent scientist who happily happened to...live in the Village of Oak Park, and the Oak Park School District, District 97, has seen fit through board action to rename a school in Oak Park in memory of Doctor Julian. The resolution reads as follows:

(Senator Rock reads Senate Resolution 180)

Mr. President, I would move to suspend the rules for the immediate consideration and adoption of Senate Resolution 180.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right, you've heard the motion. Senator Rock has moved the...to suspend the rules for the immediate consideration and adoption of Senate Resolution 180. Those in favor signify by saying Aye. Opposed Nay. The Ayes have it. The rules are suspended. Senator Rock now moves the adoption of Senate Resolution 180. Is there any discussion? Senator Geo-Karis. Can we break up the caucus behind Senator Geo-Karis?

SENATOR GEO-KARIS:

Am I in order for the next line of business?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Your light was on for this.

SENATOR GEO-KARIS:

Oh, sorry.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Rock has moved the adoption of Senate Resolution 180. Any discussion? If not, those in...Senator Collins. Senator Collins.

SENATOR COLLINS:

Yes, thank you, Mr. President and members of the Senate. I rise in support of Resolution 180 and I would...too, would

like to commend District 97 for having the...the foresight to congratulate and set aside this day in a special honor and tribute to Doctor Julian and to his family for the outstanding contribution that they...he made, not only to the Village of Oak Park and to the residents of Oak Park but to the country as a whole, and I ask to...for favorable consideration of this resolution.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Further discussion? Senator Newhouse.

SENATOR NEWHOUSE:

Thank you, Mr. President. I simply want to add...sort of a personal note. I knew Doctor Julian well. Some of you may know that Doctor Julian was for a number of years a trustee of Northern Illinois University. So, in addition to the fact that we had a personal relationship, I worked with him closely as the chairman of Higher Education in some movements for Northern Illinois University, and I thought that ought to get into the record. Thank you, very much, Mr. Chairman, for the opportunity to share in a tribute to a very fine person.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right, Senator Rock has moved the adoption of Senate Resolution 180. Those in favor will signify by saying Aye. Opposed Nay. The Ayes have it. The resolution is adopted. Senator Rock.

SENATOR ROCK:

Thank you, Mr. President. On a point of personal privilege.

PRESIDING OFFICER: (SENATOR DEMUZIO)

State your point.

SENATOR ROCK:

In the...in the gallery behind the Senate Chamber, we are honored today to have some special guests from Oak Park District 97. Doctor Ernest Muehler, the superintendent of schools; three board members, Doctor Myrtle Mason, Mary Pat

SR181

Seek, Chris Rono, Elsie Harley, the associate superintendent and Barbara Rennen, who is the director of public relations for District 97 and Stuart Mitchell, the principal. I would ask that our guests in the gallery please rise and be recognized.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Would our guests in the gallery please rise and be recognized. Welcome to Springfield. Senator Rock.

SENATOR ROCK:

Thank you, Mr. President and Ladies and Gentlemen. In addition to that, we have three students from the Hawthorne School who are here with us on the Senate Floor, and they will be bringing back to Hawthorne School a report to the student assembly, having been part of the Senate of the 84th General Assembly at least for part of today. They are Sharon Grainer, who's an eighth grade student; Ian Barnard, an eighth grade student and Ann Lee, an eighth grade student, and they will be all over the Floor and I'd like to welcome them also.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Would our...would our three guests please rise...in the back of the Chamber. Resolutions.

SECRETARY:

Senate Resolution 181 offered by Senators Berman, Carroll and Marovitz.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Berman. Can we have your attention, please...have order in the Senate. Senator Berman.

SENATOR BERMAN:

Thank you, Mr. President and Ladies and Gentlemen of the Senate. I would move the...that the appropriate rules be waived for immediate consideration of Senate Resolution 181. The subject matter of this resolution deals with the visit of the President of the United States...

PRESIDING OFFICER: (SENATOR DEMUZIO)

Pardon me, Senator Berman. Can we have some order, please. Can we have some order, please. Would the...extend Senator Berman this courtesy. Senator Berman.

SENATOR BERMAN:

...this deals with the visit of the President of the United States to the cemetery in Germany where there are SS troops buried and the language of this resolution, I would add, is exactly the language of the resolution that was adapted...adopted by voice vote by the Senate of the United States, and I move the immediate consideration of Senate Resolution 181.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right, Senator Berman has moved the...to suspend the rules for the immediate consideration and adoption of Senate Resolution 181. Is there discussion? Senator Philip.

SENATOR PHILIP:

Yes, Mr. President, I object and I object on two basises. The first basis, there probably isn't a cemetery in Germany that doesn't have SS troops buried. Number two, obviously, it is...it is politically motivated...

PRESIDING OFFICER: (SENATOR DEMUZIO)

Well, Senator...

SENATOR PHILIP:

...third...thirdly...

PRESIDING OFFICER: (SENATOR DEMUZIO)

...Senator Philip, we're talking about the motion to suspend the rules and not the merits of the resolution. Senator Philip. Senator Philip.

SENATOR PHILIP:

Yeah, I...I would suggest, like any other resolution, this go to the Executive Committee.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right,...further discussion? Senator Berman.

SENATOR BERMAN:

The planned visit that this resolution addresses was...is supposed to take place on Sunday. If the resolution goes to the committee, it will be moot. I urge that we waive the rules for immediate consideration of this nonpartisan, humanitarian resolution.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Further...Senator Philip.

SENATOR PHILIP:

Thank you, Mr. President. I...I think this has been in the media for over a month. I don't know why we wait till the last minute. There was plenty of opportunity in the last thirty days for this resolution. Obviously, it's politically motivated. Let it go to committee where it belongs.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Further discussion? Senator Berman, under our rules unless there is unanimous consent there must be a roll call. Do you wish to have a roll call on the suspension of the rules? Senator Berman.

SENATOR BERMAN:

Yes, I would request a roll call if there's not unanimous consent.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right, Senator Berman has...Senator...Senator Rock, for what purpose do you arise?

SENATOR ROCK:

Thank you, Mr. President and Ladies and Gentlemen of the Senate. I rise in support of the motion to suspend and in contrary distinction of what Senator Philip said, I don't think it's politically motivated at all. I think the fact of the matter is, we have seen the United States Senate, and I truly don't...don't know what happened in the United States House, but both bodies, on a bipartisan basis have considered this and have suggested as a policy statement that our Chief

Executive really ought not do this; and that really is the sense of the body that this trip was ill-advised or that visit is ill-advised, irrespective of political considerations. We are talking about...some...some very deep feelings that go back forty years.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right,...Senator Philip, for what purpose do you arise?

SENATOR PHILIP:

Well, are...are we debating the...the motion or...or the resolution? I mean, if it's good for the goose, it's good for the gander.

PRESIDING OFFICER: (SENATOR DEMUZIO)

We are, in fact,...debating the...the motion to suspend the rules. Senator Rock.

SENATOR ROCK:

Well, I...I don't think there need to be a lengthy debate. Obviously, with an objection having been raised, we need a roll call to suspend the rules. It will require thirty votes and I suggest we get on with it and then we can debate the resolution.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right, further discussion? The motion is, shall the rules be suspended for the immediate consideration and adoption of Senate Resolution 181. Those in favor will vote Aye. Those opposed will vote Nay. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Take the record. On that question, the Ayes are 29, the Nays are 18, 5 voting Present. The rules are...rules are suspended. Senator Berman now moves for the...Senator Berman.

SENATOR BERMAN:

If you announced that roll...that vote, I will then move to suspend the rules.

PRESIDING OFFICER: (SENATOR DEMUZIO)

The...the vote on the...on the suspension of the rules is 29 affirmative, 18 voting No and 5 voting Present. The motion to suspend fails. Senator Berman.

SENATOR BERMAN:

I now move, Mr. President, to suspend the rules for immediate consideration of Senate Resolution 181.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Davidson, for what purpose do you arise?

SENATOR DAVIDSON:

Parliamentary inquiry.

PRESIDING OFFICER: (SENATOR DEMUZIO)

State your point.

SENATOR DAVIDSON:

As the maker of the motion which just failed, is it not...parliamentary incorrect for the same motion to be put by the same person on something which has just defeated by Robert's Rules of Order?

PRESIDING OFFICER: (SENATOR DEMUZIO)

The effect of our rules is that...that it, in fact, cannot be reconsidered at this meeting. Senator Marovitz, for what purpose do you arise?

SENATOR MAROVITZ:

I would move that...that the...for immediate...appropriate rules be suspended for immediate consideration of Senate Resolution 181.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Senator Philip, for what purpose do you arise?

SENATOR PHILIP:

Well, we've already had that motion. You've ruled on the last one. The same thing pertains. Let's let go to Executive Committee, didn't...receive 30 votes.

PRESIDING OFFICER: (SENATOR DEMUZIO)

SR 182

All right. The ruling of the Chair is that, in fact, under our rules, the resolution...of Senator Berman cannot be considered at this meeting. Therefore, the resolution will...will go to the Executive Committee. Resolutions, Mr. Secretary.

SECRETARY:

Senate Resolution 182 offered by Senators Marovitz, Berman and Carroll.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Marovitz.

SENATOR MAROVITZ:

Thank you, very much, Mr. President. I would move that the appropriate rule be suspended for the immediate consideration of Senate Resolution 182.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right, Senate Resolution 182. Senator Marovitz has moved to suspend the rules for the immediate consideration and adoption of Senate Resolution 182. Senator Philip.

SENATOR PHILIP:

Well, it...it's the same motion with a different sponsor. It's dilatory. We've already done it and we all know that. Let's abide by the rules, Mr. President.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator, it's...it's a different resolution. We have always afforded the members an opportunity to...to put forth identical bills, identical resolutions. Senator Marovitz...

SENATOR PHILIP:

Well, let me...may I say this, Mr. President. The resolution is not on my desk. In fact, either resolution are not on my desk. Is the motion in writing? Where are the resolutions?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Well, Senator Philip, under our rules, it is required that if...upon a request of five members, that a bill is not

on your desk, or an amendment, that, in fact, our rules do...does provide that upon the request of five members, that it would, in fact, would be distributed. Our rules are...are silent on the...on the issue of...of resolutions. Senator Philip.

SENATOR PHILIP:

I...I'd just like to know how we can vote on a controversial resolution if we don't have the resolution?

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Senator Rock.

SENATOR ROCK:

Yeah, I...I think we can do one of two things. Either the clerk can read the resolution or we can make sure that copies are distributed. I think that request is certainly in order. We can go on to a...for a few minutes or...what's...what's your pleasure, Senator Philip?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Philip.

SENATOR PHILIP:

Mr. President, I'd like to have copies of both resolutions. You say the resolutions are different, I'd like to see copies of both resolutions.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right, Senator Rock.

SENATOR ROCK:

Yeah, I...I think that request is in order...we'll ask the Secretary to have copies provided to all members and we'll certainly get back to this order of business. In the meantime, I might suggest, Mr. President,...two members have...emergency appropriation bill which we dealt with yesterday which was amended yesterday. It might be an appropriate time to go to that order. That's on page 32 of the Calendar. With leave of the Body, if we could go to page 32 on the Order of Senate Bills 3rd Reading for the purpose of

Senate Bill 339.

PRESIDING OFFICER: (SENATOR DEMUZIO)

With leave of the Senate, we will go to page 32, Senate bills 3rd reading is Senate Bill 339. Mr. Secretary, read the bill.

SECRETARY:

Senate Bill 339.

(Secretary reads title of bill)

3rd reading of the bill.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Holmberg.

SENATOR HOLMBERG:

Yes, this appropriation...thank you, Mr. President,...is of...rather...an emergency nature in that it appropriates the sum of twelve thousand five hundred dollars as amended to the Department of Commerce from the Tourism Promotion Fund for the Kentorei Boy's Choir of Rockford to tour Japan. They are leaving on June 1st. It will be necessary to move this along very quickly. We also, as you remember, amended into the bill Senator Donahue's request for six thousand dollars for the Ashland High School Band to participate in the Freedom Day Parade in Philadelphia and the National Independence Day Parade in Washington D.C. I would ask that we support this bill and move it quickly.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right, is there any discussion? Senator Sommer.

SENATOR SOMMER:

Mr. President and members, traditionally we have supported the financing of...of local groups to attend national functions, we pay a quarter of it. This is something we...we do each year and we're happy to support it over here.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right, further discussion? The question is, shall Senate Bill 339 pass. Those in favor will vote Aye. Those

opposed will vote Nay. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Take the record. On that question, the Ayes are 52, the Nays...53, the Nays are none, 1 voting Present. Senate Bill...339 having received the required constitutional majority is declared passed. Senator...Senator...Karpiel, for what purpose do you arise?

SENATOR KARPIEL:

On a point of personal privilege, Mr. President.

PRESIDING OFFICER: (SENATOR DEMUZIO)

State your point.

SENATOR KARPIEL:

I've been asked by the Library Association to mention that they will be having buses run to their reception this evening which is at the Prairie Convention Center and the buses will pick you up at the south door of the Stratton Building or the north door of the Capitol and take you to the convention center and then back again, if you wish, from five-thirty to eight-thirty. Thank you.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Netsch, for what purpose do you arise?

SENATOR NETSCH:

Thank you. Mr. President, if I might just call the attention of members to the fact that there has been distributed on your desk a copy of the text of what is now Senate Bill 1021, the report of the Joint Committee on Utility Regulation. Many of you had asked for copies of that text. They are now available and we know that you want an opportunity to read all two hundred...or a hundred and ninety-two pages and so we have distributed them. If you will look on your desks, you will find copies.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Donahue, for what purpose do you arise?

SENATOR DONAHUE:

A point of personal privilege.

PRESIDING OFFICER: (SENATOR DEMUZIO)

State your point.

SENATOR DONAHUE:

...thank you, Mr. President. I just wanted to draw attention to one of our former colleagues that's been on the Floor, served in the Illinois Legislature for twenty years, the...Clarence...Representative Clarence Neff.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Clarence Neff. Welcome to the Floor. Senator Davidson, for what purpose do you arise?

SENATOR DAVIDSON:

SECRETARY:

Senate Resolution 182 introduced by Senators Marovitz, Berman and Carroll.

PRESIDENT:

Senator Marovitz.

SENATOR MAROVITZ:

...thank you, very much, Mr. President and members of the Senate. I would move that the appropriate rules be suspended for the immediate consideration of Senate Resolution 182.

PRESIDENT:

Question is the suspension of the rules for the immediate consideration of Senate Resolution 182. The motion is nondebatable. Those in favor of the motion to suspend will vote Aye. Those opposed will vote Nay. I beg your pardon, Senator Philip.

SENATOR PHILIP:

The motion is nondebatable?

PRESIDENT:

That's...

SENATOR PHILIP:

Well, Mr. President, let me suggest this...

PRESIDENT:

...I'll...I'll ask the gentleman to withhold that motion

until we have a chance to talk on it. The fact is, that Robert's Rules says it's not debatable. We've debated it in the past.

SENATOR PHILIP:

...point...point of information, Mr. President. I...I have received both resolutions now. As stated on this Floor, the resolutions are supposed to be different. They are not. They're exactly the same resolution. The only two differences are the number and the sponsorship. So, we're considering exactly, precisely the same resolution.

PRESIDENT:

All right, the...the Chair is prepared to rule that the motion as placed by Senator Marovitz is, in fact, in order. The substance of the two resolutions, you are correct, the substance is identical. The fact is the motion before us is not on the substance, it's on a motion to suspend. Senator Philip.

SENATOR PHILIP:

Just so the...record so states as on the Floor of this Senate it was stated they were not the same resolutions which was absolutely incorrect.

PRESIDENT:

Well, not...

SENATOR PHILIP:

And we ought to know that.

PRESIDENT:

...not...not the same in terms of numbers. There's 181 and 182. All right, the question before the Body is the motion to suspend for the immediate consideration of Senate Resolution 182. Those in favor of the motion to suspend will vote Aye. Those opposed will vote Nay. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Take the record. On that question, there are 30 Ayes, 13 Nays and 11 voting Present. The motion pre-

vails. Senator Philip.

SENATOR PHILIP:

I know it's that time of day, funny things happen around here. I'd like to have the verification of the affirmative votes.

PRESIDENT:

All right, Senator Philip has requested a verification. Will the members please be in their seats. Mr. Secretary, read the affirmative roll, please.

SECRETARY:

The following voted in the affirmative: Berman, Carroll, Collins, D'Arco, Darrow, Dawson, Degnan, Demuzio, Hall, Holmberg, Jones, Jeremiah Joyce, Jerome Joyce, Kelly, Kustra, Lechowicz, Luft, Marovitz, Nedza, Netsch, Newhouse, O'Daniel, Poshard, Sangmeister, Savickas, Smith, Vadalabene, Welch, Zito, Mr. President.

PRESIDENT:

Senator Philip, do you question the presence of any member?

SENATOR PHILIP:

Senator Hall.

PRESIDENT:

Senator Hall is in his seat. Senator Philip.

SENATOR PHILIP:

Senator Kelly.

PRESIDENT:

Senator Kelly is in his seat. All right, the roll has been verified. The Ayes are 30, the Nays are 13, 11 voting Present. The motion carries. Senator Marovitz.

SENATOR MAROVITZ:

Thank you, very much, Mr. President and members of the Senate. Everybody has the resolution in front of them. This is the identical resolution to that which was introduced and passed unanimously, without objection in the United State's

Senate and the United State's House of Representative. In the last week we have heard from the President's own leaders who have spoken out and asked the President to reassess his decision to visit Bitburg, and I would just say to my colleagues, that is all that this resolution does. It asks that the President reassess his decision and his itinerary in his visit to the Federal Republic of Germany, and it stress our friendship with the...Federal Republic of Germany. And I might add in reading into the record, just regarding that...that friendship with our friends in...in the Federal Republic of Germany. It says:

(Senator Marovitz reads part of Senate Resolution 182)

And I think that is why, in terms of symbols and symbolic...this symbolic visit, that we should, and it is fitting, that we call upon the present...President to reassess his itinerary upon his visit to Germany. This is not a criticism of anyone, but it certainly is a...there are many other places that the President could visit...many other burial places that the President could visit which would not recall the heinous memories that...that a visit to the Bitburg Cemetery will recall. This resolution and passage of this resolution evidences the concern of the Illinois Senate and that is all it does, and I would ask for unanimous support of this request of the President of the United States to reassess his itinerary. Many in your own party and my colleagues on the other side of the aisle have spoken out. What is wrong with all of us saying to the President, reasonable men can differ...reasonable men can differ regardless of party? This is not a political partisan issue. This is an issue of decency and I think we should all be green on this resolution.

PRESIDENT:

Senator Lechowicz.

SENATOR LECHOWICZ:

Thank you, Mr. President. First, I'd like to have leave to be a cosponsor on Senate Resolution 182.

PRESIDENT:

All right, the gentleman seeks leave to be added as a cosponsor. Without objection, leave is granted. Senator Lechowicz.

SENATOR LECHOWICZ:

Thank you, Mr. President. This issue is not an issue only in the State of Illinois. It was addressed nationally in the U. S. Senate, and Senator Dole, the majority leader, very forcefully and...eloquently portrayed his disapproval of the mistake that the President of United States has made in agreeing to pay a visit to this cemetery. Senator Philip is absolutely correct when he mentions the fact that there are probably SS troops in every cemetery in Germany. It's a fact of life, but it's unfortunate that the SS and what it symbolizes and means...and meant to millions of people in...in the world and the atrocities that they really put not only to the Jewish people, to the Pols, to the Slavs, to every European group that they were exposed to, the atrocities at Auschwitz and the other Dachau are something that this world should never forget nor never let...be it portrayed in any way that we accept at any time, and it is for that reason that the SS were in charge and were responsible in carrying out Hitler's orders that this is where the mistake was made. Senator Dole was correct when he says, yes, the President made a mistake. It's human to make mistakes. The President is human and he should address the fact that a mistake has been made and he should change his direction and pick a different way of showning is respect to the German people and the new German Government, but this will never be tolerated in my community nor in many other communities throughout the world; and I strongly support this reso-

lution and its concept and its purpose and would hope that you would also, in your wisdom, support 182. Thank you.

PRESIDENT:

Further discussion? Senator Darrow.

SENATOR DARROW:

Thank you, Mr. President. I would just like to reiterate what Senator Lechowicz had mentioned that the SS not only committed serious and horrendous crimes against the Jewish people but also the Pols and the Eastern Europeans and that no right thinking individual would pay tribute to the SS. One thing that does disturb me is in this introduction where we say we're...it...the United States Government should pay honor to the memories of millions of innocent citizens and hundreds of thousands of Americans and allied soldiers. I'd point out to this Chamber that the Russians, at that time, were our Allies and perhaps they committed as many atrocities against the Lithuanians and Latvians, Estonians and Pols and other Eastern Europeans as the SS. I just take somewhat exception to the fact that we are...feel that it's proper to show honor to those butchers on the Russian side. I feel this is a very fine resolution, a moral stand that this Chamber should take and I support its adoption.

PRESIDENT:

Further discussion? Senator Philip.

SENATOR PHILIP:

Thank you, Mr. President and Ladies and Gentlemen of the Senate. I do not object to this resolution. I object to this resolution because it adds to the confusion, and what I mean by confusion is, on more than two different separate cases I have seen the media and heard the media call it an SS cemetery. It is not an SS cemetery. It never was an SS cemetery. Probably every cemetery in Germany probably has some of the SS buried there, but all this does is add to the confusion, and there is confusion out there, and I just want

to set the record straight.

PRESIDENT:

Further discussion? Senator Berman.

SENATOR BERMAN:

Thank you, Mr. President. I want to assure my colleagues on the other side of the aisle, there was draft language that was prepared for a resolution that was, in fact, submitted to the clerk yesterday. At the suggestion of Senator Rock, I withdrew that resolution so that the exact language of the resolution that was adopted by the United State's Senate as well as the House with very vocal support by persons who are not partisan against the President, namely, people like Senator Dole and Representative Jack Kemp who supported this language. I...the last thing I want to do is to try to make an issue like this a partisan issue. It is not partisan. I think it is highly moral, has nothing to do with politics; and as previous speakers have said, I think the President has been put in a untenable position and we are asking him to reassess his position. That's what it's about. It certainly has nothing to do with politics and that was why I was rather shocked by the debate over the consideration of this. I hope that now that that is put aside that we can unanimously adopt this resolution with the nonpartisan language that it embodies. Thank you.

PRESIDENT:

Further discussion? Any further discussion? Senator Marovitz, you wish to close? Question is the adoption of Senate Resolution 182. All in favor indicate by saying Aye. All opposed. The Ayes have it. The resolution is adopted. Further resolutions, Mr. Secretary?

SECRETARY:

congratulatory.

PRESIDENT:

All right, gentleman seeks leave to add Senator Jones to Senate Bill 1311. Without objection, leave is granted. He seeks leave to be added as a cosponsor on the series of bills Senate Bills 385 through and including 390. Without objection, leave is granted. Further business? Further announcements? Any announcements? Senator Collins.

SENATOR COLLINS:

We do have a lot of bills to consider this afternoon, and if you leave immediately, we can get there on time and everyone can get out on time. tion to all the members of Appropriation II, we will meet in Room 212 immediately so that we can go through this list.

PRESIDENT:

All right, Senate Transportation at three o'clock, one-half hour from now. Senator Carroll.

SENATOR CARROLL:

Merely, Mr. President, I would ask leave to be added as a cosponsor of the...package of bills 385 through 390...Senate Bills 385 through 390. I checked with the sponsor before.

PRESIDENT:

The gentleman seeks leave to be added as a cosponsor of Senate Bills 385 to and through 390. Without objection, leave is granted. Any further business to come before the Senate? PRESIDING OFFICER: (SENATOR SAVICKAS)

Consent Calendar. For what purpose Senator DeAngelis arise?

SENATOR DeANGELIS:

Thank you, Mr. President. Yesterday in...I requested leave of the Body to Table a bill from the Revenue Committee and, unfortunately, I gave the wrong bill number. I would like to reconsider that leave and then submit another motion to give you the right bill number.

PRESIDING OFFICER: (SENATOR SAVICKAS)

That motion is in order.

SENATOR DeANGELIS:

I would like to reconsider the motion that...having voted on the prevailing side, I would like to reconsider the motion by which Senate Bill 1136 was Tabled from Revenue. First of all, it wasn't even in Revenue. So, I'd like to reconsider that motion first.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator, then you intend to recommit 1136 back into its original committee?

SENATOR DEMUZIO:

Mr. President, I...I didn't hear Senator DeAngelis' motion, so if he would restate it for us, I would be grateful.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator DeAngelis, yesterday had errored in a motion to discharge Senate Bill 1136 from committee...from the Committee on Revenue, for the purposes of Tabling. Senate Bill 1136 was reported out of committee yesterday on a Do Pass motion. So his error has caused a mechanical problem here. Senator DeAngelis.

That being done then, I would like to request leave of the Body to discharge the Committee on Revenue from further consideration of Senate Bill 1198, which is the proper number, for the purposes of Tabling the bill.

So to get our motions in proper form, Senator DeAngelis now moves to reconsider the vote by which Senate Bill 1136 was Tabled. Those in favor of reconsidering vote Aye. Those opposed vote Nay. SENATOR NETSCH:

Yes, I think...just to allay the fears of some of my colleagues over here, I think Senator DeAngelis finally has it straightened out. He Tabled the wrong bill...from the wrong committee yesterday. He meant to Table a basically duplicative bill that was in the Revenue Committee, and he has now got it right on and I concede that he is doing the...the correct order of business today.

PRESIDING OFFICER: (SENATOR SAVICKAS)

On the motion to discharge, those in favor indicate by saying Aye. Those opposed. The Ayes have it. The motion carries and Senate Bill 1198 is discharged from the Committee on Revenue and is ordered place on the Calendar on the Order of...now with Senate Bill 1198 being in front of us, Senator DeAngelis moves to Table Senate Bill 1198. SENATOR KARPIEL:

PRESIDENT:

Senator Watson, for what purpose do you arise?

SENATOR WATSON:

Thank you, Mr. President. Just for an announcement.

PRESIDENT:

Yes, sir.

SENATOR WATSON:

Along with Senator Demuzio we have another birthday boy here today in the...in the Senate, my seatmate, Cal Schuneman. He's a little older that forty-four and there's no cake; in fact, he's...he said he's trying to ignore the whole thing altogether, but any way I'd like to wish him a happy birthday.

PRESIDENT:

Happy birthday, Senator Schuneman. Just goes to...goes to further show that May is a very good month, indeed, yes. Senator Philip, for what purpose do you arise?

SENATOR PHILIP:

Thank you, Mr. President and Ladies and Gentlemen of the Senate. I'd like the record to indicate that Senator Etheredge is absent today because his mother-in-law passed away and...Senator Rupp is absent because of death in the family, he's out of State.

PRESIDENT:

The record will so reflect. Thank you, Senator. Senator Geo-Karis, for what purpose do you arise?

SENATOR GEO-KARIS:

Well, Mr. President and Ladies and Gentlemen of the Senate, we mentioned birthdays, but I think this Senate...Body should be alerted to the fact that the President...President of the Senate added a year this past week and so did Senator Berman, but you haven't told us how old you are.

PRESIDENT:

Old enough to know better.

SENATOR GEO-KARIS:

...Happy birthday.

PRESIDENT:

Thank you. If I can have...if I can have your attention,

SB 300 2nd Reading

we've distributed to all Senators a memorandum that I'd ask you to take a look at and you'll understand, I think, the urgency of it. As of tomorrow, we will have eight hundred and ninety-two bills on 2nd reading. It is pretty obvious to Senator Philip and I, at least, that an agreed bill process will be necessary, so we're asking is today and tomorrow in particular that we make every effort to move bills from 2nd to 3rd reading because at the close of business on Thursday...and Senator Philip and I have agreed that we will not be in Session on Friday, so at the close of business on Thursday afternoon, we will then be in a position to assess the 3rd reading bills and hopefully come up with an Agreed Bill List which will be presented for your action next week. In the meantime, obviously, it's necessary to move as many as possible from 2nd to 3rd reading. So, I'd ask you to take a look at the memo, if you have any questions, we'll be here all day. All right, on the Order of Senate Bills 2nd Reading, Mr. Secretary, the bottom of page 6. We'll start where we left off last week on Senate Bill 300, Senator Marovitz. Read the bill, Mr. Secretary.

2nd reading of the bill. The Committee on Judiciary I offers three amendments.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Marovitz.

SENATOR MAROVITZ:

Thank you, very much, Mr. President and members of the Senate. Amendment No. 1 to Senate Bill 300 adds certain conditions which will trigger events under which the...the rights to a conversion policy shall terminate. First of all, the former spouse's becoming an employee injured under any other group policy and, number two, the former spouse

remarries that would terminate the conversion rights, and I would ask for adoption of Amendment No. 1.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right, further discussion? Senator Marovitz moves the adoption of Committee Amendment No. 1 to Senate Bill 300. Those in favor signify by saying Aye. Opposed Nay. The Ayes have it. Committee Amendment No. 1 is adopted. Any further committee amendments?

PRESIDING OFFICER: (SENATOR DEMUZIO)

SENATOR DeANGELIS:

Thank you, Mr. President. Amendment No. 1 deletes the jurisdictional enlargements of the Commerce Commission by striking out "the enlargement are for repair and maintenance of grade crossing surfaces and signals." Both Senator Joyce and Senator Rupp had difficulty with that. We have stricken that language. The bill simply now enlarges the amount of money available in that fund.

non-profit community service agencies. The idea behind this program is to have interns from public administration programs throughout the entire State of Illinois available to municipalities under fifty thousand people so that they could acquire some of the benefits through known changes of city managers of other incidents learned in college that are not available to small towns.

(Secretary reads title of bill)

2nd reading of the bill. The Agriculture Committee offers one amendment.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Welch.

SENATOR WELCH:

Thank you, Mr. President. What this bills does is require that each billing statement by a utility company set forth the charges assessed against a consumer by a public utility. Specifically, in clear language, this bill is intended to make sure that consumers can understand what their bill really is for. The amendment added in committee does two things; number one, it adds an immediate effective date and, number two, the second part of the amendment was requested by the...by CIPCO, their lobbyist, and what it...it changes the wording so that it reduces the number of categories the utility company has to delineate upon the utility bill.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right, Senator...Senator Welch, there are...is a...there is a committee amendment on the Floor amendment. I think you've explained both. Senator Welch has moved the adoption of Committee Amendment No. 1 to Senate Bill 406. Is there any discussion? If not, those in favor will signify by

saying Aye. Opposed Nay. The Ayes have it. Committee Amendment No. 1 is adopted. Any further committee amendments?

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right, Senator Welch...Senator Welch.

SENATOR WELCH:

I beg your pardon, Committee Amendment No. 1 was the immediate effective date. Committee...Floor amendment, which is Amendment No. 2, states it clearly identifies the customer's rate classification.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right, Senator Welch moves the adoption of Amendment No. 2 to Senate Bill 406. Is there any discussion? Senator DeAngelis.

SENATOR DeANGELIS:

A question of the sponsor.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Indicates he will yield. Senator DeAngelis.

SENATOR DeANGELIS:

Is this the so-called clarifying amendment?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Welch.

SENATOR WELCH:

That's my understanding, yes.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Welch has moved the adoption of Amendment No. 2. Is there any further discussion? Senator Maitland.

SENATOR MAITLAND:

Thank you, Mr. President. A question of the sponsor.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Indicates he will yield. Senator Maitland.

SENATOR MAITLAND:

Senator Welch, I vaguely remember some of the...some of the areas that were discussed in...in committee and...and we were concerned about, you know, a voluminous type listing, and I'm...you know...what areas are you covering specifically?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Welch.

SENATOR WELCH:

Yes, Senator Maitland, let me clarify what I was saying. The opposition in the committee was that some of the utilities felt that the language in the original bill was not clear in that they thought I was asking them to delineate everything they charge for from plants to vehicles to advertising. What the amendment says is, it amends, at line 11 of the bill, and requires each billing statement which sets forth the charges assessed against a consumer by a public utility for the furnishing of gas for heat or cold or electricity shall, and here's the amendment, "clearly identify the customer's rate classification in a manner readily understandable." That language, Senator Maitland, was worked out in conjunction with the...CIPS and the Commerce Commission and it...they offered the amendment to me. So, I believe it takes care of their problem.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right, further discussion? Senator Welch has moved the adoption of Amendment No. 2 to Senate Bill 406. Those in favor indicate by saying...by saying Aye. Opposed Nay. The Ayes have it. Amendment No. 2 is adopted. Any further amendments?

PRESIDING OFFICER: (SENATOR SAVICKAS)

SENATOR DAVIDSON:

Yes, there was some...some possibility of...the way the bill was written that there could be a conflict on whether it was through the court or through the board on the penalty and how it could be...reduced and rather it being rebated and the word reduce went in so it could be reduced so we wouldn't have to worry about appropriating. SENATOR D'ARCO:

Thank you, Mr. President. The amendment restates the requirements of the bill and adds some clarifying language by the Department of Insurance. The amendment adds procedures for the enforcement provisions by the Department of Insurance. And it deletes all...all the other substantive language and inserts the contigent reserve requirements for the Dental Service Corporation, it defines subscription revenue, it requires two percent accumulations for subsequent years, requires net worth to equal or exceed the contingent reserve, allows contributions to cease when five percent average annual...subscription revenue is reached and upon a deficiency the director of insurance must be notified and a plan for filing corrections of the deficiency must be implemented. That is substantially what Amendment No. 1 does and I would move to adopt it.

SENATOR BLOOM:

SENATOR GEO-KARIS:

Would the sponsor yield for a question?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Indicates he will yield, Senator...Geo-Karis.

SENATOR GEO-KARIS:

Senator DeAngelis, by your amendment are you saying...I just want to understand your amendment 'cause I'm not quite clear. Are you saying that the Illinois...the Health Facilities Planning Agency would not have any right to effect the change of number of beds under your amendment? Would you explain it, please?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator...Senator DeAngelis.

SENATOR DeANGELIS:

Are you talking about the Floor amendment?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Geo-Karis.

SENATOR GEO-KARIS:

Yes, your last amendment I believe it was.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator DeAngelis.

SENATOR DeANGELIS:

It lowers the exemption from thirty beds down to ten beds.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Geo-Karis.

SENATOR GEO-KARIS:

What do you mean by exemption, would you explain it in easy language for me?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator DeAngelis.

SENATOR DeANGELIS:

Well...you could bypass the certificate of need if you were expanding by ten beds.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator...further discussion? Senator Bloom, your light is still on. Senator Bloom.

SENATOR BLOOM:

Well,...yeah, okay. This bill by virtue of the amendment that the hospital association caused to be put on in committee and now by virtue of the two Floor amendments is rather...one Floor amendment...is rather controversial. I thought we were just going to kind of move through the Calendar and...no...okay. Because what...what this does is absolutely turn the evaluation of policy towards capital planning and health care delivery on its head by virtue of the committee amendment and the Floor amendment...Floor Amendment No. 1. And I would...say that the effects of this will be especially devastating in terms of policy and health care delivery in not only the Chicago area but in other urban areas downstate and it won't be any great shakes in the rural areas downstate. And I would caution the membership...that what we are seeing here is an end run around the Health Finance Reform Act...that this Body labored on for two

years last year and finally passed. I would urge rejection of this amendment, and as the bill presently is, urge opposition on 3rd reading.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Further discussion? Senator Savickas.

SENATOR SAVICKAS:

Yes, Mr. President, if I read the amendment correctly, this will circumvent the certificate of need. You're dropping it to ten beds on the expansion but in each year if you expand by ten beds you...you just circumvent the certificate of...or...the authority's certificate of need to expand. So you could accomplish what you have to do now by showing the certificate of need just by waiting and each year expanding under the ten-bed provision. Is that correct?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator DeAngelis. Senator DeAngelis.

SENATOR DeANGELIS:

Senator Savickas, the bill...the amendment that was put on in committee permitted the expansion without a certificate of need of thirty beds over two years. This says it can only be ten beds over a one-year period.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Further discussion? Senator Schuneman.

SENATOR SCHUNEMAN:

Question of the sponsor, Mr. President.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Indicates he will yield. Senator Schuneman.

SENATOR SCHUNEMAN:

Our analysis indicates that in addition to changing the limitation on beds that you're also raising the capital expenditure limit from six hundred thousand to three million dollars. Is that three million dollars in any one year or what is that, Senator?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator DeAngelis.

SENATOR DeANGELIS:

Well, that was Committee Amendment No. 1, Senator Schuneman, and I believe it's over a two-year period. This is not the Floor amendment.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Schuneman...Senator Schuneman.

SENATOR SCHUNEMAN:

Well, have we adopted the Floor amendment, Mr. President? I thought that's...that was the issue?

PRESIDING OFFICER: (SENATOR DEMUZIO)

We have adopted Committee Amendment No. 1, we are on Floor...the first Floor amendment, Amendment No. 2.

SENATOR SCHUNEMAN:

Okay, so how does your...how does your Floor amendment change...change that provision then, if any, Senator?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator DeAngelis.

SENATOR DeANGELIS:

It does not, Senator Schuneman.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Schuneman.

SENATOR SCHUNEMAN:

Well, I just think the members ought to be aware of what's going on here. Apparently we've already adopted the amendment that makes these significant changes, but in the last several years this Senate has spent many, many hours trying to accomplish some kind of cost containment within our hospital systems. We...many years ago, or a number of years ago, established the Health Facilities Planning Board which would have to give prior approval to many of these hospital expansions throughout the State and last year passed Senate Bill 495; but this bill tends to indicate that hospitals now can spend up to three million dollars without any approval,

without any certificate of need and, of course, also changes this bed requirement. Now apparently we're past that particular amendment but I think the members ought to be aware of what's happening here.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Further discussion? Senator DeAngelis may close.

SENATOR DeANGELIS:

Well, nobody's...there's nothing sinister about this approach, Senator Schuneman. That bill was...that amendment was aired in committee and passed in committee, there's no attempt at all to disguise that. When we get to 3rd reading the bill will be explained thoroughly and you can vote it up or down at that time.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Senator DeAngelis moves the adoption of Amendment No. 2 to Senate Bill 624. Those in favor signify by saying Aye. There's been a request for a roll call. Senator DeAngelis moves the adoption of Amendment No. 2 to Senate Bill 624. Those in favor of the adoption of the...Senator DeAngelis, for what purpose do you arise?

SENATOR DeANGELIS:

Let me clear...

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator DeAngelis.

SENATOR DeANGELIS:

...let me clear up the confusion because I think...the amendment makes the bypass more restrictive. So those people who are concerned with the body of the bill ought to know what we're voting on on this second amendment. It lowers the exemption from thirty beds over a two-year period to ten beds over a one-year period.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Senator, the debate was

closed...the...the...those in favor of the adoption of Amendment No. 2 to Senate Bill 624 will vote Aye. Those opposed will vote Nay. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Take the record. On that question, the...the Ayes are 21, the Nays are 24, 1 voting Present. The amendment fails. Amendment No. 2 fails. Further amendments?

SECRETARY:

Amendment No. 3 offered by Senators Bloom, Dawson and Carroll.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Lechowicz, for what purpose do you arise?

SENATOR LECHOWICZ:

On a motion to reconsider the way...the Amendment No. 1 which was adopted. Having voted on the prevailing side, I move to reconsider the vote by which Amendment No. 1 was adopted. And that's in order. Amendment No. 1 was adopted by a voice vote.

PRESIDING OFFICER: (SENATOR DEMUZIO)

I'll let...I'll let you know when it's in order. Senator Lechowicz has moved...having voted on the prevailing side, has moved to reconsider the vote by which Amendment No. 1 was adopted. All right. Senator DeAngelis.

SENATOR DeANGELIS:

Yeah, I'm going to hold the bill on 2nd reading.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Well, if Senator Lechowicz has a motion to reconsider the...the vote by which Amendment No. 1...Committee Amendment No. 1 was adopted, do you wish to hold that motion and work out the differences? Senator Lechowicz.

SENATOR LECHOWICZ:

I'll withdraw that motion.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Senator Lechowicz...has withdrawn his motion.

2nd reading of the bill. The Committee on Agriculture offers one amendment.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Netsch.

SENATOR NETSCH:

Thank you, Mr. President. The committee amendment restructures the fee schedule in accordance with our wishes and that of the committee. This has to do with a permit fee system for air pollution, and the committee amendment eliminates what was in the bill previously and substitutes a fee schedule which is, I think, much more modest. It provides for sources...emitting twenty-five tons or more of pollutants at two hundred and fifty dollars a year, so-called major

SB 665 2nd reading

polluters; the minor polluters sources emitting less than twenty-five tons at seventy-five dollars an annual fee, and provides also that those fees are to be deposited in the Environmental Protection Permit and Inspection Fund so that we will be providing approximately a million dollars more for enforcement of air pollution standards. And it provides further that the fees may not be changed beyond...by the EPA beyond what is in the Act, unless, obviously, the Legislature should further act. I would move the adoption of Committee Amendment No. 1 to...Senate Bill 658.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Any discussion...any discussion? Senator Netsch moves the adoption of Committee Amendment No. 1 to Senate Bill 658. Those in favor will signify by saying Aye. Opposed Nay. The Ayes have it. Committee Amendment No. 1 is adopted. Any further committee amendments?

SECRETARY:

Senate Bill 665.

(Secretary reads title of bill)

2nd reading of the bill. The Committee on Revenue offers one amendment.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Lechowicz.

SENATOR LECHOWICZ:

Thank you, Mr. President, Ladies and Gentlemen of the

Senate. Amendment No. 1 by the Revenue Committee amends various tax costs concerning enterprise zones and it does basically the following. It provides an enterprise zone investment credit authorizing partnerships and Subchapter S corporations to participate in the investment credit. It amends the Public Utilities Act to provide a business locating within an enterprise zone and meeting specific criteria, they may apply for a refund on State municipal utilities tax for a period of five years providing that the county or...municipality desginated the enterprise zone must...must adopt an ordinance requesting that the tax is credited. It also provides that the carry-over of the enterprise zone investment credit in a job tax credit. Basically, that's what Amendment No. 1 does. It's been worked out with the Governor's Office and DCCA, and I would like to compliment both sides of the aisle on the progress of this amendment. I move for its adoption.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Senator Lechowicz has moved the adoption of Committee Amendment No. 1 to Senate Bill 665. Is there any discussion? Any discussion? If not, those in favor signify by saying Aye. Opposed Nay. The Ayes have it. Committee Amendment No. 1 is adopted. Any further committee amendments?

SECRETARY:

PRESIDING OFFICER: (SENATOR DEMUZIO)

Any amendments from the Floor?

SECRETARY;

Amendment No. 2 offered by Senator Lechowicz.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Lechowicz.

SENATOR LECHOWICZ:

Thank you, Mr. President. Amendment No. 2 is at the

request of DCCA. As you recall, we extended the number of enterprise zones last year from eight to twelve. This is a similar request for the year of 1985, and I move for its adoption.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Senator Lechowicz has moved the adoption of Amendment No. 2 to Senate Bill 665. Any discussion? Senator Netsch.

SENATOR NETSCH:

...thank you, Mr. President. I would like to point out...that this is a further acceleration of the enterprise zone designation procedure. I...as I understand it, it does not add to the total number of authorized enterprise zones, but it does add to the total number that may be designated next year. Is that correct, first, Senator Lechowicz?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Lechowicz.

SENATOR LECHOWICZ:

It's partially correct, Senator Netsch. Basically, what it does, the original legislation which was passed in 1982...designated eight enterprise zones to be allocated per year. Last year because of the number of requests that were pending and approved locally, as you know...they have to be approved locally first, DCCA requested that we increase it from eight to twelve, and basically the same situation occurs this year where they have a number of good valid requests to accommodate over the number of eight. So they're asking for...to twelve be designated again this year, so they can accommodate twelve respective enterprise zones in the State.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Netsch.

SENATOR NETSCH:

Well,...then, actually it is an increase in the authorized number at least on an annualized basis from...from eight

to twelve.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Lechowicz.

SENATOR LECHOWICZ:

The total number...remains the same, but basically you're granting them the same privileges they had last year. Eight to twelve.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Further discussion? Further discussion? Senator Netsch.

SENATOR NETSCH:

Well, I think we have the...the figures straight on it now. I just...I'm not quite sure what the rush is to get so many designated when we have not yet really gotten sufficient feedback on the extent to which they are all going to be achieving their purposes and not doing it at the expense of other areas of the State. I'm...I'm just reluctant to add the number at this early stage.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Senator Lechowicz has moved the adoption of Committee Amendment...or Amendment No. 2 to Senate Bill 665. Further discussion? Those in favor signify by saying Aye. Opposed Nay. The Ayes have it. Amendment No. 2 is adopted. Any further amendments?

SECRETARY:

No further amendments.

PRESIDING OFFICER: (SENATOR DEMUZIO)

3rd reading. Senator...Senator Rock.

SENATOR ROCK:

Thank you, Mr. President and Ladies and Gentlemen of the Senate. Two committees are scheduled are to meet, and I know a number of witnesses are waiting to testify. Agriculture will meet in Room 400 and Appropriations I will meet in Room 212. Absent any further announcements or further housekeeping business, I would be prepared to put a motion to adjourn

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Rock, if you'll hold that motion. The Secretary informs me that we moved a hundred and twenty-three bills off of 2nd reading today, thirty-nine of which were amended. Senator Keats, for what purpose do you arise?

SENATOR KEATS:

Thank...thank you, Mr. President. There are two bills, Senate Bill 845 and Senate Bill 867, of which I am listed as a sponsor, which I would like to have my name removed as a sponsor from the two bills, 845 and 867.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Senator Keats seeks leave of the Body to have his name removed from Senate Bill 845 and 867. Is leave granted? Leave is granted. Senator Friedland, for what purpose do you arise?

SENATOR FRIEDLAND:

Amendment No. 1 offered by Senator Rock.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Rock.

SENATOR ROCK:

Thank you, Mr. President and Ladies and Gentlemen of the Senate. This was the amendment that was discussed in committee. It makes three changes. It add...this...this bill was introduced at the request of the State Treasurer and the three changes are, it adds an immediate effective date, it specifies that bids for State deposits shall be solicited from credit unions exceeding fifty million dollars in assets pursuant to the treasurer's agreement in committee and further sets up a system in conjunction with the superintendent of the State Lottery that instead of buying annuities they will be buying Zero Coupon Bonds. It will save...in payment of those large lottery prizes this legislation will in the opinion of the superintendent of the lottery and the State Treasury save a good deal of money for our State. I know of no objection. I'd move the adoption of Amendment No. 1.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Demuzio.

SENATOR DEMUZIO:

SB 669 2nd Reading

Thank you, Mr. President. The committee amendment makes two changes in the bill. First, it requires the State Board of Education rather than the State Teachers' Certification Board to report the information that's outlined in this bill. It's the staff's understanding that the State Board of Education already collects the data that's required and...and if any additional information or collection mechanism needs to be established the agency clearly has more staff and resources than the State Board of...Certification Board to accomplish the task. I move the adoption of Committee Amendment No. 1.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Is there discussion? If not, Senator Demuzio moves the adoption of Amendment No. 1 to Senate Bill 668. Those in favor indicate by saying Aye. Those opposed. The Ayes have it. Amendment No. 1 is adopted. Any further committee amendments?

SENATOR DEMUZIO:

The committee amendment deletes the requirement that the...that the director of Central Management Services adopt permanent regulation and rates if the...Travel Regulation Council fails to adopt such. If the council fails to adopt such the...the director of Department of Central Management Services is required to adopt emergency regulations and the rates...and then proceed to adopt permanent regulations and rates. SENATOR GEO-KARIS:

Mr. President and Ladies and Gentlemen of the Senate, the amendment that I'm offering is a technical amendment suggested to me by the Legislative Reference Bureau. What it does, it deletes the word "preserve" and puts "preserve district" on line 1, page 18, and I move its passage.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Hudson.

SENATOR HUDSON:

Thank you, Mr. President, members of the Senate. What Committee Amendment No. 1 does is to delete all changes to the Bank Holding Company Act, thus the commissioner's powers are not expanded as they relate to the bank holding companies. The amendment creates three new advisory committees for the commissioner which he will chair. It also changes the name of the Board of Banks and Trust Companies to the State Banking Board and adds four members. I would move adoption of the amendment.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Hudson has moved the adoption of Committee Amendment No. 1 to Senate Bill 835. Is there any discussion? If not, those in favor signify by saying Aye. Opposed Nay. The Ayes have it. Committee Amendment No. 1 is adopted. Any further committee amendments?

SENATOR DeANGELIS:

Thank you, Mr. President. Committee Amendment No. 1 is essentially a rewrite of the substantive parts of the bill due to some drafting errors in the original bill. I move for its adoption.

PRESIDING OFFICER: (SENATOR DEMUZIO)

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Sangmeister.

SENATOR SANGMEISTER:

Thank you. I believe Senator DeAngelis is indicating to me now that he is not aware of this amendment, is that cor-

rect, Senator? All we were doing is what I indicated in committee, and that is striking that line 4, that says, "an easement for other purposes." You know, we didn't know what that...is that okay? All right. Then this amendment will strike the language, "an easement for other purposes" and confine easements to their specific titles rather than the broad "an easement for other purposes." Move the adoption of the amendment.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right. Any discussion? Senator DeAngelis.

SENATOR DeANGELIS:

Senator Sangmeister,...I have a question of Senator Sangmeister.

PRESIDING OFFICER: (SENATOR DEMUZIO)

SENATOR DeANGELIS:

You are aware that...that is part of the current law right now that you're striking?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Sangmeister.

SENATOR SANGMEISTER:

Well, it can't be because it's underlined in here. Now, it may be in some other section of the Statutes. I don't know where this was...

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator DeAngelis.

SENATOR DeANGELIS:

Well, Senator Sangmeister, as I said in my opening comments, we redrafted this; and for the reason that we redrafted it, we rearranged it. That's why it's underlined.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Sangmeister.

SENATOR SANGMEISTER:

I believe that is correct, but I still think that that

terminology ought to come out of there, because I think it's just too broad. Do you have a problem with that? I thought that but we kind of agreed on that in committee. All right? Okay. Move the adoption of the amendment.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Further...all right. Further discussion? Senator Sangmeister moves the adoption of Amendment...of Amendment No. 2 to Senate Bill 836. Those in favor signify by saying Aye. Opposed Nay. The Ayes have it. Amendment No. 2 is adopted. Any further amendments?

the easement bill? What staff has done, they've gone down to the Reference Bureau and combined Amendment 1 with the Amendment 2. PRESIDENT:

Senator Marovitz on Committee Amendment No. 1.

SENATOR MAROVITZ:

Thank you, very much, Mr. President and members of the Senate. Amendment No. 1 to Senate Bill 910 deals with disclosures using to determine how well...a financial institution has served the community when it attempts to offer new services or acquire another financial institution. The...the program described in the amendment consists of two parts. First of all, the first part requires all financial institutions to make their residential, small business and agricultural loan activity a matter of public record each year. This would require including the number and amount of residential, multi-family, home improvement, agricultural and small business loans so it would enable members of the community...within which the bank operates to see how well that bank has served the community. And secondly, the second part permits members of the community to testify at a hearing on that bank service to the community whenever that bank wishes to offer new services or whenever that bank wishes to acquire another financial institution. I would ask for adoption of Amendment No. 1 to Senate Bill 910.

PRESIDENT:

All right. Senator Marovitz has moved the adoption of Amendment No. 1 to Senate Bill 910. Any discussion? If not, all in favor indicate by saying Aye. All opposed. The Ayes have it. The amendment is adopted. Further amendments?

PRESIDENT:

Senator Jones.

SENATOR JONES:

No, I don't have any...other amendments, this is the only amendment that I have.

PRESIDENT:

Senator Newhouse.

Thank you, Mr. President. The bill is...as written is permissive, there's no intent to do anything otherwise.

PRESIDENT:

SENATOR HALL:

Thank you, Mr. President and Ladies and Gentlemen of the Senate. This amendment becomes the bill and what it does, it requires...empowers the board to make grants to minority controlled and female controlled business in those locations. I'd ask the adoption of this amendment.

PRESIDENT:

All right. Senator Hall has moved the adoption of Amendment No. 1 to Senate Bill 1129. Any discussion? Senator Lechowicz.

SENATOR LECHOWICZ:

Thank you, Mr. President. Will the sponsor of the amendment yield to a question?

PRESIDENT:

The sponsor indicates he'll yield, Senator Lechowicz.

SENATOR LECHOWICZ:

Thank you, Mr. President. I...as I read...this Amendment No. 1 on page 2, and I agree with the concept of the amendment but it also...requests that the board shall maintain an office in each of the following areas; in East St. Louis, the south part of the City of Chicago, the west part of the City of Chicago, and I was wondering, is that the normal course of action where we mandate where they have offices as well in State Government?

PRESIDENT:

Senator Hall.

SENATOR HALL:

Well, the reason it was drawn like that, Senator, was that's...that's just where most of this action would be. I have no objection to placing in other places. That was the only reason, that we're trying to...to draw it to places that were...depressed areas and that was the reason why it was drawn like that. But I have no...no quim...qualms about placing elsewhere.

PRESIDENT:

Senator Lechowicz.

SENATOR LECHOWICZ:

Well, I just wanted to bring to the attention of the Body that this amendment does more than initially it was stated, and I...I agree with the concept of the amendment but I am opposed to the designation of where...where the offices are supposed to be located in certain areas. I believe that especially in the City of Chicago we should have access for everyone to participate in this program and not saying that the office has to be on the west side or the south side; probably a centrally located office would be more beneficial for everyone concerned, and for that reason,I'm going to oppose this amendment or just going to record it as...as no.

PRESIDENT:

Further discussion on Amendment No. 1 to Senate Bill 1129? If not, Senator Hall moves the adoption of Amendment No. 1 to Senate Bill 1129. All in favor indicate by saying Aye. All opposed. The Ayes have it. The amendment is adopted. Are there further amendments?

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Netsch.

SENATOR NETSCH:

Thank you, Mr. President. Committee Amendment No. 1 is the...is reflective of some concerns that were raised by members during the course of the hearing and it was approved, I think, by parties on both sides of the aisle. This deals with a private right of action for violation of the Consumer Fraud Act. The amendment deletes the interested person concept which was a little bit of concern to others and uses the word "consumer" which is already defined in the Act, so it is a consumer who has a right to seek injunctive relief when it is turned down...earlier by the Attorney General. The...as I say, the amendment was one that was approved by both sides and I would now move its adoption.

SENATOR LECHOWICZ:

Thank you, Mr. President. Amendment No. 2 would state that beginning in 1986 and '87 would require students to complete one semester of course instruction in computer literacy as a prerequisite in receiving a high school diploma, and I move for its adoption.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Is there discussion? Senator Kustra.

SENATOR KUSTRA:

Thank you, Mr. President and members of the Senate. I would just point out that this was a bill which was heard last week in the Senate Executive...Senate Education Committee. It lost in the Senate Education Committee, and I think there is serious question whether we want to add another mandate on top of those we already have. I would think this should be a roll call vote.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Further discussion? Senator Lechowicz may close.

SENATOR LECHOWICZ:

Thank you, Mr. President, Ladies and Gentlemen of the Senate. Basically this is the same concept but a difference...the bill calls for one year of instruction and work...and working with the Illinois Education Association

they agreed to take the term of one semester in lieu of one year and that was the purpose of this amendment on this bill. I feel very strongly that this is a matter that should be discussed and really decided by the General Assembly from the standpoint that the art of education is changing. The State of New York requires one year of computer instruction before they can get a high school diploma. The Tribune and a number of...the Wall Street Journal has stated the importance of computer instruction for high school students. If you want to have people prepared to work in offices in this country, they have to have the requirements and have to have the ability to understand how to work with computers. This is a very important aspect, all...we're talking about is one semester and I move for its adoption.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Is there further discussion? Senator Philip.

SENATOR PHILIP:

Thank you, Mr. President and Ladies and Gentlemen of the Senate. I just would remind our members that how many times that we've had school administrators, school boards coming down to the General Assembly and saying, if you're mandating us a program you ought to pay for it. Now who's going to pay for this mandated one year...computer...quite frankly, I think it's a good idea. There's a lot of school districts that can't afford it, there's a lot of school districts that are shrinking in students, the tax base in going down and where's the money coming from? Once again, we're telling those local school districts what to do and not providing money.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Lechowicz, you're allowed to close again. Senator Lechowicz.

SENATOR LECHOWICZ:

Well, let me just address that question because I'd also

addressed in the closing before. Right now in the State of Illinois in all the expenditures...spends approximately six billion dollars in education. Out of that is 2.4 billion comes out of the State General Revenue Funds, the rest of it is primarily property taxes and Federal funds. Out of the 2.4 billion, a hundred and fifty...a hundred...one million five hundred thousand is for computer education. That's how insignificant our funding is in this area. I have written a letter to Ted Sanders. I have written other correspondence requesting that a comprehensive study be given between the private and the...and the public sector in education, the amount of money that's being spent in this State to show how...how inadequate it is in comparison to other states. That's why I think this is a very important program and deserves your support.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Lechowicz moves the adoption of Amendment No. 2 to Senate Bill 1211. Those in favor indicate by saying Aye. Those opposed. The Ayes have it. Amendment No. 2 is adopted. Any further amendments? 3rd reading.

ACTING SECRETARY: (MR. FERNANDES)

...no further amendments.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senate Bill 1213, Senator Nedza. Sorry, I did not hear him. Is he joined by...four other Senators? Obviously. On Amendment No. 2 to Senate Bill 1211, a roll call has been requested. Will all the members be in their seats. Senator Lechowicz moves the adoption of Amendment No. 2 to Senate Bill 1211. All those in favor will indicate by voting Aye. All those opposed will vote Nay. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Take the record. On that question, the Ayes are 30, the Nays are 27. The amendment having received a majority vote is declared adopted. 3rd reading. Senate Bill

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator D'Arco.

SENATOR D'ARCO:

Thank you, Mr. President. Amendment No. 1 changes the word...deletes the word "superintendency" to include all administrative positions not just the superintendent's position, and it also inserts after the word "sources," "State and Federal Grants" to be included in potential sources to administer this program. And I would ask to adopt Amendment No. 1 to Senate Bill 1214.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Any amendments from the Floor?

ACTING SECRETARY: (MR. FERNANDES)

Amendment No. 1 offered by Senator Schaffer.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Schaffer.

SENATOR SCHAFFER:

Amendment No. 1 is one of a series of amendments I have filed on some of the education "reform" bills. It simply provides, and I think some of you might be interested in this, that the school district shall be required to comply with the provisions of the Amendatory Act only if the amount they receive from the State general...State General Aid and State Grant-in-Aid from the school year...previous school year and...every year thereafter...after...exceeds the amount received from the sources from the preceding school year. In other words, if we don't pay for it, they don't have to do it. My great concern on this education reform year is that we pass a whole bunch of reforms we don't pay for, and when the smoke clears, we discover that our school districts to implement our reforms are busy hiring more administrators and paper shufflers but, in fact, have to lay off front line teachers and cut the quality of their program. So, simply what we're saying is, it's only a mandate if we pay for it; if we don't pay for it, they don't have to do it.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Is there discussion? If not, Senator Schaffer moves the adoption of...Senator Berman.

SENATOR BERMAN:

Thank you, Mr. President. I rise in opposition to this amendment. Now let me...as I read the amendment, it requires

that the amount of previous year school aid increased by the amount of the cost of this program. Now this program under this bill, which is part of the package of bills dealing with the Hispanic Student Dropout Study Committee, calls for vocational and career counseling for minority students. Now, I understand what Senator Schaffer wants to do but he's doing it the wrong way, because there are other reasons that school aid may go up or may go down which has no relationship at all with the cost of this program. We already have on the books of the State of Illinois what Senator Schaffer is trying to do and that's called the State Mandate's Act. This amendment does nothing that adds to that...already existing Statute, the State Mandate's Act. If we're requiring, as we are in this bill, that school districts have career counseling and vocational counseling, then the State must pay for it under the existing provisions of the State Mandate's Act. Senator Schaffer's amendment would say that even if a school district deserved to go down in State aid because of a decrease in pupils or because of an increase of assessed valuation that they wouldn't have to comply with this Act even if those other things caused their State aid to go down. That's turning the whole State aid process and the Mandate's Act up on its ear. I urge a defeat of this amendment.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Is there further discussion? Senator Schaffer.

SENATOR SCHAFFER:

I...I expected a...skillful rebuttal and of course we had it. The simple fact of the matter is that our staff worked on this and we tried seven different approaches and there are...I don't think there is an approach that would satisfy my learned colleague from the City of Chicago. Let's just say a lot of us have just had a belly full of mandating things and not paying for them. I think the amendment would at least give a school district an out; they could say, look,

you didn't send us any money, we aren't going to do this. And I think it's appropriate and I think you're going to hear a lot about this in the course of the next few months and I think the roll calls we establish, and by the way, I would like a roll call, in the next few days and I did not, by the way, single this particular bill out as your staff knows. We filed a number of amendments to bills regardless of sponsorship or direct intent in various programs. It's time for us to stop mandating things we don't pay for and that's what this roll call is all about. If you want to mandate it and don't pay for it, fine, business as usual. If you think we ought to be responsible and if we're going to mandate it, pay for it, support the amendment.

PRESIDING OFFICER: (SENATOR SAVICKAS)

The question is on the adoption of Amendment No. 1 to Senate Bill 1217. Those in favor will vote Aye. Those opposed vote Nay. The voting is open. Have all voted who wish? (Machine cutoff)...that question the Ayes are 28, the...take the record, Mr. Secretary. On that question, the Ayes are 28, the Nays are 27, none voting Present. Amendment No. 1 having received the majority vote is declared adopted. For what purpose does Senator Rock arise?

SENATOR ROCK:

Verification of the affirmative vote.

PRESIDING OFFICER: (SENATOR SAVICKAS)

A verification of the affirmative vote has been requested. Would all the Senators please be in their seats and will the Secretary call the affirmative vote.

ACTING SECRETARY: (MR. FERNANDES)

SENATOR ROCK:

Senator Jerome Joyce.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Jerome Joyce. Senator Jerome Joyce on the Floor? Strike his name off the record. Mr. Secretary. There are now 26 Ayes and 27 Nays. The motion having failed to receive the required vote is declared lost. Senator Schaffer, what purpose do you arise?

SENATOR SCHAFFER:

Oh, I thought we might look for the negatives too while we were in the mood. I don't know whether we're wasting time

or not but let's try it this first time.

PRESIDING OFFICER: (SENATOR SAVICKAS)

On the first time on a negative vote. Will all the members please be in their seats. Will the Secretary please call the negative roll.

ACTING SECRETARY: (MR. FERNANDES)

The following voted in the negative: Berman, Carroll, Chew, Collins, D'Arco, Darrow, Dawson, Degnan, Demuzio, Hall, Holmberg, Jones, Jeremiah Joyce, Kelly, Lechowicz, Lemke, Luft, Marovitz, Nedza, Newhouse, O'Daniel, Poshard, Sangmeister, Savickas, Smith, Vadalabene, Mr. President.

ACTING SECRETARY: (MR. FERNANDES)

No further amendments. Yes...

PRESIDING OFFICER: (SENATOR SAVICKAS)

3rd reading.

ACTING SECRETARY: (MR. FERNANDES)

...no...no, I'm sorry. There is Amendment No. 2, by Senator Berman.

PRESIDING OFFICER: (SENATOR SAVICKAS)

We have Senate Bill 1217 back on the...on the Order of 2nd Reading for Amendment No. 2. Senator Berman.

SENATOR BERMAN:

This is just an effective date amendment. Move the adoption.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Is there discussion? If not, Senator Berman moves the adoption of Amendment No. 2 to Senate Bill 1217. Those in favor will indicate by saying Aye. Those opposed. The Ayes have it. Amendment No. 2 is adopted. Any further amendments?

ACTING SECRETARY: (MR. FERNANDES)

No further amendments.

PRESIDING OFFICER: (SENATOR SAVICKAS)

3rd reading. Senate Bill 1218, Senator Rock. Read the bill, Mr. Secretary.

ACTING SECRETARY: (MR. FERNANDES)

Senate Bill 1218.

(Secretary reads title of bill)

2nd reading of the bill. No committee amendments.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Rock.

SENATOR ROCK:

Thank you, Mr. President and Ladies and Gentlemen of the Senate. This, too, is a recommendation of the Hispanic Drop-out Study Task Force, and it calls for the utilization of a tutoring program to be afforded by the private and public schools. It was intended to include both; in fact, the way the bill was drafted it was applicable only to public schools of higher learning that would afford counseling and tutoring service. Amendment No. 1 merely deletes the word "public" so it is applicable to all schools...because, in fact, this is now being done by three institutions of higher learning who are, in fact, private. And I would move the adoption of Amendment No. 1.

PRESIDING OFFICER: (SENATOR SAVICKAS)

I jumped the gun a little, we didn't ask for amendments from the Floor. I recognized Senator Rock for his explanation. Mr. Secretary, do we have amendments from the Floor?

ACTING SECRETARY: (MR. FERNANDES)

Amendment No. 1 offered by Senator Rock.

PRESIDING OFFICER: (SENATOR SAVICKAS)

And Senator Rock just gave the explanation. He now moves the adoption of Amendment No. 1 to Senate Bill 1218. Is there discussion? If not, all those in favor indicate by saying Aye. Those opposed. The Ayes have it. Amendment No. 1 is adopted. Any further amendments?

ACTING SECRETARY: (MR. FERNANDES)

Amendment No. 2 offered by Senator Schaffer.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Schaffer.

SENATOR SCHAFFER:

This is the same amendment that we offered to the previous bill, basically says if the State doesn't ante up the money, the schools are exempted from it. I could go into the same explanation, I think the same arguments are there. I think if we're going to mandate it, we ought to pay for it.

And, again, it's not singled out on any program, we filed these on all the...bills where it seemed appropriate. If we're going to have a roll call, we all might try to be here, we can cut down the verification.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Is there discussion? If not, Senator Schaffer...Schaffer...Senator Rock.

SENATOR ROCK:

Thank you, Mr. President. I was not aware that there was to be an amendment offered. I would have been obviously better prepared substantivewise and Bodywise. But the fact is, the amendment is equally as bad and I think the...the gentleman really overlooks what the thrust of this task force report is. I think these services can well be provided within the existing budget; they ought to be provided within the existing budget if, in fact, we are serious about reducing the dropout. Now, we are going to argue long and hard and...and I presume at great length on education reform and I think this amendment simply ought to be defeated. And I would again request a roll call.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator, if we have...three Senators that have sought recognition; Senator Berman, Collins and Nedza. Senator Berman.

SENATOR BERMAN:

Thank you. I hate to belabor it but it looks like we're going to have to play the tapes back a couple of times on...on this Floor on 2nd reading on this issue. For those of you that voted in the affirmative, let me point out to you that you are not delivering any kind of a message as far as funding of programs. What you are doing on these amendments is to say that you want to dump the entire process of equalized appropriation depending upon local wealth. When you vote Aye, what you're saying is that regardless of the amount

of money that a school district ought to receive based upon the formulas that we've adopted on this Floor, regardless of that, they ought to get extra money over and above last year's appropriation to fund this. That doesn't make any sense, that doesn't make any sense. We're already required under the Mandate's Act to fund every required mandate that we pass. That Mandate's Act applies to this bill as it did to the previous bills. And Senator Schaffer is delivering a message, it's the wrong message, and I would urge that you not support him and therefore vote No, because you are going to undermine a fine program that's embodied in these bills that Senator Nedza and his commission worked on...long and hard. And I would urge that a No vote be cast on this amendment.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Nedza.

END OF REEL

REEL #4

SENATOR NEDZA:

Thank you, Mr. President and Ladies and Gentlemen of the Senate. I thank Senator Berman for his kind remarks but I stand opposed to the amendment because what we're talking about here it's not applicable to it. We're talking about private institutions, so I don't know how you're going to demandate or mandate private institutions. This is a program which is...is presently enforced with some private institutions. You're not talking about mandating anything to them, and I urge your No vote on this amendment.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Is there further discussion? If not, Senator Schaffer may close.

SENATOR SCHAFFER:

Well, I...I can't help but comment on my learned colleagues from Chicago's defense of the current formula. I believe the districts he represents are over fifty percent State funded; the ones I represent go down as far as under five percent State funded. So, obviously, if anybody is going to lose money, when you're under five percent State funded, how do you lose much? If his argument has validity, I should be against the amendment and he should be for it because it protects those districts that receive a high percentage of support from the State already. Those of us who received what fell through the cracks on the way through the formula process really don't have much to gain 'cause you can...you can give us more than we got last year simply by sending us the...pop bottle returns from the State Office of Education. Quite frankly, that argument shouldn't have a whole lot of validity. The simple fact of the matter is, if

we aren't going to pay for something, we shouldn't mandate it, and this is no reflection on this bill. I happen to agree with the bill. I happen to agree with the work of the commission that drafted the bill. It's a problem that needs to be addressed, but it's also one that if we're going to mandate anything, we ought to pay for it. Certainly, if we can't find the money to pay for this mandate, then we all ought to hang our heads in shame; and if we are not prepared to find the money for this mandate, we shouldn't support it.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senate...Senator Schaffer moves the adoption of Amendment No. 2 to Senate Bill 1218. Senator, did you request a roll call or do you...just a voice vote. Those in favor indicate by saying Aye. Those opposed. Senator, it did sound like the Nays prevailed, but I will...we will have a roll call. On the question of adoption of Amendment No. 2 to Senate Bill 1218, those in favor will vote Aye. Those opposed vote Nay. The voting is open. Have all voted who wish? Have all voted who wish? Take the record. On that question, the Ayes are 27, the Nays are 27. It would also give the landowner, a man who is paying the fee, an opportunity for a fifty percent bonus if he participates and gives him first opportunity to be considered since he's the one who paid the tax in the first place. I move the adoption of Amendment No. 1.

ACTING SECRETARY: (MR. FERNANDES)

Amendment No. 1 offered by Senator Schaffer.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Schaffer.

SENATOR SCHAFFER:

This amendment doesn't have anything to do with the other subject, I should point out very quickly. We have passed a number of these checkoff bills, and I...I will tell you, quite frankly, the first checkoff was the Nongame...Fund and I sponsored that myself. It's pretty obvious that we are going to be passing a large number of these checkoffs for very worthy causes. This amendment simply says that if a...if a...not this particular checkoff but any of the checkoffs fail to bring in a hundred thousand dollars a year, in any given year, they're off the tax form the next year. If we can't take in a hundred thousand dollars for checkoff for veterans or mental health or any of these causes, it's probably not worth the expense and confusion for the Department of Revenue to keep these things on the tax form and, frankly, if we're going to do what I think we're going to do which is have a whole page of these things, this would be a way to constantly keep the groups on their toes to make sure they take in that hundred thousand dollars before they can...so they can guarantee staying on the tax form. I think the idea has merit. I will confess to having thought of it myself. I can't blame the Department of Revenue or anyone else on it, but if we're going to do this, I think we better put a bottom line on it.

PRESIDING OFFICER: (SENATOR DEMUZIO)

...is there any discussion? Senator...Marovitz.

SENATOR MAROVITZ:

..you, Mr...Mr. President. A question of the sponsor.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Indicates he will yield. Senator Marovitz.

SENATOR MAROVITZ:

How many checkoffs do we presently have?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Schaffer.

SENATOR SCHAFFER:

Four, and this would not have affected any of them. The bottom on, I think, took in like a hundred and fifty-seven thousand dollars last year. A hundred and seventy-eight, I'm corrected. So, it's not aimed at anything in particular, it's just an arbitrary number.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Marovitz.

SENATOR MAROVITZ:

What are the four? And...and can you give me the figures for the last fiscal year?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Well, that's...Senator Schaffer.

SENATOR SCHAFFER:

I don't have them...here, which means the staff doesn't have them here, but we can given them to you, but it's nongame checkoff, veterans, child abuse and veterans' home, nongame wildlife, food and housing assistance...we...we think...the figures, we don't have them for '84, but we think...food and assistance will come in but it comes substantially above the one hundred thousand dollar figure, and in '83 the veterans' home was the lowest at a hundred and seventy some thousand. So, it's not aimed at any of these but, frankly, if we end up with twenty-eight of these things on the tax form, I suspect the effectiveness of all of those on the tax form will be diluted.

PRESIDING OFFICER: (SENATOR DEMUZIO)

Further discussion? Senator Marovitz.

SENATOR MAROVITZ:

Well, let...let me just ask one question. I'm not arguing the merits of the thing 'cause I'm not even sure how I feel about it, but if...if we wind up with ten of them on and the eleventh doesn't reach a hundred thousand, what does it cost us to put the eleventh on?

PRESIDING OFFICER: (SENATOR DEMUZIO)

Senator Schaffer.

SENATOR SCHAFFER:

I think, frankly, the only way you could tell that would be at that point that you have to print an extra page on the tax form, and then I suspect it would be substantial. I would suggest to you, the implications for the...the ones that are left of having the small ones that are only taking in twenty-five or thirty thousand dollars a year probably is more negative towards those...those major things such as veterans' home and...and nongame checkoff. I think we want to avoid having six pages of checkoffs. If they can make a hundred thousand a year, fine. Now the hundred thousand dollar figure, there's nothing holy about that. If somebody's got a better criteria, I'm willing to go along with it, but that's the figure we started with.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right, further discussion? Senator Smith.

SENATOR SMITH:

Thank you, Mr. President and to members of the Senate. I did not want to put any type of a cap on this because I'm in sympathy with the work of the mentally handicapped, and the...the amendment came to me yesterday, this young lady who represented it to Schaffer, and then I went over and I talked...and I talked to some of my colleagues here. We...always monetary. We're not thinking about the cause. If people want to take monies of their own and give to these

causes, who are we, here in this legislative Body, to stop them? You're thinking in terms of yourself, but you're not thinking in terms of the cause. Now I'll go along with this amendment but I want you to know because I took the fiscal note; the fiscal note stated that...Senate Bill 1240 will have no net impact on the State revenue whatsoever and then...no, I'll go along with it, and that he's going to put a cap on it that if they don't raise monies of one hundred thousand dollars in one year, then...to eliminate that. But I'll go...no, I'll...I'll accept their amendment.

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right, further discussion? Senator Chew. You're on. Senator Chew. All right, further discussion? Senator Schaffer has moved the adoption of Amendment No. 1 to Senate Bill 1243. For...Senator Smith.

SENATOR SMITH:

Thank you, Mr. President and to the members of the Senate. I appreciate what has been said, but in regards to this bill, because I want it to pass, I will accept the amendment and hope that if the people really want to support this in one year, they'll do their part...

PRESIDING OFFICER: (SENATOR DEMUZIO)

All right...

SENATOR SMITH:

...thank you. I'll accept the amendment.

SENATOR NETSCH:

Thank you, Mr. President. The committee amendment reflects a number of procedural and, if you will, mechanical changes that were suggested by the Governor's Office. This has to do with the allocation of the Federal cap that has been put on private activity bonds. What we have done is to put into statutory form, in effect, what the Governor's Executive Order did. These were additional suggestions to make it work more sensibly. I had no problem with them and the detail of what we are doing will be explained further when the bill is called on 3rd reading. In the meantime, I would move the adoption of Amendment No. 1 to Senate Bill...excuse me, 1318.

PRESIDENT:

3rd reading. All right, the hour is two-thirty, let me just indicate there have been two requests with respect to resolutions. Senator Geo-Karis, for what purpose do you arise?

SENATOR GEO-KARIS:

Mr. President and Ladies and Gentlemen of the Senate, I have obtained the permission of the sponsor of Senate Bill 1050 to be added, myself, as an immediate cosponsor to same.

PRESIDENT:

All right, the lady seeks leave to be added as a cosponsor of 1050, Senate Bill 1050. Is leave granted? Leave is granted. Senator Nedza, for what purpose do you arise? Let me just indicate...we will handle these two resolutions; then there are committees scheduled which the chairmen, I'm sure, will announce their starting time. Tomorrow morning we will commence...there is a committee meeting at nine, so we will commence tomorrow at eleven-thirty and, hopefully, be in a position to conclude our business no later than two-thirty, and we will again be on the Order of 2nd Reading. As indicated, under the Agreed Bill process, when you return next Tuesday, there will be, I hope, an Agreed Bill List ready for your perusal and ultimate approval or disapproval. Senator Nedza, for what purpose do you arise?

SENATOR NEDZA:

Thank you, Mr. President. For a motion to discharge the Executive Committee from any consideration of...Senate Resolution 201 for its immediate consideration.

PRESIDENT:

All right, the gentleman seeks leave to discharge the Committee on Executive from further consideration of Senate Resolution 201 for its immediate consideration and adoption. All in favor of the motion to discharge indicate by saying Aye. All opposed. The Ayes have it. The motion carries. On the Order of Resolutions, Mr. Secretary, Senate Resolution

201. Yeah, Senator Resolution 2-0-1. Senator Nedza.

SENATOR NEDZA:

Thank you, Mr. President and Ladies and Gentlemen of the Senate. Senate Resolution 21 is the product of the Senate Transportation Committee's special hearing which was called to by the President of the Senate, Senator Rock; and at the time of the hearing, we took testimony with regards to the sale of Conrail to the Norfolk and Southern. The resolution in a fact...in effect is, "Resolve that the Illinois Senate respectfully urge the Congress of the United States to study the impact...the economic impact on each affected State before approving any disposition of Conrail into select...disposition...by which Conrail will remain an independent competitive...carrier." The testimony that we...we took garnered on...on the special hearing, the report and the resolution has been distributed throughout...to all the Senators, and without any further comments, I would move its adoption.

PRESIDENT:

Any discussion on Senate Resolution 201? Senator Hall, on 201?

SENATOR HALL:

No.

PRESIDENT:

Senator Vadalabene, on 201? Senator Marovitz, on...okay. Senator DeAngelis, on 201.

SENATOR DeANGELIS:

Thank you, Mr. President. A question of the sponsor.

PRESIDENT:

Sponsor indicates he'll yield. Senator DeAngelis.

SENATOR DeANGELIS:

Have you come up with any alternatives for the salvation of Conrail?

PRESIDENT:

Senator Nedza.

SENATOR NEDZA:

Senator DeAngelis, I wouldn't presume to...to know what the Congress is doing. All we're requesting is that Congress...because of the fact in the testimony it was bore out at our meeting there were not enough facts for even the purchasers or those who were not in favor of the purchasing to garner the facts. The Justice Department was handling it. There's just not enough facts available. The economic data was not available. If you would peruse...for your perusal go through the...the synopsis of the meeting, you'll find that that's what's being held true. All we're asking them to do is to evaluate it, find out how it's going to affect the State of Illinois and...and all the other states. We're concerned with the State of Illinois.

PRESIDENT:

Senator DeAngelis.

SENATOR DeANGELIS:

I basically would not be opposed to Conrail remaining independent. In fact, it runs through my district, but this resolution says we ought to kill the deal that is being made, but there's nothing that says there's another deal out there which then means that by killing this deal you might very well kill the railroad.

PRESIDENT:

Senator Nedza.

SENATOR NEDZA:

There's a great quantity of deals. There are...a series of entities that would like to purchase, notwithstanding a public stock offering. There's a...a whole bevy of opportunities but they seem to be predetermined to go into one area and that's the reason for the resolution.

PRESIDENT:

Senator Coffey.

SENATOR COFFEY:

Thank you, Mr. President and members of the Senate. I want to rise in support of this resolution that Senator Nedza has here today. I think after the hearings that we had in Chicago in regards to this buy out or purchase, we think it's in the best interest for...at least for the present time for the Congress to take another look, to make sure they know what they're doing before they make this move; and I think this resolution is a good one, and I think we ought to support it on this side of the aisle.

PRESIDENT:

All right, Senator Nedza has moved the adoption of Senate Resolution 201. Is there any further discussion? If not, all in favor of the adoption indicate by saying Aye. All opposed. The Ayes have it. The resolution is adopted. Further resolutions, Mr. Secretary?

SECRETARY:

Senate Resolution...Senate Joint Resolution 54 offered by Senators Philip and Rock.

PRESIDENT:

Senator Philip.

SENATOR PHILIP:

Thank you, Mr. President. I ask leave to discharge the Executive Committee and the immediate consideration of Senate Joint Resolution 54.

PRESIDENT:

All right, the motion is to suspend the rules for the immediate consideration and adoption of Senate Joint Resolution 54. All in favor of the motion to suspend indicate by saying Aye. All opposed. The Ayes have it. Motion carries. Now before the Body is Senate Joint Resolution 54. Senator Philip.

SENATOR PHILIP:

Thank you, Mr. President and Ladies and Gentlemen of the

Senate. This is the Senate joint resolution we pass every two years, and it basically exempts the Space Needs Commission in regards to the Public Meetings Act in regards to real estate. As you know, we're continually buying real estate and we're...this allows us to do that in private, not out in public. We've done it for the past five or six years. I'd be happy to answer any questions and I move its favorable consideration.

PRESIDENT:

Discussion on Senate Joint Resolution 54? Roll call will be required. It will require an extraordinary vote of the Senate. Question is the adoption of Senate Joint Resolution 54. Those in favor will vote Aye. Those opposed will vote Nay. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Have all voted who wish? Take the record. On that question, there are 49 Ayes, no Nays, 1 voting Present. Senate Joint Resolution 54 having received the required constitutional majority is declared adopted. Resolutions, Mr. Secretary.

SECRETARY:

Senate Resolution 203 offered by Senator Carroll. It's congratulatory.

Senate Resolution 204 offered by Senator Jerome Joyce and it's congratulatory.

PRESIDENT:

Consent Calendar. Further business, announcements to come before the Senate? Senator Collins. There are about nine lights flashing. We'll have plenty of time here. Senator Collins.

SENATOR COLLINS:

Yes, thank you, Mr. President. I'm...requesting leave to be added as a hyphenated cosponsor to Senate Bill 626 and Senate Bill 627. I have consulted with the sponsor.

PRESIDENT:

All right, the lady seeks leave to be added as a cosponsor to Senate Bills 626 and 627. Without objection, leave is granted. Senator Vadalabene.

SENATOR VADALABENE:

Yes, thank you, Mr. President. I would like to be named as hyphenated sponsor on Senate Bill 1358 and 1387; and while I'm on my feet, if anyone wants any more of the baseball Cardinal's schedule, they're...they're here on my desk and they're going like hotcakes.

PRESIDENT:

Gentleman seeks leave to be added as a cosponsor of Senate Bill 1358 and 1387. Without objection, leave is granted. Senator Mahar, for what purpose do you arise?

SENATOR MAHAR:

Thank you, Mr. President. I seek leave of the Body to be added as a hyphenated cosponsor to Senate Bills 1050 and 665. I have permission of the chief sponsor.

PRESIDENT:

Gentleman seeks leave to be added as a cosponsor of Senate Bills 1050 and 665. Without objection, leave is granted. Senator Karpiel, for what purpose do you arise?

SENATOR KARPIEL:

Thank you, Mr. President. I ask leave to be added as a hyphenated cosponsor on House Bills 51...I mean, 50 and 51 and I have the permission of the...the major sponsor.

PRESIDENT:

All right, the lady seeks leave to be added as a cosponsor of House Bills...House Bills 50 and 51. Without objection, leave is granted. Senator Marovitz, for what purpose do you arise?

SENATOR MAROVITZ:

Thank you, very much, Mr. President. Senator Holmberg requested to be a...a joint sponsor on the gang crime bills of Senator Sangmeister's and myself. I think that's Senate

Bill 201, 202, 204, 205, 206, 207, 208 and 209, and I would ask leave to add Senator Holmberg and Senator Carroll and Senator Collins to...and Senator Jones to those bills...and Senator Dawson. Those five...I'll...Holmberg, Collins, Carroll, Jones and Dawson.

PRESIDENT:

All right, the gentleman seeks leave to add Senators Holmberg, Carroll, Collins, Jones and Dawson to Senate Bill 201 to 209 inclusive. Without objection, leave is granted. Senator Carroll, for what purpose do you arise?

SENATOR CARROLL:

Thank you, Mr. President and members of the Senate. Just to remind those who are members of Appropriations I that we will be meeting at 9:00 a.m. tomorrow morning in Room 212. It is our final meeting to deal with Senate bills. There will be votes taken. We would appreciate as early an attendance as possible. If we can get started at nine, we can be out in time for Senate Session.

PRESIDENT:

Senator Davidson, for what purpose do you arise?

SENATOR DAVIDSON:

Purpose of announcement to remind everyone who want to go to the Governor's Prayer Breakfast we laid another message on your desk today. I need to have your reservation and your money tomorrow, so...'cause the tickets we've held at the tables down-front for the members of the Legislature, I need to have that by tomorrow before you leave so we can have a seat for you. Thank you.

PRESIDENT:

Senator Smith, for what purpose do you seek recognition?

SENATOR SMITH:

Thank you, Mr. President. I'd like to take leave of the Body and be requested to be a cosponsor...or a hyphenated sponsor with Senate Bill 553. I have asked permission of the

sponsor.

PRESIDENT:

All right, the lady seeks leave to be shown as a cosponsor of Senate Bill 553. Without objection, leave is granted. Senator Hall, for what purpose do you arise?

SENATOR HALL:

Thank you, Mr. President. I would like to ask all the members of Appropriation II to come immediately to Room 212. We are late, so we're underway as soon as you arrive.

PRESIDENT:

All right. Senator Philip, for what purpose do you arise, sir?

SENATOR PHILIP:

Thank you, Mr. President. I'd like the record to indicate that Senator Etheredge is absent today because of his mother-in-law passing away.

PRESIDENT:

All right, the record will so indicate. Further business to come before the Senate? Further announcements? If not, Senator Vadalabene moves that the Senate stand adjourned until Thursday, May the 9th, tomorrow, at 11:30 a.m., 11:30 a.m. We will work until two-thirty and then go back to our district. Yes, we'll...we'll see that the Secretary of the Senate gets a copy of it, and then will you come back to it?

PRESIDING OFFICER: (SENATOR DEMUZIO)

SENATOR DEMUZIO:

Thank you, Mr. President. The Committee Amendment No. 1 was a amendment that was...asked for by the Department of Mental Health and Developmental Disabilities which now held a...title to the property and not the Department of Central Mangement Services. This amendment would convey that prop-

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Welch.

SENATOR WELCH:

Thank you, Mr. President. The bill itself is a regulation of the incineration of waste in...in specific incinerators. What Amendment No. 1 does was change the standard to determine how well the incineration is done. Instead of using the risk analysis, we are now stressing the degree of destruction of a waste which is a different standard and more easily complied with and goes along with Federal requirements in this area.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Is there discussion? If not, Senator Welch moves the adoption of Amendment No. 1 to Senate Bill 85. Those in favor indicate by saying Aye. Those opposed. The Ayes have it. Amendment No. 1 is adopted. Any further committee amendments?

Basically, this is the...the fuel oil amendment that's been added over the last few years to these types of bills.

Amendment No. 1 offered by Senator Sangmeister.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Sangmeister.

SENATOR SANGMEISTER:

Thank you, Ladies and Gentlemen of the Senate. This bill deals with the area of having local control over regulations of the EPA by local authorities. Although there was no agreement in committee of any kind, I'm just trying to further clarify this legislation by making sure that no local authority is going to deny anybody the right to operate their landfill but just that they were able to regulate and keep them in compliance with existing regulations. Also, there was some concern about what kind of a fee, and I put a cap on that of two hundred and fifty thousand dollars, and I think this is much more acceptable to the industry and I would move

its adoption.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Is there discussion? Senator Smith.

Sir, I stand on a point...thank you, Mr. President. I stand on a point of personal privilege.

(Secretary reads title of bill)

2nd reading of the bill. The Committee on Insurance, Pensions and Licensed Activities offers three amendments.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Collins.

SENATOR COLLINS:

Yes, thank you, Mr. President and members of the city...Senate. Committee Amendment No. 1 becomes the bill, as the bill...as it was filed...were filed and...during the time when the committee...the task force created by myself to work on this problem we're still in the process of doing their work. So, the...the Amendment No. 1 just strikes everything after the enacting clause on the...on the original bill, and it creates the Home Repair Registration Act. It requires that...they register with the county clerk in the area of which they...they...they live. It sets up an application process and it requires a twenty-five dollar application fee, registration to occur every...every year, and it sets up some very careful procedures and regulations for conducting business as a home repair operator. And it sets forth penalties for violation of the Act. I move for its adoption.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Is there discussion? Senator Kelly.

SENATOR KELLY:

Yes, Mr. President, I'd like to have leave to ask a question of the sponsor.

PRESIDING OFFICER: (SENATOR SAVICKAS)

She indicates she'll yield.

SENATOR KELLY:

Senator Collins,...I don't know if this would be in your final bill or if it's in your amendment, but there was some indication that there is a limitation of...five hundred dollars on the amount of home improvements. Is that in your

amendment or is that in the bill?

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Collins.

SENATOR COLLINS:

That...that's deleted out of the bill. That's in the original shell bill. It's no longer in the bill.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Further discussion? Senator Demuzio.

SENATOR DEMUZIO:

Yes, I'd like to ask the...the sponsor a question, too. Are you...are you saying by virtue of Committee Amendment No. 1 that any work that's done on my house or anybody else's house, I've got to go down to the county clerk's office and...and file and pay twenty-five dollars?

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Collins.

SENATOR COLLINS:

No. It defines a home repairer as someone who sets themselves out as doing home repair for...for a living. It specifically excludes your concern of doing the work on your own home. It has nothing to do with it, or if you want to do the work for someone free on their home, that has nothing to do with it. It's whether or not you set yourself out as doing business as a home repairer.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Demuzio.

SENATOR DEMUZIO:

So...so, now, if you're doing home repairs, you're going to have to...do you have to get a license also in addition to this permit with the county clerk to do work on your...on your home?

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Collins.

SENATOR COLLINS:

For those persons who are currently registered by the State such as plumbers, electricians and whatever, they do not have to get this registration...have to be reregistered. It is only for those persons who...who does home repair, remodeling...home remodeling and...as a living. Right now...and...and who are not required to be licensed by the State of Illinois, they have to register...they're supposed to register now with the county clerk. So this bill just sets up a State Home Repair Act, so that all...all of the registration and requirements can be consistent and uniform throughout the State.

PRESIDING OFFICER: (SENATOR SAVICKAS)

...Senator Demuzio.

SENATOR DEMUZIO:

It's my understanding that we've excluded roofers and plumbers. Why are we excluding them and requiring everyone else who comes over to the house to get registered with the county clerk and pay twenty-five bucks?

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Collins.

SENATOR COLLINS:

Because they have to pay more than twenty-five bucks. They have to register with the State of Illinois. That is existing law.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Demuzio.

SENATOR DEMUZIO:

Well, if it's existing...if it's existing law, then why are we...why are we doing this? Why is this bill here? I mean, why is it necessary?

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Collins.

SENATOR COLLINS:

Because there are other persons in the home repair busi-

ness who right now is not covered under the Illinois Registration Act for those persons. Only those persons who are not covered would have to register with the local county and that is also existing law.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Demuzio.

SENATOR DEMUZIO:

Well, I hate to belabor this thing, but I also understand that it requires the Attorney General to investigate the complaints. Why do we skip by the local state's attorney? Why do we go to directly to the Attorney General's Office?

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Collins.

SENATOR COLLINS:

He...he also investigates complaints now.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Further discussion? Senator Demuzio.

SENATOR DEMUZIO:

Well, from what I know about it and what I see before me, I...I think it's a terrible bill and this is, in fact, a committee amendment, I...I am told. If it goes on, why I guess I'll speak against the bill when it gets to 3rd reading.

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Schaffer.

SENATOR SCHAFFER:

There's a young man in my neighborhood who used to cut my grass, now he's in community college and awhile back I had a window broken while I was down here. One of my neighbors told me about it and I called him up and asked him to go pound a...a piece of wood, get it out of my house and cover that window, and I said I'd pay him for it and which I did. Is he going have to register? I mean, you know, he does do odd jobs around. Are those kind of people going have to

register?

PRESIDING OFFICER: (SENATOR SAVICKAS)

Senator Collins.

SENATOR COLLINS:

Yes. Let me...let me respond to you, but for the interest of time, let me just suggest that this is 2nd reading and we can debate these amendments...the bill on 2nd reading. That is not true. The bill specifically says, it define a home repairer as someone who sets himself or herself out as doing business as a home repairer. That kid that you're talking about, is not a...is not in business to do home repair. It has nothing to do with if you pay someone to...to do something for you like that. It as simple as that...if that's what they do as a business. And the bill...if you'll read the bill in its totality, you will see that's...we have very carefully...carefully, that task force, eliminated what you call the community handyperson who goes around and do...little odd jobs like that for you. This bill does not...

PRESIDING OFFICER: (SENATOR SAVICKAS)

...Senator Schaffer.

SENATOR COLLINS:

...this bill is targeted at those unscrupulous persons who goes around in the communities and...
